Notice Regarding Recognition of Non-Operating Expenses (Loss on Net Monetary Position)

DyDo GROUP HOLDINGS, INC. ("the Company") announced today that the Company recorded non-operating expenses (loss on net monetary position) for the third quarter of the fiscal year ending January 20, 2027 (from January 21, 2026 to October 20, 2026) as follows.

1. Recording of Non-Operating Expenses (Loss on Net Monetary Position)

The Company recorded a loss on net monetary position of 3,267 million yen under non-operating expenses for the third quarter of the fiscal year ending January 20, 2027. In Turkey, one of the Group's key overseas markets, the cumulative inflation rate over the past three years has exceeded 100%. Accordingly, in compliance with the requirements set forth in IAS 29 "Financial Reporting in Hyperinflationary Economies," the Company has been applying the necessary accounting adjustments since the fiscal year ended January 2023. During the third quarter of the current fiscal year, at its subsidiary in Turkey, monetary assets such as cash and deposits, and trade receivables increased on the back of strong business performance and significantly exceeded monetary liabilities. As a result, the loss was recognized as an impact of the application of IAS 29.

2. Impact on the Group's Performance

Regarding the impact of the above-mentioned non-operating expenses (loss on net monetary position) on the Company's financial results, please refer to the "Summary of Consolidated Financial Results for the Third Quarter of the Fiscal Year Ending January 20, 2027 (Japanese GAAP)" announced today.
