# 2-9 Overview of portfolio (1) Location

## No. 1 property percentage in Central Tokyo

(Note 1) The ratios represent proportion of acquisition price to total acquisition price.  
 (Note 2) Chart showing "Size" does not include Laforet Harajuku (Land).  
 (Note 3) For calculation of breakdown by type, acquisition price for Akasaka Tameike Tower and Atago Green Hills are divided into offices and residences.

## Pursue No. 1 earthquake-resistance capability

**Lowest portfolio  
PML of all listed  
J-REITs**  
0.97%

※ PML refers to the probable maximum loss ratio expected to result from an earthquake. A smaller figure indicates superiority in earthquake-resistance.

Property name		Type	PML	Earthquake-resistant feature
Roppongi Hills Mori Tower		Office	0.59%	Seismic damping
ARK Mori Building			0.78%	Seismic damping
Koraku Mori Building			0.73%	Seismic damping

## <Acquired GRESB Green Star Rating>

In the 2017 GRESB Survey, MHR received a Green Star rating for the sixth consecutive year. In addition, MHR received 4 Stars in the GRESB Rating (Note).

GRESB is a benchmark that measures the sustainability performance of real estate companies and real estate management institutions based on an annual questionnaire survey conducted by the GRESB foundation, composed primarily of European pension fund groups.

## GRESB Four-Quadrant Model Scores by Region

(Source) Prepared by the Asset Manager based on the "2017 GRESB Report" of the Global Real Estate Sustainability Benchmark (GRESB).  
(Note) The comparative assessment of the overall score was initially introduced in 2016. It is a global ranking utilizing a five-star scale ("5 Stars" as the highest rank).

# 2-12 External growth

**Business environment recognition**

Closely watching the acquisition price level as property acquisition competitions are overheated

(Note) Please refer to "4. Business environment recognition and MHR's policy/strategy" for details.

**External growth policy**

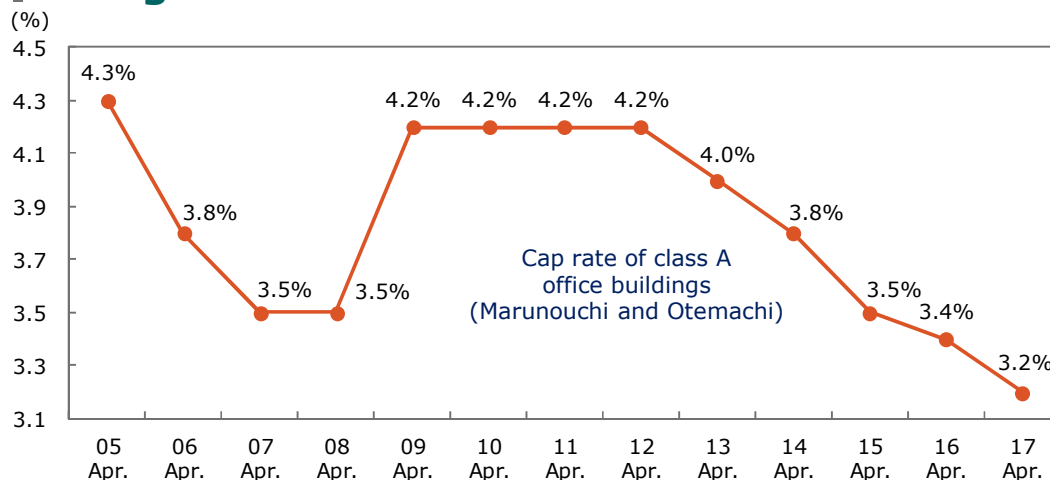

Focus on external growth utilizing sponsors' abundant property pipeline

## Change in rent and vacancy rate of office buildings (Tokyo's five central wards)

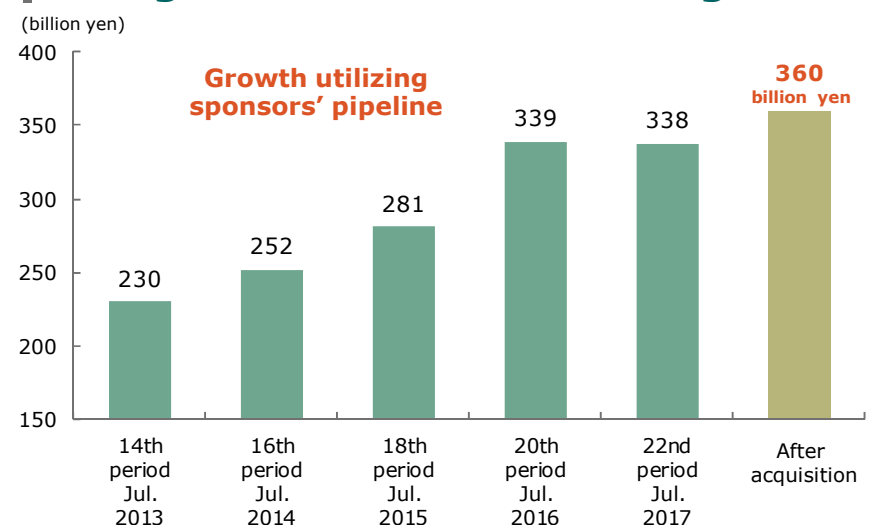

(Source) Prepared by the Asset Manager based on the "Spring 2017 Office Rent Forecast in Tokyo, Osaka and Nagoya (2017-2020, 2025)" by the Office Market Trends Research Committee (Japan Real Estate Institute and Miki Shoji Co., Ltd.).  
 (Note) The rent index targets large and medium buildings (standard floor area of 100 tsubo or more) in Tokyo's five central wards. The rent index is rebased to 100 as of 2010.

## Change in return on real estate investment

(Source) Prepared by the Asset Manager based on "The Japanese Real Estate Investor Survey" by the Japan Real Estate Institute.

## Mori Building Group's involvement

(Source) Prepared by the Asset Manager based on Mori Building's "Mori Building Handy Map Mori Building Map/Home Route Support Map 2017."

(Note 1) Some of the properties have been partially acquired and held by MHR. Alternatively, the properties scheduled to be acquired as of March 1, 2018 are also included.

(Note 2) Properties are developed, owned, managed and planned for development by Mori Building Group, and there are no properties currently anticipated to be acquired by MHR.

# 2-15 Internal growth

**Business environment recognition**

Central Tokyo office rents forecast to continue moderate rise, but as supply increases, the rate of rent increase likely to moderate

(Note) Please refer to "4. Business environment recognition and MHR's policy/strategy" for details.

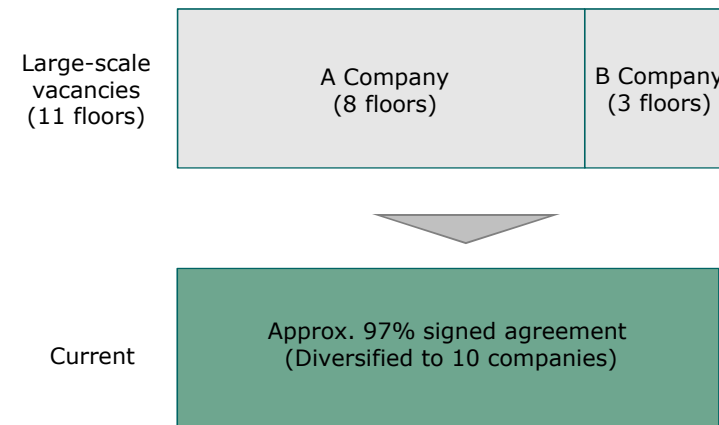

**Internal growth policy**

Maintain stability of cash flow through fixed rent master leases, while achieving revenue growth with pass-through type leases

## Result of office tenants' rent revision (pass-through)

## Status in leasing the large-scale vacancies at ARK Hills South Tower

## Trend of office's occupancy rate (pass-through)

# 2-16 Internal growth

## Comparison with office market rent (pass-through)

(Note 1) Market rent is based on the report by Sanko Estate Co., Ltd.  
 (Note 2) Rent gap = Total tenants' rent  $\div$  "Total market rent" - 1  
 (Note 3) Figures reflect the acquisition as of August 1, 2017 and March 1, 2018, and move outs of end tenants confirmed as of July 31, 2017.

## Ratio of fixed rent master lease (After new acquisitions)

Tenant diversification of pass-through type properties are progressing

Largest tenant's rent ratio is 1.7%

● Defensive positioning with fixed type ML in preparation for large office supply increase

● Constant and steady internal growth of pass-through type properties

Well balanced internal growth scheme

(Note) Figures reflect the acquisition as of August 1, 2017 and March 1, 2018, and move outs of end tenants confirmed as of July 31, 2017.

# 2-17 Financial management

**Business environment recognition**

Interest rate level is expected to remain low considering economic conditions and monetary policies

(Note) Please refer to “4. Business environment recognition and MHR’s policy/strategy” for details.

**Financial management policy**

Move to lower interest rates targeting mid 40% range LTV (book value basis) and 4 years or longer average remaining duration of debt

## Reduction in LTV

## Overview of debt financing

	End of 21st period Jan. 31, 2017	End of 22nd period Jul. 31, 2017
Debt Balance	156,000 mn yen	156,022 mn yen
LTV (book value basis) <sup>(Note 1)</sup>	44.7%	44.7%
LTV (appraisal value basis) <sup>(Note 2)</sup>	42.4%	42.1%
Avg. remaining duration	4.2 years	3.8 years

(Note 1) LTV (book value basis) is calculated as [Interest bearing debt / Total assets].

(Note 2) LTV (appraisal value basis) is calculated as [Interest-bearing debt / Appraisal value based total assets (Total assets + Total appraisal value - Total book value)].

## Reduction in average interest rate (including borrowing expenses)

## Issuance status of investment corporation bonds

Issue Date	Amount	Maturity	Rate of Interest
Jan. 2017	2,000 mn yen	10 years	0.49%
Jun. 2017	2,000 mn yen	10 years	0.50%

(Note) Total interest-bearing debt cost is calculated as [(interest expenses + interest expenses on investment corporation bonds + borrowing expenses + amortization of investment corporation bond issuance costs) × 365 ÷ operating days during each period ÷ average interest-bearing debt balance during each period].

(Source) Prepared by the Asset Manager based on "World Urbanization Prospects: The 2014 Revision" by the Population Division of the Department of Economic and Social Affairs of the United Nations.

- In a comparison of GDP among the world's metropolitan areas, Tokyo outperformed New York and London to rank as the world's largest.
- In terms of the world's urban population, Tokyo is projected to maintain its rank as the world's largest metropolitan area.

# 2-20 Competitive strength of Central Tokyo

## Trend of net migration

- Tokyo's 23 wards have experienced net population growth for 20 consecutive years since 1997, indicating a high level of consistent net population growth even in comparison with the other major cities in Japan.

(Source) Prepared by the Asset Manager based on "Report on Internal Migration in Japan" by the Statistics Bureau, the Ministry of Internal Affairs and Communications.

## Trend of urban land price index (average of all uses)

- Land price level of central Tokyo has consistently surpassed the level of March 2005, showing a clear difference from those of other metropolitan areas in Japan that have been on a declining trend.
- However, since investment should be made carefully after asset values have surged, we intend to exercise prudence concerning investment prices.

# 3-1 Factors that led to changes in dividends per unit from the previous fiscal period

Major factors behind change in NOI from existing properties:

+ Net tenant lease activities and upward rent revision at Koraku Mori Building	+30
- Net tenant lease activities and upward rent revision at ARK Hills South Tower	Δ88
- Net tenant lease activities and upward rent revision at Akasaka Tameike Tower	Δ29
- Property taxes for properties acquired in 20th period recorded as expense (equivalent to 3 months)	Δ26
- Increase in maintenance and repairs	Δ13

Major factors behind change in NOI from existing properties:

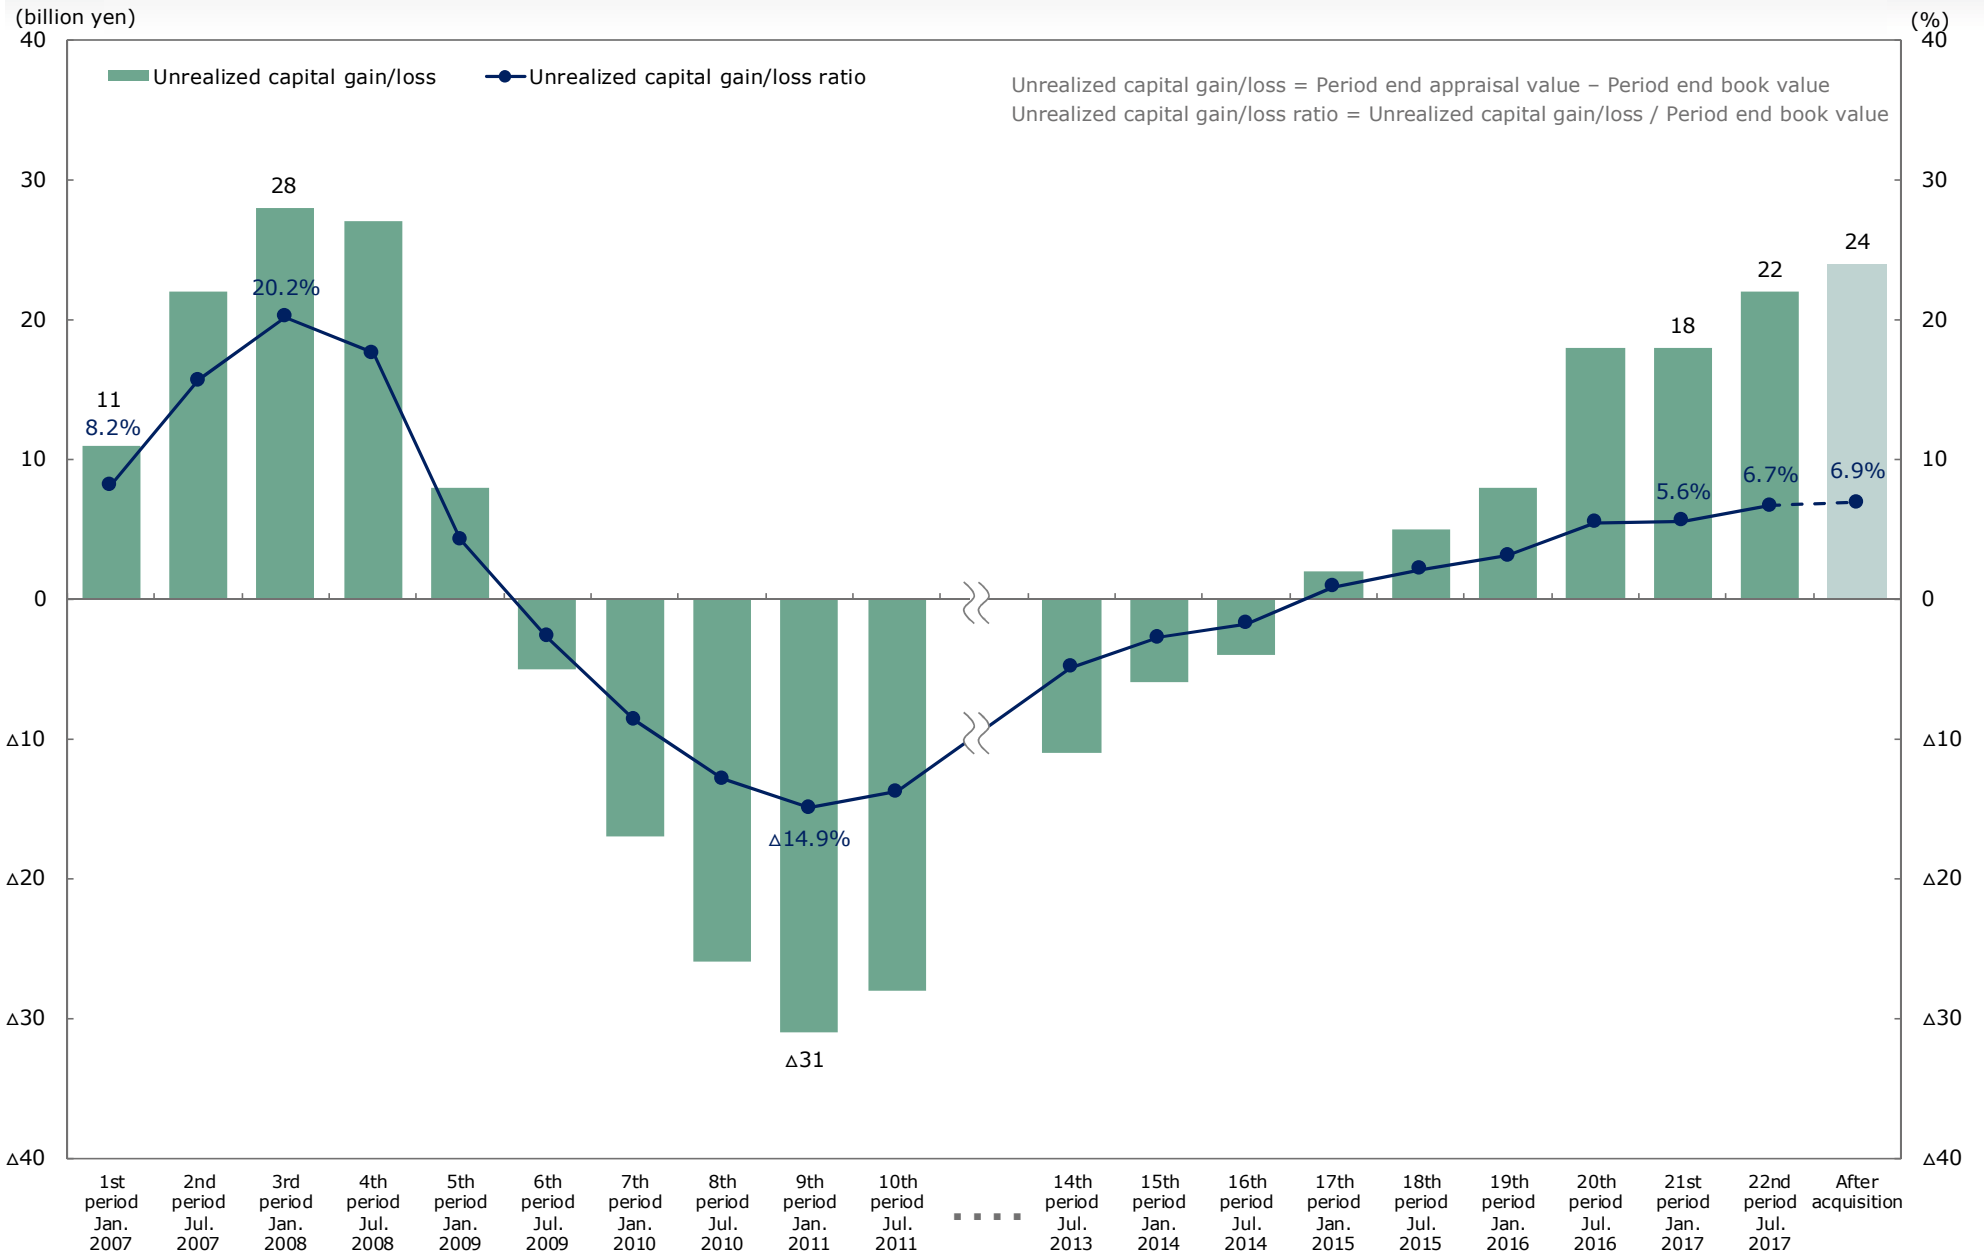

+ Net tenant lease activities and upward rent revision at ARK Hills South Tower	+55
+ Net tenant lease activities and upward rent revision at Akasaka Tameike Tower	+24
- Property taxes for properties acquired in 20th period recorded as expense (remaining 3 months)	Δ26
- Net tenant lease activities and rent revision at residential pass-through property	Δ5

(Note) Factors that led to change are arrived at by dividing the change from the previous fiscal period by 1,750,640 units and indicated as an approximate figure in yen.

## 4. Business environment recognition & MHR's policy/strategy

---

## Real estate market / Lending attitude

- Low vacancy rates and gradual increase of rents of office buildings in central Tokyo is ongoing.  
(Forecast of Office Market Trends Research Committee for Tokyo's five central wards)
  - ⇒ Vacancy rate (forecast): 3.6% in 2016 → 4.2% in 2018
  - ⇒ Rent index (forecast): 109 in 2016 → 118 in 2018
- Although cap rates remain at historically low levels, the rate of decrease seems more moderate.  
(Japan Real Estate Institute's "The Japanese Real Estate Investor Survey")
  - ⇒ Class A buildings in Marunouchi  
Cap rate: 3.4% in April 2016 → 3.2% in April 2017
- Lending attitude toward the real estate industry continues to be highly positive.

- Rents of office buildings in central Tokyo are forecast to continue moderate rise for the time being, but as the supply increases, the rate of rent increase may gradually moderate.
- Cap rates remain at low levels and sufficient attention is required for acquisition pricing.

## Interest rate trends / Macro environment

- Long-term interest rates remain low due to the monetary easing policy and the core CPI rate of increase is at a low level.
  - ⇒ 10-year bond rates: +0.010% (August 31, 2017)
  - ⇒ Core CPI: +0.5 % (July 2017)
- In the July 2017 preliminary business conditions composite index, the leading index was at 105.0 (0.7 PT decrease from previous month) and the coincident index was at 115.6 (1.2 PT decrease from previous month). There seems to be an improvement trend before and after the US presidential election.
- The growth of money stock is limited.  
The issue of wage increases can be seen from the consumer confidence survey and the monthly labor survey. Future trends will be scrutinized.

- There seems to be an improvement trend in the global business sentiment, but caution should be exercised as there are also instability factors.
- Interest rate level is expected to remain low for the time being partially due to the introduction of the yield curve control policy by the Bank of Japan.

Continues to "MHR's policy/strategy" on the next page

# 4-2 MHR's policy/strategy

## External growth policy

- Target premium properties in Central Tokyo and aim for annual external growth of 30 billion to 50 billion yen by best utilizing sponsors' pipeline. (Set target yield at the upper 3% range for NOI-based yield and 3.0% or higher for after-depreciation-based yield.)
- Focus on portfolio size expansion in order to further enhance stability and liquidity as an investment corporation while also considering disposition depending on conditions.

## Internal growth policy

- Steadily achieve the revision of pass-through type properties with rent increases while maintaining the ratio of the fixed rent master leases at current level.
- Properly implement office property repairs as necessary and conduct value-enhancement renovation for residential properties if such is judged to be cost-effective (there are no office properties that require large-scale renewal in terms of building age or competitiveness).

## Financial management policy

- Target LTV (book value basis) in the mid 40% range (though it may temporarily exceed the target level as necessary) in order to secure property acquisition capacity while maintaining a durable position for times of economic slowdown.
- Target average remaining duration of debt of 4 years or longer, and gradually increase the fixed rate ratio at the appropriate timing.
- Seek to raise ROA by utilizing free cash for property acquisition rather than reserving it more than necessary.

## Policy regarding the entire investment corporation

- **Promote portfolio size expansion while maintaining an asset quality level that is one of the best in the industry and aim for continuous improvement of dividends and NAV per unit**

(Note 1) For property tax, city planning tax and depreciable assets tax, MHR charges the amount of property taxes assessed and determined applicable to the fiscal period to expenses related to properties. Registered owners of properties in Japan as of January 1 are responsible for paying property taxes for the calendar year based on assessments by local governments. Therefore, registered owners who sold properties to MHR were liable for property taxes for the calendar year, including the period from the date of the acquisition by MHR until the end of the year. MHR reimbursed sellers of properties for the equivalent amount of property taxes and included the amount in the acquisition cost of real estate.

(Note 2) "Other expenses" denotes the sum of custodian fees, rent expenses, and other lease business expenses (residential property management costs, and other property-related miscellaneous expenses) in aggregate.

(Note 3) Property disposed during the relevant period. "Annualized NOI/ Acquisition price" was calculated by taking into consideration the changes in acquisition price during the relevant period.

"Annualized NOI" denotes the value which is based on the acquisition price as of the end of the relevant period.

## Corporate governance

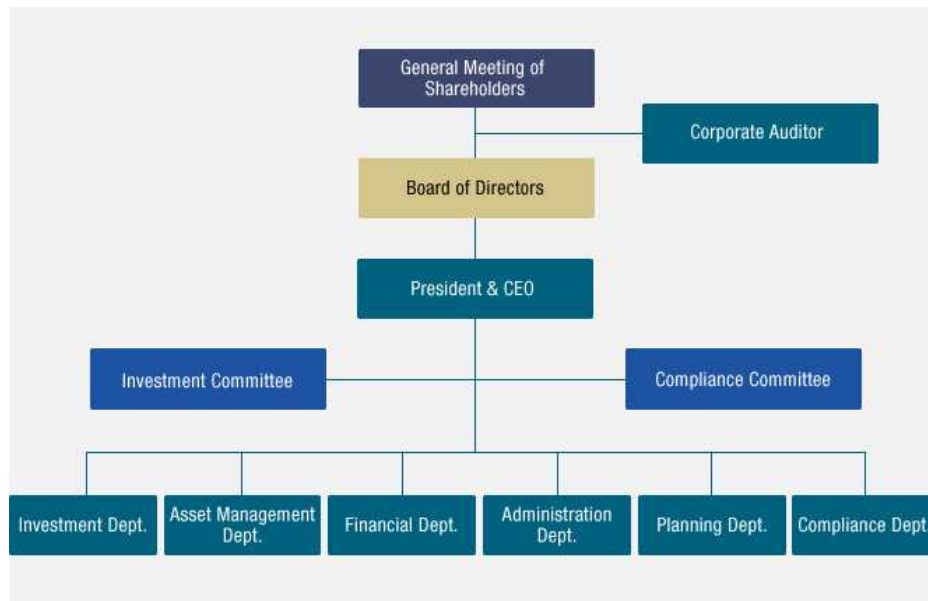

### Corporate governance

MHR shall have at least one executive director and at least two supervisory directors (or, at least one more than the number of the executive directors), and the board of directors shall be comprised of the executive directors and supervisory directors.

In addition to a general meeting of unitholders, which shall be composed of unitholders, MHR's structure consists of one executive director, two supervisory directors, the board of directors and an accounting auditor.

### Structure of asset manager for the Investment Corporation

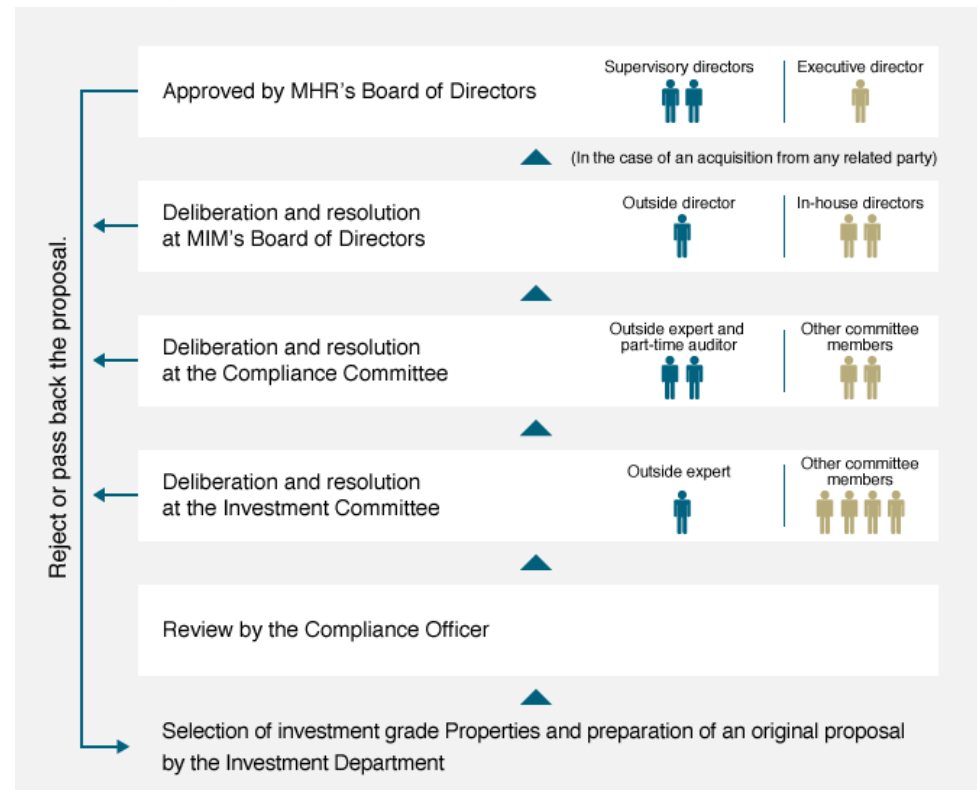

MHR entrusts the management of its assets to the asset manager. The following is the organizational structure of the asset manager.

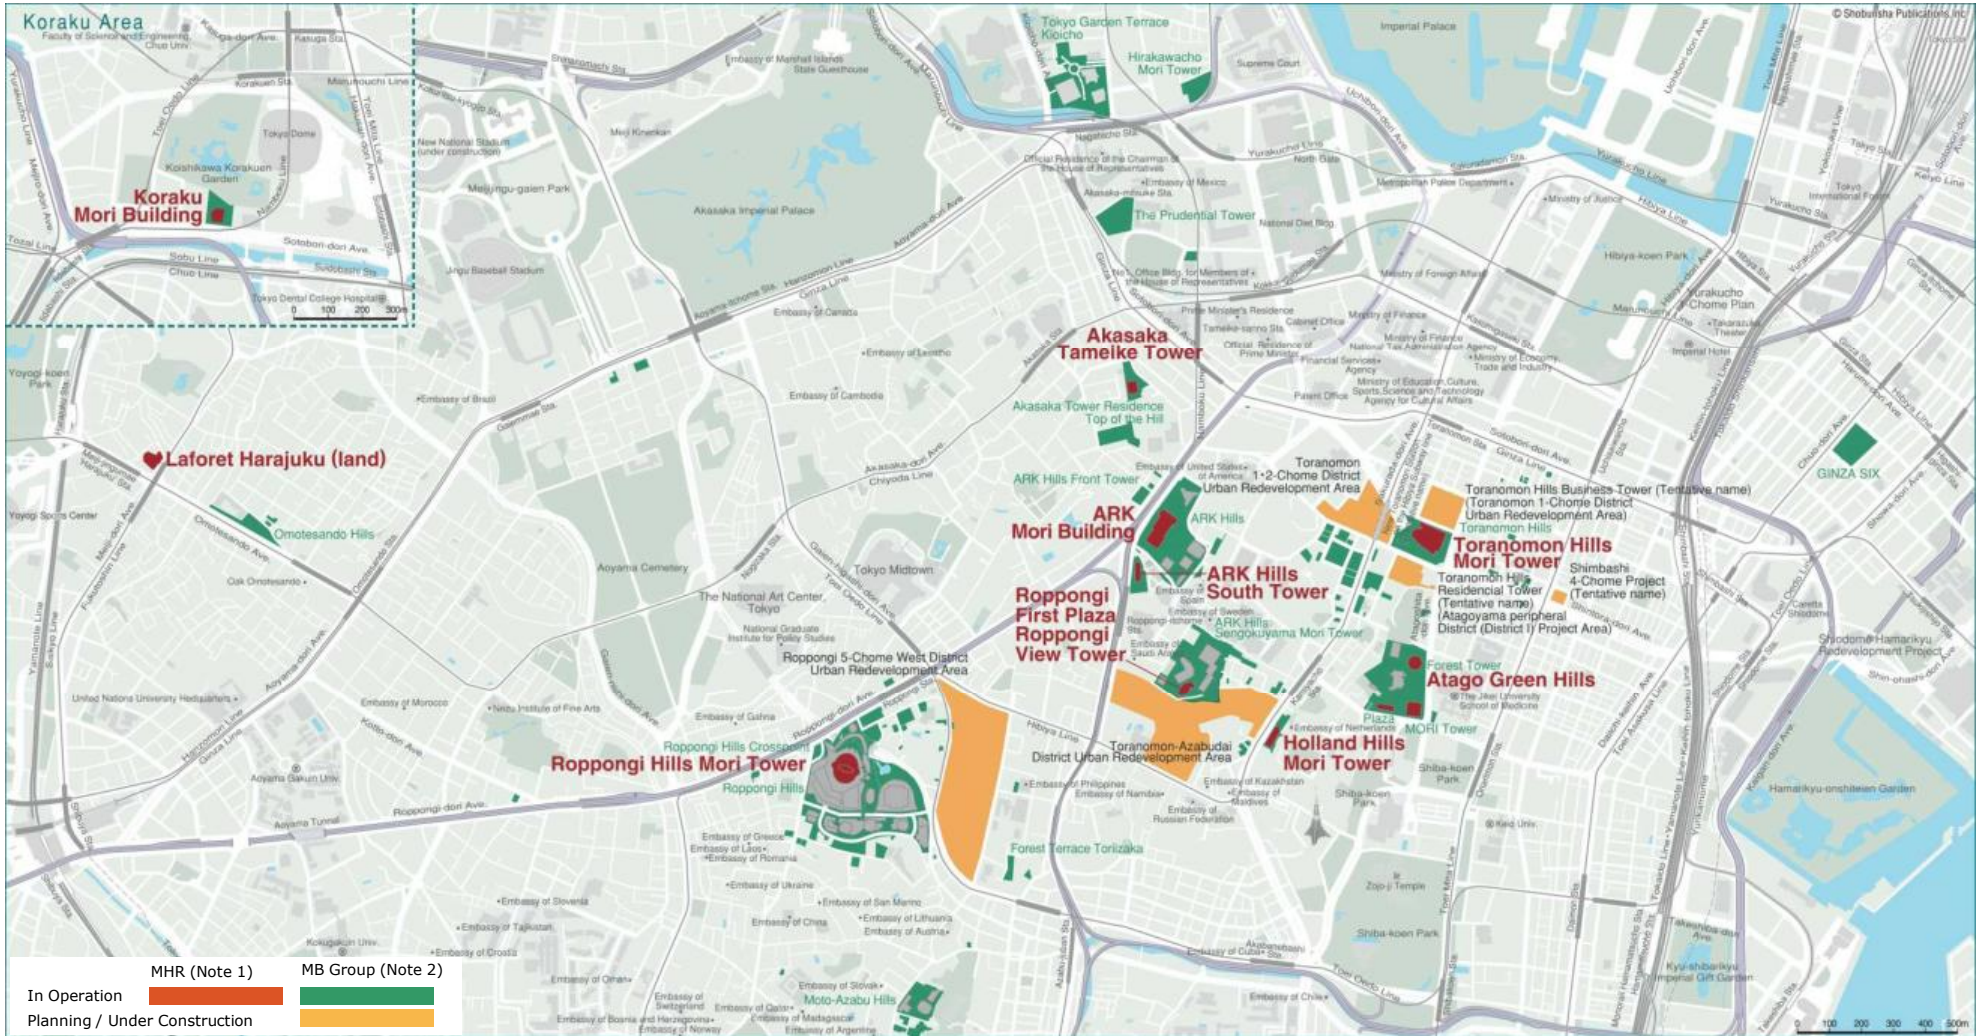

## Compliance

The asset manager shall perform its business in good faith and with the due care of a prudent manager for MHR in line with the purpose of the investment management business, and be well aware that failure to ensure thorough compliance, especially inappropriate transactions or transactions involving conflicts of interest with the sponsor company group, may undermine investors' trust in the securities markets, the corporate management base of MHR and the asset manager. Therefore, the asset manager will use its efforts to prevent any negative impact from transactions involving conflicts of interest and carry out strict compliance as follows.

### Process to Counter Transactions Involving Conflicts of Interest

## 5-13 Portfolio overview (Note)

- (Note 1) "Type of ownership" denotes the type of rights held by MHR or the Trustee. "Ownership" stands for ownership, "Co-ownership" stands for the ownership of beneficiary interests, "Compartmentalized ownership" denotes ownership and right for exclusive use in or over parts of a building, and "Leased land" denotes Leasehold land. The land site of Atago Green Hills includes joint ownership in quasi-undivided interests of leasehold land and easement.
- (Note 2) This indicates the figure described in the "Report on evaluation of seismic PML for portfolio" dated February 21, 2017 by Sompo Japan Nipponkoa Risk Management Inc. (Presently, Sompo Risk Management & Health Care Inc.)
- (Note 3) ARK Mori Building adopts "slitwall" as earthquake-resistant feature.
- (Note 4) "Occupancy rate" indicates the figures as of July 31, 2017.
- (Note 5) For calculation of the "Average building age" of Atago Green Hills, we have assumed that construction of the building was completed on July 30, 2001.
