The corporate governance of Mitsui & Co., Ltd. (the “Company” or “Mitsui”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

[Basic Corporate Governance Policy]

In structuring the corporate governance framework, Mitsui places emphasis on “improved transparency and accountability” and “the clarification of the division of roles between the oversight activities and executive activities of the management.”

For the “improved transparency and accountability,” Mitsui ensures sound supervision and monitoring of management with the view point of External Directors and External Audit & Supervisory Board Members (hereinafter referred to as the “external members”). Mitsui has also established an internal control system for disclosure so that all executives and employees fulfill their accountability to stakeholders under the principle of fair disclosure. For “the clarification of the division of roles between the oversight activities and executive activities of the management,” Mitsui delegates execution of business to Managing Officers substantially while the Board of Directors retains a supervisory role over Managing Officers’ business activities. Chief Operating Officers of 16 business units within headquarters and 3 regional business units serve concurrently as Managing Officers and engage in business operation for the consolidated group in a responsive and flexible manner.

While increasing the effectiveness of supervisory functions by having Audit & Supervisory Board Members, Mitsui implements corporate governance by maintaining an Audit & Supervisory Board system because it believes that having internal Directors who are familiar with our business practices and operations is essential to the business of a general trading company. By adopting a Committee System in which external members participate, Mitsui achieves highly effective corporate governance to secure “improved transparency and accountability” and “the clarification of the division of roles between the oversight activities and executive activities of the management.” In order to realize effective corporate governance for shareholders and other stakeholders, Mitsui has established, and maintains, the following structures:

(a) The Board of Directors is the highest authority for execution of business and supervision, and in order to secure this function, Mitsui has set the number of Directors to the maximum number that permits substantial discussions. As advisory committees to the Board of Directors, Mitsui also has in place the Governance Committee, the Nomination Committee and the Remuneration Committee, in which External Directors and/or External Audit & Supervisory Board Members participate as members.

(b) The Audit & Supervisory Board Members supervise the Directors’ execution of duties as an independent institution with the mandate of the shareholders. For this purpose, Audit & Supervisory Board Members carry out multi-faceted, effective audit activities such as attending important internal meetings, verifying reports and investigating our business, and take necessary measures in a timely manner.

Regarding Mitsui's basic views and policies on Corporate Governance, we published "Mitsui & Co., Ltd. Corporate Governance and Internal Control Principles" on Company's website as follows.

(Notes)

"External Director", "Audit & Supervisory Board Member" and "External Audit & Supervisory Board Member" are used in the same sense of "Outside Director", "Kansayaku" and "Outside Kansayaku" in the heading of the format of this Corporate Governance Report respectively. Further, "Independent Director" is an External Director who is unlikely to have conflicts of interest with general shareholders, as stipulated by the Tokyo Stock Exchange.

3. Supplementary Explanation

Although Mitsui paid market research fees and so forth exceeding ¥10 million in the most recent business year to Deloitte Tohmatsu Consulting LLC, at which Mr. Mori's eldest son was an employee until April 2017, the relevant amount of payment was less than 0.1% of Deloitte Tohmatsu Consulting LLC's annual sales; moreover, Mr. Mori's eldest son was in a non-managerial role, and was not involved in duties consigned by Mitsui; as such, Mr. Mori's eldest son corresponds to a "one who is not important" defined under the Mitsui's Criteria of Independence. From the above, Mitsui has determined that there is nothing that would affect the independence of Mr. Mori for External Audit & Supervisory Board Member. Other than the above, there is no special interest between Mr. Mori and Mitsui, therefore, Mr. Mori is deemed to appropriately carry out his duties as the independent and neutral External Audit & Supervisory Board Member.

Policy on Determining Remuneration Amounts and Calculation Methods

Established

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

(a) Taking into consideration the result of the deliberation at the Remuneration Committee, which is chaired by an External Director, the remuneration of Directors (excluding External Directors) is determined as a sum of fixed basic remuneration, performance-related bonuses based on the key performance indicators, and stock-based compensation stock options with stock price conditions as medium- and long-term incentive compensation. Total amount of basic remuneration to be paid to the Directors shall not exceed ¥1 billion per year (the limit of basic remuneration at ¥70 million per month has been revised to yearly limit and the yearly limit has been increased by the resolution at the General Meeting of Shareholders on June 21, 2017). Total amount of bonus to be paid to the Directors (excluding External Directors) shall not exceed ¥700 million per year (the limit of ¥500 million per year has been increased by the resolution at the General Meeting of Shareholders on June 21, 2017). Total amount of stock option with stock price conditions to be paid to the Directors (excluding External Directors) shall not exceed ¥500 million per year (resolved at the General Meeting of Shareholders on June 20, 2014).

External Directors, who are separated from business execution, are not paid performance-related bonus and stock-based compensation stock options with stock price conditions.

Directors are not paid retirement compensation.

(i) Total amount paid in bonuses for Directors

For fiscal year ended on March 31, 2017, total amount of bonus is calculated as the lesser of i) profit attributable to owners of the parent x 0.1% (if the profit attributable to owners of the parent is minus, i.e., net loss, this item is set as 0 for the calculation) and ii) ¥500 million, and, from the fiscal year ending March 31, 2018, the following formula will be applied:

$$\text{Total amount of bonus} = (\text{profit attributable to owners of the parent} \times 50\% \times 0.1\%) + (\text{core operating cash flow} \times 50\% \times 0.1\%)$$

However, the total amount shall not exceed ¥700 million. If the profit attributable to owners of the parent is minus, i.e. “net loss”, and/or core operating cash flow is minus, i.e. “cash outflow”, then such item is set as 0 for the calculation.

(ii) Amount paid as individual bonuses

The total amount calculated by the method shown in (i) above is distributed to each Director in proportion to the following points, which are assigned for each position. Amounts less than ¥10,000 will be rounded off.

(Amount individually paid = total amount of bonus × position points / sum of position points)

Points by position: Chairman/President (10), Executive Vice President (7), Senior Executive Managing Officer (6), Executive Managing Officer (5)

Based on the composition of the Directors as of the date of the issuance of this report, the maximum amounts that may be paid for each position (at the limit of the total bonus amount of ¥700 million.) are as follows:

Chairman/President = ¥700 million × 10 points / (10 points × 2 persons + 7 points × 4 persons + 6 points × 2 persons + 5 points × 1 person = 65 points) = ¥107.69 million

Executive Vice President = ¥700 million × 7 / 65 points = ¥75.38 million

Senior Executive Managing Officer = ¥700 million × 6 / 65 points = ¥64.62 million

Executive Managing Officer = ¥700 million × 5 / 65 points = ¥53.85 million

(iii) Conditions for exercise of subscription right to shares

See II.1 “Incentive”

(b) Each Director (excluding External Directors) is required to purchase Mitsui’s shares in an amount equivalent to at least 10% of his or her monthly remuneration but less than ¥1 million through the Mitsui Executives’ Shareholding Association.

(c) Audit & Supervisory Board Members receive only fixed basic remuneration which does not include a performance-related portion. The remuneration for each Audit & Supervisory Board Member is determined by discussions among the Audit & Supervisory Board Members. The total amount shall not exceed ¥240 million per year (the monthly limit has been revised to yearly limit by the resolution at the General Meeting of Shareholders on June 21, 2017). Retirement compensation is not paid to the Audit & Supervisory Board Members.

important matters for execution of group-wide business operations. The Corporate Management Committee is held weekly in principle.

With the delisting from NASDAQ in April 2011 and the termination of SEC registration in July 2011, Mitsui has implemented the internal control framework based on Japanese regulation from the year ended March 31, 2012. Even after the transition, Mitsui maintains its internal control system by positioning the internal control as the structure by which the management controls the executive body, aiming for: (1) “Improvement of effectiveness and efficiency of operations,” (2) “Compliance with accounting standards and securing reliability of financial reporting,” (3) “Compliance with laws, rules that are equivalent to the laws, and observance of management philosophy and company rules including all codes of conduct which reflect this philosophy,” and (4) “The safeguarding of company assets;” and consists of: “control environment,” “risk assessment,” “control activities,” “information and communication,” “monitoring,” and “response to IT.” These objectives and components are as stated in the basic framework designated in “Standards and Practice Standards for Management Assessment and Audit concerning Internal Control Over Financial Reporting,” issued by the advisory board to the Commissioner of the Financial Services Agency.

IV. Matters Related to the Internal Control System

1. Basic Views on Internal Control System and the Progress of System Development

Regarding internal control system and the related units, see II.2.2 “*Framework for internal control and execution of business activities*”. In the construction of internal control processes, aiming to achieve the above mentioned objective of the internal control process – “Improvement of effectiveness and efficiency of operations,” “Compliance with accounting standards and securing reliability of financial reporting,” “Compliance with laws, rules that are equivalent to the laws, and observance of management philosophy and company rules including all codes of conduct which reflect this philosophy,” and “The conservation of company assets” – the following systems are implemented.

1. Risk management system

As a general trading company engaging in a wide variety of businesses, risks arising from business activities are monitored and managed by Chief Operating Officers of business units and regional business units within their authorization delegated from the management. Risks associated with our business include quantitative risks such as credit risk, market risk, business risk arising from subsidiaries’ businesses, and country risk, as well as qualitative risks such as compliance risk and operational risk. Measures taken by each business unit to manage quantitative risks include setting of position limits and loss-cut limits as well as monitoring of positions by divisions with relevant expertise. For the management of qualitative risks, the business units are obligated to observe related internal regulations. When a business unit or a regional business unit takes risks greater than the scope of authority granted to the Chief Operating Officers, it is necessary to obtain approval of the Corporate Management Committee or a Representative Director in charge, or a Senior Managing Officer in charge, depending on the importance of the case, in accordance with the standards of the internal approval system. Furthermore, as stated in II.2.1. “*Corporate Governance Structure*” as committees responsible for business execution and the internal control system, organizations such as the Portfolio Management Committee, the Internal Controls Committee, the Sustainability Committee, and the Crisis Management Headquarters establish and develop the risk management structures and handle significant risks. These committees consist of Managing Officers and the General Managers of Corporate Staff Units. With respect to the risks in the fields they are in charge of, each division of the Corporate Staff Units is responsible for surveillance of the whole Company’s positions, control within the prescribed range of their authority, and supporting the relevant Directors and Managing Officers.

2. Internal control over financial reporting

As a result of the termination of the SEC registration, Mitsui implements the internal control framework as stipulated in the Financial Instruments and Exchange Act of Japan from the year ended March 2012. In addition to the Company-wide discipline, Mitsui has been conducting self-assessment by units subject to evaluation and testing by an independent division concerning the effectiveness of accounting and financial closing controls, IT controls, and business process level controls. After comprehensively assessing the above, Mitsui management confirmed that internal control over financial reporting is effective for the year ended March 31, 2017.

3. Internal controls regarding construction and management of information systems and information security

“Information Technology (IT) policy” is declared as a basic policy for IT utilization to promote further awareness raising of employees and enhancement of IT governance. The important principles for our global group information strategy are formulated in line with the corporate management policy through the discussions at the Information Strategy Committee established pursuant to the “Rules of Information Strategy Committee.” Under the system centered around the Information Strategy Committee, we are enhancing the system of internal control including management of various possible risks such as information leakage risks through maintenance of the following rules, necessary in light of development and operation of information systems and information security.

“Rules on Information System Management”: rules on the process of procurement, introduction and operation of Information assets

“Rules on IT Security”: code of conduct for the system supervisory divisions regarding IT security

“Rules on Information Management”: basic policies in terms of information risk management system

and information management

“Rules on Protection of Personal Information”: rules for the handling of personal information required for business execution (Applied only in Japan)

“Rules on Cyber Security Countermeasures”: rules for preventive measures against cyber-attacks and emergency countermeasures in the event of incident

4. Compliance structure

In addition to the Compliance Committee, (see II.2.1 “*Corporate Governance Structure*”), chaired by the Chief Compliance Officer, Mitsui implements a compliance management system within the regular line of management at business division and department level. Further, Compliance Supervising Officers are designated at domestic and overseas units, branch offices and others.

Mitsui has set forth the “Business Conduct Guidelines for Employees and Officers of Mitsui & Co., Ltd.” (“Guidelines”) and has equivalent business conduct guidelines in place at its subsidiaries. Mitsui is striving to improve observance of the Guidelines through continuous monitoring and review. See Mitsui’s website for the “Business Conduct Guidelines for Employees and Officers of Mitsui & Co., Ltd.”

Mitsui has a total of eight whistle-blowing avenues in place, including those involving an external attorney at law and a third-party providing hotline services. Pursuant to the Whistleblower Protection Act, Mitsui made it clear that a whistle-blower would not be subject to any recrimination or detrimental treatment by Mitsui as a result of whistle-blowing. Additionally, Mitsui makes sure that its domestic affiliated companies are also able to use the whistle-blowing avenues (external attorneys at law and a third-party providing hotline services) designated by Mitsui in order to (i) maintain a high standard of confidentiality and (ii) enable their employees to use these avenue without uneasiness. 5. Specially Designated Business Management System

In response to the DPF Incident, Mitsui established the “Specially Designated Business Management System” in April 2005. Under this system, internal review of four business domains which are “Environment-related business,” “Medical, Healthcare and Bioethics-related businesses,” “Businesses with subsidy,” and “Business harboring other unusual reputation risks” is strengthened. When examining these matters, reports from the Sustainability Committee or the Environmental Societal Advisory Committee in which external experts participate as members, or opinions from other external experts will be obtained, as necessary. In addition, Mitsui appoints consultants with insights into environmental and social risk, human rights and utilize their advice for new and existing environment-related businesses as necessary.

6. Systems to secure appropriateness of operations within the corporate group

In March 2006, Mitsui established the “Mitsui & Co., Ltd. Corporate Governance and Internal Control Principles” (“Principles”). In light of other laws and regulations and to the extent reasonable, Mitsui requires its subsidiaries to develop and operate internal controls based on these Principles, and for its equity accounted investees, Mitsui coordinates with other equity participants and encourages the equity accounted investees to develop and operate similar internal controls. In addition, from its officers and employees, Mitsui appoints supervising officers for its affiliated companies and has them engage in their duties based on the “Rules on Delegation of Authority for Supervising Officers for Affiliated Companies.” Also, when Mitsui deploys full-time audit & supervisory board members in major affiliated companies, Mitsui selects personnel from the Internal Auditing Division rather than from related Business Units to enhance the independence of auditing.

2. Basic Views on Eliminating Anti-Social Forces

1. Mitsui reacts resolutely towards antisocial forces, and will not, as a matter of principle, conduct business with antisocial forces or with parties that have relations with antisocial forces.

2. Mitsui specifies the abovementioned principle in its “Business Conduct Guidelines”, and makes this thoroughly known to its officers and employees. To reject antisocial forces, and to make this a company-wide stance, insertion of a clause within contracts rejecting antisocial forces is encouraged, and by placing a response unit, a system enabling routine coordination with external professionals, such as police and lawyers, is established.

(1) Mitsui has formulated principles and a basic policy and developed an internal structure relating to statutory disclosure and timely disclosure on an internal and external consolidated basis. We have also established the Disclosure Committee to examine highly urgent IR matters and formulate measures. The Disclosure Committee is a subordinate organization of the Internal Controls Committee, which is one of the key committees involved in the execution of business operations.. It is chaired by the CFO, and its members are the General Managers of the relevant corporate staff divisions. The Investor Relations Division, which acts as the secretariat for the Disclosure Committee, works with IR staff assigned to corporate staff divisions and business units to prepare drafts of disclosure documents and analyze points for discussion in response to directives from the Disclosure Committee.

(2) In its Corporate Disclosure Policy, Mitsui has defined the fundamental requirements and procedures for the disclosure of information that investors need to make appropriate decisions. This policy has been posted on the Company’s website.

(3) Mitsui has established the Investor Relations Division as the unit responsible for disclosure to investors. This Division is in charge of administrative processes relating to timely disclosure and is responsible for the monitoring and management of facts, financial data, and other information that could have a material impact on investors’ decisions, and for the accurate and timely disclosure of that information.

2. Facts that could have a material impact on investors’ decisions

(1) Management of information relating to timely disclosure is integrated within the Investor Relations Division, which is the unit responsible for communication with the Tokyo Stock Exchange. When disclosing important new facts, the Investor Relations Division, determines the content of the disclosure. If necessary, it first examines the information in consultation with the corporate staff divisions that make up the Disclosure Committee and consults with the Corporate Communications Division, which is responsible for interaction with the media.

(2) If a high-level management decision is required concerning the disclosure method and timing, etc., disclosure will be carried out after deliberation by the Disclosure Committee, and, if necessary, after approval has been obtained from the Corporate Management Committee.

(3) The Investor Relations Division monitors the progress of the executive approval process (*ringi*) in preparation for the disclosure of important information and is also responsible for day-to-day communications among internal units concerned. Internal units are required to inform the Investor Relations Division about progress on important projects through the corporate organization. To align the viewpoints of the corporate organization and frontline business units, the Investor Relations Division holds regular meetings with each business unit after the publication of quarterly financial results. The purpose of these meetings is to share information about market reactions to information disclosed at the corporate or individual business unit level, and about important disclosure items going forward.

3. Information about Financial Results

Information is released each quarter after approval by the Corporate Management Committee

- (1) Management of financial information has been integrated within the Global Controller Division, and general non-financial information within the Investor Relations Division. Final responsibility for the external disclosure of Flash Reports and other information rests with the Investor Relations Division.
- (2) Before financial results are released, Flash Reports and other external disclosure documents and important disclosure items are checked by a study committee made up of the CFO and members of the Disclosure Committee.
