**Tokai Carbon's 100-Year Anniversary and Corporate Web Site Renewal**  
100 Years of Innovation

Thanks to you all, Tokai Carbon celebrates its 100-year anniversary this April.

To mark the occasion, we are adopting a new tagline— “Building a Future of Technology and Trust” —and have overhauled our corporate web site to better present Tokai Carbon to the world.

As we step into this next century, we maintain the same pioneering spirit we had on day one—when we introduced Japan to never-before-seen technology—and the same dedication that has won us our global reputation.

There is much to look forward to in the 100 years to come.

So, let's get to work to “Build a Future of Technology and Trust”
