Teikoku Tsushin Kogyo Co.,Ltd.

(Code:6763,Prime Market of the Tokyo Stock Exchange)

Reconstruction of the NOBLE Head Office Building

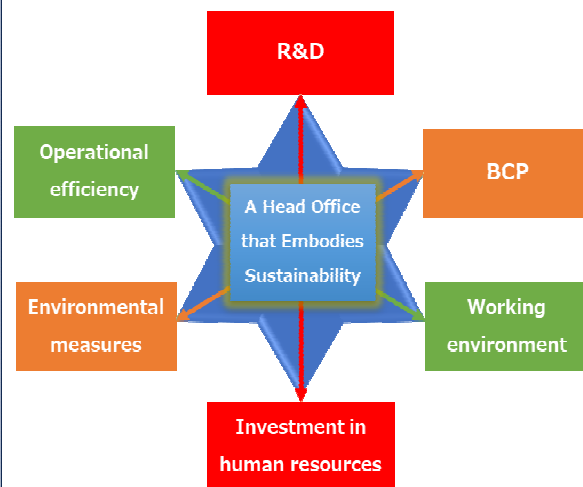

NOBLE (Teikoku Tsushin Kogyo Co., Ltd) is pleased to announce that we will be rebuilding our head office building in Kawasaki, Kanagawa Prefecture, with the new building to be completed in Fiscal 2027.

The new head office will be rebuilt and relocated on the same site as the old one, with no disruption to our operations.

With the company various issues such as changes in the market environment, changes in working styles, human resource development, disaster prevention and environmental initiatives, etc., and with the old head office now over 50 years old, we determined that there was a need for a base that combines R&D and head office functions, and took the 80th anniversary of our founding as an opportunity to rebuild.

● The Design Concept behind the New Building: “A Head Office that Embodies Sustainability”

- **Enhanced Capabilities x Investment in Human Resources**
"Combined R&D and head office functions"
 - ・ A base for development that brings together intellectual property and technology
 - ・ A base for human resource development for the NOBLE Group of the future
- **Business Efficiency x Working Environment**
"A mix of evolution, deepening, and change"
 - ・ 11 head office buildings ⇒ 1 building for more efficient connectivity
 - ・ Achieving a comfortable, lively, and pleasant work environment
- **Environmental Measures x BCP**
"Coexistence between the company and the environment"
 - ・ Accelerate the transition to a decarbonized society through energy conservation and provision of green space
 - ・ A base for natural disaster and cyber-attack prevention

● Relocation and Rebuilding Schedule

- ・ Relocation (within the site) for the first phase of demolition: Summer 2024
- ・ First phase demolition work and construction of new head office: Fall 2024–Summer 2027
- ・ Second phase demolition work: Fiscal 2027–Fiscal 2028

● Overview of the New Head Office Building

Location: 45-1 Kariyado, Nakahara-ku, Kawasaki

Scheduled completion date: Fall 2027 (completion of new head office building)

Building use: Compound facility with R&D and head office functions

Size: Building area of approx. 2,000 m²

Structure: Steel-framed, 4 stories

Total floor area: approx. 8,200 m²

Main features: Energy-saving measures — Goal of ZEB Ready*1

Seismic standards: Lateral load-bearing capacity of 1.25 or more*2

*1. Reduction of primary energy consumption by 50% or more relative to benchmark primary energy consumption

*2. Seismic performance that ensures human safety even in the event of a magnitude 7-class earthquake and allows the building to continue to be used after repairs.
