MATTERS TO BE REPORTED:

- No. 1. Reports on the Company's business report, consolidated financial statements, and the results of both the Accounting Auditor's and the Board of Corporate Auditors' audits of the Company's consolidated financial statements for the 143rd fiscal period (from April 1, 2023, to March 31, 2024) (the "143rd fiscal period").
- No. 2. Reports on the Company's non-consolidated financial statements for the 143rd fiscal period.

MATTERS TO BE RESOLVED:

No. 1. To elect ten Directors.

EXPLANATION OF THE SUBJECT MATTERS OF THE MEETING

- No. 1. Reports on the Company's business report, consolidated financial statements, and the results of both the Accounting Auditor's and the Board of Corporate Auditors' audits of the Company's consolidated financial statements for the 143rd fiscal period.
- No. 2. Reports on the Company's non-consolidated financial statements for the 143rd fiscal period.

^{*} The financial statements for the 143rd fiscal period have been audited by the Accounting Auditors (certified public accountants under Japanese law) and the Corporate Auditors of the Company pursuant to the Companies Act (*kaishahou*) (Law No. 86 of 2005).

No. 1. To elect ten Directors.

The terms of office of all twelve Directors will expire at the close of this Meeting.

The Company has decided to review the member composition for the Board of Directors with the aim of strengthening the role of the Board of Directors in monitoring functions such as "management oversight" and "deliberation and evaluation of medium- to long-term management strategies and policies."

Accordingly, the election of ten Directors is proposed, reducing the number of internal Directors by three, for a total of five, and increasing the number of Outside Directors by one, for a total of five.

Pursuant to the regulations of the Tokyo Stock Exchange, Inc., the Company has designated Mr. Hiroshi Tomono, Mr. Motoshige Itoh, Ms. Atsuko Muraki, and Mr. Akira Ichikawa as Independent Directors and Ms. Yumiko Noda as a candidate for Independent Director, who have no risk of having conflicts of interest with ordinary shareholders.

The following facts were discovered by The Kansai Electric Power Company, Incorporated ("KEPCO") where Mr. Hiroshi Tomono has been serving as an Outside Director since June 2020: employees, etc. of KEPCO improperly browsed and used customer information of power producers and suppliers other than KEPCO that was managed by Kansai Transmission and Distribution, Inc. ("Kansai Transmission and Distribution"), a subsidiary of KEPCO; some employees of KEPCO used ID, etc. held by Kansai Transmission and Distribution to access and inappropriately browse a website managed and operated by the Ministry of Economy, Trade and Industry; and KEPCO had performed acts that violated Article 3 of the Anti-Monopoly Act, which prohibits unreasonable restraint of trade. Although Mr. Hiroshi Tomono was unaware of these facts until these incidents came to light, he's been fulfilling his duties by regularly making suggestions at the Board of Directors and committees, etc. in which he serves to strengthen governance and compliance and making recommendations for the verification, etc. of the implementation status of the business improvement plan aimed at preventing recurrence and the status of steps taken by the emergency response committee.

- At Sompo Japan Insurance Inc. ("Sompo Japan Insurance"), a subsidiary of Sompo Holdings, Inc. ("Sompo Holdings"), where Ms. Atsuko Muraki served as Outside Audit & Supervisory Board Member and Outside Director from June 2017 to June 2021, a case involving acts that are considered to violate the Anti-Monopoly Act and acts that are inappropriate in light of the purpose of the Act, as well as a case of inappropriate handling by Sompo Japan Insurance regarding fraudulent automobile insurance claims by a used car sales company, occurred. In January 2024, Sompo Holdings received a business improvement order from the Financial Services Agency regarding its management of Sompo Japan Insurance based on the Insurance Business Act. Although Ms. Atsuko Muraki was unaware of the inappropriate fact at Sompo Japan Insurance until the incident came to light, during her tenure at Sompo Holdings, she fulfilled her duties as Outside Audit & Supervisory Board Member and Outside Director by speaking up about the importance of Group governance and legal compliance at Audit & Supervisory Board meetings and Board of Directors meetings.
- 7 Mr. Akira Ichikawa's role as Chairman of the Board at Sumitomo Forestry Co., Ltd. is mainly to oversee management. He has no area of responsibility, and his involvement in day-to-day business execution decisions is limited. The business relationship between Sumitomo Forestry Co., Ltd. and the Company represents less than 0.1% of consolidated sales for both companies, and Sumitomo Forestry Co., Ltd. is neither a major business partner nor a major shareholder.
- 8 The Company executed limitation of liability contracts with Mr. Hiroshi Tomono, Mr. Motoshige Itoh, Ms. Atsuko Muraki, and Mr. Akira Ichikawa that limit their liabilities for damages to the Company pursuant to Article 423(1) of the Companies Act, up to the total of the amounts listed in the items of Article 425(1) of the Companies Act (the "Limitation of Liability Contracts"). When they are reappointed to Outside Directors of the Company, the Company will continue the Limitation of Liability Contracts. In addition, if Ms. Yumiko Noda is appointed to Outside Director of the Company, the Company will execute a contract with her with the same content as the Limitation of Liability Contracts.
 - The Company entered into a directors and officers liability insurance contract with an insurance company, as stipulated in Article 430-3(1) of the Companies Act., to

cover damages and dispute costs such as litigation costs, lawyer fees, and arbitration/settlement costs (including those arising in connection with lost shareholder derivative suits and claims for damages from the Company) that should be legally borne by the insured. If each candidate is elected as a Director, he or she will be covered by the insurance contract, and the Company plans to renew the insurance contract with the same content during his or her term of office. Mr. Hiroshi Niinuma is scheduled to become a Director of Sumitomo Pharma Co., Ltd. on the date of said company's Annual Shareholders' Meeting to be held in June 2024.

Criteria for Designation of Independent Directors & Auditors (Revised June 23, 2015)

- 1. These criteria set conditions for designation of the Company's Outside Directors & Auditors (meaning Outside Directors and Outside Corporate Auditors) as "Independent Directors & Auditors" defined in the listing rules of stock exchanges in Japan.
- 2. If none of the conditions given in (1) to (9) below applies, a person, in principle, shall be considered to have no material interest in the Company and may be designated as Independent Directors & Auditors.

The person

- (1) Is an executor of business, i.e. someone who executes business of the Company or a company of the Company's Group (a Director (other than Outside Director), an executive officer, or an employee (by whatever name, someone having an employment relationship with the Company or with the company of the Group)).
- (2) Is an executor of business who executes business of a major client or business partner of the Company. The "a major client or business partner" means any of the following.
 - (a) A vendor providing products or services to the Company, or a customer to which the Company is providing products or services, of which the total amount of such transactions in the fiscal year nearest to the time of intended designation as an Independent Directors & Auditors exceeds 2% of their total sales or exceeds 2% of the Company's nonconsolidated sales, respectively.
 - (b) A financial institution providing loans to the Company, of which the total amount of the loans at the end of the fiscal year nearest to the time of intended designation as Independent Directors & Auditors exceeds 2% of the Company's total nonconsolidated borrowings; provided that, even if the amount does not exceed 2%, a financial institution indicated as a lender to the Company on annual securities reports, business reports or other public documents shall be considered "a major business partner."
- (3) A consultant, certified public accountant, attorney or other expert receiving remuneration from the Company in addition to the remuneration payable to the Company's Directors, Officers, Etc., of which the total amount of the remuneration paid, other than the remuneration payable to the Company's Directors, Officers, Etc., in the fiscal year nearest to the time of intended designation as Independent Directors & Auditors exceeds 10 million yen; provided that, even if the amount does not exceed 10 million yen, the person shall be considered a recipient of a substantial amount of remuneration if it exceeds 50% of that person's annual income.
- (4) A person who works for an organization that is a consulting firm, tax accounting firm, law office, other corporate body, partnership, etc., whose sales to the Company in the fiscal year nearest to the time of intended designation as Independent Directors & Auditors exceeds 2% of the organization's total sales or 10 million yen, whichever is larger.
- (5) A shareholder of the Company whose share of voting rights at the end of the fiscal year nearest to the time of intended designation as Independent Directors & Auditors is 10% or more (a total of direct and indirect holdings) or an executor of business at the shareholder entity.

- (6) Of the companies in which the Company holds shares, an entity in which the Company's share of voting rights at the end of the fiscal year nearest to the time of intended designation as Independent Directors & Auditors is 10% or more (a total of direct and indirect holdings) or an executor of business at the entity.
- (7) A person who works for an auditing firm that conducts statutory audits of the Company.
- (8) A person to whom (1) above was applicable in the past or to whom any of (2) to (7) above was applicable in the past one year or equivalent period.
- (9) A spouse or a close relative (second-degree relative or closer) of a person to whom any of the following applies.
 - (a) A person listed in (1) to (7) above.
 - (b) A person who, in the past year or equivalent period, was an executor of business of the Company or a company of the Company's Group. If an outside Corporate Auditor is to be designated as Independent Directors & Auditors, a Director not executing business or an accounting advisor (including its employees who are to perform relevant specific duties if the accounting advisor is a body corporate).

Business Report

(April 1, 2023 - March 31, 2024)

1. Overview of the Company Group

(1) **Business Progress and Results**

For FY2023, the global economy showed a gradual deceleration due to the negative impact of factors such as the continued monetary tightening policies in Europe and the US, and the prolonged economic stagnation in China. In the petrochemical and semiconductor sectors, the business environment remained difficult, with sluggish product market conditions and a delay in the full-scale recovery of demand. In addition, in Japan's economy, economic recovery came to a standstill against the backdrop of a decline in consumption due to inflation.

In addition to these circumstances, due to the impact of the loss of exclusivity for LATUDA® in the U.S. As a result, the Group's sales revenue decreased by $\frac{1}{448.4}$ billion compared to FY2022, to $\frac{1}{2}$,446.9 billion. In terms of profits and losses, core operating income* was a loss of $\frac{1}{448.4}$ billion, operating income was a loss of $\frac{1}{448.4}$ billion, and net income attributable to owners of the parent was a loss of $\frac{1}{4311.8}$ billion. Results in every category of income were much lower than FY2022. The Company's non-consolidated sales amounted to $\frac{1}{4809.6}$ billion, and net income was $\frac{1}{88.7}$ billion.

Note: "Core operating income and loss" is a gain and loss concept that reflects recurring earning capacity by deducting gains and losses incurred by non-recurring factors from operating profit and loss, which includes the share of profits or losses from investments accounted for using the equity method.

The Company has regrettably decided to pay a year-end dividend of \$3 per share in light of the poor operating results of FY2023 described above, as well as the continuously unpredictable business environment. As a result, the Company's annual dividend for FY2023 is \$9 per share, including an interim dividend of \$6 per share.

Financial Results by Business Segment

Essential Chemicals & Plastics

The market prices for synthetic resins, methyl methacrylate and various industrial chemicals stayed on a low level due to a decrease in raw material prices. Shipments decreased owing to lower demand for petrochemical products resulting from the global economic slowdown and the Company's exit from caprolactam business. As a result, sales revenue decreased by \$78.9 billion from FY2022, to \$774.0 billion. Core operating income posted a loss of \$90.7 billion, lower by \$56.5 billion from FY2022, due to the declined market prices and impact of lower shipment volumes, as well as a deterioration in the financial performance of Rabigh Refining and Petrochemical Company, an affiliated company accounted for by the equity-method.

Energy & Functional Materials

The market prices of aluminum and the battery metals for cathode materials remained at a low level. In addition, shipments were sluggish, particularly for products for automotive-related applications. As a result, sales revenue decreased by ± 42.2 billion from FY2022, to ± 300.3 billion. Core operating income was ± 7.8 billion, decreased by ± 7.4 billion from FY2022.

IT-related Chemicals

Shipments of display-related materials and processing materials for semiconductors, such as high-purity chemicals and photoresists, decreased as consumers' sentiment deteriorated in the face of inflation concerns. As a result, sales revenue decreased by \$17.1 billion from FY2022, to \$414.2 billion. Core operating income was \$44.0 billion, decreased by \$3.6 billion from FY2022.

Health & Crop Sciences

Sales of crop protection products decreased since a price spike of generic products tapered off and shipments decreased due to an increase of inventories in the market in South America. Moreover, the market price of methionine (feed additives) decreased from FY2022. As a result, sales revenue decreased by \pm 52.4 billion from FY2022 to \pm 546.0 billion. Core operating income was \pm 30.9 billion, decreased by \pm 26.4 billion from FY2022, because of deteriorated market conditions of methionine and the liquidation of crop protection products inventory in the midst of weaker demand in South America.

Pharmaceuticals

In North America, revenue showed a decrease owing to the impact of the loss of exclusivity for LATUDA® (atypical antipsychotic) in the U.S., despite an increase in sales of ORGOVYX® (therapeutic agent for advanced prostate cancer), MYFEMBREE® (therapeutic agent for uterine fibroids and endometriosis) and GEMTESA® (therapeutic agent for overactive bladder). In addition, there was a decrease in revenue due to the transfer of all shares of two consolidated subsidiaries within Japan. As a result, sales revenue decreased by $\frac{1}{242.1}$ billion from FY2022, to $\frac{1}{342.7}$ billion. Core operating income posted a loss of $\frac{1}{33.0}$ billion, lower by $\frac{1}{49.2}$ billion from FY2022, as the reduction in selling, general and administrative expenses, primarily owing to the loss of exclusivity for LATUDA® and the combination of group companies in North America, was outweighed by the decrease in gross profit on account of a revenue decline.

Others

In addition to the above five segments, the Group supplies electric power and steam, designs chemical plants and supervises the construction of those facilities, provides transportation and warehousing, and conducts physical property analysis and environmental analysis. Sales revenue of these businesses decreased by \$15.6 billion from FY2022, to \$69.8 billion, and core operating income decreased by \$2.3 billion from FY2022, to \$69.8 billion.

Capital Expenditures

In the fiscal year under review, the Companies' capital expenditures totaled \$158.4 billion, which includes investments for new installations and the expansion of manufacturing facilities as well as renovations and rationalization of existing facilities.

Major facilities completed in the fiscal year under review include the introduction of the Company's high-efficiency gas turbine as part of rationalization in the Essential Chemicals & Plastics Sector, the new installation of an overseas subsidiary's photoresist manufacturing facilities in the IT-related Chemicals Sector, and the new construction of the Company's manufacturing plant for nucleic acid drug in the Health & Crop Sciences Sector.

Major facilities under construction in the fiscal year under review include the following: the new installation of an overseas subsidiary's semiconductor process chemical plant in the IT-related Chemicals Sector; the new construction of the Company's manufacturing plant for small molecule drugs in the Health & Crop Sciences Sector; and the new construction of the Company's research sites as part of their reorganization in the Others Sector.

Financing

To respond to financing needs during the fiscal year under review, the Company raised

funds, primarily via borrowings from banks and the issue of corporate bonds. As a result, the balance of borrowings (including corporate bonds) increased by ± 102.1 billion from the previous fiscal year, to $\pm 1,563.5$ billion.

(2) Issues to be Addressed

Recognition of the Current Situation

Since the 2000s, we have promoted three core strategies: fundamentally strengthening the competitiveness of the petrochemical business, securing critical mass in the life sciences business, and developing new businesses centered on ICT, with the aim of strengthening our medium- to long-term earnings capacity. As a result, we have achieved a certain level of success in terms of global business development and specialization through the expansion of non-petrochemical businesses such as health & crop sciences and IT-related chemicals.

On the other hand, due to external factors such as the acceleration of the commoditization of technology and the construction of new large-scale plants in China and other countries, as well as internal factors such as the dispersion of management resources as the five business sectors aimed for their own growth and a lack of discernment and development capabilities in pharmaceuticals, the petrochemical business, including Petro Rabigh in particular, as well as Sumitomo Pharma Co., Ltd.'s business performance, were sluggish.

As a result, we recorded a final deficit of ¥311.8 billion in FY2023, the largest since our founding, and we recognize that our growth model based on our existing five business sectors has reached its limit.

Immediate-term, concentrated measures to improve business performance

In light of the current situation, we have been implementing immediate-term, concentrated measures to improve business performance since November of last year to increase the certainty of a V-shaped recovery in business performance in FY2024, and to strengthen our financial position in preparation for fundamental structural reforms that are being carried out alongside these measures.

These improvement measures aimed to generate approximately ± 500.0 billion in cash by the end of FY2024 through business restructuring, inventory reduction, selective investment, asset sales, and the leverage of surplus funds, but seeing as progress has exceeded our initial expectations, we have added an additional ± 100.0 billion to the target, pushing it up to approximately ± 600.0 billion. In terms of business restructuring, we are proceeding with consecutive sales of non-core businesses from the perspective of finding the best owner, including the transfer of an LCD chemical business in China and a postharvest business in the United States. Regarding inventory reduction, we reduced inventory by ± 75.0 billion, half of our target, by the end of FY2023. In terms of selective investment, we are expecting a cumulative reduction of ± 150.0 billion over the three years beginning from FY2022. Sales of cross-shareholdings are also progressing smoothly, with sales already exceeding the initial plan. Overall, we are currently certain that we will generate cash of approximately ± 400.0 billion.

Performance Forecast for FY2024

Regarding our business performance for FY2024, we expect a V-shaped recovery and profitable core operating income of \$100.0 billion and net income attributable to owners of the parent of \$20.0 billion. In terms of core operating income and loss, this is a significant improvement of \$249.0 billion year on year, and regarding Sumitomo Pharma Co., Ltd., which will account for more than half of this, we are expecting a total improvement of \$134.0 billion mainly due to cost reduction effects of approximately \$110.0 billion through cost curtailment, narrowing down of clinical trial costs, personnel reductions, etc., as well as maximized sales expansion of three key products. Aside from Sumitomo Pharma Co., Ltd., we expect an improvement of \$66.0 billion due to the effects of anticipatory investments in crop protection products and semiconductor materials, business restructuring, and already implemented measures, including the effects of impairment losses. Moreover, we expect an improvement of \$19.0 billion due to improvements in the external environment, including a recovery in the petrochemical market, as well as an improvement of \$30.0 billion due to the contribution of immediate-term, concentrated measures to improve business performance.

Fundamental Structural Reforms

In order to achieve sustainable growth after a V-shaped recovery in FY2024, we need to come up with fundamental solutions to the structural management issues faced by the Company. Under the name of "Fundamental Structural Reforms," we are working on a "Revival Strategy" that aims to rebuild existing businesses and a "Growth Strategy" that aims to establish a new long-term growth model and develop new growth drivers.

<Fundamental Structural Reforms (Revival Strategy)>

The Revival Strategy involves the following measures.

Sumitomo Pharma Co., Ltd.'s top priority is to curtail losses and narrow down the cost structure to one that suits its needs by thoroughly rationalizing selling, general and administrative expenses and research and development expenses. In addition, the Company will take more extensive measures than ever before, including hiring external experts in corporate revitalization, strengthening governance by dispatching multiple management human resources, and providing debt guarantees to Sumitomo Pharma Co., Ltd. We are also aiming to get business performance back on track by expanding sales of three key products, accelerating the development of two cancer drugs, establishing a new company for regenerative medicine & cell therapies, and integrating management within the Group. We will pursue all options to build a sustainable growth model.

Regarding Petro Rabigh, the Company and Saudi Aramco have formed a "joint task force" and both companies have agreed to work intensively in the short-term to resolve urgent issues, including the strengthening of earnings capacity. In the domestic Essential Chemicals business, we will work on business restructuring to ensure survival, including rationalizing ethylene plants and collaborating with companies involved in polyolefins.

<Fundamental Structural Reforms (Growth Strategy)>

Since our founding, we have achieved growth and contributed to society based on the Sumitomo business concept of "Harmony between the individual, the nation and society" (Sumitomo manifests this concept by seeking to benefit not only its own business, but also both the nation and society). Even when it comes to the fundamental structural reforms currently underway, we are formulating our policies based on this idea.

As part of our policy for fundamental structural reforms (Growth Strategy), we have defined our long-term corporate vision as becoming an "Innovative Solution Provider," and have expressed our determination to provide solutions to the issues faced by society through our innovative products and technologies.

To achieve this, we reorganized our current five business sectors into four in October of this year, and decided to address the four social issues of food, ICT, healthcare, and environment in each business area. We provide solutions to society using the various leading technologies and product groups that we have cultivated over the years, and going forward, we aim to continue to be a company with a strong global presence by leveraging important assets focused on GX, DX, and BX, and continuously creating innovative solutions.

Innovative Solution Provider

<Positioning for New Business Area in the Growth Strategy>

In each of the four new business areas, we will clarify our strategic position and develop a well-balanced portfolio strategy.

Agriculture and ICT-related "Agro & life solutions" and "ICT solutions" have been designated as core growth drivers, and by focusing management resources on them, we aim to achieve core operating income of \$100.0 billion in each area by 2030.

On the other hand, concerning "Advanced medical solutions," which handles the new growth areas of leading-edge medicine business and CDMO business, and "Essential & green materials," which is shifting focus from conventional petrochemicals to value creation centered on environmental impact reduction technologies, we aim to achieve combined core operating income of ¥100.0 billion by 2035.

<Summary>

Looking ahead, our biggest management challenge is to first achieve a V-shaped recovery in business performance in FY2024. As we do this, we will also return to a growth trajectory by pursuing fundamental structural reforms, including the thorough streamlining of Sumitomo Pharma Co., Ltd. and the repositioning of Petro Rabigh.

Following this, we will strengthen our financial position, concentrate management resources on agriculture-related and ICT-related areas, and build a new growth model by

2030. Then, we will aim to achieve further growth through measures such as social implementation of environmental impact reduction technologies and full-scale development of regenerative medicine & cell therapies businesses.

(2) Compensation to Directors and Corporate Auditors

1) Policies and procedures for determining compensation of senior management and Directors

(A) Basic policy for remunerations of Directors, etc.

- i. The remuneration of senior management and Directors (excluding Outside Directors) shall consist of Basic Compensation as fixed compensation and Bonuses and Stock Compensation as variable compensation. In addition, the remuneration of Outside Directors shall consist of Basic Compensation and Bonuses.
- ii. Basic Compensation is designed according to roles and responsibilities as basic remuneration for the performance of duties so that the actions of senior management and Directors are not aimed at short-term or sub-optimal effects.
- iii. The amount of Bonuses shall largely reflect the Company's consolidated financial results for a fiscal year in order to heighten short-term incentive to achieve the annual target of the business plans.
- iv. Stock Compensation is designed to promote further value sharing with shareholders and serve as a medium- to long-term incentive for the continuous growth of the Company.
- v. The remuneration shall be set at levels which are designed to be objectively competitive to attract and retain outstanding talent while comprehensively taking into consideration such factors as the scale and content of the Company's business and external evaluations of ESG and other non-financial factors. Based on surveys by a third-party organization and other materials, such levels shall be checked annually whether or not to be objectively appropriate.
- vi. When the consolidated performance target (core operating income) for the original final fiscal year of the Corporate Business Plan (FY2022-2024) is achieved, the remuneration of Directors (excluding Outside Directors) shall be designed so that the ratio of fixed compensation to variable compensation is approximately 1 to 1 and the ratio of short-term incentives (Bonuses) to medium- to long-term incentives (Stock Compensation) in variable compensation is approximately 7 to 3.

(B) Mechanisms of each remuneration element

i. Basic Compensation

The level of Basic Compensation shall be determined based on the policy described in section (A) v. to vi. above.

While Basic Compensation for each year shall be fixed, the Company will adopt a mechanism where the Basic Compensation level would be changed in the event where the Company's position has changed in terms of "growth," "earnings capacity," and "outside evaluations" from a comprehensive and medium- to long-term perspective.

As main indicators for determining the change in the Company position, the Company will apply the following: in terms of "growth," sales revenue, total assets and market capitalization; in terms of "earnings capacity," net income (attributable to the parent company), ROE, ROI and D/E ratio; and in terms of "outside evaluations," credit ratings and ESG index selected by GPIF (Government Pension Investment Fund).

The amounts to be paid to each person will be determined in accordance with the base amount set by each position.

ii. Bonuses (short-term incentive)

Bonuses shall be paid on the condition that performance for that fiscal year exceeds a particular level and shall be determined based on the bonus calculation formula.

In order to reflect the current earnings capacity of the relevant business year (including financial activities) to the amount of bonuses, the Company will apply the combined value of consolidated core operating income and financial profit and loss to the performance indicator concerning the bonus calculation formula. In addition, the Company will set the coefficient of the calculation formula so that it will get larger as the position of a person gets higher.

<Bonus calculation formula>

	Consolidated performance indicator		Coefficient	
(core operating income + financial profit and loss	^	Coefficient	

iii. Stock Compensation (medium- to long-term incentive)

Stock Compensation shall be restricted stock compensation. Restricted stocks shall be allocated at a certain time after the ordinary general meeting of shareholders each year according to the amount determined for each position, and it shall be obligatory to hold the stocks during the term of office. In addition, the Company shall set the ratio of Stock Compensation to total remuneration so that it will get larger as the position of a person gets higher.

<Overview of restricted stock compensation plan>

Transfer restriction period

Until the retirement from the position of Director and Executive Officer not concurrently serving as a Director at the Company

Removal of transfer restrictions

On the condition that the eligible person continuously served as a Director or Executive Officer not concurrently serving as a Director at the Company during his or her terms of office, the Company shall remove transfer restrictions on all Allotted Shares when the transfer restriction period ends.

However, a) if the eligible person resigns from his or her position as a Director and Executive Officer not concurrently serving as a Director at the Company before the end of his or her term of office owing to a justifiable reason, or b) if the eligible person resigns from his or her position as a Director and Executive Officer not concurrently serving as a Director at the Company after the end of his or her term of office, but before the end of the transfer restriction period for any reason other than justifiable cause, the Company shall reasonably adjust the number of Allotted Shares from which to remove transfer restrictions and the timing of the removal of transfer restrictions, as necessary.

• Conditions of forfeiture of shares

If the eligible person is found to be in material violation of any law, regulation or internal rule, all allotted shares, including those whose transfer restrictions have been removed, shall be forfeited (the Company shall acquire them without consideration).

(C) Procedures for determining remunerations of Directors, etc.

The Company shall establish a Remuneration Advisory Committee as an advisory body to the Board of Directors on a remuneration system for senior management and Directors, levels of remuneration, and other matters incidental thereto. Composed of Directors (a majority are Outside Directors), the Committee shall advise the Board of Directors, when determining officer remuneration system, levels of remuneration, etc., so that greater transparency and fairness can be ensured regarding the remuneration.

The remuneration amount of Directors shall be set at a level not higher than the upper limit of a total remuneration prescribed by the resolution of the 125th Ordinary General Meeting of Shareholders held on June 23, 2006 (i.e., 1.0 billion yen or less per year). Furthermore, the amount of remuneration to be paid to Directors (excluding Outside Directors) for granting restricted stock shall be determined within the upper limit of 400 million yen per year set by the resolution of the 141st Ordinary General Meeting of Shareholders held on June 23, 2022.

The Board of Directors shall deliberate on and decide the method of determining remunerations of Directors, etc., based on the advice from the Remuneration Advisory Committee. Furthermore, the individual remuneration of senior management and Directors shall be determined by the Remuneration Advisory Committee, which is authorized by the Board of Directors, in accordance with the policies for determining compensation of senior management and Directors. The Board of Directors, therefore, has concluded that the content of individual remuneration is in line with the determination policies. The Remuneration Advisory Committee consists of Representative Directors and Outside Directors, and the majority of the members are Outside Directors. The structure of the Remuneration Advisory Committee as of the end of the fiscal year under review is as follows:

Masakazu Tokura (Representative Director, Chairman) Keiichi Iwata (Representative Director, President) Hiroshi Tomono (Outside Director) Motoshige Itoh (Outside Director) Atsuko Muraki (Outside Director) Akira Ichikawa (Outside Director)

2) Total amount of compensation to Directors and Corporate Auditors for the fiscal year under review

			Total amo	ount of compensation	n by type

Total	20 persons	756 million yen	627 million yen	-	129 million yen

NOTES: 1. The above number of persons and amount of compensation includes two Directors and one Corporate Auditor who retired during the fiscal year under review.

- 2. Due to a resolution by an Ordinary General Meeting of Shareholders, the total amount of monetary compensation for Directors is 1.0 billion yen or less per annum, and the total amount of monetary compensation for Corporate Auditors is 150.00 million yen or less per annum (resolved at the 125th Ordinary General Meeting of Shareholders held on June 23, 2006). The numbers of Directors and Corporate Auditors as of the close of the 125th Ordinary General Meeting of Shareholders are ten and five, respectively. In addition, the total amount of compensation is 400 million yen or less per annum (resolved at the 141st Ordinary General Meeting of Shareholders held on June 23, 2022). The number of Directors (excluding Outside Directors) as of the close of the 141st Ordinary General Meeting of Shareholders held on June 23, 2022).
- 3. Bonuses (performance-linked remuneration) will not be paid in light of business performance for the period.
- 4. Stock Compensation (non-monetary remuneration) shows the amount charged in the fiscal year under review as restricted stock compensation.
- 5. In light of poor business performance, the Representative Director, Chairman and Representative Director, President voluntarily returned 10% of their monthly basic compensation from November 2023 to April 2024. From May 2024 to September 2024, the monthly basic compensation of the Representative Director, Chairman and Representative Director, President will be reduced by 20%, and the monthly basic compensation of other Directors (including Outside Directors) and Executive Officers will be reduced by 5 to 10%.

(3) Outline of the directors and officers liability insurance

The Company entered into a directors and officers liability insurance contract with an

insurance company, as stipulated in Article 430-3(1) of the Companies Act., to cover damages and dispute costs such as litigation costs, lawyer fees, and arbitration/settlement costs (including those arising in connection with lost shareholder derivative suits and claims for damages from the Company) that should be legally borne by the insured. The insured covered by the insurance contract includes Directors, Corporate Auditors, and Executive Officers. In addition, as a measure to prevent the insured's proper execution of duties from being hindered, the insurance contract includes a provision regarding deductibles and provides that damages that do not reach a certain amount shall not be covered. There are also certain exclusions, such as no coverage for any damage caused by criminal acts and acts performed by the insured with the knowledge that they are in violation of laws and regulations.
