Notes:

1. There are no particular vested interests between the Company and the candidates.
2. Additional information regarding the candidates of Outside Directors is as follows.
 - (1) Independent officers
The Company appointed Mariko Tokuno, Shiro Sugata, Noriyuki Kuga, and Charles Yin as independent officers provided for under the provisions of Tokyo Stock Exchange, Inc. and registered the individuals as such with that exchange. The Company plans on having the officers keep their positions if their reelection is approved. In addition, if the election of Junichiro Ikeda is approved, the Company will appoint him as an independent officer.
Mariko Tokuno, Shiro Sugata, Noriyuki Kuga, Charles Yin, and Junichiro Ikeda satisfy the requirements for Criteria for Determining Independence of the Company on page 19.
 - (2) The number of years as Outside Director of the Company
Mariko Tokuno, Shiro Sugata, Noriyuki Kuga, and Charles Yin have been serving as the Company's Outside Directors for seven years, five years, four years, and two years, respectively, as of the closing of this General Meeting of Shareholders.
3. Agreement on liability limitation
The Company has concluded an agreement with Mariko Tokuno, Shiro Sugata, Noriyuki Kuga, and Charles Yin regarding liability limitation according to Article 423, paragraph (1) of the Companies Act. According to the agreement, the maximum liability amount is the minimum amount stipulated by Article 425, paragraph (1) of the Companies Act. If the reelection proposal is approved, the Company will continue its agreement with them. In addition, if the election of Junichiro Ikeda is approved, the Company will conclude said agreement with him.
4. Directors and officers liability insurance policy
The Company has entered into a directors and officers liability insurance policy, as provided for in Article 430-3, paragraph (1) of the Companies Act, with an insurance company. The policy covers Directors, Audit & Supervisory Board Members, and Executive Officers of the Company and its subsidiaries. If the election of each candidate is approved, they will be included as the insured.
The summary of the policy contents is as stated under "3. Officers and Executives" in the Business Report.
In addition, when the policy is renewed, the Company plans to renew the policy with the same terms.

Agenda Item 2. Election of Two (2) Audit & Supervisory Board Members

The term of two (2) Audit & Supervisory Board Members, namely Ryuji Matsuda and Yoshihide Shimoyama, will expire at the close of this General Meeting of Shareholders. Accordingly, we would like to propose the election of two (2) Audit & Supervisory Board Members.

The following are the candidates for Audit & Supervisory Board Members.

Ryuji Matsuda and Setsuko Ino are candidates for Outside Audit & Supervisory Board Members. In addition, the Audit & Supervisory Board has already approved this proposal.

Notes:

1. There are no particular vested interests between the Company and the candidates.
2. Additional information regarding the candidates of Outside Audit & Supervisory Board Members are as follows.
 - (1) Independent officers

The Company appointed Ryuji Matsuda as an independent officer provided for under the provisions of the Tokyo Stock Exchange, Inc. and registered him as such with that exchange. The Company plans on having the officer keep his position if his reelection is approved. In addition, if the election of Setsuko Ino is approved, the Company will appoint her as an independent officer. Ryuji Matsuda and Setsuko Ino(*) satisfy the requirements for Criteria for Determining Independence of the Company on page 19.

(*) Setsuko Ino was CFO of Retail Division of Amazon Japan, a business partner of the Company, from March 2012 to June 2017. However, she retired from that company approximately seven years ago and the Company judges her to be independent.
 - (2) The number of years as Outside Audit & Supervisory Board Member of the Company
 Ryuji Matsuda has been serving as the Company's Audit & Supervisory Board Member for four years as of the closing of this General Meeting of Shareholders.
3. Agreement on liability limitation
 The Company has concluded an agreement with Ryuji Matsuda regarding liability limitation according to Article 423, paragraph (1) of the Companies Act. According to the agreement, the maximum liability amount is the minimum amount stipulated by Article 425, paragraph (1) of the Companies Act. If the reelection proposal is approved, the Company will continue its agreement with him. In addition, if the election of Setsuko Ino is approved, the Company will conclude said agreement with her.
4. Directors and officers liability insurance policy
 The Company has entered into a directors and officers liability insurance policy, as provided for in Article 430-3, paragraph (1) of the Companies Act, with an insurance company. The policy covers Directors, Audit & Supervisory Board Members and Executive Officers, etc. of the Company and its subsidiaries. If the election of each candidate is approved, they will be included as the insured.
 The summary of the policy contents is as stated under "3. Officers and Executives" in the Business Report. In addition, when the policy is renewed, the Company plans to renew the policy with the same terms.

Basic Views on Corporate Governance

Based on its corporate philosophy, the Yamato Group carries out business activities in accordance with the law and social norms and actively promotes compliance management. Striving to maximize corporate value by effectively utilizing the management resources of the Group is one of the top priorities of management, and we have implemented measures and bolstered management systems as part of our corporate governance initiative.

Corporate Governance System

The Company is a company with an audit & supervisory board. In addition to important management decision-making and the supervision of business execution by the Board of Directors, Audit & Supervisory Board members and the Audit & Supervisory Board, which are independent from the Board of Directors, shall audit the status of execution of duties by Directors. Also, to complement the functions of the Board of Directors, the Company established a Nomination and Compensation Committee comprising a majority of Outside Directors. At the same time, the Company has adopted an executive officer system to ensure prompt decision-making related to business execution.

Business Report

(From April 1, 2023 to March 31, 2024)

1. Status of the Corporate Group

(1) Operating Performance

In the economic environment during the fiscal year under review, while the global inflationary trend has calmed down as prices of resources and energy, which had soared due to the unstable international situation, have turned to decline, monetary authorities in the U.S. and Europe have kept policy interest rates unchanged to prepare for a future economic slowdown. In Japan, meanwhile, amid moves to pass on price increases to consumers, business confidence is improving at the moment thanks to the expansion of service consumption supported by the recovery in holiday demand and inbound tourism, as well as increase in capital investment. However, with sluggish consumer spending due to the lack of real wage growth and other factors and expanding labor shortage, it remains difficult to foresee a full-fledged economic recovery.

Under these circumstances, in order to realize sustainable enhancement of corporate value through “helping enrich our society,” as stated in our management philosophy, the Yamato Group is promoting efforts to expand the overall value it provides to meet the diversifying needs of customers and society under a Group management structure that mobilizes the management resources of each Group company.

Our consolidated financial results for the fiscal year ended March 31, 2024 were as follows.

Item	Fiscal year ended	Fiscal year ended	Change	Growth (%)
	March 31, 2023	March 31, 2024		
Operating revenue	1,800,668	1,758,626	(42,041)	(2.3)
Operating profit	60,085	40,059	(20,025)	(33.3)
Ordinary profit	58,066	40,458	(17,607)	(30.3)
Profit attributable to owners of parent	45,898	37,626	(8,271)	(18.0)

Operating revenue amounted to 1,758,626 million yen, down 42,041 million yen from the previous fiscal year. This was mainly due to a decrease in parcel delivery volume and demand for international transportation, despite efforts for price optimization. Operating expenses amounted to 1,718,566 million yen, down 22,016 million yen from the previous fiscal year. This was mainly because we focused on efforts to optimize operating costs to fight the continuous rise in costs owing to changes in the external environment, including resource and energy prices and hourly wage rates.

As a result, operating profit amounted to 40,059 million yen, down 20,025 million yen from the previous fiscal year. Profit attributable to owners of parent amounted to 37,626 million yen, down 8,271 million yen from the previous fiscal year, mainly due to gain on sale of non-current assets.

At the Board of Directors meeting held on July 27, 2023, the Company resolved to sign an agreement regarding the strategic business alliance with WORLD HOLDINGS CO., LTD., and the Company transferred 51% of the outstanding shares of the Company's consolidated subsidiary, YAMATO.STAFF.SUPPLY.CO.,LTD. (hereinafter, “YSS”) to WORLD STAFFING CO.,LTD., a consolidated subsidiary of WORLD HOLDINGS CO., LTD. As a result of this share transfer, the Company's ownership of voting rights in YSS became 49%, and YSS became an equity-method affiliate of the Company effective from the end of the second quarter of the fiscal year under review.

Initiatives for the entire Yamato Group

The Yamato Group is, in order to realize sustainable enhancement of corporate value through “helping enrich our society,” as stated in our management philosophy, promoting efforts to expand the overall value it provides to meet the diversifying needs of customers and society. Furthermore, we are forging ahead with price optimization to cope with rising costs associated mainly with changes in the external environment, and responding to rising costs at partner companies in a timely and appropriate manner, thereby working to maintain and strengthen our transportation and delivery network and to create an environment in which we can continue to provide better service to our customers.

i) Structural reform of network operations

We are building a dedicated network optimized for diversifying logistics needs, as witnessed by the growing EC demand and trend toward small-lot, high-frequency B2B logistics. In addition, with a view to achieving more flexible response to fluctuations in delivery volume, more efficient transportation between bases, and shorter waiting times for cargo, we are: consolidating and upsizing last-mile collection and delivery bases, which have been deployed in many small stores; redefining terminal functions; reforming “sorting” and “carrying methods” using digital technology; and improving efficiency in administrative processing; and promoting other initiatives to strengthen the TA-Q-BIN network. In the fiscal year under review, we began handling Kuroneko Yu-Packet and Kuroneko Yu-Mail in accordance with the basic agreement on cooperation concluded with the Japan Post Group. We continue to make effective use of the management resources of the two companies in a bid to establish transportation services that contribute to greater customer convenience and to achieve business growth, while promoting initiatives to solve issues facing the logistics industry, such as the “2024 problem” and “carbon neutrality.”

ii) Expansion of corporate business area

Amid increasing risk factors such as division of the world into political and economic blocs, reshaping of global supply chains, and global environmental problems, the Yamato Group positions the solutions business aiming to solve customers’ management issues that extend throughout the entire supply chain as a new growth area. Against this backdrop, sales and operations continue to work together, while making optimum use of the Group’s management resources to enhance the value provided to the entire supply chain, which extends from Japan to the rest of the world.

Furthermore, in order to achieve “net-zero (in-house) greenhouse gas (GHG) emissions by 2050,” we are promoting the reduction of the Company’s GHG emissions by introducing EVs and implementing cold storage transportation without using dry ice, etc. At the same time, in order to optimize our customers’ inventory and production activities, we are building a supply chain with a lower environmental impact. To this end, we continue to work on creating new value to offer to our corporate customers, including the development of a GHG emissions visualization tool in compliance with the international standard ISO 14083:2023. During the fiscal year under review, we made a carbon neutral claim for TA-Q-BIN, TA-Q-BIN Compact, and EAZY (the three parcel delivery services). This claim consists of achievement of carbon neutrality pursuant to the international standard ISO 14068-1:2023 in the fiscal year ended March 31, 2023 (April 2022 - March 2023) and commitment to achieving carbon neutrality for the three parcel delivery services by 2050 through continuous efforts to reduce in-house GHG emissions from our business activities. Through the provision of such climate-friendly transportation services, the Yamato Group will further promote the use of these services by individual and corporate customers.

iii) Promoting strategies for achieving sustainable enhancement of corporate value

The Yamato Group is pressing on with its digital and HR strategies and strengthening sustainable management and governance as the foundation for expanding the value it provides to the “end to end” supply chain and enhancing sustainable corporate value.

Regarding digital strategy, we are working to expand the value we provide to customers and improve operational efficiency by establishing a system in which “business and digitalization”

are being promoted in an integrated manner and using the Yamato Digital Platform, a digital information platform that enables real-time understanding of all types of information and linkage with internal and external systems. During the fiscal year under review, we continued to promote the collection and analysis of customer feedback and the improvement and design of services through the use of digital technology in order to further enhance the value of the customer experience. Regarding HR strategy, based on the “Human Resource Management Policy” that links employee growth to the growth of the Group, we are working to build an optimal human resources portfolio to create new added value and to improve the work comfort and job satisfaction of our diverse employees. To strengthen sustainable management, we are intensifying our efforts to tackle the identified key issues (materiality) to enhance corporate value and realize a sustainable society over the medium to long term based on our two visions: “Connect. Deliver the future via green logistics” and “Through co-creation and fair business activities, help create a society that ‘Leaves No One Behind.’”

In the area of the environment, in order to realize “net-zero (in-house) GHG emissions in 2050” and “48% reduction in GHG emissions in 2030 (compared with the fiscal year ended March 31, 2021),” we will continue to implement measures such as “introduction of 23,500 EVs,” “introduction of 810 solar power generation units,” and “increase in the use of electricity derived from renewable energy sources.” During the fiscal year under review, the Yawata Sales Office in Kyoto Prefecture was reopened as a demonstration base for energy management, including optimal EV operations and the use of electricity generated via renewable energy sources. The Yawata Sales Office is the first in Japan to carry out pickup and delivery operations with a full fleet of electric trucks (32 trucks). It has also installed solar power generation equipment and storage batteries to utilize electricity derived from renewable energy sources and is working to balance-out energy consumption peaks through the use of electric power leveling systems.

We are also collaborating with automobile manufacturers to realize sustainable logistics, such as by launching a demonstration experiment for kei (mini) EV pickup and delivery operations using cartridge-type batteries. In the area of society, we continue to work toward the realization of an affluent society by, for example, respecting the diversity of human resources, creating a work environment where employees can play an active role, addressing various social issues, and promoting community development in collaboration with local communities. To strengthen corporate governance, we continue to put effort into separation of management supervision and business execution responsibilities to maintain and enhance the transparency of our business. We also undertake business structure reforms under a governance structure with an emphasis on the speed of decision-making.

iv) Formulation of the medium-term management plan “Sustainability Transformation 2030—1st Stage—”

The Yamato Group has set “a value-creating company that contributes to the realization of a sustainable future” as its vision for 2030, and formulated the medium-term management plan “Sustainability Transformation 2030—1st Stage—,” which ends in the fiscal year ending March 31, 2027, on February 2024. Under the medium-term management plan, the Group will work on initiatives to generate economic value, such as reinforcing the TA-Q-BIN network and expanding its value proposition, expanding the corporate business area by providing business solutions on an “End to End” basis to the supply chain, commercializing new business models that meet diversifying customer and social needs, and strengthening the Group’s management platform. It will also create environmental value and social value through initiatives for social sustainability. From the fiscal year ending March 31, 2025, we will change our segments to the four business segments defined in this medium-term management plan: Express Business, Contract Logistics Business, Global Business, and Mobility Business.

Business strategies of each segment

Retail Business Unit

- i) The Retail Business Unit provides high-quality small-lot transportation services, including TA-Q-BINs. As the starting point for the entire Group's business, our front-line employees identify changes in customers' lifestyles and business environments accompanying such changes, and work with corporate sales representatives to propose solutions that leverage the Group's management resources, thereby taking advantage of the points of contact with customers created through the TA-Q-BIN services, and providing value in response to customer needs. We have also been working in part through efforts to provide services that make delivery and pick-up more convenient, particularly the "Kuroneko Members" service, which has more than 50 million registered members, and the "Yamato Business Members" service, which is used by more than 1.7 million corporate clients, and also through efforts to upgrade various services other than those involving transportation that are beneficial in terms of people's lives and business.
- ii) In addition, we are promoting efforts to strengthen the TA-Q-BIN network in order to improve the productivity of the entire network operations. In the fiscal year under review, we continued to consolidate and upsize last-mile pickup and delivery bases, which had been deployed in many small stores mainly in urban areas, and promoted the establishment of a dedicated cold storage network, as well as a system to flexibly set delivery areas and delivery routes in accordance with fluctuations in delivery volume.
- iii) Operating revenues from customers decreased 1.9% from the previous year to 877,948 million yen, attributable mainly to a decline in handling volume despite an increase in the unit price of parcel delivery services. Operating profit decreased by 9,708 million yen from the preceding year, as efforts to optimize operating costs failed to offset the decline in handling volume.

Corporate Business Unit

- i) In the Corporate Business Unit, sales and operations are working together to build and expand dedicated networks to increase the value provided to the entire supply chain, which extends from Japan to the rest of the world. We are also working to strengthen customer-oriented sales not only by improving logistics operations and efficiency, but also by proposing improvements based on customers' management issues, and by building and managing more effective projects.
- ii) In the urban areas where EC demand is concentrated, the Unit has been building an EC logistics network with more simplified operations covering sorting, transportation, and last mile deliveries, as well as using our partnerships with major e-commerce companies to implement initiatives to further improve convenience and expand sales for services that completely or partially replace operational functions from order receiving to shipping and delivery, with the aim of optimizing logistics for e-commerce vendors with stores in online shopping malls.
- iii) In cross border EC for which growth is accelerating, we are working on initiatives to enhance value provided on an "End to End" basis over the supply chain, such as connecting the IT system for import customs clearance with the domestic delivery network, in order to shorten the lead time to delivery. During the period under review, we started providing a small-lot ocean transportation service for cross-border EC operators to enable low-cost, speedy deliveries to buyers using cross-border EC services.
- iv) Operating revenues from customers was 824,096 million yen, down 2.6% year-on-year, mainly as a result of a decline in international transportation volume. Operating profit declined 8,551 million yen year-on-year, due to factors including the increase in expenses to consign deliveries to the Retail Business Unit.

Kuroneko DM-Bin/Kuroneko Yu-Mail	800	626	(173)	(21.7)

Other

- i) During the period under review, the Company continued to expand sales of box transportation and vehicle maintenance services using a network of several corporate groups.
- ii) Operating revenue from customers was 56,581 million yen, down 5.8% from the previous fiscal year. In addition, the operating profit was 12,734 million yen, down 8.4% from the previous fiscal year.

<Initiatives such as safety and regional co-creation>

- i) The Yamato Group places utmost priority on protecting human life and conducts a range of safety measures. Accordingly, its transport safety management practices in that regard involve drawing up its Safety Management Regulations, building up its transport safety management systems, and formulating fiscal year plans, all centered on respective Group companies whose main operations involve transport. During the period under review, we continued to conduct the “Traffic Safety Class for Children” at kindergartens and elementary schools, as well as engage in activities to raise awareness towards safety, including the “Zero Traffic Accidents Campaign” by the entire Group, as well as the “National Safety Competition,” in which drivers from all over Japan competed with each other in their skills and knowledge regarding driving safety.
- ii) Aiming to create more sustainable social value, the Yamato Group promotes initiatives for sharing value with society based on the concept of “Creating Shared Value (CSV).” We continue to engage in various initiatives to such ends. For instance, we have been operating our community-based Neko Support Station locations utilizing close local ties and facilitating healthy and sustainable development of local communities, along with lifestyles of safety and comfort among local residents. We have also been setting up housekeeping support services, expanding the “Kuroneko monitoring service: Hello Light Visit Plan” that uses “HelloLight” IoT light bulbs, providing consultation services for everyday life, and holding events that enable interaction among community members. Moreover, during the period under review, based on the basic agreement regarding the partnership signed between a retailer that operates drug stores in Hokkaido and Yamato Transport, we are promoting activities to address social issues faced by Hokkaido and realize a sustainable regional economy, through initiatives such as enhancing shopping support using the TA-Q-BIN sales offices and mobile vending vehicles, making it possible to receive parcels at drug stores, and having items purchased in stores delivered to people’s homes, as well as providing efficient and stable deliveries of merchandise to retailers.
- iii) Aspiring to be a company that continually evolves in step with society, led by Yamato Welfare Foundation, the Yamato Group conducts various activities to help realize a society in which disabled people can freely enjoy a lifestyle as a member of each community. Specifically, we engage in ongoing programs that support economic independence of people with disabilities, such as actively employing people with disabilities at the Swan Bakery, which makes and sells bread, and operating job-finding support facilities where they take part in training to acquire the skills and knowledge necessary for employment.

(2) Issues to Be Addressed

In the business environment surrounding the Yamato Group, although the global inflationary trend appears to be calming down, it remains difficult to foresee a full-fledged economic recovery in Japan as consumer spending remains sluggish. In addition, costs are expected to rise in line with changes in the external environment such as the enforcement of overtime work cap in car driving operations (2024 issue) starting from April 2024. Furthermore, in the medium and long-term, we are expecting the growth of EC, heightening of geopolitical risks, aging society, declining birthrate, depopulation of suburban areas, labor shortage, climate change intensifying, etc. Under these circumstances, at the Yamato Group we will continue to accelerate the following initiatives i) through v) in order to realize sustainable enhancement of corporate value through “Contribution to the realization of an affluent society” as stated in our Management Philosophy, setting our aspiration “A value-creating company that contributes to the realization of a sustainable future” to be realized in 2030, based on the Medium-term Management Plan “Sustainability Transformation 2030 ~1st Stage~,” which ends in the fiscal year ending March 31, 2027.

- i) **Reinforcement of the TA-Q-BIN network and expanding the value we provide**
In light of the growth of EC, aging society, declining birthrate, depopulation of suburban areas, labor shortage, and climate change intensifying, we will continue to promote structural reforms of network operations in order to reinforce the TA-Q-BIN network more efficiently and sustainably as the social infrastructure. Specifically, in order to respond more flexibly to business volume fluctuations, improve efficiency in trunk-route transportation and reduce the waiting time for cargo, we will consolidate and enlarge last-mile facilities, which had been deployed in small-scale and multi-location, redefine terminal functions, and transform our way of “sorting,” “transporting” and “working” using digital technologies. In addition, by continuing to promote standardization of the administrative operations of our frontline employees and back-office operation, and business process re-engineering (BPR) by digitalization, we will realize the optimization of operating costs while maintaining and improving the safety and quality of operation as well as the working environment and job satisfaction for employees and partners.
We will expand value provided to customers through broadening the line-up of transportation service, improving customer experience value through “Kuroneko Members,” and “Carbon Neutral Delivery” for TA-Q-BIN/TA-Q-BIN Compact/EAZY. Also, we will revise reported fares each year based on changes in the external environment, and review individual contracts with corporate clients. Through those initiatives, among others, we will promote appropriate pricing and fee collection.
- ii) **Expansion of corporate business domain**
The Yamato Group is positioning the solutions business as a new growth area, aiming to solve customers’ management issues that extend throughout the entire supply chain, amid increasing risk factors such as global political and economic blockages in the supply chain and environmental issues, and will focus to expand Contract Logistics business and Global business.
In Contract Logistics business, putting an emphasis on synergy with Express business, we will strengthen our efforts to further expand the usage of TA-Q-BIN, charge appropriate pricing corresponding to the value provided, and acquire new logistics revenue through providing solutions that help solve problems and grow business of customers using TA-Q-BIN. We will establish a sales support structure and improve skills of sales staff so that corporate sales staff assigned to each area can make suitable proposals by utilizing information noticed by sales drivers through contacts with customers, etc.
In Global business, viewing changes in the supply chain as an opportunity, leveraging the existing vast client base accumulated by TA-Q-BIN, we will make efforts to further expand business areas such as automotive and high-tech industries where the Yamato Group is demonstrating its strength, and strengthen sales capabilities especially in Japan, U.S. & Mexico, India and ASEAN. Also, we will improve the efficiency in mixed-loading of forwarding by narrowing down the focus markets, strengthen proposals to the growing cross-border EC,

and capture the logistics demands such as consumer goods accompanying expansion of domestic demand in the focus regions.

In order to accelerate the expansion of the growth areas, we will promote M&A and strategic alliances in addition to autonomous growth. In considering M&A, the division responsible for revenue and the dedicated M&A team will work together in an integrated way with discipline, focusing on compatibility with the growth strategies of Contract Logistics business and Global business as well as establishing quantitative criteria to measure investment effectiveness, among other things.

iii) Develop new business model

We will promote commercialization of new business models that addresses diverse needs of customers and society with a diverse range of partners, while utilizing existing management resources, to realize a sustainable future.

In Mobility business, we will develop platform and ecosystem that achieves both decarbonization and the right economics, and contribute to the overall sustainability of society and the logistics industry, by supporting introduction and operation of commercial EVs utilizing know-how of EVs, solar power generation equipment, energy management, etc. accumulated so far through environment investment and demonstration experiment within the Yamato Group based on our vehicle maintenance business. In addition, in order to respond to various needs of regional society besides sending and receiving packages, we will create new value by deploying “Neko Support Station” with an aim to provide new services, expanding sales of the “Kuroneko monitoring service: Hello Light Visit Plan” that uses “HelloLight” IoT light bulbs, etc. Moreover, we started operation of cargo aircraft (freighter) starting April 2024 in order to capture new demand by providing stable and speedy transportation, revitalize the regional economy through expanded distribution, and maintain and improve the transportation quality. We will gradually increase the number of flights and respond to new customer needs by offering flexible flight segment and timetables.

iv) Reinforcement of the Group’s management platform

The Yamato Group will be working on HR strategy, digital strategy, reinforcement of sustainable management, and reinforcement of governance as the foundation for sustainable enhancement of corporate value.

With regard to the HR strategy, with priority given to the optimal allocation of human resources in conjunction with business structure reform, we will optimize organization and headcount, and revise evaluation and compensation scheme. We will also promote the development and operation of an HR management structure that promotes independent and autonomous career development in order to develop human resources who can create added value.

Moreover, toward enhancing support to and motivation of diverse employees, we will establish welfare policy that matches the diversifying lifestyles of employees, promote employee health management and health promotion measures, and continue initiatives to promote diversity, human rights due diligence, and participation of women. Through those initiatives, we will aim to create higher added value by maximizing activities and contribution of each and every employee.

With regard to the digital strategy, we will strengthen our DX promotion framework and promote DX in tandem with our business, such as expanding the value we provide to customers by utilizing our digital infrastructure, transforming our way of “sorting,”

“transporting” and “working,” and business process reengineering of back-office operation.

With regard to reinforcement of sustainable management, we will strengthen our initiatives for each of the identified key issues (materiality) to enhance corporate value and realize a sustainable society over the medium to long term based on our two visions: “Connect. Deliver the future via green logistics” and “Through co-creation and fair business activities, help create a society that ‘Leaves No One Behind.’” With regard to the Environment, in order to realize “net-zero (in-house) GHG emissions in 2050” and “48% reduction in GHG emissions in 2030 (compared with fiscal year ended March 31, 2021),” we will continue to implement measures such as “introduction of 23,500 EVs,” “introduction of 810 solar power generation units,” and “increase in the use of electricity derived from renewable energy sources,” and develop a measurement method for supply chain (Scope 3) emissions. With regard to Social,

we will continue to take initiatives that involve developing a work environment in which we respect diverse personnel and in which employees are able to play active roles, while also working to build a sustainable supply chain through suitable relationships with business partners by holding regular discussions and establishing structure, process and mechanism for early detection and resolution of issues.

In strengthening corporate governance, we will continue working to separate management supervision and execution and maintain and enhance management transparency, while striving to sustainably increase corporate value through constructive dialogue with shareholders and investors and enhancement of disclosure.

- v) Embed management that places more focus on capital efficiency within the Group
In addition to the above strategic initiatives i) through iv), the Yamato Group set ROIC as a new management metric, besides operating margin and ROE, to embed management with greater emphasis on capital efficiency and achieve ROI above WACC. During the period of the Medium-term Management Plan, we will promote actively growth investments in facility strategy and DX strategy, etc. to help improve operation efficiency, while also promoting environmental investments in EVs, solar power generation equipment, etc. to realize a low carbon society, balancing the provision of logistics services with low environmental impact to customers and the improvement of energy efficiency of operations. In the growth domain of Contract Logistics business and Global business, we will utilize M&A and strategic alliances in addition to autonomous growth.

To support the above plan, we will raise funds through borrowings from financial institutions and issuance of corporate bonds as necessary, while being aware of financial soundness and efficiency, such as status of cash generation, cash and deposits held, and capital ratio, etc. as well as effective use of funds held in the Group. From the perspective of financial soundness, we set capital ratio at around 45~50% and D/E ratio at 0.3~0.5 times as guides, and will make efforts to maintain credit rating (Rating and Investment Information, Inc./AA-). With regard to shareholder return, the Company set targets of a payout ratio at 40% and more and a total shareholder return ratio at 50% or more based on profit attributable to owners of parent. We will flexibly consider the acquisition of treasury shares from standpoints of the progress of growth investments, cash flow trends, stock price movement, etc.

Through the Group's unified efforts, Yamato will create greater corporate value.

We look to the continued understanding and support of our shareholders and investors.

Positioning and growth story line of “SX2030 ~1st Stage~”

Environmental Strategy

We are promoting environmentally-conscious management, based on our Environmental Vision, to achieve both sustainable business growth and the development of a sustainable society. To realize our long-term target of achieving virtually zero GHG emissions (in-house emissions) by 2050 and medium-term target of a 48% reduction in GHG emissions by 2030 (compared with the fiscal year ended March 31, 2021), we will promote measures to reduce such emissions, such as the introduction of EVs and solar power generation equipment in conjunction with facility strategies in the structural reform of network operations based on climate change-related risks and opportunities. At the same time, we will expand the corporate business domain by supporting the creation of supply chains with a low environmental burden and visualizing GHG emissions in relation to customer needs, such as reducing GHG emissions related to logistics.

Plan for Reducing GHG Emissions to Achieve Medium-Term Targets (2030)

Cases of Initiatives in Environmental Area

Full-scale operations of a model store that carries out energy management —Install solar power generation equipment and storage batteries to utilize renewable energy—

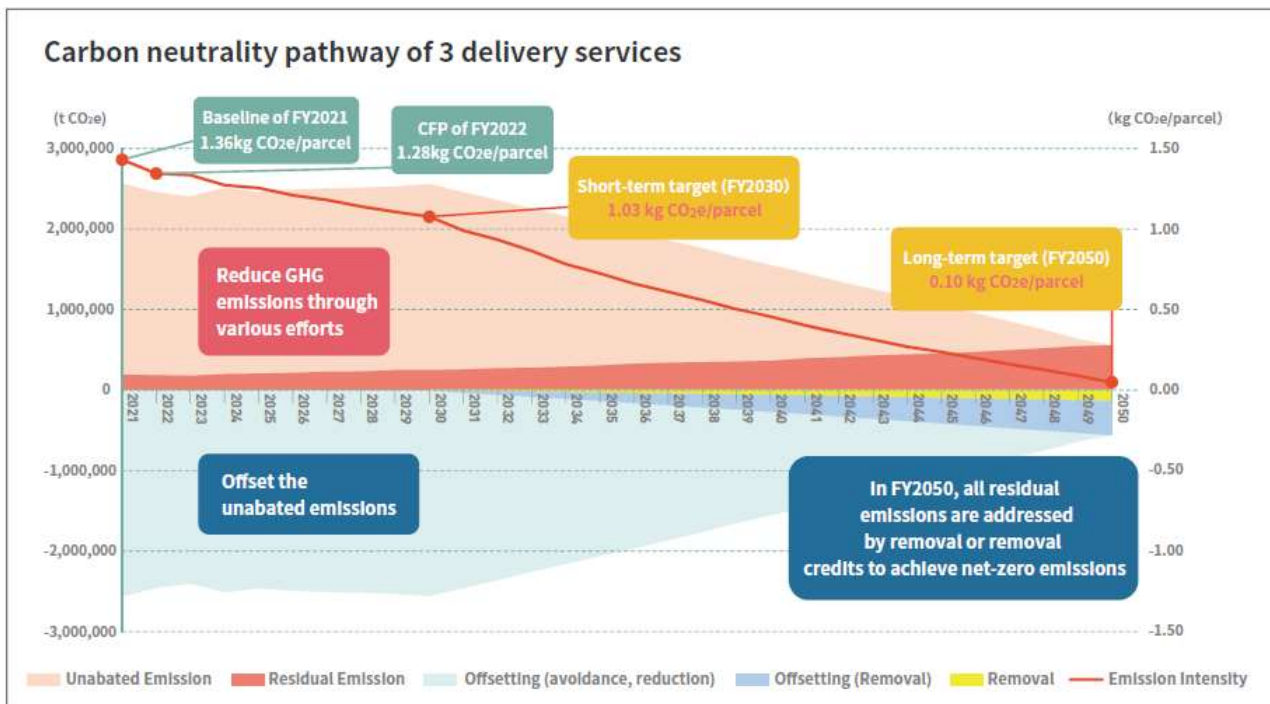

In order to realize net-zero (in-house) GHG emissions in 2050, the Yamato Group has set targets such as the introduction of 20,000 EVs and 810 solar power generation units by 2030. In October 2023, Yamato Transport converted all pickup and delivery vehicles at its Yawata Sales Office (Kyoto Prefecture) to EVs (32 vehicles) and began full-scale operations of the sales office as a model store utilizing electricity generated via renewable energy sources. The sales office has installed solar power generation equipment and storage batteries to cover EV recharging and part of its buildings' power usage* with electricity generated during the day. It also utilizes the Kansai Electric Power Group's power leveling system to reduce peak load due to simultaneous EV charging at night, thereby contributing to the realization of sustainable logistics.

*For the portion that cannot be covered by solar power generation, we purchase CO₂-free electricity from The Kansai Electric Power Company, Incorporated.

Declaration of Carbon Neutrality

Yamato Transport Co., Ltd. implemented the "Declaration of Carbon Neutrality" for three of our parcel delivery services: TA-Q-BIN, TA-Q-BIN Compact, and EAZY, our mainstay service. This declaration is to show that we achieved carbon neutrality in accordance with the international standard ISO 14068-1:2023 in the fiscal year ended March 31, 2023 (April 2022 to March 2023), and to show our commitment that we will continue our efforts to reduce our own GHG emissions from business activities, to achieve carbon neutrality for three of our parcel delivery services by 2050.

Through the provision of transportation services that are mindful of climate change, the Yamato Group will further promote the use of such services by individual and corporate customers.

ii) Policy for determining performance-based remuneration (variable remuneration)

The short-term performance-based remuneration (variable) is based on the basic remuneration (fixed) determined by position, with a proportion set for each position and a standard amount set. Then the amount of the payment for each individual is determined within the range of 0% to 150% of the standard amount, depending on the Company's achievement rate of performance indicators and the mission assessment of each individual. The performance indicators are consolidated operating revenue, consolidated operating profit, and profit attributable to owners of the parent.

The medium- to long-term performance-based stock compensation (variable) is based on the basic remuneration (fixed) determined by position, with a proportion set for each position and a standard amount set. Then the amount of the payment for each individual is determined within the range of 0% to 150% of the standard amount, depending on the Company's achievement rate of performance indicators and the mission assessment of each individual. The performance indicators are ROE, TSR, and ESG indicators. One point per share is granted each fiscal year as the number of points obtained by dividing the amount of medium- to long-term performance-based Stock Compensation (variable) by the average closing price of the Company's shares on the Tokyo Stock Exchange during the month preceding the fiscal year in which the Medium-term Management Plan is initiated.

The above indicators for performance-based remuneration are used to better link remuneration to corporate performance and also to achieve greater transparency and objectivity.

The Company has calculated the annual amount of performance-based remuneration based on these results and then converted that result to a monthly amount, which is applied to the period extending from July 2023 through June 2024.

(i. $76.0\% \times 0.4$ + ii. $95.5\% \times 0.3$ + iii. $82.5\% \times 0.2$)

With the formulation of the Yamato Group Medium-Term Management Plan “Sustainability Transformation 2030 — 1st Stage —,” to aim to penetrate management more focusing on capital efficiency, based on a report from a discussion by the Nomination and Compensation Committee, we have added ROIC to the mid- to long-term performance indicators since April 1, 2024.

iii. Resolution of the General Meeting of Shareholders on remuneration and other compensation for Audit & Supervisory Board Members and Directors

A resolution of the General Meeting of Shareholders to determine remuneration for the Company’s Directors was approved on June 23, 2020. Accordingly, it was resolved that remuneration for Directors shall amount to not more than 431 million yen per year (of which, up to 109 million yen is to be allocated to Outside Directors), and short-term and mid- to long-term performance-based remunerations paid to Directors (excluding Outside Directors) shall amount to not more than 245 million yen and 173 million yen per year, respectively. The Company has deemed that these are competitive remuneration levels for recruiting and retaining talented persons amid its rapidly changing business environment. The Company furthermore seeks to contend with developments that include an increase in Director’s responsibilities along with the Company having increased its number of Directors and Audit & Supervisory Board Members with the aims of achieving transparency and vigor of the Board of Director’s operations and enhancing management oversight. There were nine (9) Directors on the Company’s Board of Directors upon approval of the resolution. Meanwhile, remuneration for Audit & Supervisory Board Members was set at an amount of up to 800 million yen per month, per resolution at its General Meeting of Shareholders held on June 29, 1994. The Company had four (4) Audit & Supervisory Board Members upon approval of the resolution.

iv) Policy, etc. on making decisions on content of officer remuneration and other compensation

i. Basic policy

The Company determines matters regarding remuneration for the Company's Directors based on the following considerations.

Competitive remuneration levels

- The remuneration level shall reward Officers for their roles, responsibilities, and business performance, and shall be appropriate for securing talented persons.

Remuneration system that places emphasis on increasing corporate value and shareholder value

- The remuneration system shall be linked to business performance and furthermore serve as motivation for achieving performance targets.
- The remuneration structure shall be linked to medium- to long-term corporate value and furthermore encourage a sense of common interests with shareholders.

Fairness and impartiality of the remuneration system

- The process of determining remuneration shall be objective and highly transparent.

ii. Remuneration structure

The Company's remuneration for Directors consists of basic remuneration (fixed), short-term performance-based remuneration (variable), and medium- to long-term performance-based stock compensation (variable), considering the remuneration level at other companies and other factors. In addition, remuneration for Audit & Supervisory Board Members and Outside Officers consists exclusively of basic remuneration due to the nature of their functional roles.

iii. Policy for determining basic remuneration (fixed remuneration)

Basic remuneration (fixed remuneration) is determined in accordance with rank and title and based on responsibilities, upon having considered remuneration levels at other companies and other such factors.

iv. Policy for determining mix of remuneration and other compensation types for individual Directors

The mix of remuneration types is such that the higher a Director's position, the more weight assigned to performance-based remuneration. The Company has opted for this approach upon having taken into account remuneration levels at other companies, in part because this approach makes it possible to further fuel motivation with respect to achieving performance targets, generating medium- to long-term corporate value, and attaining sustainable growth, and also because the Company seeks to offer remuneration levels competitive for recruiting and retaining talented persons.

v. Timing of delivery and conditions

The Company pays its basic remuneration (fixed remuneration) and short-term performance-based remuneration (variable remuneration) as monetary sums on a monthly basis encompassing twelve equal installments annually. The medium- to long-term performance-based stock compensation (variable) will be granted once a year in the form of points around June, which will be distributed at the time of retirement in accordance with the Stock Compensation Rules for Officers with the accumulated points up to the time of retirement being converted into one share per point.

v) Authority for decisions on remuneration and other compensation for individual Directors

On the basis of policy for decisions resolved by the Board of Directors, the Company decides the amounts of basic remuneration (fixed), short-term performance-based remunerations (variable), and medium- to long-term performance-based stock compensation (variable) for individual Directors upon having taken into consideration the amount of remuneration for individual Directors and details of calculation of such amount discussed and reported by the Nomination and Compensation Committee, where Independent Outside Directors occupy the majority of its members and which is chaired by one of the Outside Directors, so that it will assess each of the Directors while taking factors such as Company-wide business results into consideration.

vi) Other

A certain percentage of the monetary remuneration shall be allocated to the purchase of shares of the Company through the Officers and Executives' Shareholding Association. In order to implement a process with high objectivity and transparency for activities of the Nomination and Compensation Committee to decide remuneration and other compensation for individual Directors in the fiscal year ended March 31, 2024, the Company held 10 meetings of the Nomination and Compensation Committee, and the decision was made by the Board of Directors upon having taken into consideration the amount of remuneration for individual Directors and details of calculation of such amount based on the Policy for determining remuneration and other compensation for individual Directors.

(2) Operational Status of Systems for Ensuring Proper Business Operations

Details are provided as follows on the operational status of systems for ensuring proper business operations.

i) Execution of duties by directors

The Board of Directors holds 20 meetings which are attended by the directors and Audit & Supervisory Board Members (one resolution was separately adopted by means of writing). Those in attendance adopt resolutions on individual proposals in accordance with decision-making standards, and also discuss matters and make resolutions with respect to key issues of mid- to long-term management strategies encompassing areas such as growth strategy, investment, capital management policy, and human resource strategy.

ii) Compliance

We regard compliance as one of the top priority issues in our business management, and have established a Compliance and Risk Committee and a division in charge of compliance promotion at the Company and our Group companies in order to manage and monitor the implementation of compliance. In the event of matters requiring correction, there is a framework in place, where the Committee will directly provide guidance and recommendations to the manager of the relevant division, hear the results of the correction, and report the results to the Board of Directors and the Audit & Supervisory Board.

There is also a mechanism established for a Group internal reporting system that allows employees of the Company and our Group companies to report directly in the event of compliance violation.

In addition, in order to be a corporate Group broadly trusted by society, we have declared in the “Corporate Stances” of our “Group Corporate Philosophy” that we will resolutely reject any relationship with antisocial forces or groups that threaten the order and safety of civic life, and have already established a dedicated department in the Group. This dedicated department works in cooperation with the police, lawyers, and other external organizations to prevent involvement in management by antisocial forces and damage to the Company.

iii) Risk management

Officers responsible for divisions in charge of compliance and risk management are stationed at the Company and each Group company, forming a system to address risk in a swift and harmonious manner.

Any emergency situation is accurately and promptly assessed and reported without delay to the relevant parties within the Company, including Directors and Audit & Supervisory Board Members, in accordance with the Group’s common framework for reporting emergencies.

In addition, in order to prevent situations that could have a significant impact on corporate activities, major risks are identified, case examples are shared, and countermeasures are discussed at the Compliance and Risk Committee of the Company and our Group companies.

iv) Audit structure

The Internal Audit Department of the Company and internal audit departments of major Group companies respectively check to make sure that business operations are being performed effectively in accordance with the rules, and they accordingly develop frameworks to immediately rectify matters when aberrations are found to exist.

Moreover, Audit & Supervisory Board Members of the Company and full-time Audit & Supervisory Board Members of each Group company hold monthly Group Audit & Supervisory Board Members’ Liaison Meetings. In so doing, they collaborate by sharing information, and effectively monitor operations in a manner that is coordinated with Group management.

(3) Policy on Decision of Appropriation of Surplus

As a pure holding company, the purpose of the Company is to enhance the entire Group’s corporate value. Accordingly, the Company pays dividends from surplus with the goal of having a payout ratio of 40% or more on the basis of profit attributable to owners of parent for the fiscal year under review. Retained earnings are used to facilitate the growth of the Group as a whole through capital expenditure—to strengthen the network, one of our management resources, and develop new businesses and products, for example—and investments are aimed at raising the corporate value in the future. Finally, the Company will flexibly consider the use of treasury shares, such as utilization for M&A, as a part of our capital policy.

Notes to Consolidated Financial Statements

1. Basis of Preparation of the Financial Statements

(1) Amounts described are rounded down to the nearest million yen.

(2) Scope of Consolidation

- 1) Number of Consolidated Subsidiaries: 27
Names of major consolidated subsidiaries:
Yamato Transport Co., Ltd. Okinawa Yamato Transport Co., Ltd. YAMATO TRANSPORT U.S.A., INC.
YAMATO ASIA PTE. LTD. YAMATO INVESTMENT (HONG KONG) LIMITED YAMATO BOX CHARTER CO., LTD.
Yamato System Development Co., Ltd. Yamato Autoworks Co., Ltd.
Effective from the beginning of the fiscal year under review, Express Network Co., Ltd. is excluded from the scope of consolidation due to the conclusion of its liquidation, and Yamato Staff Supply Co. Ltd. is excluded from the scope of consolidation due to the partial transfer of its shares.
- 2) Non-consolidated Subsidiaries, etc.
OTL ASIA SDN. BHD. and certain other subsidiaries are not included within the scope of consolidation. The total assets, operating revenue, profit, and retained earnings of these non-consolidated subsidiaries are immaterial and, even taken together as a group, they do not exert a significant influence on the consolidated financial statements.

(3) Application of Equity Method

- 1) Number of Affiliates Accounted for Using Equity Method: 30
Names of major equity method affiliates:
Packcity Japan Co., Ltd. GDEX BHD.
Yamato Lease Co., Ltd. Yamato Home Convenience Co., Ltd.
Yamato Staff Supply Co. Ltd.
Effective from the beginning of the fiscal year under review, Yamato Staff Supply Co. Ltd. is excluded from the scope of consolidation and included in the scope of the equity method due to the partial transfer of shares. Effective from the beginning of the fiscal year under review, ALP Capital Sdn. Bhd. and four other companies are included in the scope of the equity method due to the acquisition of new shares by GDEX BHD., an entity accounted for using the equity method.
- 2) Non-consolidated Subsidiaries and Affiliates Not Accounted for Using Equity Method
Entities not subject to the equity method such as OTL ASIA SDN. BHD., certain other non-consolidated subsidiaries, and YAMATO UNYU (THAILAND) CO., LTD., and certain other affiliated companies are excluded from the scope of entities accounted for using the equity method because they do not exert a significant influence on the consolidated financial statements even when taken together as a group, given the immateriality of their profit (the amount corresponding to the ownership held by the Company), retained earnings (the amount corresponding to the ownership held by the Company), and other financial results.
- 3) Special Note on the Application of Equity Method
The fiscal year-end dates of certain entities accounted for using the equity method differ from the consolidated fiscal year-end date, and accordingly the financial statements have been prepared on the basis of the financial statements and provisional financial results for the respective fiscal years of each of those entities.

(4) Closing Date of Consolidated Subsidiaries

Of consolidated subsidiaries, YAMATO TRANSPORT U.S.A., INC. and nine other overseas subsidiaries have December 31 as their financial year end. Financial statements as of this closing date were used in the preparation of the consolidated financial statements. However, the consolidated figures have been adjusted as required to reflect significant transactions occurring between December 31, 2023, and March 31, 2024, which is the consolidated closing date.

(5) Accounting Policies

- 1) Valuation Basis and Methods for Securities Available-for-sale Securities
 - Other than stocks and other securities with no market price
Stated at the fair market value based on the quoted market price
(valuation differences are recognized in net assets; the cost of securities sold is calculated by the moving average method)
 - Stocks and other securities with no market price
Stated at the cost calculated by the moving-average method

Investments in the limited partnership for investment and similar partnerships
(Securities deemed to be securities pursuant to Article 2, Paragraph 2 of the Financial Instruments and Exchange Act)
Net amount of the Company's interest in the partnership based on the most recent financial statements available, according to the reporting date stipulated in the partnership agreement
- 2) Valuation Basis and Methods for Inventories
Stated at the cost calculated by first-in first-out method (for the value stated in the balance sheet, book value is written down based on the decreased profitability)
- 3) Depreciation and Amortization Methods of Non-current Assets
 - Property, plant, and equipment (excluding leased assets):
Straight-line method
 - Intangible assets (excluding leased assets):
Straight-line method. However, software is amortized by the straight-line method over the estimated useful life (five years).
 - Leased assets:
Straight-line method where the useful life of leased assets shall be equal to the lease period and the residual value shall be zero
- 4) Accounting Method for Provision
 - Allowance for doubtful accounts
The allowance for doubtful accounts is provided to prepare for losses from uncollectible credits. For ordinary receivables, the amount is estimated using the rate based on the historical bad debt experience. For special receivables with higher uncertainty, collectivity is considered in individual cases and prospective uncollectible amount is provided.
 - Provision for bonuses
The provision for bonuses is provided for the payment of bonuses to employees based on the amount expected to be paid.
 - Provisions for share based remuneration for officers
In preparation for the payment of shares based on the Regulations on Share-based Remuneration for Officers, the expected amount of compensation is recorded according to the points allocated to Officers.
- 5) Method of Accounting for Retirement Benefits
 - i. Method of attributing expected retirement benefit to periods
In calculating the retirement benefit obligations, the straight-line basis is used in determining the amount of the expected retirement benefit obligation attributed to service performed up to the end of the fiscal year under review.
 - ii. Method of recognizing actuarial differences and prior service costs
The entire amount of prior service cost is recognized in profit or loss in the fiscal year during which it arises.
Actuarial differences are recognized in profit or loss in the year following the year in which a respective gain or loss arises and are amortized proportionally on a straight-line basis over a period of time (mainly five years), which is within the average remaining years of service of the eligible employees.
 - iii. Method of accounting for unrecognized actuarial difference
Unrecognized actuarial difference is accounted for in remeasurements of defined benefit

plans, after adjusting for tax effects, under accumulated other comprehensive income of net assets.

6) Accounting Method for Revenues and Costs

Revenue from contracts with customers

The following is a summary of the principal performance obligations in the Company's and its consolidated subsidiaries' principal businesses relating to revenues from contracts with customers and the normal time at which such performance obligations are satisfied (the normal time for recognizing revenues).

i. Retail Business Unit

The Retail Business Unit provides small parcel delivery services such as TA-Q-BIN for consumers and small to medium-sized corporations. In this transportation service, based on contracts with customers, the Company provides pickup and delivery services at the request of customers, and revenues from these services are recognized in proportion to the fulfillment of performance obligations measured by the progress of deliveries, since other companies are not required to re-perform the transportation process that has already been executed even if the delivery to the designated destination cannot be completed.

ii. Corporate Business Unit

In addition to the same transportation services as the Retail Business Unit, the Corporate Business Unit provides logistics support services, such as cargo storage and logistics services for inbound and outbound shipments, in order to provide value to the entire supply chain of its customers. The Company provides logistics support services, which include the collection, storage, packing, and delivery of cargo based on contracts with customers, and recognizes each contractually agreed-upon process as a performance obligation. The Company recognizes revenue for each process under the contract as the fulfillment of the performance obligation, which is measured by the progress of the work, as the customer receives the economic benefit of the work as it progresses.

2. Accounting Estimates

(Impairment of non-current assets)

(1) The amount recognized in the consolidated financial statements for the fiscal year under review

The following is a list of items that have been recognized in the consolidated financial statements for the fiscal year under review based on accounting estimates and that may have a material effect on the consolidated financial statements for the following fiscal year.

Property, plant, and equipment:	454,753 million yen
Intangible assets:	41,215 million yen

(2) Information on significant accounting estimates for identified items

When there is an indication that an asset may be impaired, the Company assesses whether impairment is necessary based on the future cash flows of the asset. The cash flow generating unit, which is the unit used to determine whether impairment is required, is the smallest unit of the asset group identified as generating cash inflows that are generally independent of the cash inflows of other assets or asset groups.

Asset groups are created in consideration of the management accounting classification and the unit used for investment decision making. For Yamato Transport Co., Ltd., the Company reviewed its grouping in accordance with the changes of the management accounting classification. The grouping is based on customer segments and business segments, and assets associated with Corporate function are classified as common assets.

Regarding the above property, plant, and equipment and intangible assets, the Company identified signs of impairment and judged the necessity to recognize impairment losses of the assets by each group. However, there is a possibility that those numbers used for the evaluation may be impacted by uncertain future economic and business conditions, including cost situation caused by the changes in the external environment such as the trends of prices and delivery volumes of TA-Q-BIN, resource and energy prices, hourly wage rates, etc. If it becomes necessary to revise the premise and assumptions of estimates, it may have a material impact on the consolidated financial statements for the next and subsequent periods.

3. Notes on Additional Information

(The “Board Benefit Trust (BBT),” a performance-linked stock compensation plan)

The Company has adopted the Board Benefit Trust (BBT) performance-linked and share based remuneration system (the “System”). The purpose of the Trust is to further clarify the linkage of remuneration for Directors (excluding Outside Directors) and executive officers, etc. who do not concurrently serve as Directors (collectively, “Officers”), and the Company’s business performance and share value, and ensuring that not only the benefit of the increase in share prices, but also the risk of the decrease in share prices is shared between the Officers and the shareholders, thereby further motivating the Officers to contribute to the improvement in the business performance and corporate value over the medium to long term.

(1) Overview of transactions

The System is a performance-linked and share-based remuneration system under which the Company’s shares are acquired through a trust using money contributed by the Company as the source of funds (the “Trust”), and the Officers are provided with the Company’s shares and an amount of money equivalent to the market value of the Company’s shares (the “Company’s Shares, etc.”) through the Trust in accordance with the Regulations on Share-based Remuneration for Officers established by the Company. The Officers shall receive the Company’s Shares, etc. upon their retirement, in principle.

(2) Accounting procedures

Accounting for the trust shall be carried out in accordance with the “Practical Solution on Transactions of Delivering the Company’s Own Stock to Employees, etc. through Trusts” (ASBJ Practical Issues Task Force (PITF) No. 30, March 26, 2015).

(3) Shares of the Company remaining in trust

Shares of the Company remaining in trust are to be recorded as treasury shares under net assets at book value in trust (excluding incidental expense amounts). There are 480 thousand shares of such treasury shares at a book value of 1,366 million yen as of March 31, 2024.

(Dissolution and Liquidation of Subsidiaries)

At the Company’s Board of Directors meeting held in the previous fiscal year, the Company resolved to liquidate its subsidiaries, YAMATO ASIA PTE. LTD. and YAMATO INVESTMENT (HONG KONG) LIMITED, and is preparing for the liquidation proceedings now.

(1) Reasons for Dissolution and Liquidation

As the Company progresses with the reconstruction of an appropriate governance structure that aligns with business scale, characteristics, country/region-specific factors, and the growth stage of overseas operations, the Company has determined the need to reorganize the current management structure based on the previous overseas governance framework. Consequently, the Company decided to initiate the liquidation of YAMATO ASIA PTE. LTD. and YAMATO INVESTMENT (HONG KONG) LIMITED.

(2) Name, Business Content, and Ownership of Subsidiary

(5) Impact on Profit/Loss due to the Dissolution and Liquidation

The impact caused by expenses incurred due to the dissolution and liquidation of subsidiaries on profit and loss is minor.

(6) Significant Impact of the Dissolution and Liquidation on Business Activities

The impact of the dissolution and liquidation of the subsidiaries on business activities is minor.

(Application of Group Tax Sharing System)

Regarding the accounting treatment and disclosure related to tax effect accounting for corporate income tax and local corporate tax, the Company and some domestic consolidated subsidiaries are applying the Group Tax Sharing System from the fiscal year under review in compliance with the "Practical Solution on the Accounting and Disclosure Under the Group Tax Sharing System" (ASBJ Practical Solutions No. 42, August 12, 2021).

4. Notes to the Consolidated Balance Sheet

(1) Receivables, contract assets, and contract liabilities arising from contracts with customers

- 1) Amounts of notes receivable - trade, accounts receivable - trade and contract assets arising from contracts with customers
Notes receivable - trade: 1,083 million yen
Accounts receivable - trade: 182,771 million yen
Contract assets: 4,551 million yen
- 2) Amount of contract liabilities included in other current liabilities
Contract liabilities: 13,431 million yen

(2) Accumulated depreciation of property, plant, and equipment: 523,900 million yen

(3) Balance of liabilities on guarantee

Guarantee of obligation for debt financing: 20 million yen

5. Notes to the Consolidated Statement of Income

(1) Revenue from contracts with customers

The Company does not separately present revenues from contracts with customers and other revenues. The amount of revenue from contracts with customers is presented in “8. Revenue Recognition (1) Information on breakdown of revenue from contracts with customers” in the Notes to Consolidated Financial Statements.

(2) Impairment loss

During the fiscal year under review, the Yamato Group posted an impairment loss on the following asset group.

Use of asset	Type of asset	Region	Impairment loss (Millions of yen)
Idle assets and other	Machinery and equipment, software, other	Yamato Transport Co., Ltd. Kansai Gateway (Ibaraki City, Osaka) Six other premises	1,423

At the Yamato Group, asset groups are created in consideration of the management accounting classification and the unit used for investment decision making. For Yamato Transport Co., Ltd., the Company reviewed its grouping in accordance with the changes of the management accounting classification. The grouping is based on customer segments and business segments, and assets associated with Corporate function are classified as common assets. For the Company and its consolidated subsidiaries, the grouping is based on the unit of department. For idle assets, the grouping is based on individual assets.

During the fiscal year under review, the Group recognized no future usage and a continuous decrease in profit and loss arising from operating activities or significant declines in market prices for the asset group consisting of Kansai Gateway of Yamato Transport Co., Ltd. and 6 other premises, and it decreased the book value of the relevant asset group to the recoverable value and posted the relevant decrease of 1,423 million yen to extraordinary losses as an impairment loss.

A main breakdown of this decrease shows that 863 million yen was attributable to machinery and equipment and 522 million yen was attributable to software.

If the recoverable value of such asset group is calculated based on value in use, the amount is valued by discounting future cash flows with a discount ratio (mainly 6.00%). Where the recoverable value is calculated based on net realizable value, idle assets are assumed to be zero, and assets other than idle assets are valued based mainly on real estate appraisal standards, the assessed value of property tax, or the posted land price.

6. Notes to the Consolidated Statement of Changes in Equity

(1) Class and Total Number of Issued Shares and Treasury Shares:

	(Thousands of shares)			
	Number of shares as of beginning of fiscal year under review	Number of increased shares in fiscal year under review	Number of decreased shares in fiscal year under review	Number of shares as of end of fiscal year under review
Issued shares				
Common shares*1	379,824	–	19,328	360,496
Total	379,824	–	19,328	360,496
Treasury shares				
Common shares*2	17,552	19,328	19,332	17,548
Total	17,552	19,328	19,332	17,548

Notes: 1. The decrease of 19,328 thousand shares in the number of common shares issued is due to the cancellation of treasury stock held.

2. The number of treasury stock of common stock includes the Company's shares held by the Board Benefit Trust (BBT) (483 thousand shares at the beginning of the fiscal year under review and 480 thousand shares at the end of the fiscal year under review).

The increase of 19,328 thousand shares of treasury shares of common shares is mainly due to the

purchase of 19,328 thousand treasury shares.

The decrease of 19,332 thousand shares of treasury shares of common shares is mainly due to the cancellation of 19,328 thousand treasury shares and the provision of three thousand treasury shares to retired officers through the Board Benefit Trust (BBT).

(2) Dividends

1) Payments of dividends

Resolution	Type of shares	Total amount of dividends (Millions of yen)	Dividend per share (Yen)	Record date	Effective date on and after

November 1, 2023 Board of Directors	Common shares	8,089	23	September 30, 2023	December 8, 2023

- Notes: 1. The total amount of dividends resolved by the Board of Directors on May 17, 2023, includes dividends of 11 million yen for the Company's shares held by the Board Benefit Trust (BBT).
2. The total amount of dividends resolved by the Board of Directors on November 1, 2023 includes dividends of 11 million yen for the Company's shares held by the Board Benefit Trust (BBT).

2) Dividends with a record date that falls within the fiscal year under review but an effective date starting in the upcoming fiscal year

Resolution	Type of shares	Total amount of dividends (Millions of yen)	Source of dividend	Dividend per share (Yen)	Record date	Effective date on and after
May 15, 2024 Board of Directors	Common shares	7,898	Retained earnings	23	March 31, 2024	May 31, 2024

Note: The total amount of dividends resolved by the Board of Directors on May 15, 2024, includes dividends of 11 million yen for the Company's shares held by the Board Benefit Trust (BBT).

7. Notes to the Financial Instruments

(1) Matters concerning the status of financial instruments

1) Policy on financial instruments

To finance further business growth, the Yamato Group raises capital through bank loans and bond issuances based on a facilities investment scheme that includes the network development plan. One-time surplus funds are invested in safe financial assets. Derivative products are mainly used for hedging against variable interest rate risk, and no speculative transactions are undertaken.

Some of the Group's consolidated subsidiaries are engaged in businesses such as third-party credit sales.

2) Features and risks of financial instruments and risk management structure

Operating receivables such as notes and accounts receivable - trade and accounts receivable - installment carry credit risk of trading partners, and thus the Company manages and controls cash received, as well as outstanding receivables, for each period to identify the credit risk of each trading partner.

Regarding investment securities, the Yamato Group mainly holds shares of companies with which the Group has business relationships or forms a capital alliance, and such shares involve the risk of stock price fluctuations.

The majority of operating payables, such as notes and accounts payable - trade, are due within one year.

Short-term borrowings and long-term borrowings are mainly used to raise capital for the Group's financial business. Borrowings are mainly procured at fixed rates of interest.

Within the Yamato Group, each Group company controls liquidity risk associated with operating payables and borrowings by monitoring payments and settlements, bookkeeping, and balances, as well as managing cash positions.

3) Supplemental remarks on the fair value of the financial instruments

Since variable factors are incorporated in the calculation of the market value of financial

instruments, the value may change due to the adoption of different assumptions, etc.

(2) Matters concerning fair value of financial instruments

The table below shows the amounts recorded on the consolidated balance sheet as of March 31, 2024, their fair values, and differences between them.

	(Millions of yen)		
	Amount on the consolidated balance sheet	Fair value	Difference
Notes and accounts receivable - trade and contract assets	212,094		
Allowance for doubtful accounts	(302)		
	211,792	211,812	20
Accounts receivable - installment	52,787		
Allowance for doubtful accounts	(1,003)		
Deferred installment income	[5,163]		
	46,620	50,952	4,332
Investment securities			
Investment securities	25,822	25,822	-
Shares of subsidiaries and associates	3,764	7,205	3,440
Short-term borrowings	[10,181]	[10,181]	-
Long-term borrowings	[20,818]	[20,802]	(15)

Notes: 1. Items recognized as liabilities are shown in brackets [] both under Amount on the consolidated balance sheet and Fair value.

2. Cash and deposits are omitted because they are settled in a short period of time and their fair value approximates their book value.
3. Notes and accounts receivable - trade and contract assets are presented after deducting allowances for doubtful accounts set up for notes and accounts receivable - trade and contract assets not payable in the short term.
4. Accounts receivable - installment is presented after deducting the relevant allowance for doubtful accounts and deferred installment income.
5. Stocks and other securities that have no market price are not included in investment securities. Such financial instruments are unlisted equity and investments in capital, which amounted to 11,979 million yen in the consolidated balance sheets.
6. Investments in partnerships and other similar entities that are recorded on the consolidated balance sheets at a net amount equivalent to the Company's ownership interest are not included in investment securities. The amount of this investment in the consolidated balance sheet is 9,300 million yen.
7. Notes and accounts payable - trade are omitted because most of them are due within one year and their fair values are approximately equal to their book values.

(3) Matters concerning the breakdown of the fair value of financial instruments by level and other items
The fair value of financial instruments is classified into the following three levels based on the observability and materiality of the inputs used to calculate fair value.

Level 1 fair value Of the inputs related to the observable fair value calculation, the fair value is calculated based on the market price of the asset or liability formed in the active market.

Level 2 fair value Of the inputs related to the observable fair value calculation, the fair value is calculated based on inputs other than the inputs used in level 1.

Level 3 fair value Fair value is calculated using inputs for calculating unobservable fair value.

When multiple inputs that have a significant influence on the market value calculation are used, the market value is classified into the lowest priority level in the market value calculation among the levels to which those inputs belong.

1) Financial instruments carried on the consolidated balance sheet at fair value

Item	Fair value (Millions of yen)			
	Level 1	Level 2	Level 3	Total

Stocks	25,655	–	–	25,655
Others	167	–	–	167
Total assets	25,822	–	–	25,822

2) Financial instruments other than those carried on the consolidated balance sheet at fair value

Item	Fair value (Millions of yen)			
	Level 1	Level 2	Level 3	Total
Notes and accounts receivable - trade and contract assets	–	211,812	–	211,812
Accounts receivable - installment	–	50,952	–	50,952

Short-term borrowings	–	10,181	–	10,181
Long-term borrowings	–	20,802	–	20,802
Total liabilities	–	30,984	–	30,984

Notes: Explanation of valuation techniques used and inputs related to the calculation of fair value

Investment securities

Stocks are listed stocks and are valued using quoted market prices. Since listed stocks are traded in active markets, their fair value is classified as Level 1 fair value.

Others are stock acquisition rights and are valued using quoted market prices. Since stock acquisition rights are traded in active markets, their fair value is classified as Level 1 fair value.

Notes and accounts receivable - trade and contract assets

The fair value of those assets is determined using the discounted present value method based on the amount of the receivable, the period to maturity, and the interest rate that takes into account credit risk for each receivable classified by certain time periods, and is classified as Level 2 fair value.

Accounts receivable - installment

The fair value of accounts receivable - installment is determined using the discounted present value method based on the amount of the receivable, the period to maturity, and the interest rate that takes into account credit risk for each receivable classified by certain time periods, and is classified as Level 2 fair value.

Short-term borrowings and long-term borrowings

The fair value of short-term borrowings and long-term borrowings is determined using the discounted present value method based on the total amount of principal and interest and an interest rate that takes into account the remaining term of the debt, and credit risk and is classified as Level 2 fair value.

8. Revenue Recognition

(1) Information that breaks down revenue from contracts with customers

(Millions of yen)

	Retail Business Unit	Corporate Business Unit	Other Note 1	Total
Transportation income	1,181,251	627,096	22,835	1,831,183

Operating revenue or transfers between segments	(332,775)	(13,234)	(100,766)	(446,775)
Operating revenue from customers	877,948	824,096	56,581	1,758,626

- Notes: 1. Other includes Yamato System Development Co., Ltd. (information systems development), and Yamato Autoworks Co., Ltd. (collective vehicle management agent business for transportation companies).
 2. Other revenue consists of transactions related to financial instruments included in the scope of ASBJ Statement No. 10 “Accounting Standard for Financial Instruments,” such as installment sales.

(2) Information that provides a basis for understanding revenue from contracts with customers

The same information as in “1. Basis of Preparation of the Financial Statements, (5) Accounting Policies, 6) Accounting Method for Revenues and Costs” in the Notes to Consolidated Financial Statements has been omitted.

None of the contracts include significant financial elements or variable consideration, and the contractual consideration for services is generally received within 30–70 days from the time of revenue recognition. The contractual consideration for transportation services provided to individual customers in the Retail Business Unit is received at the time the shipment is accepted.

(3) Information about the relationship between the satisfaction of performance obligations under contracts with customers and cash flows from such contracts, and the amount and timing of revenue expected to be recognized in subsequent periods from contracts with customers that existed at the end of the fiscal year under review

1) Financial instruments carried on the consolidated balance sheet at fair value

(Millions of yen)

	Fiscal year ended March 31, 2024
Receivables from contracts with customers (beginning balance)	185,549
Receivables from contracts with customers (balance at end of period)	183,854
Contract assets (beginning balance)	4,793
Contract assets (balance at end of period)	4,551
Contract liabilities (beginning balance)	14,263
Contract liabilities (balance at end of period)	13,431

Contract assets are mainly recognized in TA-Q-BIN transactions and are recognized based on the estimated revenue from the progress of deliveries up to the end of the fiscal year. Contract assets are reclassified to receivables from contracts with customers when the subsidiary’s rights to the consideration become unconditional.

Contract liabilities mainly relate to advances received from customers who have subscribed to the Kuroneko Member Discount program for TA-Q-BIN transactions. Contract liabilities are reversed upon the recognition of revenue.

Among the revenues recognized during the fiscal year under review, the amount included in the contract liability balance at the beginning of the period was 11,282 million yen. The amount of revenue recognized in the fiscal year under review from performance obligations satisfied in prior periods was not material.

2) Transaction prices allocated to remaining performance obligations

The Company and its subsidiaries apply the practical expedient in noting transaction prices allocated to the remaining performance obligations and do not include performance obligations with original expected contractual terms of one year or less and performance obligations for which the entity is entitled to receive consideration directly corresponding to the value to the customer of the portion of the obligation that has been performed by the entity to date. As a result, there are no significant performance obligations that should be noted as the transaction price allocated to the remaining performance obligations.

The performance obligations with an initial expected term of one year or less mainly relate to courier services such as TA-Q-BIN in the Retail Business Unit.

In addition, there are no material amounts of consideration arising from contracts with customers that are not included in the transaction price.

9. Per Share Information

(1) Net assets per share	1,708.00 yen
(2) Basic earnings per share	107.23 yen

Note: The number of shares of common stock at the end of the fiscal year under review and the average number of shares of common stock during the fiscal year under review used for the calculation of net assets per share and basic earnings per share are calculated by deducting the number of shares held in the Company's own name and the number of shares of the Company's stock held by the Board Benefit Trust (BBT) (480 thousand shares at the end of the fiscal year under review and 481 thousand shares in the average number of shares during the fiscal year under review).

Notes to Non-Consolidated Financial Statements

1. Amounts described are rounded down to the nearest million yen.

2. Summary of Significant Accounting Policies

(1) Valuation Basis and Methods for Securities

Available-for-sale securities

Other than stocks and other securities with no market price

Stated at the fair market value based on the quoted market price

(valuation differences are recognized in net assets; the cost of securities sold is calculated by the moving average method)

Stocks and other securities with no market price

Stated at the cost calculated by the moving-average method

Investments in the limited partnership for investment and similar partnerships

(Securities deemed to be securities pursuant to Article 2, Paragraph 2 of the Financial Instruments and Exchange Act)

Net amount of the Company's interest in the partnership based on the most recent financial statements available, according to the reporting date stipulated in the partnership agreement

Shares of subsidiaries and associates

Stated at the cost calculated by the moving-average method

(2) Depreciation and Amortization Methods of Non-current Assets

Property, plant, and equipment:

Straight-line method

Intangible assets:

Straight-line method, but software is amortized by the straight line method over the estimated useful life (five years)

(3) Accounting Method for Provision

Allowance for doubtful accounts:

The allowance for doubtful accounts is provided to prepare for loss from uncollectible credits. For special receivables with higher uncertainty, collectivity is considered on individual cases and the prospective uncollectible amount is provided.

Allowance for investment loss:

To prepare for a devaluation loss of investments in subsidiaries and associates, allowances are provided considering the financial position and recoverability of the relevant subsidiary or associate.

Provision for bonuses:

The provision for bonuses is provided for the payment of bonuses to employees based on the amount expected to be paid.

Provision for retirement benefits:

To provide for employees' retirement benefits, a provision for retirement benefits is recorded based on the projected retirement benefit obligations and related pension assets as of the end of the fiscal year ended March 31, 2024.

1) Method of attributing expected retirement benefit to periods

In calculating the retirement benefit obligations, the straight-line basis is used in determining the amount of the expected retirement benefit obligation attributed to service performed up to the end of the fiscal year under review.

- 2) Method of recognizing actuarial differences
Actuarial differences are recognized in profit or loss in the year following the year in which a respective gain or loss arises and are amortized proportionally on a straight-line basis over a period of time (mainly five years), which is within the average remaining years of service of the eligible employees.

Provisions for share based remuneration for officers

In preparation for the payment of shares based on the Regulations on Share-based Remuneration for Officers, the expected amount of compensation is recorded according to the points allocated to Officers.

(4) Method of Accounting for Retirement Benefits

The method of accounting for unrecognized actuarial differences on retirement benefits is different from the method in the consolidated financial statements.

(5) Accounting Method for Revenues and Costs

The Company mainly engages in executive management of its subsidiaries. Under the executive management contracts, the Company provides management and planning guidance to its subsidiaries. Since the economic benefits of these services are provided equally over the contract period, the Company recognizes revenue as the performance obligations are satisfied, which is measured by the passage of time.

3. Revenue Recognition

Information that forms the basis for understanding revenues from contracts with customers has been omitted, because the same information is presented in “2. Summary of Significant Accounting Policies (5) Accounting Method for Revenues and Costs” in the Notes to the Non-consolidated Financial Statements.

For all services, the consideration for transactions does not include significant financial elements or variable consideration, and the consideration for transactions with subsidiaries is received primarily at the end of each quarter.

4. Accounting Estimates

(Valuation of shares of subsidiaries and associates)

(1) The amount recognized in the non-consolidated financial statements for the fiscal year under review

The following is a list of items that have been recognized in the financial statements for the fiscal year under review based on accounting estimates and that may have a material effect on the financial statements for the following fiscal year.

Shares of subsidiaries and associates	309,329 million yen
Allowance for investment loss	(54) million yen

(2) Information on significant accounting estimates for identified items

In principle, stocks of subsidiaries and affiliates are stated at the cost calculated by the moving-average method. In the event of a decline in the effective value, the Company determines whether or not to recognize a write-down based on estimates of the business plans and other factors of the relevant company. In determining whether or not to recognize a write-down, certain assumptions are made with respect to business plans and other estimates. These assumptions are subject to uncertain future economic and business conditions, which may have a material impact on the financial statements for the next and subsequent periods.

5. Notes on Additional Information

(The “Board Benefit Trust (BBT),” a performance-linked stock compensation plan)

The Company has established the “Board Benefit Trust (BBT),” a performance-linked stock compensation plan, in order to clarify the linkage between the compensation of directors (excluding outside directors) and executive officers who do not concurrently serve as directors (“Officers”) and the

Company's business performance and stock value and also having the Officers share not only the benefits of higher stock prices but also the risks of lower stock prices with shareholders, thereby raising awareness of contributing to improving the Company's medium- to long-term business performance and increasing its corporate value.

The outline of this plan is described in "3. Notes on Additional Information" in the Notes to Consolidated Financial Statements and thus omitted.

(Dissolution and Liquidation of Subsidiaries)

At the Company's Board of Directors meeting held in the previous fiscal year, the Company resolved to liquidate its subsidiaries, YAMATO ASIA PTE. LTD. and YAMATO INVESTMENT (HONG KONG) LIMITED, and is preparing for the liquidation proceedings now.

For details, please refer to "3. Notes on Additional Information" in the Notes to Consolidated Financial Statements.

6. Notes to the Non-consolidated Balance Sheet

(1) Accumulated depreciation of property, plant, and equipment:	1,727 million yen
(2) Balance of liabilities on guarantee	
1) Joint and several guarantee based on clearing agreements with other transportation companies:	300 million yen
2) Guarantee of obligation for debt financing:	345 million yen
(3) Monetary receivables from, and monetary payables to, subsidiaries and associates	
Short-term monetary receivables:	15,998 million yen
Long-term monetary receivables:	37,058 million yen
Short-term monetary payables:	91,457 million yen

7. Notes to the Non-consolidated Statement of Income

(1) Transaction with subsidiaries and associates	
Operating revenue:	36,453 million yen
Operating expenses:	2,562 million yen
Non-operating transactions:	3,145 million yen

8. Notes to the Non-consolidated Statement of Changes in Equity

Class and Total Number of Treasury Shares:

	(Thousands of shares)			
	Number of shares as of beginning of fiscal year under review	Number of increased shares in fiscal year under review	Number of decreased shares in fiscal year under review	Number of shares as of end of fiscal year under review
Common shares (Note)	17,552	19,328	19,332	17,548

Notes: The number of treasury stock of common stock includes the Company's shares held by the Board Benefit Trust (BBT) (483 thousand shares at the beginning of the fiscal year under review and 480 thousand shares at the end of the fiscal year under review).

The increase of 19,328 thousand shares of treasury shares of common shares is mainly due to the purchase of 19,328 thousand treasury shares.

The decrease of 19,332 thousand shares of treasury shares of common shares is mainly due to the cancellation of 19,328 thousand treasury shares and the provision of three thousand treasury shares to retired officers through the Board Benefit Trust (BBT).

Audit Opinion

Pursuant to Article 444, paragraph (4) of the Companies Act, we have audited the consolidated financial statements, namely, the Consolidated Balance Sheet as of March 31, 2024 of Yamato Holdings Co., Ltd. (the "Company"), and the Consolidated Statement of Income and Consolidated Statement of Changes in Equity for the fiscal year from April 1, 2023 to March 31, 2024, and the Notes to the Consolidated Financial Statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Yamato Holdings Co., Ltd. and its consolidated subsidiaries (collectively, the "Group") as of March 31, 2024, and the results of their operations for the year then ended in accordance with accounting principles generally accepted in Japan.

Basis for Audit Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company and its consolidated subsidiaries in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan, and we have fulfilled our ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Information

The other information comprises the business report and its supplemental schedules. Management is

responsible for the preparation and disclosure of the other information. Audit & Supervisory Board Members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of their duties with regard to the design, implementation and maintenance of the reporting process for the other information.

The other information is not included in the scope of our opinion on the consolidated financial statements, and we do not provide our opinion on the other information.

Our responsibility in auditing the consolidated financial statements is to read the other information and, in the course of reading, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the course of our audit, and pay attention to whether there are any other signs of material errors in the other information in addition to such material inconsistency.

If, based on the work we have performed, we conclude that there is a material error in the other information, we are required to report that fact.

We have nothing to report with respect to the other information.

Responsibilities of Management, Audit & Supervisory Board Members and the Audit & Supervisory Board for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error. In preparing the consolidated financial statements, management is responsible for assessing whether it is appropriate to prepare the consolidated financial statements with the assumption of a going concern, and in accordance with accounting principles generally accepted in Japan, for disclosing, as necessary, matters related to going concern.

Audit & Supervisory Board Members and the Audit & Supervisory Board are responsible for overseeing the Directors' performance of duties within the maintenance and operation of the financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our responsibilities are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that expresses our opinion on the consolidated financial statements based on our audit from an independent point of view. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users of these consolidated financial statements.

In accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit process to perform the following:

- Identify and assess the risks of material misstatement, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Selecting audit procedures to be applied is at the discretion of the auditor. Obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- When auditing the consolidated financial statements, consider internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances in making risk assessments, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used by management and their method of application, as well as the reasonableness of accounting estimates made by management and related notes thereto.
- Conclude on the appropriateness of preparing the consolidated financial statements with the assumption of a going concern by management, and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the notes to the consolidated financial statements or, if the notes to the consolidated financial statements on material uncertainty are inadequate, to express a qualified opinion with exceptions on the consolidated financial statements. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate whether the presentation of the consolidated financial statements and notes to the consolidated financial statements are in accordance with accounting standards generally accepted in Japan, as well as evaluate the presentation, structure, and content of the consolidated financial statements, including the related notes thereto, and whether the consolidated financial statements fairly present the underlying transactions and accounting events.
- Obtain sufficient appropriate audit evidence regarding the financial information of the Company and its consolidated subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the consolidated financial statements. We remain solely responsible for our audit opinion.

We report to the Audit & Supervisory Board Members and the Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit process, and other matters required by auditing standards.

We also provide the Audit & Supervisory Board Members and the Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements in Japan regarding independence, and to communicate with them all relationships and other matters that may reasonably be deemed to bear on our independence, and where applicable, any measures taken to remove hinderances to independence or any safeguards applied to mitigate hinderances to a tolerable level.

Interest

Our firm and the engagement partners do not have any interest in the Company and its consolidated subsidiaries for which disclosure is required under the provisions of the Certified Public Accountants Act.

Audit Opinion

Pursuant to Article 436, paragraph (2), item (i) of the Companies Act, we have audited the non-consolidated financial statements, namely, the Non-consolidated Balance Sheet as of March 31, 2024 of Yamato Holdings Co., Ltd. (the "Company"), and the Non-consolidated Statement of Income and Non-consolidated Statement of Changes in Equity for the 159th fiscal year from April 1, 2023 to March 31, 2024, and the Notes to Non-consolidated Financial Statements and the accompanying supplemental schedules (collectively, the "Financial Statements").

In our opinion, the Financial Statements referred to above present fairly, in all material respects, the financial position of Yamato Holdings Co., Ltd. as of March 31, 2024, and the results of its operations for the year then ended in accordance with accounting principles generally accepted in Japan.

Basis for Audit Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the Financial Statements in Japan, and we have fulfilled our ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Information

The other information comprises the business report and its supplemental schedules. Management is responsible for the preparation and disclosure of the other information. Audit & Supervisory Board Members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of their duties with regard to the design, implementation and maintenance of the reporting process for the other information.

The other information is not included in the scope of our opinion on the non-consolidated financial statements, and we do not provide our opinion on the other information.

Our responsibility in auditing the non-consolidated financial statements is to read the other information and, in the course of reading, consider whether the other information is materially inconsistent with the non-consolidated financial statements or our knowledge obtained in the course of our audit, and pay attention to whether there are any other signs of material errors in the other information in addition to such material inconsistency.

If, based on the work we have performed, we conclude that there is a material error in the other information, we are required to report that fact.

We have nothing to report with respect to the other information.

Responsibilities of Management, Audit & Supervisory Board Members and the Audit & Supervisory Board for the Financial Statements

Management is responsible for the preparation and fair presentation of these Financial Statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation and fair presentation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing whether it is appropriate to prepare the Financial Statements with the assumption of a going concern, and in accordance with accounting principles generally accepted in Japan, for disclosing, as necessary, matters related to going concern.

Audit & Supervisory Board Members and the Audit & Supervisory Board are responsible for overseeing the Directors' performance of duties within the maintenance and operation of the financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibilities are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that expresses our opinion on the Financial Statements based on our audit from an independent point of view. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users of these Financial Statements.

In accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit process to perform the following:

- Identify and assess the risks of material misstatement, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Selecting audit procedures to be applied is at the discretion of the auditor. Obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- When auditing the Financial Statements, consider internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances in making risk assessments, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used by management and their method of application, as well as the reasonableness of accounting estimates made by management and related notes thereto.
- Conclude on the appropriateness of preparing the Financial Statements with the assumption of a going concern by management, and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the notes to the Financial Statements or, if the notes to the Financial Statements on material uncertainty are inadequate, to express a qualified opinion with exceptions on the Financial Statements. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the presentation of the Financial Statements and notes to the Financial Statements are in accordance with accounting standards generally accepted in Japan, as well as evaluate the presentation, structure, and content of the Financial Statements, including the related notes thereto, and whether the Financial Statements fairly present the underlying transactions and accounting events.

We report to the Audit & Supervisory Board Members and the Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any

significant deficiencies in internal control that we identify during our audit process, and other matters required by auditing standards.

We also provide the Audit & Supervisory Board Members and the Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements in Japan regarding independence, and to communicate with them all relationships and other matters that may reasonably be deemed to bear on our independence, and where applicable, any measures taken to remove hinderances to independence or any safeguards applied to mitigate hinderances to a tolerable level.

Audit Report of the Audit & Supervisory Board

AUDIT REPORT

Regarding the performance of duties by the Directors for the 159th business year from April 1, 2023 to March 31, 2024, the Audit & Supervisory Board hereby submits its audit report, which has been prepared through discussions based on the audit report prepared by each Audit & Supervisory Board Member.

1. Auditing Methods Employed by the Audit & Supervisory Board Members and Audit & Supervisory Board and Details of Such Methods

- (1) The Audit & Supervisory Board established auditing policies, allocation of duties, and other relevant matters, and received reports from Audit & Supervisory Board Members regarding their audits and results thereof, as well as received reports from the Directors, other relevant personnel, and Accounting Auditors regarding performance of their duties, and sought explanations as necessary.
- (2) Each Audit & Supervisory Board Member complied with the auditing standards of Audit & Supervisory Board Members established by the Audit & Supervisory Board, followed the auditing policies, allocation of duties, and other relevant matters, communicated with the Directors, the internal audit division, other employees, and any other relevant personnel, and made efforts to optimize the environment for information collection and audit. We have executed the audit based on the following methods.
 - 1) Each Audit & Supervisory Board Member participated in the Board of Directors Meetings and other important meetings, received reports from the Directors, employees, and other relevant personnel regarding performance of their duties, sought explanations as necessary, examined important authorized documents and associated information, and studied the operations and financial positions. With respect to subsidiaries, we communicated and exchanged information with Directors, Audit & Supervisory Board Members, and other relevant personnel of the subsidiaries, and received business reports from subsidiaries as necessary.
 - 2) We received periodic reports from Directors and employees and sought explanations as necessary on the details of the resolution of the Board of Directors related to the provision of a system described in Article 100, paragraphs (1) and (3) of the Regulation for Enforcement of the Companies Act that not only ensures Directors are carrying out their duties indicated in the business report in compliance with laws and regulations and the Articles of Incorporation, but also ensures the propriety of the work activities of the corporate group consisting of the Company and its subsidiaries. We also received periodic reports from Directors and employees, sought explanations and expressed an opinion as necessary on the status of development and operation of the system (internal control system) put in place in accordance with the aforesaid resolution.
 - 3) Furthermore, we monitored and verified whether the Accounting Auditors maintained their independence and implemented appropriate audits, and we received reports from the Accounting Auditors regarding the performance of their duties and sought explanations as necessary. In addition, we received notice from the Accounting Auditors that “the system for ensuring that duties are performed properly” (matters set forth in each item of Article 131 of the Regulation on Corporate Accounting) is organized in accordance with the “product quality management standards regarding audits” (Business Accounting Council) and other relevant standards, and sought explanations as necessary.

Based on the above methods, we examined the business report and supplemental schedules, non-consolidated financial statements (Non-consolidated Balance Sheet, Non-consolidated Statement of Income, Non-consolidated Statement of Changes in Equity, and Notes to the Non-consolidated Financial Statement) and supplemental schedules, as well as consolidated financial statements (Consolidated Balance Sheet, Consolidated Statement of Income, Consolidated Statement of Changes in Equity, and Notes to the Consolidated Financial Statements) related to the relevant business year.

2. Audit Results

- (1) Results of Audit of Business Report and Other Reference Documents
- 1) In our opinion, the business report and supplemental schedules are in accordance with the related laws and regulations and Articles of Incorporation, and fairly represent the Company's condition.
 - 2) With regard to the performance of duties by the Directors, we have found no evidence of wrongful action or material violation of related laws and regulations, nor of any violation with respect to the Articles of Incorporation.
 - 3) In our opinion, the contents of the resolutions of the Board of Directors regarding the internal control system are fair and reasonable. In addition, we have found no matters on which to remark in regard to the performance of duties of the Directors regarding the internal control system.
- (2) Results of Audit of Non-consolidated Financial Statements and Supporting Schedules
In our opinion, the methods and results employed and rendered by the Accounting Auditor, Deloitte Touche Tohmatsu LLC, are fair and reasonable.
- (3) Results of Audit of Consolidated Financial Statements
In our opinion, the methods and results employed and rendered by the Accounting Auditor, Deloitte Touche Tohmatsu LLC, are fair and reasonable.
