Reference Documents for the Ordinary General Meeting of Shareholders

Proposals and References

Proposal 1: Appropriation of surplus

One of our management challenges is to improve the interests of shareholders. With the goal of achieving sustainable growth and improvements in corporate value over the medium to long term, the Company seeks to maintain stable shareholder returns and is aiming for a DOE of 3.0% for the fiscal year ending March 31, 2031.

In accordance with the above-stated policy, the 13th year-end dividend is as follows.

Details of the year-end dividend

(i) Type of dividend property	Cash
(ii) Matters concerning the allotment of dividend property to shareholders and the total amount thereof:	¥35 per share of common stock of the Company Total cash dividends of ¥1,518,512,205
(iii) Effective date of dividend of surplus	June 24, 2024

The annual dividend including interim dividend of ¥32 per share will be ¥67 per share.

Proposal 2: Election of Six (6) Board Members

The terms of office of six (6) Board Members, Naohiro Takao, Hiroshi Seko, Fumihiko Hirotaki, Akira Kakizaki, Keiji Kasamatsu, and Rieko Inaba will expire upon the conclusion of this General Meeting of Shareholders.

Therefore, we propose the election of six (6) Board Members.

It should be noted that the candidates for Board Member were selected in accordance with our “Selection Criteria and Procedures for Candidates for Board Member” described below. In addition, two (2) of the six (6) candidates for Board Member are candidates for Outside Board Member, both of whom meet our “Independence Standards for Outside Board Members and Outside Audit & Supervisory Board Members” described below.

[Selection criteria and procedures for candidates for Board Member]

- The basic policy is to have a Board of Directors that consists of a small number of people in order to speed up the making of management decisions.
- The candidates for Board Member were proposed by the Company President in consideration of diversity, and based on the experience, knowledge, and abilities required for the medium- to long-term creation of corporate value, and were determined by the Board of Directors following deliberations at the voluntary Nomination Advisory Committee.
- The ratio of independent Outside Board Members at the Board of Directors has been set at one-third or more, and internationality is also sufficiently considered for Board Members, such as their experiences working or engaging in academic research overseas.
- We recognize that the background of each individual, including their gender and nationality, is a source of diverse perspectives in itself, and we promote the hiring as officers of a diverse range of human resources.

[Independence standards for Outside Board Members / Outside Audit & Supervisory Board Members]

In the event of determining that an Outside Board Member or Outside Audit & Supervisory Board Member meets the requirements set forth below, we will judge that such a person has sufficient independence from the Company.

1. The individual has never worked at the Group.
2. The individual has never worked at an organization that is a major shareholder of the Company.
3. The individual has never worked at a major trading partner (Note) 1 of the Company.
4. The individual has never worked at a major lender (Note) 2 of the Company.
5. The individual has never worked at the lead managing underwriter of the Company.
6. The individual has never worked at the audit firm of the Company.
7. There is currently no major trading relationship (Note) 3 between the Company and the individual, such as in the form of a consulting or advisory agreement, and there has been no such relationship in the past five years.
8. The individual has never worked at an organization in which the Company had decided to invest under policy holding purposes.
9. No relatives (Note) 4 of the individual work for the Company.
10. The tenure of the individual as Outside Board Member or Outside Audit & Supervisory Board Member officer at the Company is less than ten years in total.

(Note) 1. “Major trading partner” refers to a party for which the sales, etc., through the transactions with said trading partner occupy a considerable portion of the sales, etc., of the Company, or to a party that provides a considerable amount of business property, such as important equipment and materials that are indispensable to the Company for their business activities.

2. "Major lender" refers to our so-called main banks and quasi-main banks.
3. "Major trading relationship" refers to cases where the payments received from the Company exceed ¥10 million per year.
4. "Relative" refers to the spouse of the individual or to a relative within the fourth degree of kinship.

In addition to “Business administration,” which handles the proposal and advancement of supervision and strategy for the corporate organization, “Legal affairs and risk management” and “Finance,” which are key to sound organizational operations, and “Technology/R&D,” “Sales and marketing,”

and “Manufacturing/Quality Management,” which are central to our business activities, we consider “Sustainability and ESG”, which is essential for sustainable growth, as necessary expertise and experience.

Business Report
(From April 1, 2023 to March 31, 2024)

1. Status of the Corporate Group

(1) Overview of business this consolidated fiscal year

(i) Progress and results of operations

During this consolidated fiscal year, although the global economy continued to see rising commodity prices due to the situation in Ukraine and the Middle East, etc., there are signs that inflation is slowing due to the monetary tightening performed by central banks around the world. In addition, although the trend of gradual economic recovery has continued, primarily in developed nations, economic growth in China has been forecast to slow down, and personal consumption is not currently expected to grow significantly. Japan's economy has continued to show signs of gradual recovery; however, the yen has continued to depreciate due to differences in interest rates compared to those in countries of different currencies.

In the automobile industry, despite differences between automotive OEMs, the number of vehicles produced is on a recovery trend, reflecting the gradual economic recovery that is currently being seen. In addition, although options other than EVs, such as hybrid vehicles, are being reconsidered, the shift to EVs is progressing rapidly, particularly in China and Europe, and there is certainly a need to think outside the box. In such an external environment, the Company, through the promotion of DX (digital transformation), is proceeding with the acquisition and accumulation of data not only in order to realize automation and rationalization, but also to promote improvements in quality and efficiency through the use of AI. In addition, in EV-related business, it is forecast that the adoption of gigacasting, which is a method of integrally molding vehicle body parts through the use of large aluminum die-casting, will be expanded at automotive OEMs in the future. The Company will make use of the body in white analysis technology that it has accumulated over the years to convert some existing parts to large modules, and in addition, will continue to propose and work on initiatives that will lead to incoming orders in relation to an optimal vehicle body structure that features parts coexisting with gigacasting.

Consequently, net sales for the consolidated fiscal year under review were ¥344,601 million (year-on-year increase of 9.6%) due to an increase in production volumes, material unit price revisions and the impact of foreign exchange rates, and operating profit amounted to ¥16,242 million (year-on-year increase of 26.5%). Ordinary profit was ¥18,896 million (year-on-year increase of 32.3%) due to the recording of foreign exchange gains caused by the depreciation of the yen, etc., and net income attributable to owners of parent was ¥13,240 million (year-on-year increase of 28.9%).

The following describes segment performance by region.

[Japan]

Sales increased, mainly due to increases in production volume and higher material unit prices. Profits increased significantly due to the effects of an increase in mass production sales and cost reductions at production sites, as well as an increase in royalty income from overseas subsidiaries, despite a decrease in new vehicle model development sales, including die and die equipment sales.

[United States]

Sales increased due to an increase in production volume and the impact of foreign exchange rates. Profits increased, mainly reflecting an increase in added value resulting from a change in the mix of car models, cost saving effects from improvements in the production structure, and the impact of foreign exchange rates, despite an increase in labor costs due to the impact of increased production.

[Europe]

Sales increased due to an increase in production volume by every customer and the effect of favorable production of newly ordered EV body parts throughout the year, despite a decrease in new vehicle model development sales, including die and die equipment sales. Profits decreased, mainly due to higher labor costs and the impact of one-time factors such as compensation in the previous fiscal year, but the decrease was only slight due to the increase in mass production sales.

[Asia]

Sales increased due to an increase in production volume and the impact of foreign exchange rates. Profits increased due to an increase in mass production sales and an increase in added value due to a change in the mix of car models, despite an increase in labor costs due to the increase in production volume.

[China]

Sales decreased, heavily impacted by a decrease in production volume. Profits decreased due to the impact of a decrease in sales, an increase in the royalty burden, and one-time factors such as compensation in the previous fiscal year.

[South America]

Sales increased due to fluctuations in the models being mass-produced and the impact of foreign exchange rates. Profits decreased, mainly due to the impact of one-time factors such as compensation in the previous fiscal year and an increase in labor costs due to higher wages.

(5) Issues that should be addressed

(i) Management vision

The Company, under the corporate credo of respect for human dignity, cutting-edge technology, and sound corporate management, has stated its vision as being to “shape a better future for people and automobiles through the fusion of passion and innovation,” with the objective of contributing to society and becoming a company that meets its expectations, and is promoting sustainable management accordingly.

(ii) Issues that should be addressed with priority

In the automobile industry, which is undergoing dramatic change, the Company, for the survival as a business operator, is promoting initiatives that focuses on the following issues.

① Evolution into a system supplier (Tier 0.5) in the vehicle body area

In order to respond to the rapid shift to EVs that is progressing worldwide, each company in the automobile industry is devoting considerable manpower to the development of competitive EVs, as well as to new areas such as batteries and motors, while at the same time, urgently constructing a new supply chain in different regions across the world. It is anticipated that automotive OEMs will expand its use of suppliers as external resources in order to cover the large amount of labor that is needed for this.

The Company regards this to be a business opportunity, and by making full use of its body in white analysis and production technologies that it has cultivated through to the present, while also actively examining and utilizing external alliances, it shall evolve from its current status as a Tier 1 supplier, or primary manufacturer, into a Tier 0.5 supplier, which is one stage higher, with the objective of establishing a business model in which it is a “system supplier in the vehicle body area” that receives orders from automotive OEMs at each stage from development to mass production.

At present, the Company is building alliances with companies in various areas from the perspectives of development partnerships, supplementing production capacity, and the procurement of materials and equipment, and is demonstrating multiple EV-related technologies on its demonstration line at its site in Tokyo, based on these increased resources. We will continue to strengthen external alliances, and in addition, will continue to work towards commercialization at an early stage.

② Realization of smart factory

Electrification of automobiles has the potential to drastically change the structure of body parts and the way body parts are made. Emergence of “gigacasting,” which integrates components that were previously made up of multiple parts, is seen as one sign of this trend. This transformation of the car body structure will force a change in the production system and the factory itself. Next-generation factories must be more productive and reliable than ever before.

In response to such issues, the Group is working to improve its productivity and reliability by creating the production sites of the future based on the concepts of “smart factories,” and “flexible production systems capable of responding flexibly to fluctuations in production volume.” We are aiming to implement smart factories that achieve advanced, high-quality, low-cost operations by promoting the automation of in-factory logistics, the automation of manufacturing processes, the introduction of automated inspections, and the use of big data for production site.

③ Investment in human capital

Based on the credo of “respect human dignity,” the Company considers that talent is the most important management resource, and is promoting efforts for growth together with employees under the policy to “provide all employees with opportunities for growth and assist in their voluntary upskilling efforts” and “create talent that generates new value towards the next era.”

The Company’s priority measures have been stated to be assisting each and every employee in their personal growth, supporting the active participation of personnel with diverse backgrounds, nurturing candidates for executive management, and hiring specialist human resources; in regard to the promotion of opportunities for women, the Company is working on management based on plans and results, with KPIs such as increasing the hiring ratio of women to 25%, increasing the ratio of women in executive positions by 1.5 fold compared to the fiscal year ended March 31, 2023, increasing the ratio of men taking childcare leave to 30% or more, and implementing at least one new measure that will support diverse working styles, by 2028.

In addition, in response to the recent increased mobility of human resources, the Company will not only improve “ease of working” through the establishment of a human resources system that is aimed at employee retention, enhancing welfare, as well as promoting and expanding healthy management, but based on the awareness that it is important for every single employee to be able to experience “job satisfaction” as well as the “significance and benefits of working at G-TEKT,” the Company will strengthen and promote measures to improve engagement, such as expanding communication with the management level, enhancing training at the management level, and matching through interviews with junior employees.

The amount of performance-based remuneration is determined by multiplying the standard amount for each position by a coefficient according to the performance of operating profit, and points equivalent to ¥20 million were granted in the current fiscal year under review. The trend of operating profit including the current fiscal year under review is as described in “Status of assets and profit and loss.”

(5) Remuneration, etc. for Board Members

- (i) Matters relating to the decision- making policy (i) for the content of individual remuneration, etc. for Board Member
 - Summary

The Company has prescribed a decision-making policy for the content of individual remuneration, etc. for Board Member (“Decision Making Policy”), and the content of individual remuneration, etc. for Board Member, is determined based on this Decision Making Policy, with the objectives of raising the motivation of officers to contribute towards enabling sustainable growth and the improvement of corporate value, as well as towards improving short- and medium-term performance.

<<Composition of remuneration>>

The remuneration system comprises three elements, namely “basic remuneration,” which is a fixed and monthly salary; “bonuses,” which are linked to short-term performance; and “share-based remuneration,” which is linked to stock price and performance. The distribution of remuneration (the ratio of remuneration by type) is based on a ratio of “basic remuneration : bonuses : share-based remuneration = 7:1:2.” Bonuses and share-based remuneration are not paid to non-executive Board Members, including Outside Board Members.

<<Basic remuneration>>

For President and Executive Officers and below, remuneration is set as a fixed monthly salary, in accordance with the position, in consideration also of the individual’s responsibilities, length of service, as well as standards and employee salary levels at other companies.

<<Bonuses>>

In regard to bonuses, a performance coefficient is determined in consideration of various circumstances, such as operating profit margin, year on year growth rate of operating profit, ROE, and contribution to ESG (Environment, i.e., climate change, Social contribution activities and Governance), etc., based on operating profit this period, and the aggregate amount is determined accordingly.

Individual remuneration is calculated by multiplying the standard amount determined in accordance with position by the coefficient in accordance with the level of contribution, and is paid at the defined time each year.

<<Share-based remuneration>>

We have introduced a share-based remuneration system that uses a trust, in which we grant points each fiscal year and issue shares in accordance with the total number of points at the time the officer leaves their position. This comprises a non-performance based part for the medium- to long-term improvement of the stock price, as well as a short-term performance-based part, and the specific allocation of points is determined by the Board of Directors and operated based on the Share Issuance Rules.

<<Method for determining remuneration>>

Basic remuneration, bonuses, and share-based remuneration, including the content of individual remuneration, etc., are discussed at the voluntary Remuneration Advisory Committee, which is chaired by the lead independent Outside Board Member. The final decision is made by the Board of Directors and entrusted to the President, based on the results of deliberation by the voluntary Remuneration Advisory Committee.

■ Decision-making policy determination method

The decision-making policy was resolved at the meeting of the Board of Directors held on February 25, 2022 and February 2, 2023, in order to establish remuneration that is targeted at the realization of the management policy, and based on the content of deliberations on the proposals deliberated by the voluntary Remuneration Advisory Committee.

- Reasons for the determination by the Board of Directors that the amount of individual remuneration is in line with the decision-making policy

At the time of the determination of the content of individual remuneration, etc. for Board Member, as a voluntary Remuneration Advisory Committee chaired by an independent Outside Board Member conducted a verification of the proposal in light of the decision-making policy, the Board of Directors has determined that the content of the deliberations was in line with the basic policy.

(ii) Matters relating to the entrustment of decisions on the content of individual remuneration, etc. for Board Member

The content of individual remuneration for Board Member in this fiscal year was determined by President Naohiro Takao, based on the resolution of delegation of the Board of Directors.

The content of the authority is the amount of basic remuneration, the amount of bonuses, and the number of shares in share-based remuneration for each Board Member, as well as the distribution of basic remuneration, bonuses, and share-based remuneration. The reason for the delegation of such authority is because the President is a suitable person for evaluating the duties and achievements of each Board Member, in consideration of business performance in light of the business environment surrounding the Company, as well as based on the function of each department as an organization. It should be noted that in order to ensure that the delegated authority is exercised appropriately, the remuneration of each Board Member is deliberated by the voluntary Remuneration Advisory Committee established by the Board of Directors, after which said advisory committee presents a report.

(6) Matters concerning Outside Board Members and Outside Audit & Supervisory Board Members

(i) Status of important concurrent positions with other corporate entities, etc. (in the case of being a business executor of another corporate entity, etc.), and the relationship between the Company and such other corporate entities, etc.

Audit & Supervisory Board Member Yasunori Niizawa	15	100.0	13	100.0
Audit & Supervisory Board Member Yasuo Kitamura	15	100.0	13	100.0

(Note) In addition to the number meetings of the Board of Directors held in the above table, one resolution was adopted in writing that was deemed to be a resolution of the Board of Directors in accordance with Article 370 of the Companies Act and the Articles of Incorporation.

- Remarks at meetings of the Board of Directors

Board Members Keiji Kasamatsu, and Rieko Inaba have made remarks from an objective perspective towards improving the transparency of corporate management. Audit & Supervisory Board Members Yasunori Niizawa and Yasuo Kitamura have both made remarks towards ensuring the appropriateness of the decision- making by the Board of Directors.

- Remarks at meetings of the Audit & Supervisory Board

Audit & Supervisory Board Members Yasunori Niizawa and Yasuo Kitamura have both made remarks from an objective perspective and specialist position as necessary in their role as Outside Audit & Supervisory Board Members.

- Status of activities at the Nomination Advisory Committee and Remuneration Advisory Committee

At the voluntary Nomination and Remuneration Advisory Committee, Committee Chairperson Keiji Kasamatsu, Board Member, Rieko Inaba, as Committee members, make statements from an objective perspective regarding the appointment and remuneration of officers of the Company.

- Overview of duties performed in relation to roles expected to be fulfilled by Outside Board Members

- Outside Board Member Keiji Kasamatsu

Outside Board Member Mr. Keiji Kasamatsu possesses a high level of insight into management as a person with experience in corporate management and has expressed his opinions on investment and financial management decisions from a sophisticated perspective based on his expertise and knowledge in the automotive industry. He has provided guidance on business management measures, including personnel systems, thereby exercising a supervisory function on overall management as a Board Member.

- Outside Board Member Rieko Inaba

She has gained insight in a wide range of fields, including education and cross-cultural communication through the use of information processing technology, as a researcher at a higher education institution, and has demonstrated a supervisory function for management in general at the Board of Directors by providing logical and objective advice for the information security measures and capital investment plans, upon having gained an understanding of the corporate activities of the Company from a new perspective.

(iv) Summary of details of limited liability agreement

The Company has entered into an agreement that limits liability as prescribed in Article 423 Paragraph 1 of the Companies Act, and liability is limited to the amount prescribed in Article 425 Paragraph 1 of the Companies Act.

5. Financial Auditor

(i) Name Deloitte Touche Tohmatsu LLC

(ii) Amount of remuneration, etc.

	Payment amount (Millions of yen)
The amount of remuneration, etc., for duties (audit certification duties) prescribed in Article 2 Paragraph 1 of the Certified Public Accountants Act.	62
Total amount of money and other property gain that should be paid by the Company and its subsidiaries to the Financial Auditor	62

(Note) 1. The reason for the Company's Audit & Supervisory Board having agreed to the Financial Auditor remuneration, etc., is because the

estimated remuneration, etc., for the auditing of the 13th period submitted by Deloitte Touche Tohmatsu LLC to President Naohiro Takao was examined by both parties, and was determined to be valid as a result of a comparison between the audit plan of the Financial Auditor for the 13th period and actual performance in the 12th period by the Company's Audit & Supervisory Board.

2. Of the major subsidiaries of the Company, Jefferson Industries Corporation, Jefferson Southern Corporation, G-TEKT MEXICO CORP. S.A. DE C.V., Jefferson Elora Corporation, G-TEKT (Thailand) Co., Ltd., G-TEKT Eastern Co., Ltd., Thai G&B Manufacturing Ltd., and G-KT do Brasil Ltda. have been audited by member firms of Deloitte Touche Tohmatsu (a federation based on the laws and regulations of the United Kingdom). In addition, Austin Tri-Hawk Automotive, Inc., G-TEKT America Corporation, G-TEKT Europe Manufacturing Ltd., G-TEKT Slovakia, s.r.o., Auto Parts Alliance (China) Ltd., Wuhan Auto Parts Alliance Co., Ltd., Conghua Auto Parts Alliance (China) Ltd., G-TEKT India Private Ltd., and PT.G-TEKT Indonesia Manufacturing have undergone audits by a certified public accountant or an audit firm (includes persons who hold qualifications equivalent to these in foreign countries) other than the Company's Financial Auditor.

3. The amount of audit remuneration, etc., for the audit under the Companies Act and the audit under the Financial Instruments and Exchange Act is not clearly distinguished in the audit agreement between the Company and the Financial Auditor, and is unable to be properly classified, and therefore, the total amount of these has been stated in remuneration, etc., based on audit certification business.

(iii) Policy for decisions on dismissal and non-reappointment of Financial Auditor

The Audit & Supervisory Board, in the event of deeming it necessary, such as where there is hindrance to the execution of duties of the Financial Auditor, by resolution of the Audit & Supervisory Board, may make the dismissal or non-reappointment of the Financial Auditor subject to resolution at a general meeting of shareholders.

In addition, in the event of the Financial Auditor being deemed to fall applicable under any of the items of Article 340 Paragraph 1 of the Companies Act, the Audit & Supervisory Board shall dismiss the Financial Auditor upon the agreement of all Audit & Supervisory Board Members. In such a case, the Audit & Supervisory Board Member selected by the Audit & Supervisory Board shall report the fact of the dismissal of the Financial Auditor as well as the reason(s) for the dismissal at the first general meeting of shareholders held after the dismissal is performed.
