## Notice regarding revisions to “Results for FY23 Ended March 31, 2024”

Net One Systems Co., Ltd. (the “Company”) hereby announces the discovery of the following errors in its May 8, 2024 IR release entitled “Results for FY23 Ended March 31, 2024.”

### 1. Reasons for revisions

The Company is revising this release because it was found to contain inaccuracies following the May 8, 2024 release of the Company’s financial results. These revisions will have no impact on the Company’s financial results. (Revisions are included below and are underlined for purposes of clarity.)

### 2. Revisions

The Company has revised FY23 progress-related information included in the “Sustainability” section on page 28 of “Results for FY23 Ended March 31, 2024” as follows. The information to be revised is located within the red frame in the image below and has been underlined for purposes of clarity.

| Material sustainability issues   |   | KPIs  |  | Progress in FY23   |  |
|--|---|---|--|--|--|
| <b>Achievement of a safe and secure advanced information society</b><br> | Providing solutions and services for specific issues and fields   | Revenue from solutions for social issues            | 2024 target: JPY30.0bn   | JPY21.6bn  |  |
|  | Expanding and promoting service-based businesses  | Service ratio                                       | 2024 target: 50% (revised from previous target of 55%)   | <u>49.1%</u>   |  |
| <b>Success of professional personnel</b><br>                             | Developing human resources for the next generation  | CISP certification holders                          | 2030 target: 80  | <u>30</u><br>(FY23 target) 28                                  |  |
|  |   | Security personnel                                  | Registered information security specialists  | 2030 target: 100   | <u>60</u><br>(FY23 target) 65  |
|  |   | Cloud personnel                                     | Front office departments   | 2030 target: 50% increase in cloud personnel (232 at end-FY21) | <u>428</u><br>(FY23 target) 410  |
|  |   | DX personnel (with certifications in data analysis) | Corporate divisions  | 2030 target: Increase of 150 employees                         | <u>42</u><br>(FY23 target) 39  |
|  |   |   | 100 operational improvement proposals (target cumulative total over 2022–2030)                           |  | <u>28</u><br>(FY23 target) 13  |
|  |   | Development of next-generation ICT personnel        | Expansion of next-generation IT personnel development programs through academic-industrial collaboration |  | <u>Number of lectures: 49</u><br><u>Attended by 2,889 individuals (cumulative)</u> |
|  |   | Promoting diversity and inclusion                   | Ratio of female executives   | 2030 target: 15%   | <u>7.8%</u><br>(FY23 target) 7.5%  |
|  | Percentage of freshly recruited new graduates who are women   | 2030 target: 50%                                    | <u>(Employees who joined the Company in April 2024) 42.7%</u><br>(FY23 target) 35.5%                     |  |  |

# 1

## Summary

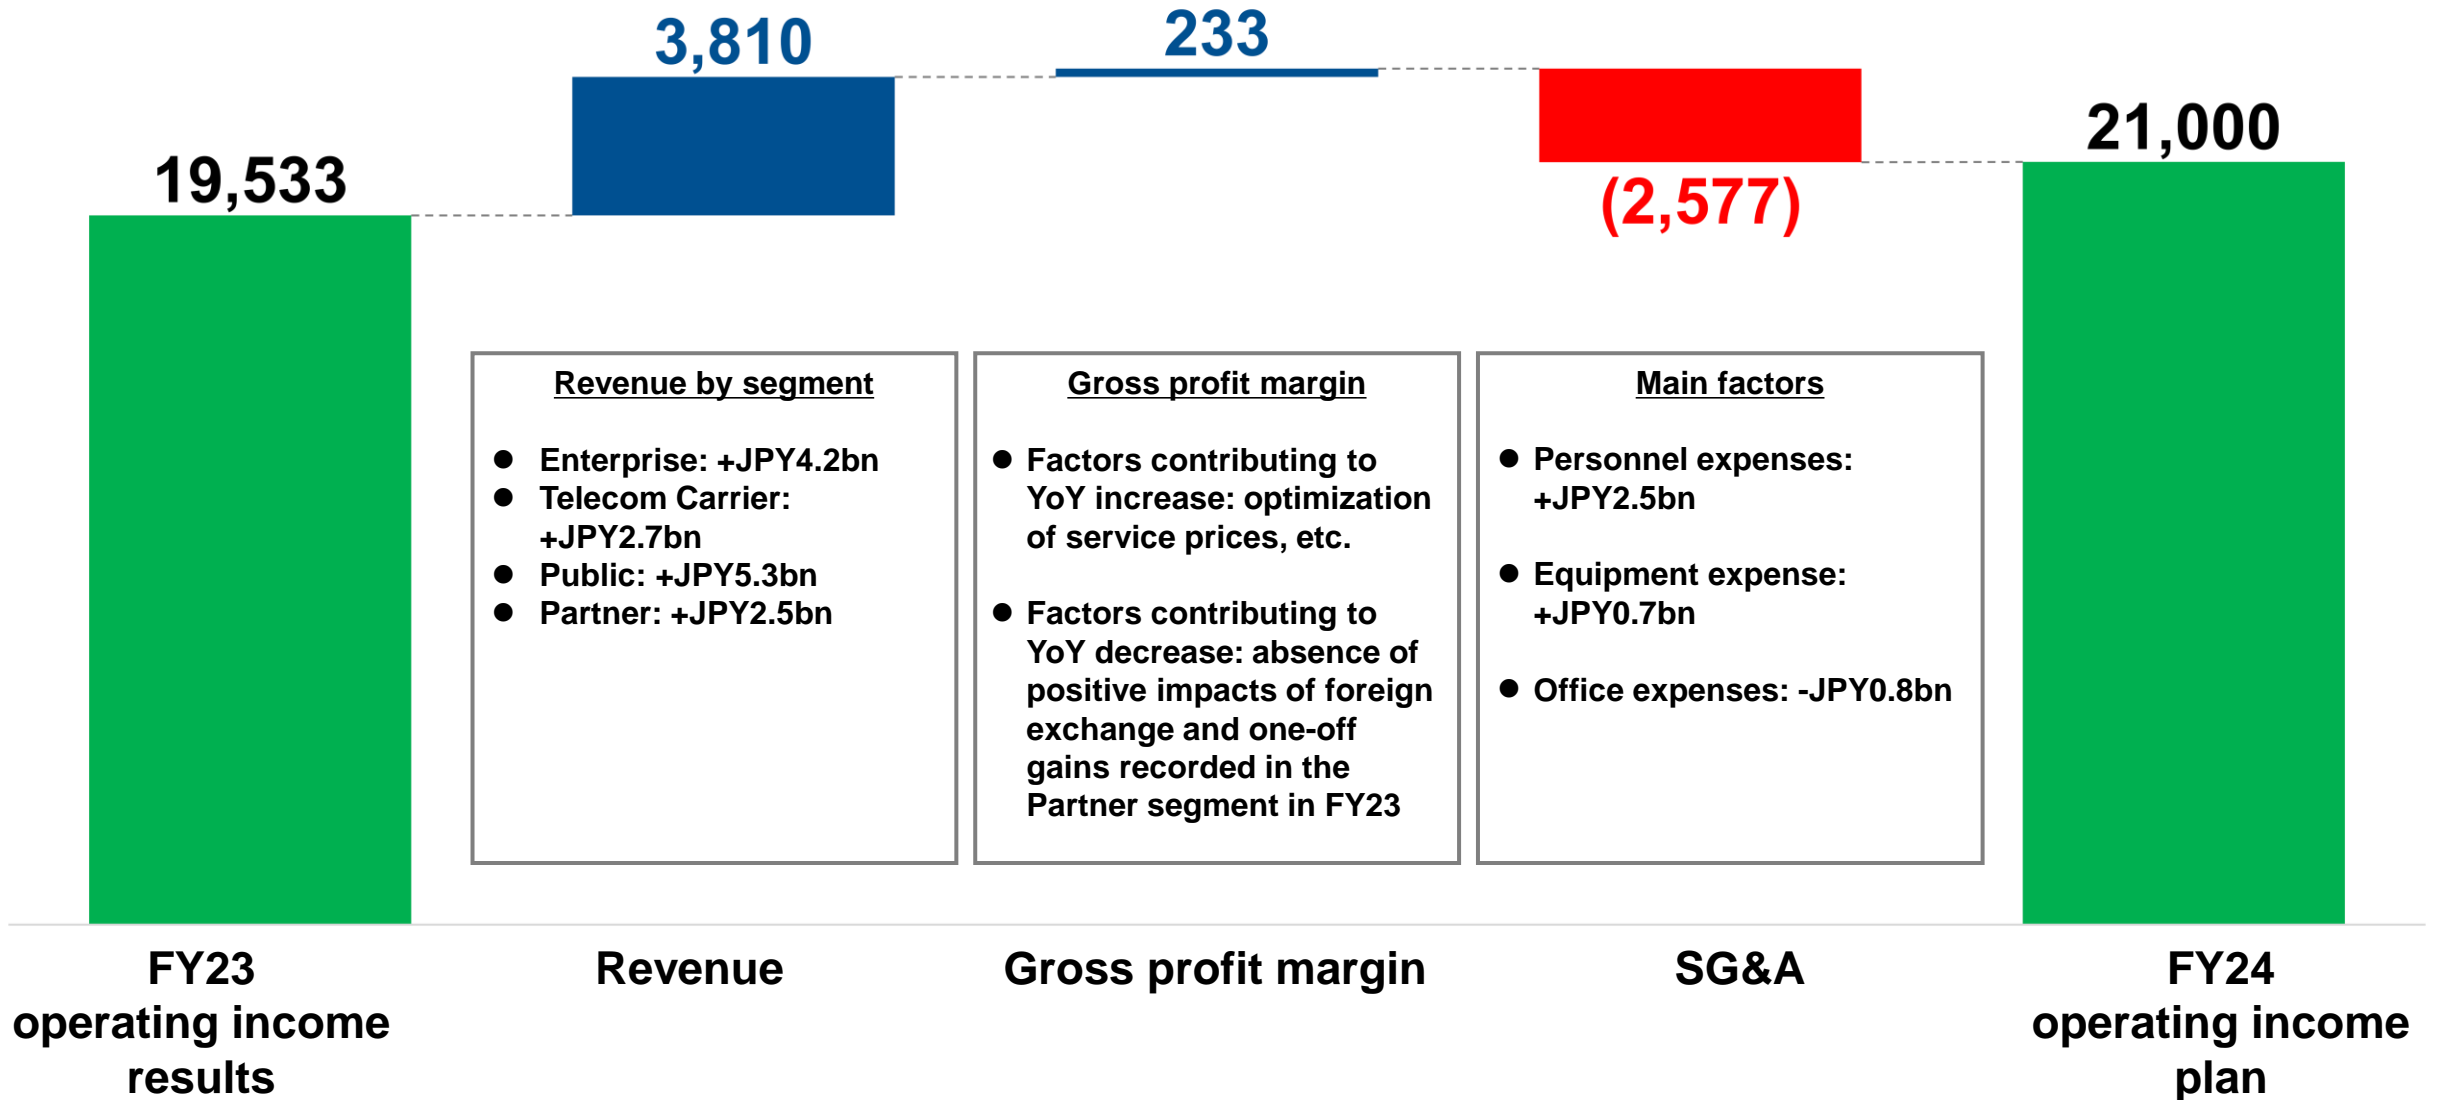

Bookings were lower than the revised plan, but were up YoY to a record high in Q4 (January–March 2024). Revenue and operating income exceeded the revised plan thanks to improved profitability.

|                         | FY22 results   | FY23 revised plan | FY23 results   |   |
|-------------------------|----------------|-------------------|----------------|---|
| <b>Bookings</b>         | JPY<br>219.8bn | JPY<br>210.0bn    | JPY<br>201.4bn | <p>(YoY)</p> <ul style="list-style-type: none"> <li>● Bookings were down YoY due to the absence of large product projects (two projects totaling JPY13.2bn) and lackluster performance in the Telecom Carrier, Public, and Partner segments</li> <li>● In Q4 (Jan.–Mar.), bookings were up 13.1% YoY (FY22 Q4: JPY64.6bn, FY23 Q4: JPY73.1bn)</li> </ul> <hr/> <p>(Versus revised plan)</p> <ul style="list-style-type: none"> <li>● Due to delays in some projects and other factors, bookings were lower than the revised plan in the Enterprise, Public, and Partner segments</li> </ul>   |
| <b>Revenue</b>          | JPY<br>209.6bn | JPY<br>201.0bn    | JPY<br>205.1bn | <p>(YoY)</p> <ul style="list-style-type: none"> <li>● Revenue declined YoY due to sluggish performance in the Telecom Carrier, Public, and Partner segments</li> </ul> <hr/> <p>(Versus revised plan)</p> <ul style="list-style-type: none"> <li>● Revenue exceeded the revised plan, driven by growth in the Enterprise and Telecom Carrier segments</li> </ul>  |
| <b>Operating income</b> | JPY<br>20.6bn  | JPY<br>16.5bn     | JPY<br>19.5bn  | <p>(YoY)</p> <ul style="list-style-type: none"> <li>● GPM improved, but operating income was down YoY on lower revenue and higher SG&amp;A expenses</li> <li>● GPM: +1.6pts YoY (FY22: 24.0%, FY23: 25.6%)</li> <li>● SG&amp;A expenses: +JPY3.2bn YoY (FY22: JPY29.7bn, FY23: JPY33.0bn)</li> </ul> <hr/> <p>(Versus revised plan)</p> <ul style="list-style-type: none"> <li>● Operating income exceeded the revised plan due to revenue growth, improved GPM, and reduced SG&amp;A expenses</li> <li>● GPM: +0.6pts (revised plan: 25.0%, result: 25.6%)</li> <li>● SG&amp;A expenses: -JPY0.7bn (revised plan: JPY33.8bn, result: JPY33.0bn)</li> </ul> |

We expect bookings and revenue to increase YoY, primarily in the Public segment.  
Operating income is also projected to grow YoY, with continued improvements in profitability offsetting higher SG&A expenses.

# FY24 Operating income plan analysis (YoY)

We raised our FY23 year-end dividend forecast as income exceeded the revised plan.  
We expect our FY24 dividend to increase YoY due to the introduction of a system that, in principle, facilitates progressive dividend growth.

## Began providing next-generation NaaS for the Japanese market that leverages AI and machine learning

Revolutionize customers' network operation and capital expenditure through Net One's unique services that utilize the technology of Nile

Drive NaaS in the Japanese market as a managed service provider

Provide the industry's first autonomous network platform, whose use is growing in North America, as a service adapted to the Japanese market

Liberate users from operational workload and asset management with autonomous networks

Introduced Nile Access Service at netone valley  
Linked with services handled by Net One to provide operational services that liberate customers from time-consuming network operations and cost increases

## Began providing a new service that matches market needs by establishing service portfolio "Managed ONE"

Contribute to stable system operation and business value creation by offering a service structure corresponding to the changing role of customers' information systems divisions

Liberate users from labor-intensive ICT infrastructure operation and accelerate the shift to businesses' IT strategies and core businesses

Consolidate operational services that were previously handled individually, and standardize and optimize the content of services offered, allowing customers to select the services they need to operate their ICT infrastructure

Make ICT infrastructure operation of customers' entire organization more sophisticated

Integrate infrastructure that makes system operation more sophisticated by utilizing data  
Consolidate customers' IT resource information and communication information to make data utilization and operation more efficient

# 3

## Progress of medium-term business plan

# Progress in reinforcement of our business base and growth strategy outlined in our basic management policy

Following solid progress in strengthening governance and facilitating corporate culture reforms, we will allocate more management resources to achieve our targets for bookings and service profitability.

## Reinforcement of our business base

In our efforts to strengthen governance and advance corporate culture reforms, we have achieved a certain level of progress and acceptance.

We will continue to work on improvement measures to build a foundation for growth.

## Growth strategy

We achieved steady growth in our focus areas; however, we are facing challenges in meeting our targets for bookings and service profitability.

Improvement measures are underway; we are pursuing further improvements, including investment in a new enterprise system.

To meet growing demand, we aim to improve our booking capacity and customer-facing activities through the following initiatives.

## Reiteration of Q3 FY23 results presentation materials

### Effective execution of strategy

- Approach the market/service by clarifying the following
  - ✓ Utilization of cutting-edge technologies
  - ✓ Expansion of focus areas & focus services
  - ✓ Strengthen existing areas & existing services

Began in April 2024

### Expand resources and efficiency of business divisions based on a certain level of retention of recurrence prevention measures

- Transfer/integrate the following to the business division
  - ✓ Sales engineers
  - ✓ Market strategy function
  - ✓ Part of the internal check function
  - ✓ Part of the service development function

Structural reforms implemented in April 2024

## New investments

### Streamline operations of business divisions with a new enterprise system

- Streamline operations of business divisions through the following initiatives
  - ✓ Integrate business processes and automate them (digital workflow)
  - ✓ Also systematize internal check functions and automate approvals and decisions

Scheduled to roll out in April 2025

We will continue to ensure appropriate profitability and reduce the cost ratio through the following measures.

## Optimize service prices

- Propose prices that reflect various cost increases and higher value added

Began in August 2023

New enterprise system shown on page 24 also helps improve service profitability

## Standardization and automation

- Improve our engineers' productivity through the following measures
  - ✓ Reduce man-hours by standardizing core solutions and operation services
  - ✓ Pilot stage: Harnessing AI to automate engineers' work

Ongoing

## Profitability monitoring

- Respond quickly to challenges by managing status of the profitability of each service and following factors
  - ✓ Service price optimization
  - ✓ Vendor support and other costs
  - ✓ Additional costs (for projects with low profitability)

Began in July 2023

# Medium-Term Business Plan targets

We expect results of the final year of our Medium-Term Business Plan (FY24) will fall short of our initial projections. However, our next Medium-Term Business Plan will target stable growth as bookings and service profitability are improving following earlier challenges.

# Bookings and revenue by focus areas

|  |          | FY22          | FY23          | Booking trends  |
|--|----------|---------------|---------------|---|
| Smart manufacturing  | Bookings | JPY<br>4.3bn  | JPY<br>6.0bn  | <p>Investments related to EVs and semiconductors continued. In addition to expanding business in the manufacturing sector, we facilitated business creation with R&amp;D departments and strategic partners. In addition, requests for network and data infrastructure to visualize power consumption per production line (GX) increased.</p> <ul style="list-style-type: none"> <li>● Project examples                             <ul style="list-style-type: none"> <li>✓ Factory security (network isolation, assessment services, etc.)</li> <li>✓ Factory wireless networks</li> <li>✓ Local 5G verification (for smart glasses [digital twin] and AGVs)</li> </ul> </li> </ul> |

## **Measures aimed at realizing management conscious of cost of capital and stock prices**

**For details, please refer to the release entitled “Measures aimed at realizing management conscious of cost of capital and stock prices” released on May 8, 2024.**

## Vision: Achieve industry-leading earning power and sustainable corporate value growth

We will raise our corporate value to achieve “Vision for 2030,” our medium- to long-term vision, and continuously maintain return on capital that exceeds cost of equity.

### Target 1

Equity spread (ROE minus cost of equity)

### Target 2

PBR

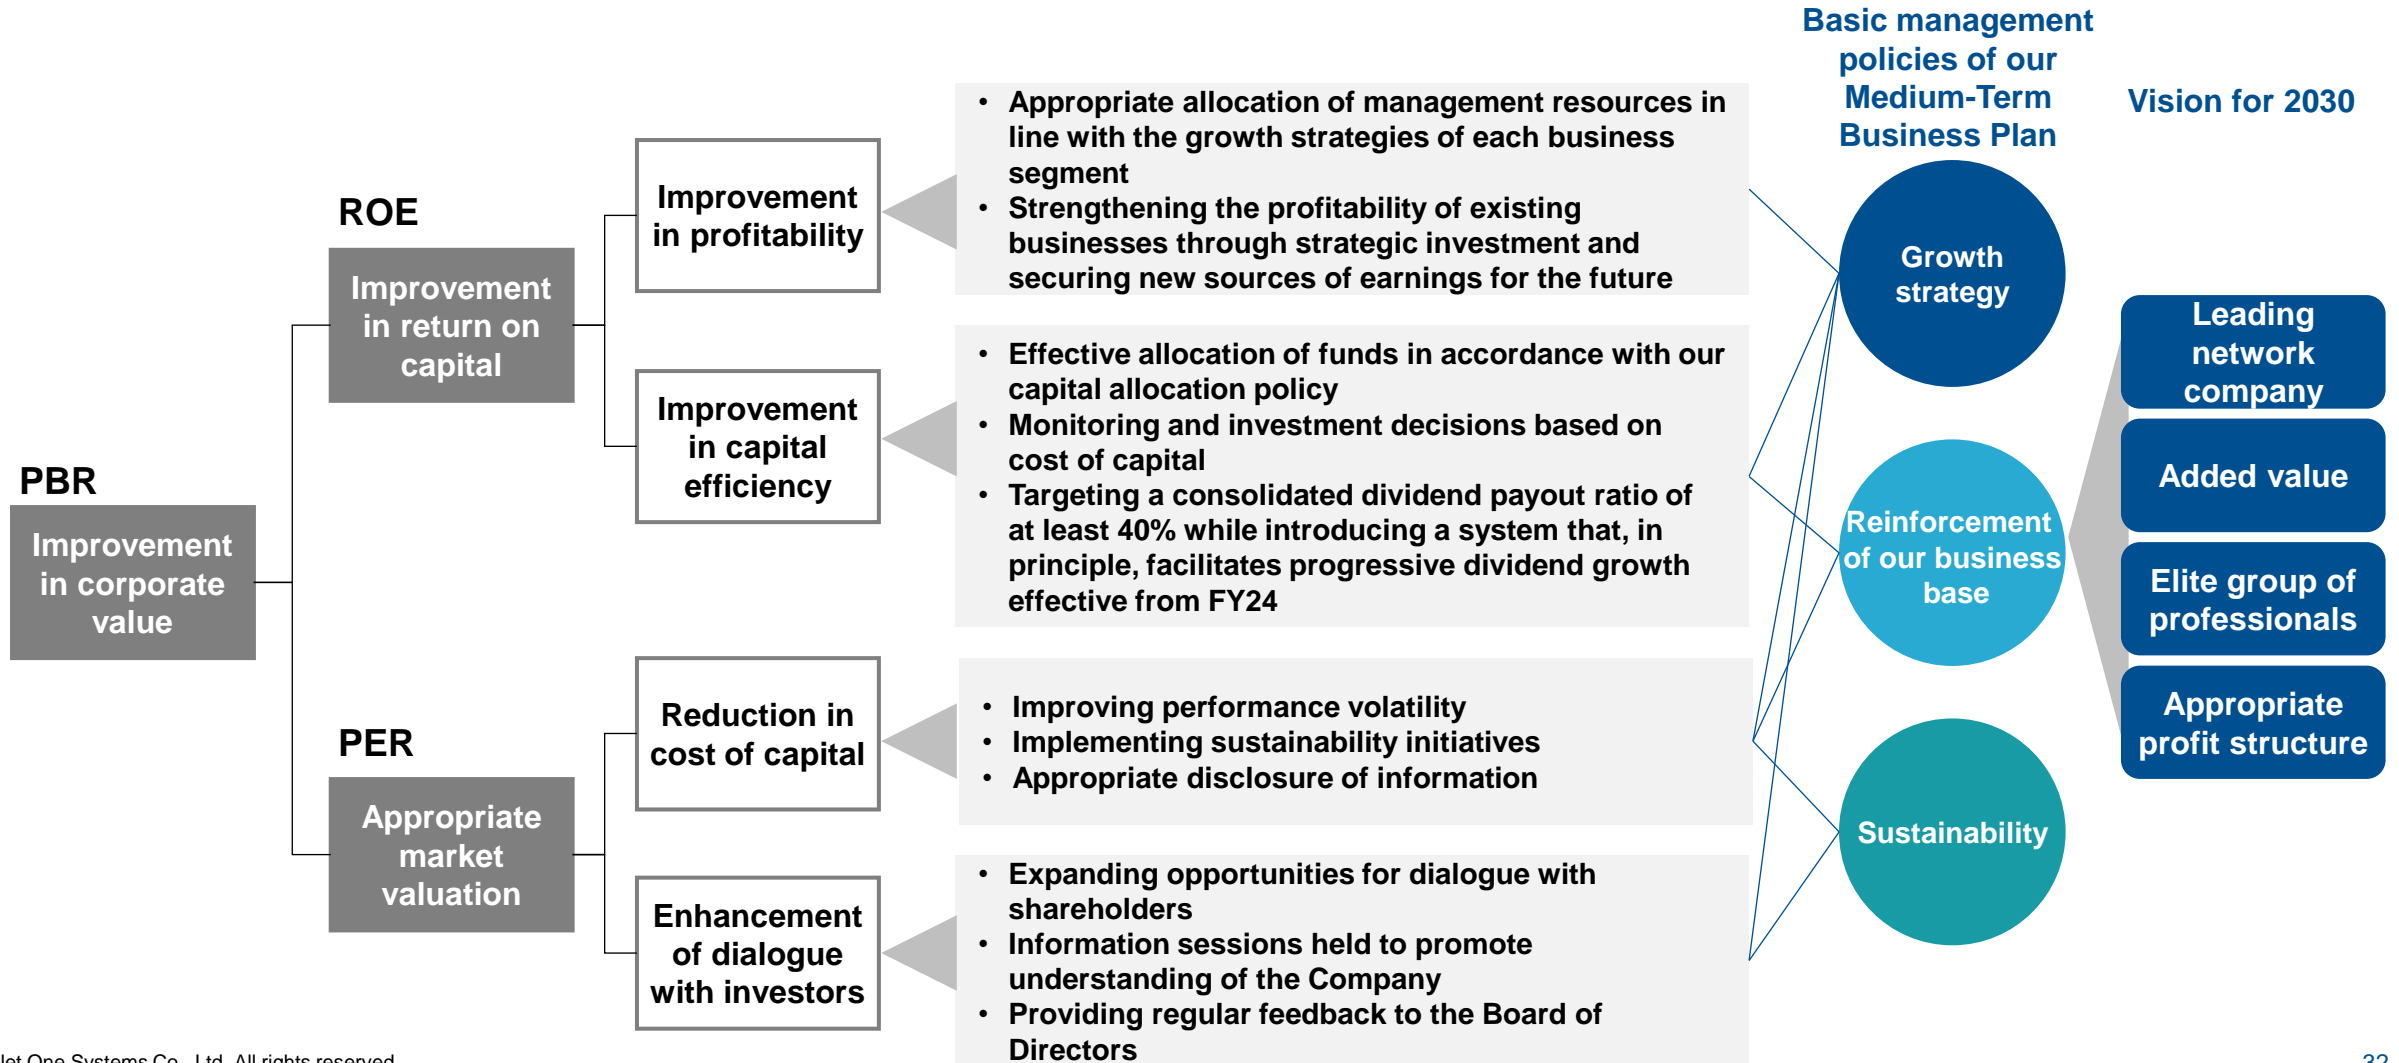

#### Current state analysis

- Our ROE has been maintained at 15–20% since 2019, mainly thanks to improvement in profit margins. This metric also significantly exceeds our perceived cost of equity (6–7%). Accordingly, our recent equity spread compares favorably to the average of Information & Communication sector companies listed on the Tokyo Stock Exchange Prime Market.
- On the other hand, we recognize a gap between our perceived cost of equity and what our investors expect as returns on their investment. To generate sustainable growth for the Net One Group, we will continue to implement measures to strengthen profitability and improve capital efficiency as we aim to achieve industry-leading earning power (return on capital).

- Our PBR exceeds the market average (about 1.0) while falling short of the average of Information & Communication sector companies listed on the Tokyo Stock Exchange Prime Market. After peaking at 4.0 in FY2020, our PBR has been gradually declining in recent years due to sluggish stock price growth.
- We recognize challenges related to the rates at which our actual results deviate from projections and are aware of uncertainties regarding future prospects and the expansion of service businesses. Accordingly, we will implement improvement measures while closely monitoring our PBR and stock price-related indicators including PER and EPS.

# Policies targeting improvement

As we aim to attain our medium- to long-term vision, “Vision for 2030,” we will steadily implement each of the basic management policies set forth in our Medium-Term Business Plan. At the same time, we will continuously maintain return on capital that exceeds our cost of capital, thereby generating industry-leading earning power and sustainable corporate value growth.

# 6

## Progress of measures to prevent recurrence

# Summary of recurrence prevention measures in FY23

We have focused on fostering a corporate culture to prevent the recurrence of fraud, and have been committed to promoting effective measures to prevent recurrence. We will continue to further strengthen governance and internal controls while promoting corporate culture reforms to achieve sound and sustained business growth, thereby enhancing corporate value.

## Accomplishments in FY23

- **Facilitated widespread acceptance of our corporate philosophy and Code of Conduct**
  - Expanded structures and initiatives to ensure our corporate philosophy and Code of Conduct are firmly established
  - Implemented ongoing corporate culture monitoring surveys and corporate culture reforms
- **Strengthened mechanism for learning from past instances of fraud and collecting employee feedback**
  - Established and operated the Corporate Culture Future Center as a forum of learning for all employees
  - Began operation of feedback system utilizing third-party points of contact with the purpose of collecting constructive and specific employee feedback
- **Transitioned to a new personnel system and ensured its sound operation**
  - With the implementation of management strategy in mind, adopted an appraisal system that leads to the fostering of professional personnel and began initiatives for its fair and equitable implementation
- **Implemented operational reforms for company-wide optimization**
  - Promoted the establishment of new business platforms and strengthened system controls
- **Strengthened risk management structure**
  - Realized autonomous risk management activities by divisions responsible for risk management
  - Provided information and training to further improve risk management awareness across all levels of officers and employees
- **Strengthened governance of Group companies**
  - Continued to operate the common whistleblower contact desk for all Group companies

## Action plans for further progress in FY24 and beyond

- **Facilitate widespread acceptance of our corporate philosophy and Code of Conduct (ongoing)**
  - Continue to implement improvement initiatives based on corporate culture monitoring surveys
- **Further strengthen governance and internal control systems**
  - Evolve Net One's three lines of defense model to strengthen operation of an organization that accelerates business growth
  - Enhance the effectiveness by agile operation of relevant committees
- **Ensure sound operation of our new personnel system and fostering of human resources**
  - Build a group of highly specialized personnel who understand customer perspectives and interactions and are valuable to our customers
  - Further strengthen our human resources base to prevent recurrence of fraud
- **Implement operational reforms for company-wide optimization (ongoing)**
  - Promote the establishment of new business platforms and strengthen system controls
- **Strengthen structure for integrated risk management**
  - Make risk management activities more sophisticated by having divisions responsible for risk management drive improvement cycle
  - Provide information and training to further improve risk management awareness and skills of divisions responsible for risk management
- **Strengthen governance of Group companies (ongoing)**
  - Facilitate widespread acceptance of our corporate philosophy and Code of Conduct across the Group to foster a common understanding of objectives and promote improvement activities in accordance with the business practices of each company
  - Continue to operate the common whistleblower contact desk for all Group companies

## Progress

### 1. Governance reform and promotion

- We continued to conduct case study workshops on J-SOX for all employees to facilitate understanding of risk control in their own work and their role from the perspective of strengthening internal control. (1.(1)-b,1.(4)-b)
- Our chief executives continuously provided opportunities for communication with employees and delivered messages directly to them. (1.(3)-a)

### 2. Enhancement of risk management system

- In accordance with our basic policy for risk management and our annual activity plan for FY23, we executed various measures while coordinating with CROs for each business unit, divisions responsible for risk management (1.5th and second lines of defense), and the Governance and Corporate Culture Advisory Committee. We communicated risk reassessment methods to divisions responsible for risk management in preparation for formulating a risk management plan for FY24. (2.(2)-c, 2.(2)-e)

### 3. Strengthening of business execution systems and other internal systems

- We continued to hold meetings established to strengthen our system for conducting business operations across organizations (such as between sales and engineering divisions and the Procurement Department) (3.(1)-a)
- We continued to hold meetings between administrative divisions to bolster internal controls and strengthen its checking and follow-up structure. (3.(2)-a)

### 4. Radical revisions to our auditing system

- We continued to conduct internal audits by theme based on our internal audit policy and plan for FY23. (4.(1)-b)
- We have developed a training plan to facilitate understanding of J-SOX and have completed preparation of training content; training has been underway since December 2023. (4.(3)-d)
- We continued periodic exchanges of opinions with executive directors and the Internal Audit Office, as well as participation in training regarding instances of fraud. (4.(4)-a/b/c)

### 5. System for collecting employee feedback

- We began full-scale operation of our whistleblower platform, which enables anonymous two-way communication, and continued to respond to reports and consultations from employees. (5.(1)-a)
- We continued to implement our feedback system, which operates using third-party points of contact, under new rules aimed at facilitating the collection of constructive and specific feedback. (5.(2)-a)

### 6. Reform and creation of organizational culture

- To increase opportunities for disseminating our corporate philosophy, we began planning our third Vision Day. (6.(2)-d)
- We continued to hold one-on-one meetings between supervisors and individual subordinates in accordance with the Declaration of Conduct, which is pursuant to our philosophy system. (6.(2)-e)

### 7. Accounting literacy education, and training and instruction based on prior examples of misconduct

- We launched Step 3 of our FY23 education plan for improving accounting literacy and accounting knowledge. We continued to provide education for those who have not yet completed Step 2. (7.(1)-a)
- We continued to host business rule briefings and workshops aimed at learning from and sharing examples of past mistakes and failures while making some improvements to the content. (7.(3)-a)

### 8. Ongoing monitoring

- We developed a concrete action plan in accordance with the course of action we previously organized to strengthen our internal control system on an ongoing basis. Details regarding this plan have been disclosed internally. (8.(2)-a)

(Notes) 1. Please refer to our release entitled “Additional Measures to Prevent Recurrence” dated May 13, 2021 (available in Japanese only) for an itemized list of details regarding specific recurrence prevention measures (in blue).

2. Internal audit by theme: A theme will be set and an internal audit conducted when it is determined that a cross-organization internal audit is required based on the results of risk assessment and organization-specific internal audit.

## Progress

### 1. Governance reform and promotion

- We continued to conduct case study workshops on J-SOX for all employees to facilitate understanding of risk control in their own work and their role from the perspective of strengthening internal control. (1.(1)-b, 1.(4)-b)

- In accordance with our basic policy for risk management and our annual activity plan for FY23, we executed various measures while coordinating with CROs for each business unit, divisions responsible for risk management (1.5th and second lines of defense), and the Governance and Corporate Culture Advisory Committee. We reported the results of risk reassessments for FY24 to the Risk Management Committee. (2.(2)-c, 2.(2)-e)

### 3. Strengthening of business execution systems and other internal systems

- We continued to hold meetings established to strengthen our system for conducting business operations across organizations (such as between sales and engineering divisions and the Procurement Department) (3.(1)-a)
- We continued to hold meetings between administrative divisions to bolster internal controls and strengthen its checking and follow-up structure. (3.(2)-a)

### 4. Radical revisions to our auditing system

- We conducted internal audits by theme and for each organization based on our internal audit policy and plan for FY23. We also formulated our internal audit policy and plan for FY24, which were approved by our Audit & Supervisory Committee. (4.(1)-b)
- We have developed a training plan to facilitate understanding of J-SOX and have completed preparation of training content; training has been underway since December 2023. (4.(3)-d)
- We continued periodic exchanges of opinions with executive directors and the Internal Audit Office, as well as participation in training regarding instances of fraud. (4.(4)-a/b/c)

### 5. System for collecting employee feedback

- We began full-scale operation of our whistleblower platform, which enables anonymous two-way communication, and continued to respond to reports and consultations from employees. (5.(1)-a)
- We continued to implement our feedback system, which operates using third-party points of contact, under new rules aimed at facilitating the collection of constructive and specific feedback. (5.(2)-a)

### 6. Reform and creation of organizational culture

- We reviewed our corporate philosophy dissemination activities in FY23 and began discussion of our activity plan for FY24. (6.(2)-a)
- We continued to hold one-on-one meetings between supervisors and individual subordinates in accordance with the Declaration of Conduct, which is pursuant to our philosophy system. (6.(2)-e)

### 7. Accounting literacy education, and training and instruction based on prior examples of misconduct

- We completed Step 3 of our FY23 education plan for improving accounting literacy and accounting knowledge. We began developing content of our FY24 education plan based on results of education so far and questionnaire responses. (7.(1)-a)
- We continued to host business rule briefings and workshops aimed at learning from and sharing examples of past mistakes and failures while making some improvements to the content. (7.(3)-a)

### 8. Ongoing monitoring

- While reviewing improvement measures implemented in FY23, we continued to discuss themes and courses of action in preparation for conducting our FY24 survey. (8.(2)-a)

(Notes) 1. Please refer to our release entitled “Additional Measures to Prevent Recurrence” dated May 13, 2021 (available in Japanese only) for an itemized list of details regarding specific recurrence prevention measures (in blue).

2. Internal audit by theme: A theme will be set and an internal audit conducted when it is determined that a cross-organization internal audit is required based on the results of risk assessment and organization-specific internal audit.
