Vision Inc. begins full-scale sales expansion of “Kicho-Daiko.com,” a reasonable bookkeeping and journalizing service born out of customers’ “difficulties” in closing accounts and filing tax returns

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota, hereinafter Vision) begins full-scale sales expansion for the “Kicho-Daiko.com,” which is a bookkeeping and journalizing service born from the voices of customers.

The advertisement features a light blue background. At the top left is the Kicho-Daiko.com logo. To its right is the Smart SME Supporter logo, which includes a stylized 'S' and the text 'Certified by Ministry of Economy, Trade and Industry' and 'No.10/20070025'. The main text is centered and reads: 'More affordable than doing it yourself!' followed by 'Bookkeeping and journalizing accounting work' in red, underlined. Below this is 'required for closing and tax returns' in red. On the right side, a woman with glasses and a dark blazer is shown from the waist up, holding a smartphone. To her right, the text 'We'll take care of everything!' is displayed.

■ **Service Features**

It is a service in which a sole proprietor or corporation sends us copies of vouchers (receipts, invoices, credit card statements, bank books, etc.) by mail or data, and we do the bookkeeping on their behalf. The bookkeeping is carried out under the supervision of our affiliated tax accountant firm, which removes customers’ concerns about the current accounting situation and allows them to use the service with peace of mind.

In addition, to avoid hindering business growth, we offer a reasonable cost of 7,700 yen per month up to 200 journal entries (approximately 39 yen per journal entry).

Website : Kicho-Daiko.com (<https://kicho-daikou.com/lp/02/>)

Cost : No initial cost 7,700 yen per month (tax included) / up to 200 journal entries

“Kicho-Daiko.com” was created based on feedback from more than 400,000 corporate customers, especially startups and small and medium-sized companies, who have dealt with Information and Communications Service business, our original business. With the recent expansion of the BPO (Business Process Outsourcing) market, it has become a convenient way for those who have just started their own business to have more time for their core business, and for those who are suffering from manpower shortages to outsource to a familiar business partner.

We will make every effort to make this service available to more people and to help grow their businesses by starting to accept applications from non-customers on a full scale.

We will also continue to strive to improve and develop services in order to resolve the “difficulties” of various people.
