With changes in behavioral patterns/values of consumers in relation to eating out following Covid-19, the harsh business environment surrounding restaurants with issues such as labor shortages and sharp rises in prices of raw materials, etc. and changing trends in Web services, etc. taken into consideration, Gurunavi believes that there is an ever greater importance attached to the transformation of restaurant management as a whole through digital means in order to continue providing enriched restaurant experiences to consumers while enhancing the productivity of restaurants.

Consequently, while continuing to uphold our existing concept of “support for restaurant management as a whole without stopping at sales promotion alone”, Gurunavi is formulating a three-year medium-term business policy for the March 2024 period to the March 2026 period with a basic strategy consisting of measures implementation focusing on DX for the two areas of “promotional activities” and “store management”, both of which are directly connected to improving restaurant productivity. During this period, Gurunavi will aim to become the “best partner for restaurant management DX”, and for the realization of this goal, we will further reinforce coordination with our business partners while simultaneously engaging in the thorough utilization of “information assets” accumulated through “human support” and “digital utilization”, which are Gurunavi’s strengths, in order to heighten the drive and effectiveness of each measure.

As a result, as well as contributing to the sustainable development of the food service industry, Gurunavi will achieve its own evolution into a business model that can withstand changes in the business environment, and will draw a new growth path.

The remuneration of Gurunavi's directors (excluding directors who are A&SBMs and outside directors) consists of "fixed basic remuneration," "short-term incentives" which are performance-linked remuneration, and "medium- to long-term incentives" which are stock-based remuneration, and details regarding the incentives are as follows.

- Short-term incentives are paid in cash once a year as an annual bonus to the directors (excluding directors who are A&SBMs and outside directors). In determining the amount to be paid, the forecast figures for consolidated net profit published in the Summary of Financial Results are used as the basic index, since it is the most appropriate measure of the contribution to the Company's performance in each fiscal year, and determines the amount by taking into consideration and evaluating the director's position and the business performance/results of the business areas under said director's charge. In addition, depending on the Company's performance in each fiscal year, the payment may not be made.
- As a "medium- to long-term incentives," a restricted stock compensation plan to the directors including outside directors (excluding directors who are A&SBMs. Hereinafter, "applicable directors") is adopted with the objective of awarding of incentives aiming for the realization of mid- to long-term improvements in the Company's business performance and increased corporate value and promoting further shared value with applicable directors and shareholders. The amount and number of shares to be granted shall be determined in consideration of the responsibilities of each applicable director, etc., and in comprehensive consideration of various performance indicators of the Company for each fiscal year and other qualitative factors, and shall be granted once a year during the term of office.

| Performance-linked remuneration: | — |
| Stock-based remuneration: | — |

The number of directors as of the end of the fiscal year ended March 2024 was ten, and the difference from the number of persons to be paid above is due to the existence of two directors who are not paid.

In addition to the above, Gurunavi paid fixed base compensation of 7,950 thousand yen to the four A&SBMs who served prior to the Company's transition to a company with an Audit & Supervisory Committee on June 21, 2023.

2. Policy on determining the calculation method

(1) Basic policy

The remuneration, etc. of the Company's directors (hereinafter, the "Remuneration") shall be determined based on the basic policy rewarding contributions in accordance with the roles and responsibilities required of each director in light of the economic environment and market standards, on the premise that it will contribute to the acquisition of human resources who can put the corporate philosophy into practice and realize the enhancement of corporate value.

(2) Remuneration system and policy on determining the amount

The remuneration of Gurunavi's directors (excluding directors who are A&SBMs and outside directors) consists of "fixed basic remuneration", "short-term incentives", which are performance linked remuneration, and "medium- to long-term incentives", which are stock-based remuneration (short-term incentives and medium- to long-term incentives hereinafter referred to collectively as "variable remuneration"). The details are given below.

- Fixed basic remuneration is paid monthly in cash to each director in a fixed amount based on their responsibilities and other factors.
- Short-term incentives are paid in cash once a year as an annual bonus to the directors (excluding directors who are A&SBMs and outside directors). In determining the amount to be paid, the forecast figures for consolidated net profit published in the Summary of Financial Results are used as the basic index, since it is the most appropriate measure of the contribution to the Company's performance in each fiscal year, and determines the amount by taking into consideration and evaluating the director's position and the business performance/results of the business areas under said director's charge. In addition, depending on the Company's performance in each fiscal year, the payment may not be made.
- As "medium- to long-term incentives," a restricted stock compensation plan to the directors including outside directors (excluding directors who are A&SBMs. Hereinafter, "applicable directors") is adopted with the objective of awarding of incentives aiming for the realization of mid- to long-term improvements in the Company's business performance and increased corporate value and promoting further shared value with applicable directors and shareholders. The amount and number of shares to be granted shall be determined in consideration of the responsibilities of each applicable director, etc., and in comprehensive consideration of various performance indicators of the Company for each fiscal year and other qualitative factors, and shall be granted once a year during the term of office.

(3) Policy on the Composition of Remuneration

When paying variable remuneration to directors (excluding directors who are A&SBMs), payments shall be made at levels not exceeding two thirds of fixed basic remuneration.

For directors (excluding directors who are A&SBMs) who are not executive directors, from the perspective of expectations for opinions and suggestions from an objective standpoint and the exercise of appropriate supervisory functions, the Company shall basically pay the total amount as fixed basic remuneration, but shall consider and determine the payment of medium- to long-term incentives as necessary.

Directors who are A&SBMs shall be paid only fixed basic remuneration.

(4) Policy on decision-making process

The President & Representative Director, who has been entrusted by the Board of Directors with the entire decision on the content of directors' remuneration (excluding directors who are A&SBMs), shall decide the remuneration within the scope of the total amount resolved at the General Meeting of Shareholders, after deliberations with the Governance Committee and receiving its report.

In addition, as the core business of Gurunavi is food, a woman's perspective is important, and the appointment of female directors is also progressing. In view of roles such as management oversight and oversight functions, the selection of outside directors involves the comprehensive consideration of attributes such as company management experience and specialist expertise, etc.
- In the event that a member of senior management commits an act of misconduct, undertakes actions that harm the company's reputation, or is deemed unsuitable for a senior management

position, said individual shall be dismissed by resolution of the Board of Directors.

- Basic policies and procedures related to remuneration for directors are given under [Director Remuneration] in “II Status of Business Management Organization and Other Corporate Governance Systems regarding Decision-making, Execution of Business, and Oversight in Management – 1. Matters related to Organizational Composition and Operation, etc.” in this document.

3. Reasons for Adoption of the Current Corporate Governance System

With the addition to Gurunavi's senior management of the current President & Representative Director, appointed from a major shareholder and the current Chairman and Director, a major shareholder, the company endeavors to improve corporate value through the implementation of management practice that applies its corporate philosophies with the perspectives of shareholders taken into consideration. We believe that, depending on the approaches taken to improve corporate value, the interests of general shareholders are also protected. However, from the perspective of general shareholders, there is a possibility that concerns may arise over damage to general shareholders' interests due to a bias towards major shareholders' interests. Consequently, in order to eliminate such concerns, Gurunavi has opted for the company with audit & supervisory board system, whereby four directors who are A&SBMs (of which three are independent directors) impose controls on business execution in general from a background of exercise of voting rights at meetings of the Board of Directors and audit/oversight of legality/validity, and ensure process transparency in the determination of nomination and remuneration for senior management including the Representative Director and directors in order to reinforce the oversight functions, independence, objectivity, and accountability of the Board of Directors, and with the aim of contributing to the reinforcement of Gurunavi's corporate governance, we have established the Governance Committee, a voluntary advisory body to the Board of Directors, in order to fully protect the interests of general shareholders.
