#### Analysis for Changes in Operating Profit - Year on Year

#### Decrease in operating profit

#### due to decline in gross profit and increase in SG&A expenses

Contribution of M&A decreased compared to that in the first half of the fiscal year partly due to the seasonal fluctuations of public works and business

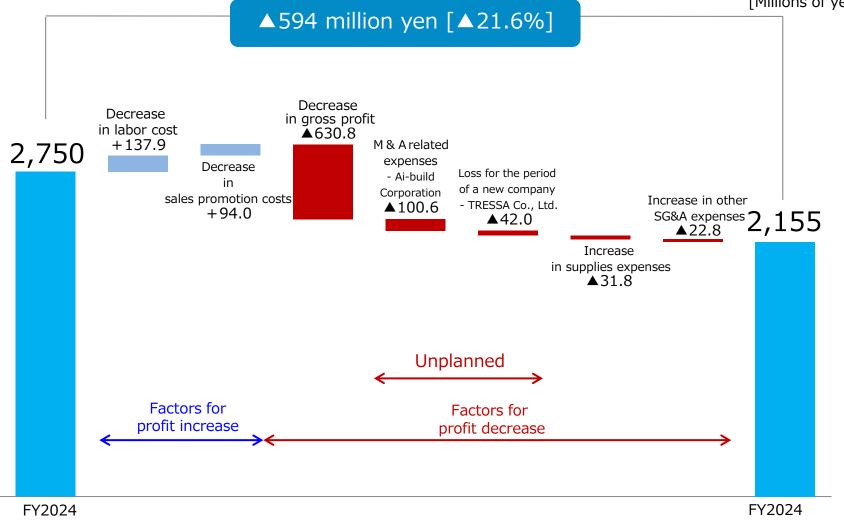

#### Operating profit decreased due to the decline in gross profit

Overall SG&A expenses were mostly as planned.

M&A related expenses were incurred,

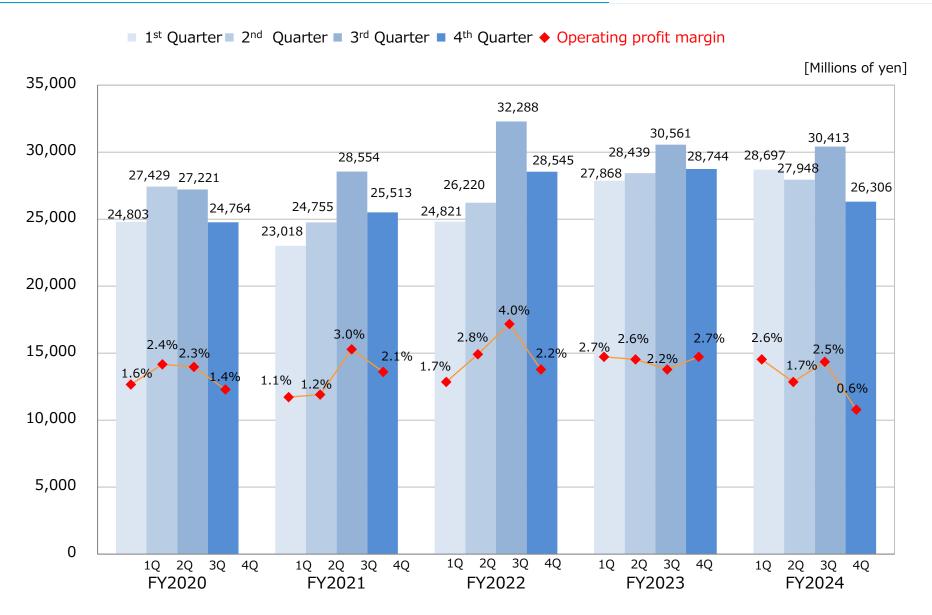

while labor cost and sales promotion costs were lower than the plans. [Millions of yen]

Plan

#### Trends in Net Sales for Each Quarter

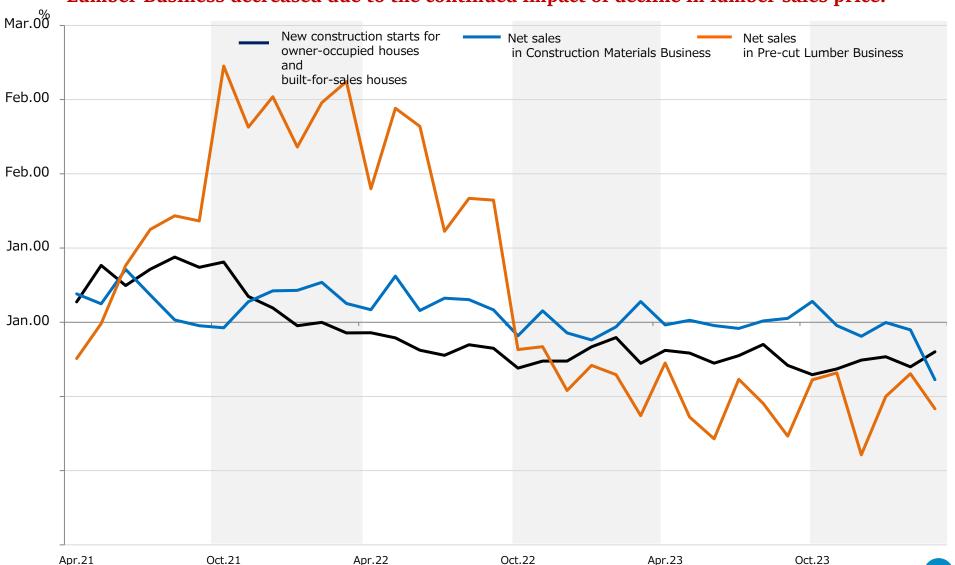

#### Trends in Annual Rate Y on Y (nationwide)

Construction Materials Business secured almost the same amount of net sales as that in the previous fiscal year, while the number of housing starts declined. Net sales of Pre-cut Lumber Business decreased due to the continued impact of decline in lumber sales price.

#### Y on Y Change

- We focused on expanding sales of products aimed at achieving carbon neutrality, capturing demand for remodeling/renovation and promoting the introduction of wooden structures and wooden interior decorations to non-housing buildings, while new housing starts for owner-occupied houses and built-for-sale detached houses decreased. Furthermore, we acquired TRESSA Co., Ltd., headquartered in Nagasaki City in May 2023, and Ai-build Corporation, having bases throughout Japan in January 2024. Net sales decreased by 1.7% year on year.
- Operating profit decreased by 38.5% year on year due to the increase in SG&A expenses such as labor cost and so on.

- Both net sales and operating profit fell short of the targets due to the decrease in the number of new starts for owner-occupied houses and built-for-sale detached houses.
- The profit and loss of TRESSA Co., Ltd. is recorded on the consolidated financial results from the six-month period and Ai-build Corporation is consolidated only in terms of the balance sheet.

#### Y on Y Change

- We made greater efforts to win orders from non-housing projects, including offices, shops, and other facilities, in addition to detached houses, our mainstay. However, net sales of this business decreased by 21.3% year on year, due to lower lumber prices as well as the decline in new construction starts for owner-occupied houses and built-for-sale detached houses.
- Operating profit decreased by 46.1% year on year, despite the efforts to maintain gross profit. However, we secured operating profit level before 2021-2023 lumber shortage (Re: 835 million yen for FY2020, 704 million yen for FY2021).
- We closed Onomichi branch (formerly Nishinihon Precut Center Co., Ltd.) of Yodo Ply Co., Ltd. in September 2023, due to the difficulties in expanding production scale.

#### Result vs Plan

Both net sales and operating profit fell short of targets, due to lower lumber prices as well as the decline in new construction starts.

#### Y on Y Change

- Net sales increased by 2.7% year on year because sales and installation work of freezing and refrigeration equipment and air-conditioning equipment grew steadily.
- Operating profit increased by 38.3% year on year.

- Net sales fell short of the target due to undermined consumer sentiment caused by rising living costs and so on in vendor business for mass retailers.
- Operating profit achieved the target due to strong performance in sales and installation work of freezing and refrigeration equipment and airconditioning equipment, and the reduction of SG&A expenses by streamlining logistics and so on in vendor business for mass retailers.

#### Profitability improvement in our mainstay

- "Construction Materials Business" and "Pre-cut Lumber Business"

#### Nationwide expansion of solar power generation business

- We develop solar power installation services and promote ZEH and Long-life Quality Housing with major housing makers, in accordance with mandatory installation of solar power generation in new housing aimed at achieving carbon neutrality.
- We expand sales and installation work of solar power generation facilities within the whole Ochi group, centering on Ochi Sangyo Co., Ltd. and Ai-build Corporation in 'Construction Materials Business', and Taiyo-Sangyo Co., Ltd. in 'Air-conditioning, Heating and Cooling, and Household products Business'.
- We try to capture broad demand for solar power installation service, cooperating with wide-area builders, general contractors and so on.

"Flexible" High-output and ultra-lightweight type of solar panel Being light and applicable on curved surfaces, it can be attached to carports or walls etc.

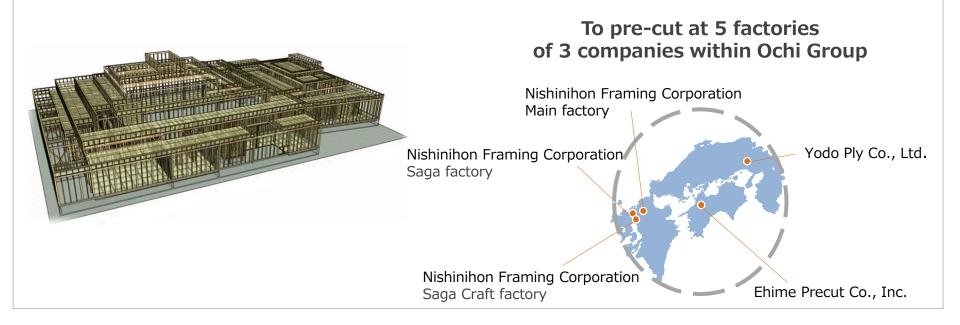

Installed by Ai-build Corporation in Dec. 2023

- Profitability improvement in our mainstay
  - "Construction Materials Business" and "Pre-cut Lumber Business"

#### Expanding non-housing business

- We promote to construct non-housing buildings such as hospitals, elderly care facilities, kindergartens etc. with wooden structures, and try to win more orders for non-housing buildings, and make this business a new pillar alongside new-starts and remodeling.
- We enhance group synergy through cross-sectional collaboration in 'Construction Material Business', 'Pre-cut Lumber Business' and 'Engineering Business', and increase the sales composition for non-housing field within Ochi group as a whole.

- Profitability improvement in our mainstay
  - "Construction Materials Business" and "Pre-cut Lumber Business"

#### Improving productivity

- We promote DX to realize improvement of productivity and work efficiency.
- We start to use tools for online product proposal.
- We promote to use RPA for the purpose of workload reduction and operational improvement.
- We newly establish Logistics Operations Department to respond to market changes. The
  department promotes delivery optimization by improving efficiency of product inspection work,
  etc.

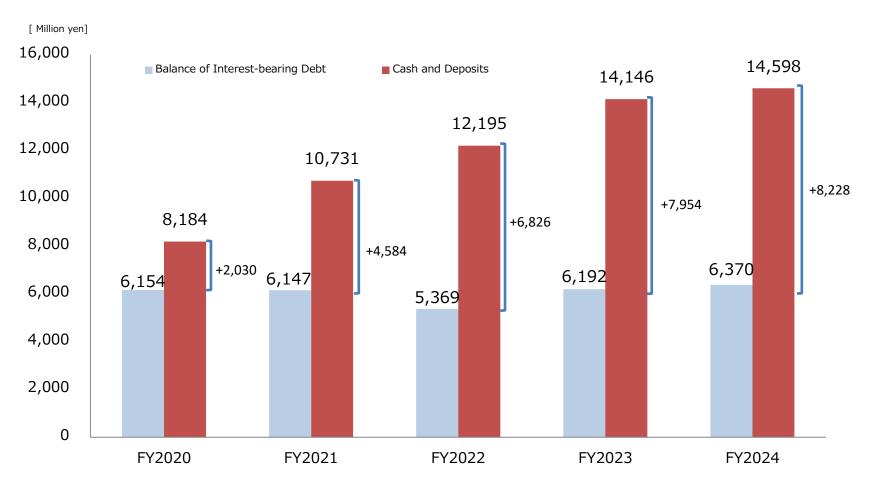

#### Changes of Balance between Interest-bearing Debt and Cash and Deposits

#### ■ We keep healthy cash position while conducting aggressive M&A

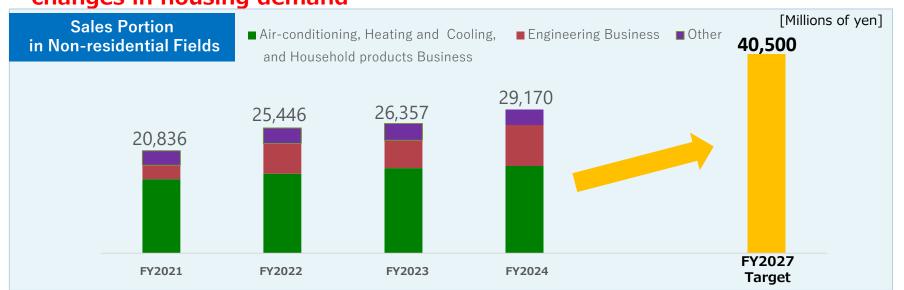

#### ■ Investment to growth fields, using operating cash flow

#### Pursuit of aggressive M&A

- We continue to acquire new companies in highly profitable growth fields, using operating cash flow.
- We plan to increase the proportion of non-residential fields to consolidated net sales to 30% or more.

■We plan to establish corporate structure which is less susceptible to changes in housing demand
