With regard to the year-end dividend for the current fiscal year, based on the above basic policy, and due to a significant increase in profit attributable to owners of parent from the recording of gain on sale of fixed assets, the Company has increased the dividend by 10 yen to 40 yen per share from the forecast of 30 yen per share. Combined with the interim dividend of 25 yen per share already paid, the annual dividend per share will be 65 yen, an increase of 10 yen from the previous fiscal year.

The Company will continue to strive to meet shareholders' expectations with the return of profits as an important issue.
