## 1 . Qualitative Information on Quarterly Financial Results

### (1) Explanation Concerning Quarterly Business Results

#### (General Overview)

Nippon Sanso Holdings Group (NSHD Group) delivered positive profit growth for the first quarter of the fiscal year under review (from April 1, 2024 to June 30, 2024) despite challenging geopolitical issues, rising trade tensions, global inflation, JPY depreciation, and a soft semiconductor market.

Under these circumstances, overall shipment volumes were negative despite the fact that that of air separation gases (oxygen, nitrogen, and argon) were positive year-on-year. In addition, there has been a moderation of energy costs in most regions as compared to prior year. Furthermore, price management has been successful in passing costs through to our customers and our robust productivity projects continue to yield positive financial results. These factors enabled the NSHD Group to achieve the following results for the first quarter under review.

Revenue on a consolidated basis increased by 6.6% year-on-year to ¥329,274 million, core operating income increased by 18.7% to ¥48,355 million, operating income increased by 17.8% to ¥47,979 million, and net income attributable to owners of the parent increased by 18.4% to ¥29,085 million.

As for the impact of foreign exchange rates year-on-year, JPY depreciated against the USD from ¥139.63 to ¥158.24 (+¥18.61, or +13.3%), against the EUR from ¥151.89 to ¥170.08 (+¥18.19, or +12.0%). As a result, overall revenue and core operating income were favorably impacted by approximately ¥24.1 billion and ¥3.6 billion respectively.

Core operating income is calculated by excluding from operating income certain gains and losses attributable to non-recurring factors such as losses incurred due to business withdrawal or downsizing.

#### (Overview of business performance by reportable segment)

A breakdown of business performance by reportable segment is as follows.

Segment income represents core operating income.

#### (i) Japan

In the industrial gas-related business, shipment volumes of air separation gases slightly decreased and those of carbon dioxide gas were flat year-on-year. In addition, shipment volumes of electronic material gases were soft. In equipment and installation, both industrial gas-related and electronics-related businesses posted higher revenues, mainly due to medium and large sized projects which are accounted for on a percentage-of-completion basis. Meanwhile, there was a decrease in revenue due to two transactions which occurred last fiscal year: the conversion of a consolidated on-site subsidiary to a joint operation entity and the deconsolidation of a subsidiary responsible for resident-use LP gas.

As a result, in the Japan segment, revenue decreased by 6.2% year-on-year to ¥ 100,916 million and segment income increased by 2.9% to ¥ 11,567 million.

#### (ii) United States

Revenue increased in the industrial gas-related business year-on-year mainly due to positive volumes related to air separation gases and price management. In equipment and installation, sales conditions of industrial gas-related and electronics-related equipment were soft.

As a result, in the United States segment, revenue increased by 12.9% year-on-year to ¥ 92,601 million and segment income increased by 32.3% to ¥ 14,808 million.

#### (iii) Europe

Revenue increased in the industrial gas-related business year-on-year mainly due to firm shipment volumes of air separation gases and price management. Equipment and installation, revenue increased with positive performance in both industrial gas-related and medical-related equipment.

As a result, in the Europe segment, revenue increased by 16.3% year-on-year to ¥ 85,039 million, and segment income increased by 26.6% to ¥ 16,644 million.

(iv) Asia & Oceania

In the industrial gas-related business, air separation gases shipment volumes were positive. In LP gas, of which a large portion of sales is in the Australia region, sales volumes were solid, thereby increasing revenue. In the electronics-related business, in East Asia, shipment volumes of electronic material gases remained soft.

As a result, in the Asia & Oceania segment, revenue increased by 10.3% year-on-year to ¥42,428 million and segment income increased by 4.8% to ¥4,325 million.

(v) Thermos

In Japan, sales from portable vacuum-insulated mugs were firm, and revenue increased due in part to the launch of new products with functional and stylish designs. Overseas, sales conditions were soft. Segment income decreased mainly due to higher marketing costs and production costs caused by the weak JPY.

As a result, the Thermos segment revenue increased by 9.0% year-on-year to ¥8,264 million, the segment income decreased by 13.0% to ¥1,241 million.

(2) Overview of Quarterly Financial Position

As of the end of the Q1 consolidated accounting period, total assets amounted to ¥2,532,316 million, an increase of ¥123,233 million from March 31, 2024. Foreign exchange rates resulted in an increase in total assets of approximately ¥113.0 billion. This mainly reflected foreign exchange rate changes, such as the JPY depreciation of ¥9.66 against the USD and the JPY depreciation of ¥9.09 against the EUR as of the end of June 30, 2024, compared with the rates as of March 31, 2024.

[Assets]

Total current assets were ¥578,079 million, an increase of ¥9,877 million from March 31, 2024. The main factors were decreases in cash and cash equivalents and trade receivables, and the impact from the JPY depreciation against major currencies such as the USD and the EUR.

Total non-current assets were ¥1,954,236 million, an increase of ¥113,355 million from March 31, 2024, mainly reflecting increases in plant, property and equipment and other financial assets, and the impact from JPY depreciation against major currencies.

[Liabilities]

Total current liabilities were ¥485,250 million, a decrease of ¥12,769 million from March 31, 2024. The main factors were decreases in other financial liabilities and trade payables, and the impact from JPY depreciation against major currencies.

Total current liabilities were ¥1,015,811 million, an increase of ¥50,860 million from March 31, 2024. The main factors were increases in bonds and borrowings and other financial liabilities, and the impact from JPY depreciation against major currencies.

[Equity]

Total equity amounted to ¥1,031,254 million, an increase of ¥85,141 million from March 31, 2024. The main factors were increases due to the recording of exchange differences on translation of foreign operations and net income attributable to owners of the parent.

The ratio of equity attributable to owners of the parent stood at 39.5%, up 1.5 percentage points from the previous fiscal year-end.

(Cash flow analysis)

[Cash flow from operating activities]

Net cash provided by operating activities increased 1.6% year on year to ¥34,140 million. The main components were income before income taxes, depreciation and amortization expenses, and variations in trade receivables.

[Cash flow from investing activities]

Net cash used in investing activities increased 85.0% year-on-year to ¥46,201 million. The main use of cash was for the purchase of property, plant and equipment.

[Cash flow from financing activities]

Net cash provided by financing activities increased to ¥1,517 million from net cash used of ¥24,922 million year-on-year. The main factors were the proceeds from long-term borrowings and net variation in commercial papers, and repayment of long-term borrowings.

As a result of the Company's operating, investing, and financing activities, the balance of cash and cash equivalents as of the end of Q1, after accounting for the effects of exchange differences, came to ¥121,537 million.

(3) Explanation Concerning Predictive Information such as Consolidated Business Forecasts

No revisions have been made to the consolidated business forecasts released on May 13, 2024.

(5) Notes to the Quarterly Condensed Consolidated Financial Statements

(Applicable financial reporting framework)

Quarterly Condensed Consolidated Financial Statements of the Group (Quarterly Condensed Consolidated Statement of Financial Position, Quarterly Condensed Consolidated Statement of Profit or Loss, Quarterly Condensed Consolidated Statement of Comprehensive Income, Quarterly Condensed Consolidated Statement of Changes in Equity, Quarterly Condensed Consolidated Statement of Cash Flows and Notes to the Quarterly Condensed Consolidated Financial Statements) are prepared in accordance with Article 5, Paragraph 2 of the Standards for Preparation of Quarterly Financial Statements of the Tokyo Stock Exchange Inc. (however, the omission set forth in Article 5, Paragraph 5 of the same standards is applied), and parts of the disclosure items and notes required by IAS 34 “Interim Financial Reporting” are omitted.

(Notes regarding going concern assumption)

Not applicable.

(Segment information)

(1) Outline of reportable segments

The NSHD Group’s reportable segments are those of the components of the NSHD Group on which separate financial information is available, and which are evaluated regularly by the Board of Directors to determine the allocation of management resources and assess business performance. No grouping of operating segments has been carried out for reporting purposes.

The NSHD Group conducts gas businesses in Japan and overseas, mainly for customers in the steel, chemical, and electronics industries, and has production and sales bases for its main products in Japan, the United States, Europe, and Asia & Oceania. In addition, the NSHD Group engages in the manufacture and sale of housewares such as stainless steel vacuum bottles. Accordingly, the Group has established the following five reportable segments: Japan, the United States, Europe, Asia & Oceania, and Thermos.

The principal products and services for each of the reportable segments are as shown below.

Reportable segment	Main products and services
Japan	Oxygen, nitrogen, argon, carbon dioxide, helium, hydrogen, acetylene, gas-related equipment, specialty gases (electronic materials gases, pure gases, etc.), electronics-related equipment and installation, semiconductor manufacturing equipment, welding and cutting equipment, welding materials, plants and machinery, liquid petroleum gas (LPG) and related equipment, medical-use gases (oxygen, nitrous oxide, etc.), medical equipment, stable isotopes
United States	
Europe	
Asia & Oceania	
Thermos	Housewares and consumer goods

The accounting methods adopted for the reported operating segments are the same as those adopted to prepare the consolidated financial statements. Revenue from inter-segment transactions and transfers is based primarily on prevailing market prices.

## (2) Figures of revenue and income (loss) by reportable segment

Three-months ended June 30, 2023 (April 1, 2023 to June 30, 2023)

(Millions of yen)

	Reportable segment						Adjustments (Note 1)	Amounts on the Consolidate d Statement of Income
