Operating revenue for the three-month period under review was 101,634 million yen, up 5.0% year-on-year. This was due to an increase in the number of condominiums sold in the Housing business of Real Estate and higher unit prices of guest rooms in the Hotel business of Leisure and Services, despite lower sales prices, which had remained high, in the Global Logistics business of Logistics. Accordingly, operating income came to 5,919 million yen, up 9.4% year-on-year.

Ordinary income was 5,823 million yen, down 16.2% year-on-year, due partly to a decrease in share of profit of entities accounted for using equity method.

Profit attributable to owners of parent was 3,697 million yen, down 60.6% year-on-year, partly due to a decrease in gain on sale of non-current assets.

The Company's business performance by segment is as follows.

1) Transportation

In the Bus business, revenue increased mainly due to the fare revision (implemented in January 2024). In the Railway business, revenues increased mainly due to a recovery in passenger volume. As a result, operating revenue for the Transportation business was 20,035 million yen (6.8% increase year-on-year), and operating income posted 1,369 million yen (49.4% increase year-on-year).

The number of passengers increased 4.3% year-on-year in the Railway business, but fell 1.1% in the Bus (public buses) business.

2) Real Estate

In the Housing business, revenue grew due to an increase in the number of condominium units sold (including the number of rental condominium units sold as one building). In the Leasing business, revenue was up mainly due to an increase in lease revenue from hotel facilities (inter-segment transactions). As a result, operating revenue for the Real Estate business was 19,455 million yen (34.8% increase year-on-year), and operating income posted 2,582 million yen (56.8% increase year-on-year).

The number of units sold was 197 (up 121 units year-on-year).

3) Retail

In the Supermarkets/liquor stores business, sales declined mainly due to the closure of some stores for remodeling and the impact of competing stores. On the other hand, in the Sales of miscellaneous everyday items business, sales increased mainly due to the opening of "AEON MALL Nogata" in April 2024. As a result, operating revenues for the Retail business were 17,141 million yen (0.4% increase year-on-year). Operating loss amounted to 37 million yen (operating income of 77 million yen for the same period of the previous year), due in part to higher personnel expenses and store remodeling costs in the Supermarkets/liquor stores business.

4) Logistics

In the Global Logistics business, revenues declined mainly due to lower sales prices, which had remained high, despite a recovery in cargo movement in some areas. As a result, operating revenue for the Logistics business was 32,809 million yen (9.4% decrease year-on-year), and operating income came to 590 million yen (71.5% decrease year-on-year).

International cargo volume grew 0.2% year-on-year in Air exports, decreased 4.9% year-on-year in Air imports, was up 11.1% year-on-year in Ocean exports, and increased 9.0% year-on-year in Ocean imports.

5) Leisure and Services

In the Hotel business, sales increased mainly due to the rise in the average daily rate (ADR) and the contribution of Solaria Nishitetsu Hotel Taipei Ximen, which opened in the previous fiscal year (August 2023). As a result, operating revenue for the Leisure and Services business was 11,884 million yen (21.3% increase year-on-year), and operating income amounted to 1,302 million yen (65.6 increase year-on-year).

6) Others

Operating revenue for Others was 6,496 million yen (0.1% decrease year-on-year) mainly due to a decrease in net sales of completed construction contracts in Construction related business, despite an increase in orders received for vehicle maintenance-related businesses. Operating income was 221 million yen (56.6% increase year-on-year) mainly due to higher gross income for the vehicle maintenance-related businesses.
