The corporate governance of Mitsubishi Corporation (MC) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Attributes, and Other Key Information

1. Basic Views

(1) Basic Policy on Corporate Governance

① With the Three Corporate Principles for a corporate philosophy, MC strives to continuously increase corporate value through corporate activities rooted in the principles of fairness and integrity. MC believes that by helping to enrich society, both materially and spiritually, it will also meet the expectations of all its stakeholders. In order to achieve these goals, MC recognizes the continuous strengthening of corporate governance as a fundamental management policy since it is the foundation for ensuring sound, transparent, and efficient management.

② Under MC's basic policy on corporate governance set forth in the preceding paragraph, MC transitioned to a Company with an Audit & Supervisory Committee upon approval at the 2024 Ordinary General Meeting of Shareholders held on June 21, 2024 to achieve a) separation of oversight and execution in management, b) oversight of management based on sufficient deliberation by the Board of Directors, and c) timely and decisive decision-making which has ability to respond to changes by delegating partial decision-making authority for the execution of important operations to the President and CEO and other Executive Directors (collectively the "Executive Directors").

③ Under this corporate governance system set forth in the preceding paragraph, the Executive Directors, who have been designated by the Board of Directors, shall formulate management strategies and business plans, etc., and subsequently the Board of Directors shall deliberate and determine them. The Executive Directors shall periodically report on the progresses of these strategies and plans to the Board of Directors, and the Board of Directors shall monitor those progresses to continuously increase corporate value.

④ MC shall establish internal rules and regulations for such matters as codes of conduct for officers and employees; a company-wide lateral management systems; and measures for prevention, correction, and improvement; and internal whistleblower systems. After informing all parties, MC shall rigorously reflect the

(Translation)

rules and regulations in operations and realize its compliance system. MC shall also establish appropriate internal control systems, check the operating status of these systems on an annual basis, and endeavor to continuously improve and strengthen them.

(2) Basic Policy on Stakeholders Engagement

① In consideration of MC's Environmental Charter, Social Charters, Human Rights Policy and other relevant internal rules, MC shall strive to achieve its sustainable growth and to continuously increase corporate value by appropriately reflecting the demands, expectations and opinions of the diverse stakeholders such as shareholders, investors, financial institutions, employees, customers/business partners, NGOs, governments/local authorities, as well as society/media in our operations through dialogue and engagement.

② MC shall appropriately, timely and fairly disclose information and be committed to fulfilling accountability as a corporate enterprise through enhancement of disclosure materials and stakeholder engagement via dialogue in addition to disclosing corporate information in accordance with laws and regulations. In addition, MC will actively disclose and provide information in English to enhance the disclosure of information to foreign investors.

MC has formulated Mitsubishi Corporation Principles of Corporate Governance ("MC Principles of Corporate Governance") to define the basic views and policy of corporate governance and the concrete policy and initiatives based on them. Details are available on MC's website at the following URL.

MC Principles of Corporate Governance: <https://www.mitsubishicorp.com/jp/en/about/philosophy/corporate-governance.html>

Reasons for Non-compliance with the Principles of the Corporate Governance Code

Based on the above Basic Views, MC is working to strengthen corporate governance on an ongoing basis, thus it is implementing all the principles of the Corporate Governance Code.

Disclosure Based on each Principle of the Corporate Governance Code

MC's approaches to corporate governance are described in this report, MC Principles of Corporate Governance, the Notice of Ordinary General Meeting of Shareholders, Annual Securities Report, Integrated Reports, MC's website, and others. *See* these documents for more information.

The following are the details of the disclosure items based on the principles of the Corporate Governance Code.

(1) Principle 1.4 Cross-shareholdings

① Stance on Acquisition, Holding and Reduction in Listed Stocks

MC may hold shares, acquired for purposes other than pure investment, as a means of creating business opportunities and building, maintaining and strengthening businesses and partner relationships. When acquiring these shares, MC confirms the necessity of its acquisition based on the reason and economic rationale of the purchase in accordance with internal rules. Also, MC annually reviews the rationality of continuing to

(Translation)

hold these shares at the Board of Directors and aims to reduce holdings of shares with decreased reason. In the Fiscal Year ended March 31, 2024, MC sold approximately 66 billion yen of its shareholdings (including 19.6 billion yen in deemed holding shares), a decrease of approximately 10% from the previous fiscal year.

< Verification policy for holding individual shares >

The Board of Directors verifies all of the listed shares held by MC from the perspectives of both economic rationale and qualitative reason of continuing to hold them every year.

The economic rationale is confirmed by whether or not the related earnings from each share such as dividends and related business profits on transactions, exceed MC's target capital cost (Weighted Average Cost of Capital) for the market price of each individual share.

The qualitative reason is confirmed by the achievement or status of progress of the expected purpose for holding the share, etc.

< Matters verified by the Board of Directors >

Verification was conducted by the Board of Directors for all listed shares held by MC as of March 31, 2024 (market price was approximately 0.7 trillion yen). As a result of verification from the perspectives of both economic rationale and qualitative reason of holding them, numerous shares were identified as candidates for reduction due to a decreased importance of the expected purpose and reason for holding them, etc.

② Stance on Exercising Voting Rights Relating to Listed Stocks

MC attaches great importance to dialogue and communication with its investment destinations through various channels, aiming to create business opportunities and build, maintain and strengthen businesses and partner relationships, and from the perspective of continuous increase of corporate value of MC and these companies. MC considers exercising voting rights to be one of the important approaches for the dialogue and communications with its investment destinations. For this reason, when exercising voting rights relating to an investment destination including the listed shares acquired for purposes other than for pure investment purposes, the department responsible for the oversight of the company reviews its business conditions (earnings, capital efficiency, etc.) from both quantitative and qualitative standpoints in accordance with internal rules. These rules stipulate matters to be considered, etc., when determining whether to vote for or against proposals such as appropriation of surplus, election of Directors and Audit & Supervisory Board Members, and revision of executive remuneration. Then MC exercises its voting rights appropriately for individual matters for resolution. Furthermore, with regard to the proposals for the election and dismissal of Independent Directors and Independent Audit & Supervisory Board Members of listed subsidiaries, MC's internal rules also stipulate that their independence from MC is to be examined before exercising voting rights.

For more information of Basic Policy for Cross-Shareholdings and Exercising Voting Rights as to Cross-Shareholdings, see Article 8 of MC Principles of Corporate Governance.

(2) Principle 1.7 Transactions between Related Parties

By formulating the Board of Directors Regulations and the criteria for matters to be deliberated and determined, MC requires a resolution of the Board of Directors concerning transactions between Director and MC (self-

(Translation)

dealing, indirect transactions) and transactions between major shareholders and MC.

(3) Supplementary Principle 2.4.1 Ensuring Diversity in the Promotion of Core Human Resources, etc.

① Policy for Ensuring Diversity

The significance of diversity management at the MC Group lies in building a strong organization with the flexibility to adapt to changing business environments.

In sharing the spirit of its guiding philosophy, the Three Corporate Principles, the Group aims to:

- Recruit and apply its broad professional expertise without discrimination (ex; including gender/national origin discrimination).
- Benefit from workforce diversity by embracing and applying different perspectives and ideas to its management practices, business creation and regional development.
- Improve performance of the entire organization by ensuring an inclusive professional work environment that maximizes the abilities of a diverse workforce.

MC considers human resources as a source of value creation, and as such, its policy is to support the professional growth and development of each and every employee through flexible, performance-based treatment and compensation. To ensure that the right people are appointed to the right positions, MC focuses on the skills, performance and experience of each candidate, and does not discriminate based on age, gender, nationality or any other such factors. Based on this policy, MC has in place corporate systems that promote the engagement of diverse human resources and implements initiatives aimed at fostering a corporate culture that embraces diversity.

a. Promotion of Women to Middle Managerial Positions

By expanding its systems to support a healthy balance between childcare and work and implementing special, career-support measures for its female professionals, MC has managed to boost the percentage of women in management-level positions in recent years. Going forward, MC will further focus on recruiting, training, and increasing the number of suitable candidates for promotion at all levels in order to sustainably produce more women in management-level positions. Establishing a target of 30% or more of women at all levels, MC sets goals for FY2027 and FY2030 as milestones regarding recruitment and the pipeline to important roles. To achieve these goals, Global Human Resources Department will accelerate efforts in terms of recruitment, training, and promotion in collaboration with related organizations.

- Percentage of women in management-level positions: Approx. 12% (as of April 2024)

b. Promotion of Foreign Nationals and Mid-Career Hires to Middle Managerial Positions

MC practices needs-based hiring, regardless of nationality. As of April 2024, the percentages of foreign nationals and mid-career hires in management level positions were as shown below. Going forward, MC will strive to ensure that the right people are assigned to the right positions, regardless of age, gender, nationality or any other such factors and advance by promotion based on ability and results while aiming to maintain and increase diversity through the initiatives below.

- Percentage of foreign nationals in middle managerial positions: Approx. 18% (as of April 2024; includes MC's overseas locations)

② Human Resource Development Policy and Internal Environment Development Policy to Ensure Diversity and their Implementation Status

In addition to providing systems that enable the engagement of diverse human resources, MC proactively implements a variety of initiatives aimed at fostering a corporate culture that embraces diversity. Going forward, MC will also focus on initiatives to promote new ways of working, including improvements in productivity and efficiency.

In FY2023, a cross-organizational working group (DE&I working group) directly under the President was established comprising members from diverse backgrounds to identify issues and research initiatives to promote DE&I, and to formulate a roadmap and recommend various measures. Through this working group, MC is progressively implementing measures to promote the understanding, sharing and implementation of DE&I. In addition, a new promotion system to further advance DE&I will be established from FY2024.

< Specific Initiatives >

(4) Principle 2.6 Roles of Corporate Pension Funds as Asset Owners

In an effort to utilize personnel with experience in markets and investment, those responsible for pension management are appointed from the Finance Department of MC and serve concurrently as employees of the Mitsubishi Corporation Pension Fund. The basic policy and management guidelines for safe and efficient

(Translation)

management of the reserve are drafted and issued to institutions contracted to undertake management, which are then monitored constantly. Marked with the responsibility for autonomous allocations it holds, the fund has announced its acceptance of Japan's Stewardship Code and requires the institutions entrusted with management of the assets to perform stewardship activities.

(5) Principle 3.1 (i) Corporate Objectives (e.g., business principles), Business Strategies and Business Plans

①Corporate Philosophy

The Three Corporate Principles as below were formulated in 1934 as the action guidelines of Mitsubishi Trading Company (*Mitsubishi Shoji Kaisha*) based on the teachings of Koyata Iwasaki, the fourth president of Mitsubishi. These principles were adopted as MC's corporate philosophy and have served MC's core principles since its founding.

- Corporate Responsibility to Society "*Shoki Hoko*": Strive to enrich society, both materially and spiritually, while contributing towards the preservation of the global environment.
- Integrity and Fairness "*Shoji Komei*": Maintain principles of transparency and openness, conducting business with integrity and fairness.

Based on this fundamental policy and the belief that in order to create MC Shared Value, as set forth in Midterm Corporate Strategy 2024, MC must continue to be a “dynamic, spirited, and vibrant organization” in which motivated professionals take pride in actively solving problems; MC has designated three pillars of its personnel measures, oriented around optimizing the value of its human capital: (i) HR strategy, (ii) strengthening engagement and (iii) data utilization.

The first of these, (i) HR strategy, is aimed at executing HR strategy in close alignment with the Valued-Added Cyclical Growth Model and management strategies such as EX, DX and Creating a New Future. (17) Supplementary Principle 4.14.2 Policy to Provide Necessary Training for Directors

To ensure that Directors (excluding Directors who are Audit & Supervisory Committee Members) and Directors who are Audit & Supervisory Committee Members are able to perform their monitoring function and audit functions adequately, the Board of Directors' Office and the Audit & Supervisory Committee's Office (herein referred to collectively as the "Support Offices") have been established, and have been providing necessary information and support appropriately and in a timely manner for Directors (excluding Directors who are Audit & Supervisory Committee Members) and Directors who are Audit & Supervisory Committee Members to perform their own duties.

Prior to each meeting of the Board of Directors, opportunities are created for the management executives of the Corporate Staff Section and Business Groups to provide explanatory summaries of the agenda items for which they are responsible to Independent Directors in order to facilitate substantive deliberations at the meetings (totaling 33 hours in the Fiscal Year ended March 31, 2023). The sessions are also utilized to appropriately share timely information that helps enhance deliberations. The Support Offices also provide an orientation to newly appointed Independent Directors, as well as ongoing opportunities to increase their understanding of the businesses and strategies of MC, including annual site visits to business subsidiaries and affiliates and opportunities for dialogue with the management, the General Managers of Corporate Staff Section, Business Group CEOs and Business Division COOs, and small group discussions with Executive Vice Presidents and dialogues with mid-level and young employees. Additionally, MC provides Directors (excluding Directors who are Audit & Supervisory Committee Members) and Directors who are Audit & Supervisory Committee Members with opportunities for third-party training programs, of which expenses are borne by MC.

⑤ Action to Implement Management that is Conscious of Cost of Capital and Stock Price (*disclosed in both Japanese and English*)

If MC maintains double-digit ROE, one of the quantitative targets of Midterm Corporate Strategy 2024, then ROE will exceed the cost of equity. MC believes that recent stock prices reflect the expectation that medium to long-term ROE will exceed 10%. In order to achieve the quantitative targets in Midterm Corporate Strategy 2024, MC steadily operate the initiatives based on the business management systems and enhance disclosure and dialogue with shareholders and investors for generating positive market expectations for sustainable earning growth and creation of shared values. Furthermore, MC aims to increase corporate value over the medium to long-term by reflecting the feedback obtained through these IR/SR activities in our management approach.

5. Other Special Circumstances which may have a Material Impact on Corporate Governance

(1) Approach and Policies on Group Management

The MC Group has a great number of consolidated companies. MC expects to increase their corporate value and business value by respecting their autonomy, while striving to increase the corporate value of the overall MC Group by optimizing consolidated management such as sharing of its management philosophy, strategies, and so forth.

Through the implementation of the Value-Added Cyclical Growth Model, MC maximizes its business portfolio and reallocates management resources to invest in future growth by strategically rebalancing its business portfolios and replacing assets to increase capital efficiency based on ROIC and growth rates. As is the case with other consolidated operating companies, each year at management meetings, MC discusses the way its management resources are allocated to listed subsidiaries and affiliates, and the increase of corporate value through collaboration between MC and its Group companies. Based on these discussions, MC determines its policy on holding the listed subsidiaries and affiliates.

Furthermore, MC has the following listed subsidiaries and affiliates:

(2) Reasons for Having the Listed Subsidiaries and Affiliates

The advantages of staying listed common to each listed subsidiary and affiliates include securing autonomous and agile decision-making and expanding business partners based on independence from MC, maintaining and improving employee motivation, and securing excellent human resources.

On the other hand, in order to maintain each listed subsidiary and affiliate's status, consideration for the interests of shareholders other than MC are necessary. However, by respecting the independence of each company as described above, and by establishing and operating appropriate governance systems at each listed subsidiary and affiliate, MC believes that MC can fully enjoy the benefits of having listed subsidiaries and affiliates while also protecting the interests of shareholders other than MC.

The reason for having each listed subsidiary in terms of business strategy is as follows and it is same as the reason for having each listed affiliate. The reason is to further increase the corporate value of both the listed affiliates and the MC Group through various collaborative relationships with MC such as new business creation, the supply of raw materials and sales support, which differ for each listed subsidiary.

As stated above, MC determines its policy on the holding of listed subsidiaries and affiliates, including the form in which they are held, after discussing the rationales for holding such shares based on the status of each listed subsidiary and affiliate. Looking forward, MC continue to discuss the optimal form of collaboration align with changes in the industries and management environments of each listed subsidiary and affiliate.

-Mitsubishi Shokuhin Co., Ltd. (Tokyo Stock Exchange Standard Market)

The main business of Mitsubishi Shokuhin Co., Ltd. is the wholesale of processed foods, frozen foods, alcoholic beverages, and confectionary. MC aims to contribute to the sustainable development of local communities, reduce food loss and create new demand, as well as to further increase the corporate value of both Mitsubishi Shokuhin Co., Ltd. and MC Group by promoting digital transformation (DX) in food distribution in collaboration with MC Group companies and efficiently connecting manufacturers and retail stores throughout Japan.

-Nitto Fuji Flour Milling Co., Ltd. (Tokyo Stock Exchange Standard Market)

The main business of Nitto Fuji Flour Milling Co., Ltd. Is the manufacture and sale of flour-related products. MC aims to further increase the corporate value of both Nitto Fuji Flour Milling Co., Ltd. And MC Group through collaboration with MC on the supply of raw materials to the company as well as in the area of flour and mixed flour, and by providing products to MC Group companies and food service and retail companies.

MC aims to further increase the corporate value of both Nihon Shokuhin Kako Co., Ltd. and MC Group through the supply of raw materials to the company, as well as by supporting product sales and collaborating with MC Group companies in the areas of manufacturing technologies and product development.

(3) Measures to Ensure the Effectiveness of Governance Systems of Listed Subsidiaries and Affiliates

The establishment and operation of corporate governance systems for the listed subsidiaries and affiliates is conducted autonomously by each listed subsidiary and affiliate electing Independent Directors and Independent Audit & Supervisory Board Members and so forth. MC's policy is to respect the independence of the listed subsidiaries and affiliates. Specifically, with regard to proposals for the election and dismissal of Independent Directors and Independent Audit & Supervisory Board Members of each listed company, MC's internal regulations stipulate that it will consider the independence of each candidate from MC before exercising its voting rights. In addition, when one of MC's Officers is to be appointed as President of a listed subsidiary and affiliate, they are transferred to that company, rather than being seconded. Moreover, this policy is applied to all of the listed subsidiaries and affiliates including Mitsubishi Shokuhin Co., Ltd., Nitto Fuji Flour Milling Co., Ltd. and Nihon Shokuhin Kako Co., Ltd..

Matters Concerning Independence of Said Directors and/or Staff from Executive Officers/Reasons for Adopting Current System

For the purpose of ensuring that the roles and responsibilities of the Audit & Supervisory Committee as set forth in Section II. 2 of this report are effectively fulfilled, the Audit & Supervisory Committee has established a system to ensure that it effectively conducts audits and oversights (including a system for reporting to the Audit & Supervisory Committee, etc.).

In order to assist the activities of the Audit & Supervisory Committee and support the smooth execution of audits and oversights, MC established the Audit & Supervisory Committee's Office, an organization directly under the Audit & Supervisory Committee, with dedicated staff members, who do not concurrently serve in other departments, assigned exclusively to assist the Audit & Supervisory Committee. The opinions of the Audit & Supervisory Committee Members are solicited prior to the evaluation, transfer, or other personnel actions of the dedicated staff members, and the Members' opinions are respected. These policies are also confirmed in the Basic Policy of Establishing the Internal Control Systems.

Please visit the following website for more information on the Basic Policy of Establishing the Internal Control Systems (Article 362, Paragraph 4, Item 6 of the Companies Act).

See IV.1. "Basic Views on Internal Control System and Status of Development" in this report and Article 40 of Mitsubishi Corporation Corporate Governance Principles for matters concerning the independence of employees, who assist the Audit & Supervisory Committee's Office in its duties, from the Executive Directors.

Cooperation among the Audit & Supervisory Committee, Accounting Auditors and Internal Audit Department

MC transitioned from a Company with an Audit & Supervisory Board to a Company with an Audit & Supervisory Committee upon approval at the 2024 Ordinary General Meeting of Shareholders held on June 21, 2024. The following items (2), (3) and (4) refer to the contents and activities of the Company with an Audit &

Supervisory Board prior to the transition.

(1) Audit & Supervisory Committee

MC has five Directors who are Audit & Supervisory Committee Members, consisting of two In-house Directors and three Independent Directors. The In-house Directors are Mitsumasa Ichō, who has extensive experience in company-wide management and the finance and accounting departments, and Akira Murakoshi, who has experience in company-wide management. They are both appointed as Full-time Audit & Supervisory Committee Members. The Independent Audit & Supervisory Committee Members are Tsuneyoshi Tatsuoka, who has a deep knowledge of the industry as a whole and a high level of insight into environmental and energy policies, and Rieko Sato and Takeshi Nakao, who each have many years' experience as, respectively, an attorney (corporate law) and certified public accountant. Of the five Directors who are Audit & Supervisory Committee Members, Mitsumasa Ichō, a Full-time Audit & Supervisory Committee Member, and Takeshi Nakao, an Independent Audit & Supervisory Committee Member, both have a considerable degree of knowledge and experience concerning finance and accounting.

The Audit & Supervisory Committee's Office has been established as an independent organization to assist the Audit & Supervisory Committee, and has twelve dedicated full-time staff members (as of June 21, 2024).

(2) Accounting Auditors

The 3 certified public accountants who carried out the accounting audit of MC were Yuki Higashikawa, Hirofumi Otani, and Sogo Ito of Deloitte Touche Tohmatsu LLC. They were assisted by 31 certified public accountants, 21 junior accountants, and 90 other staff.

MC comprehensively evaluates the audit system, independence, expertise, and status of performance of the independent auditors based on the evaluation standards set out by the Audit & Supervisory Board to determine whether they are suitable for the role as independent auditors of MC's global business activities. MC has a policy to dismiss independent accounting auditors based on the unanimous agreement of all Audit & Supervisory Board Members if any of the items set forth in Article 340, Paragraph 1 of the Companies Act is applicable to the independent accounting auditors. In this instance, at the Ordinary General Meeting of Shareholders first convened after the dismissal, an Audit & Supervisory Board Member selected by the Audit & Supervisory Board will report on the dismissal of the independent accounting auditors and the reason for this action. Furthermore, if the Audit & Supervisory Board decides it is appropriate to dismiss or not to reappoint the independent auditors after comprehensively taking into consideration and evaluating the independent accounting auditors' execution of duties and other circumstances, the Audit & Supervisory Board will submit a proposal to the Ordinary General Meeting of Shareholders to dismiss or not to reappoint the independent accounting auditors concerned and to appoint new independent accounting auditors concerned and to appoint new independent accounting auditors.

MC's Audit & Supervisory Board Members and Audit & Supervisory Board followed the above process again in the Fiscal Year ended March 31, 2024 to evaluate the independent accounting auditors. The result confirmed that the current independent accounting auditors have established a system for executing their

duties correctly and that they were conducting appropriate audits as professional experts while maintaining an independent position, and Audit & Supervisory Board determined the reappointment of the independent accounting auditors. The continuous audit period by Deloitte Touche Tohmatsu LLC is 71 years.

(*Notes)

1. Fees for services prescribed in the first clause of Article 2 of the Certified Public Accountant Law of Japan (Law No. 103, 1948) are fees, etc. for audit certification services relating to English language financial statements prepared based on International Financial Reporting Standards (IFRS) and audit certification based on the Companies Act and the Financial Instruments and Exchange Act.
2. Fees for services other than those prescribed in the first clause of Article 2 of the Certified Public Accountant Law of Japan are for the preparation of comfort letters for issuance of corporate bonds, training, etc.
3. Some subsidiaries are audited by certified public accountants or independent accounting auditors (including persons with qualifications equivalent to these qualifications in overseas countries) other than MC's independent accounting auditors.

(3) Internal Audits

Regarding internal audits, the Internal Audit Department (which had 83 members as of April 1, 2024) conducts audits of MC, overseas subsidiaries, and affiliated companies from a Company-wide perspective. In addition, each Business Group has established its own internal audit organization, which audits the operations that fall under its group organization on a consolidated basis. These internal audits are based on annual audit plans and are conducted after selecting audit targets. Under a dual reporting system, the audit results are reported each time to the President and CEO, Audit & Supervisory Board Members (which transitioned to the Audit & Supervisory Committee after June 21, 2024) and other concerned parties. They are also reported regularly to the Board of Directors and the Executive Committee.

MC conducts regular audits throughout the year of MC and its Group companies in accordance with the International Standards for Internal Auditing every three to five years, taking into account factors such as business risks and scale. In addition to legal compliance, MC also considers social norms and business ethics in verifying and evaluating each process of governance, risk management and internal controls. In addition, thematic audits are conducted annually, and in the Fiscal Year ended March 31, 2024, thematic audits were

(Translation)

conducted on major subsidiaries, etc. to confirm the development status of audit functions.

(4) Mutual cooperation among Audit & Supervisory Board Member/Audit & Supervisory Committee Audits, Internal Audits and Accounting Audits, and their Relationship with Internal Control Departments

In the Fiscal Years ended March 31, 2023 and 2024, the Audit & Supervisory Board Members, Corporate Accounting Department and the independent accounting auditors held regular meetings at the time of quarterly financial results and monthly for exchanging opinions as necessary. With regard to key audit matters (KAMs), the Audit & Supervisory Board received a presentation of proposed KAMs during the independent accounting auditors' explanation of the audit plan, and then exchanged opinions on audit response status and considerations. Furthermore, in accordance with the policy on the scope of non-guaranteed services to be outsourced to Deloitte Touche Tohmatsu LLC and its member firms, which was reviewed in the previous fiscal year, the Audit & Supervisory Board received individual prior explanations from the independent accounting auditors regarding relevant projects and examined whether there were any problems from the perspective of ensuring the independence of the independent accounting auditors, and received quarterly reports from the independent accounting auditors regarding the status of non-guaranteed services.

In addition, the Internal Audit Department made quarterly audit reports to the Audit & Supervisory Board, the Audit & Supervisory Board Members held monthly meetings with the Internal Audit Department, the Audit & Supervisory Board Members and the Internal Audit Department held liaison meetings with company auditors and internal audit departments of subsidiaries and affiliates, and so forth. The Internal Audit Department also participated in the exchange of information and opinions held with Audit & Supervisory Board Members and the independent accounting auditors.

Following the transition to a Company with an Audit & Supervisory Committee, MC will continue and deepen this cooperation to strengthen the linkages supporting Tripartite Audits.

Supplementary Explanation for Applicable Items

At their meeting held on May 17, 2019, the Board of Directors approved revisions to the package of remuneration for Executive Directors (Directors for business execution, excluding the Chairman of the Board and Independent Directors) of MC effective from the fiscal year ended March 31, 2020, after the continuous deliberations of the Governance, Nomination and Compensation Committee and other meetings. In addition, at the 2019 Ordinary General Meeting of Shareholders held on June 21, 2019, a resolution was passed to revise the Director remuneration limits based on revisions to the remuneration package, etc., and the policy for setting remuneration was approved at the meeting of the Board of Directors held on the same day. At the 2024 Ordinary General Meeting of Shareholders held on June 21, 2024, a new remuneration amount for Directors (excluding Directors also serving as Audit & Supervisory Committee Members) was resolved in accordance with MC's transition to a new corporate structure, and the remuneration package (including the policy for setting remuneration, the fundamental policy, and the governance of remuneration) effective from the fiscal year ended March 31, 2025, was approved at the meeting of the Board of Directors held on the same day. Under the current remuneration package, remuneration for Executive Directors (Directors (excluding Directors also serving as

(Translation)

Audit & Supervisory Committee Members), excluding the Chairman of the Board and Independent Directors. The same shall apply hereinafter) comprises base salary, annual deferral for retirement remuneration, individual performance-linked remuneration, performance-linked bonus (short term), performance-linked bonus (medium to long term), and stock-based remuneration linked to medium- and long- term share performances (stock options with market conditions). Of these, individual performance-linked remuneration, performance-linked bonus (short term), performance-linked bonus (medium to long term), and stock-based remuneration linked to medium- and long- term share performances are variable remuneration linked to factors such as individual performance, consolidated financial results (relevant fiscal year plus medium to long term), sustainability factors (medium to long term) and share price. Under the current remuneration system, to strengthen the performance-linked component, remuneration shall not only be based on the relevant single-year's business results, but also be in line with medium-to-long-term corporate value. Remuneration composition shall be commensurate with the enhancement of medium-to-long-term corporate value based on a new stock-based component (with market conditions) that strengthens the link with shareholder value in addition to the cash component. Furthermore, the percentage of performance-linked remuneration will increase in response to the growth of the consolidated financial results (relevant fiscal year plus medium to long term) and growth in Total Shareholder Return (TSR) . See “Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods” under II 1. **【Director Remuneration】** for details.

Inside Directors, Other

Supplementary Explanation for Applicable Items

Stock options as remuneration are granted to Executive Directors and Executive Officers from the perspective of aligning Directors' and Officers' interests with those of shareholders and providing incentives to enhance corporate value and to increase the Company's share price over the medium to long term. In principle, all stock options allocated cannot be exercised for a three-year performance period. The number of stock options that can be exercised at the end of the performance period varies depending on the share growth rate (calculated as TSR divided by the TOPIX benchmark growth rate over the same period). The basic policy is that Executive Directors and Executive Officers are obliged to hold any shares including those acquired through the exercise of stock options while in office. Sales of such shares are restricted until their aggregate market value exceeds 300% (500% for President and CEO) of the base salary.

The total number of shares to be issued for the purpose of stock acquisition rights on March 31, 2024 (including shares held by retirees) is as follows.

Stock-option-based remuneration (through the Fiscal Year ended March 31, 2007: granted to Directors and Executive Officers, 1 right=300 shares, from the Fiscal Year ended March 31, 2008 through the Fiscal Year ended March 31, 2019: granted to Directors, Executive Officers and Senior Vice Presidents (“Riji”), 1 right=300 shares, from the Fiscal Year ended March 31, 2020: granted to Directors and Executive Officers; 1 right=300 shares): 10,887,600 shares

Policy on Determining Remuneration Amounts and Calculation Methods

Established

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

(1) Policy for Setting Remuneration of Directors(excluding Directors also serving as Audit & Supervisory Committee Members) and Audit & Supervisory Committee Members

In line with the Basic Policy on Corporate Governance set forth in Section I.1 of this report, MC has established a remuneration package for Directors to ensure a sustainable increase of corporate value, and to ensure that their respective roles are fulfilled appropriately according to business execution and management monitoring functions.

① Remuneration levels

Levels of remuneration are set based on the functions and roles of the Directors and the Audit & Supervisory Committee Members, the company's performance level and others. Furthermore, based on performance targets, MC makes the level of remuneration globally competitive as management remuneration to foster a desire for growth among human resources bearing the next generation of management and to improve organizational vitality.

② Remuneration composition

With regard to remuneration for Executive Directors and Executive Officers, to strengthen the performance-linked component, remuneration shall not only be based on the relevant single-year's business results, but also be in line with medium-to-long-term corporate value. Remuneration composition shall be commensurate with the enhancement of medium-to-long-term corporate value based on a new stock-based component (with market conditions) that strengthens the link with shareholder value in addition to the cash component. From this perspective, remuneration items are composed of Performance-linked Bonus (Short term), Performance-linked Bonus (Medium to long term), and Stock-based Remuneration Linked to Medium- and Long-term Share Performances, in which consolidated net income (single year and medium to long term), sustainability factors (medium to long term), the share price and share growth rates (medium to long term) are adopted as key performance indicators in addition to remuneration items of Base Salary, Annual Deferral for Retirement Remuneration, and Individual Performance-Linked Remuneration.

For the Chairman of the Board and Independent Directors (excluding Directors also serving as Audit & Supervisory Committee Members), who are performing an audit and oversee function for management, and

(Translation)

for Audit & Supervisory Committee Members, who undertake audits, there is a need to ensure their independence from business execution so that they can properly assume their respective roles. For this reason, they are paid only fixed base salary and are not paid variable remuneration.

③Governance of remuneration

The Compensation Committee (*1), which comprises a majority of Independent Directors, one of whom serves as Committee Chairperson, continuously deliberates upon and monitors the policy for setting remuneration for Directors and Audit & Supervisory Committee Members, the appropriateness of remuneration levels and composition including remuneration items which are subject to the clawback policy, the operating status of the remuneration package, and other matters shall be continuously discussed and monitored by the Compensation Committee(*2).

(*Notes)

1. To enhance the management from the longer-term perspective, MC has adopted a clawback policy, applicable to the individual performance-linked remuneration, performance-linked bonuses (short term) and performance-linked bonuses (medium to long term) of Executive Directors. In addition, non-payment or reduction of the amount is possible by resolution of the Board of Directors in the event of serious violation of a delegation agreement etc., regarding annual deferral for retirement remuneration.

2.The Compensation Committee was transitioned from the Governance, Nomination and Compensation Committee on June 21, 2024. Before June 21, 2024, the President's Performance Evaluation Committee and Sustainability Factors Evaluation Committee under the Governance, Nomination and Compensation Committee were in charge.)

3. See II 1. 【Voluntary Established Committee(s)】 in this report for details.

(2) Remuneration package for Directors (excluding Directors who are Audit & Supervisory Committee Members) and Directors who are Audit & Supervisory Committee Members (Fiscal Year ended March 31, 2025 onward)

①Executive Directors (who also serve as Executive Officers)

The remuneration for Executive Directors (who also serve as Executive Officers) is as follows.

- Base Salary

An amount determined by board of directors according to position, paid monthly.

- Annual Deferral for Retirement Remuneration

Annual deferral for retirement remuneration is set aside from the base salary in a certain amount every year as consideration for the performance of duties, and the accumulated amount is calculated and paid in full upon retirement of a Director by resolution of the Board of Directors. If a Director makes a serious violation of the appointment contract between the Company and the Director with regard to the Directors' duties during the term of office, the Board of Directors may resolve to reduce or not to pay the accumulated amount.

- Individual Performance-Linked Remuneration

For Executive Directors (who also serve as Executive Officers), individual performance-linked remuneration is determined and paid on an individual basis after the President's yearly performance assessment of each Director for the relevant fiscal year in both financial and non-financial terms (The Board of Directors delegated authority to the Presidents for decision of individual payment amounts) since it is appropriate for the President who is the CEO of business execution to do so. The annual assessment on the President's performance is decided by the Compensation Committee which is composed with a majority of Independent Directors and is chaired by an Independent Director. The main evaluation points for the President's performance evaluation include the status of progress on management strategy, the status of achievement of forecast earnings, and the status of other business management. Results of performance assessments are reported to the Board of Directors and the Compensation Committee.

- Performance-linked Bonus (Short term)

Performance-linked bonuses (short term) are paid in amount determined in line with profit in the relevant fiscal year based on a formula resolved by the Board of Directors after deliberation by the Compensation Committee. If profit (attributable to owners of MC) for the relevant fiscal year exceeds the profit threshold resolved ahead of time by the Board of Directors based on the consolidated capital cost, the amount to be paid will be adjusted in line with business performance. Meanwhile, if profit is below the relevant threshold, no bonuses will be paid. Moreover, the total amount to be paid is capped.

- Performance-linked Bonus (Medium to long term)

Performance-linked bonuses (medium to long term) are paid in amounts calculated in line with profit over the medium to long term based on a formula resolved by the Board of Directors after deliberation by the Compensation Committee. If the average of profit (attributable to owners of MC) over the relevant three fiscal years exceeds the average of profit threshold resolved ahead of time by the Board of Directors based on the consolidated capital cost over that same period, the amount to be paid will be adjusted in line with business performance over the medium to long term. Meanwhile, if the average profit is below the average profit threshold resolved ahead of time by the Board of Directors based on the consolidated capital cost, no bonuses will be paid. Moreover, the total amount to be paid is capped. Furthermore, since the Fiscal Year ended March 31, 2024, in order to promote a stronger awareness of enhancing corporate value through initiatives related to medium- to long-term sustainability including ESG factors, new sustainability factors have been added to the key performance indicators used to calculate performance-linked bonuses (medium to long term). The remuneration will vary in accordance with the results of evaluations of initiatives related to optimizing the value of human capital and contributing to decarbonized societies. In the evaluation process, the Compensation Committee comprehensively evaluates initiatives related to abovementioned sustainability factors over the three fiscal years of the performance period in both quantitative and qualitative terms, taking into account longer term impacts. The evaluation results are reported to the Board of Directors and are disclosed to the public.

- Stock-based Remuneration Linked to Medium- and Long-term Share Performances

Stock-based remuneration is paid to Executive Directors and Executive Officers from the perspective of

(Translation)

aligning Directors' and Officers' interests with those of shareholders and providing incentives to enhance corporate value and to increase the Company's share price over the medium to long term. The board of directors determines the number of shares allocated to each person.

All stock options allocated cannot be exercised for a three-year performance period. The number of stock options that can be exercised at the end of the performance period varies depending on the share growth rate (calculated as TSR divided by the TOPIX benchmark growth rate over the same period).

The basic policy is that Executive Directors and Executive Officers are obliged to hold any shares including those acquired through the exercise of stock options while in office. Sales of such shares are restricted until their aggregate market value exceeds 300% (500% for President and CEO) of the base salary.

(*Note)

The evaluation of the President's performance and sustainability factors tied into Executive Officer's remuneration will be discussed and decided by the four members of the Compensation Committee as well as all Independent Directors (including Independent Audit & Supervisory Committee Members).

②Chairman of the Board, Independent Directors (excluding Directors who are Audit & Supervisory Committee members), and Audit & Supervisory Committee Members

The Chairman of the Board and the Independent Directors (who do not also serve as Executive Officers excluding Directors who are Audit & Supervisory Committee members) must fulfill oversight function for management in an appropriate manner, while the Audit & Supervisory Committee Members must perform audits appropriately.

For Directors serving as Audit & Supervisory Committee Members, who are performing a supervisory function for management or are undertaking audits, there is a need to ensure their independence from business execution so that they can properly assume their respective roles. For this reason, they are paid only fixed base salary and are not paid variable remuneration which does not link with business results.

(3) The Method for setting remuneration for Directors (excluding Directors who are Audit & Supervisory Committee Members) and Directors who are Audit & Supervisory Committee Members

①Directors (excluding Directors who are Audit & Supervisory Committee Members) and Directors who are Audit & Supervisory Committee Members

The Compensation Committee deliberates and the Board of Directors decides the policy for setting Directors' remuneration and the remuneration amount (actual payment amount).

The total remuneration amount (actual payment amount) and individual payment amounts for Directors (excluding Directors who are Audit & Supervisory Committee Members), excluding individual performance-linked remuneration, are determined by a resolution of the Board of Directors within the upper limits for each type of remuneration decided by resolution of the 2024 Ordinary General Meeting of Shareholders held on June 21, 2024. Base salary and annual deferral for retirement remuneration, forms of fixed remuneration, are paid in amounts determined by the Board of Directors. As for variable remuneration, payments of performance-

(Translation)

linked bonuses (short term), performance-linked bonuses (medium to long term) and stock-based remuneration linked to medium- to long-term share performance are determined, while reflecting key performance indicators, based on a formula set by the Board of Directors following deliberation by the Compensation Committee. MC has added sustainability factors to the key performance indicators used to calculate performance-linked remuneration (medium to long term) based on the approval at the 2024 Ordinary General Meeting of Shareholders held on June 21, 2024.

MC has adopted a clawback policy,* applicable to the individual performance-linked remuneration, performance-linked bonuses (short term) and performance-linked bonuses (medium to long term) of Executive Directors, revising the regulations for executive officers by resolution at the Board of Directors' Meeting held on February 18, 2022.

* In the event that an Executive Officer causes any loss or damage to the Company from willful misconduct or negligence, a serious violation of a delegation agreement, or a serious accounting error or act of misconduct resulting in an ex-post revision of a financial report by resolution of the Board of Directors, non-payment or reduction of the amount/reclaiming of the paid amount is possible by resolution of the Board of Directors. The Compensation Committee continuously deliberates and monitors the appropriateness of remuneration composition, including remuneration items which are subject to the clawback policy.

The payment amounts of individual performance-linked remuneration paid to Directors (who also serve as Executive Officers excluding Directors who are Audit & Supervisory Committee Members) based on their individual performance assessment, including qualitative assessment, are determined and paid on an individual basis, reflecting the President's yearly performance assessment in both financial and non-financial terms of each Director for the relevant fiscal year (the Board of Directors delegates authority to the President for deciding the individual payment amounts) since it is appropriate for the President who is the CEO of business execution to do so.

Performance evaluations of Executive Directors (who also serve as Executive Officers excluding Directors who are Audit & Supervisory Committee Members) comprehensively take into account their contributions to the organizations and businesses they oversee; their contributions to management of the entire Company, Corporate Staff Section and each Business Groups and offices; and the state of sustainability initiatives that leads to sustainability.

The annual assessment on the President's performance is decided by the Compensation Committee, which is delegated this authority by the Board of Directors. For the President's Performance Evaluation, together with the four members of the Compensation Committee, all of the Company's Independent Directors (including Independent Audit and Supervisory Committee Members) participate in deliberations and decision-making. Results of the performance assessment are reported to the Board of Directors and the Compensation Committee to ensure objectivity, fairness and transparency.

Based on the policy for determining remuneration packages (including methods for calculating performance-linked bonuses) that was approved at the extraordinary meeting of the Board of Directors held on June 21,

(Translation)

2024, each year, the Compensation Committee deliberates and the Board of Directors makes a resolution determining that the total amount of director remuneration packages and methods for deciding payments to individual directors are consistent with said policy for determining remuneration packages.

Each year, the Compensation Committee deliberates and monitors the appropriateness of remuneration levels and compositions (including remuneration items subject to the clawback policy) as well as the operational status of remuneration systems. This is done with reference to data on remuneration levels and composition ratios provided by the external consulting firm Willis Towers Watson (WTW).

The Chairman of the Board of Directors and Independent Directors (excluding Directors who are Audit & Supervisory Committee Members) responsible for management oversight functions, are paid only fixed monthly remuneration, and are not eligible for performance-based variable remuneration such as annual deferral for retirement remuneration, individual performance-linked remuneration, performance-linked bonuses (short-term), performance-linked bonuses (medium- to long-term), or stock-based remuneration linked to medium- to long-term share performance, as there is a need to ensure the independence.

②Directors who are Audit & Supervisory Committee Members

The total amount of remuneration and individual payment amounts for Directors who are Audit & Supervisory Committee Members are determined by discussions by the Audit & Supervisory Committees within the upper limits for Audit & Supervisory Committee Member remuneration decided by resolution of the 2024 Ordinary General Meeting of Shareholders, held on June 21, 2024.

The assurance of independence is necessary for Directors who are Audit & Supervisory Committee Members, who undertake audits and oversight, in order for them to appropriately perform their respective roles. For this reason, MC will pay them only fixed monthly remuneration, and not remuneration that is linked with business results.

Support System for Outside Directors

For the purpose of ensuring that the roles and responsibilities of the Board of Directors/ Directors set forth in II .2 in this report fulfilled, and for promoting free, open and constructive deliberations at the Board of Directors, MC established the Board of Directors' Office and provides information and support necessary for the execution of duties by the Board of Directors/Directors in a timely and appropriate manner.

Furthermore, for the purpose of ensuring that the roles and responsibilities of the Directors set forth in II .2 in this report are effectively fulfilled, MC ensures that Independent Directors to acquire sufficient information on the status of management execution and the agenda of the meetings of the Board of Directors from the management executives, and provide Independent Directors with opportunities to deepen their understanding of the agenda for the meetings of the Board of Directors, as well as MC's business and management strategies in consideration of MC's broad business areas.

(Translation)

Prior to each meeting of the Board of Directors, opportunities are created for the management executives of the Corporate Staff Section and Business Groups to provide explanatory summaries of the agenda items for which they are responsible to Independent Directors in order to facilitate substantive deliberations at the meetings (totaling 33 hours in the Fiscal Year ended March 31, 2024). The sessions are also utilized to appropriately share timely information that helps enhance deliberations.

The concept and system of corporate governance were deliberated in the Corporate Governance and Nomination Committee where Independent Directors had a majority, and MC has confirmed their effectiveness in the existing system.
