(Article 22 of the Basic Policy on Corporate Governance)

[Supplementary Principle 4-11-3: Analysis and evaluation of the effectiveness of the Board of Directors]

The Company analyzes and evaluates the effectiveness of the Board of Directors based on the evaluation by each Director on an annual basis. In FY2022, the evaluation was conducted using a third-party organization for the first time (In the future, a third-party evaluation shall be conducted once every three years).

In FY2024, the Company evaluated the effectiveness of the Board of Directors by way of a questionnaire-based self-evaluation.

In addition, starting in FY2024, we adopted an initiative where Directors (excluding those who concurrently serve as Executive Officers) mutually comment on the contributions of other Directors to the Board of Directors, etc.

The evaluation method and a summary of the results are outlined below.

1. Method of analysis/evaluation

(1) Evaluation process

- | | |
|--------------------------------------|--|
| - From December 2023 to January 2024 | Under the leadership of the Chairperson of the Board of Directors, a questionnaire was distributed to all eleven Directors and responses were retrieved. |
| - Early February 2024 | Response forms for comments on the contributions of other Directors were distributed to Directors (excluding those who concurrently serve as Executive Officers), and responses were retrieved. |
| - Late February 2024 | The Directors discussed the effectiveness of the Board of Directors based on an analysis of the questionnaire results. |
| - March 2024 | Following the discussions in February, the Board of Directors passed a resolution on the effectiveness of the Board of Directors for FY2024. In addition, the response forms for comments collected in early February were fed back to each respective Director with comments marked as anonymous. |

(2) Questionnaire items

The questionnaire uses a four-grade evaluation for the questions below (1. Strongly agree, 2. Agree, 3. Disagree, 4. Totally disagree) and provides a free comment space where needed.

- Self-evaluation on the role to be fulfilled by Directors and the Board of Directors
- Scale and composition of the Board of Directors
- Status of operations of the Board of Directors
- Composition, roles and status of operations of each of the Nomination Committee, Audit Committee, Remuneration Committee, and Sustainability Committee
- Support system for Outside Directors
- Relationship with investors and shareholders
- Other matters concerning the Board of Directors in general, etc.

2. Evaluation of the status of initiatives concerning the issues for FY2024 based on the FY2023 evaluation

There was an evaluation of initiatives concerning the following matters taken for further improvement by the Board of Directors in FY2024 based on the results of the evaluation of the effectiveness of the Board of Directors in FY2023. It was confirmed that although “improvements

have been made” in general, “initiatives were not adequate” for a certain matter.

(1) Initiatives related to explanations (explanatory materials) to Directors

- In order to make the explanatory materials for Directors from the executive side simpler and easier to understand with clearer directions, attention was paid to the following points: “The content should focus on important management matters that officers should know and discuss,” “Items that are progressing as scheduled should be described as concisely as possible,” and “The materials should include the background and history of changes in the external environment including the trends of competitors, and the circumstances surrounding the Group.” In addition, efforts were made to keep the explanations from Executive Officers clear and concise, and initiatives were taken to receive questions from Directors on matters to be discussed by the Board of Directors in advance.
- Meanwhile, in regard to the provision of information on the Company’s business, which serves as a prerequisite for making management decisions, such matters were explained in briefings to the Board of Directors to eliminate any information asymmetry between the executive side and Outside Directors.
- In the questionnaire, opinions such as “It is requested that the explanation from the executive side be further elaborated on to focus on more important points” were found, but the initiatives taken were highly evaluated in general.

(2) Initiatives related to the Company’s medium- to long-term competitive advantage

- The Company appealed to the capital market by disseminating its Medium-term Management Strategy FY2031 (FY2031 Strategy), which was formulated based on the Company’s medium- to long-term competitive advantage, and sending out relevant messages. Specifically, in order to deepen investors’ and analysts’ understanding of FY2031 Strategy, we held Business Strategy IR Meeting, etc. and also organized plant tours at domestic bases for securities analysts and institutional investors in order to promote their understanding of the Company’s existing businesses and the various initiatives under FY2031 Strategy.
- While initiatives were taken as described above, the questionnaire revealed comments such as the following: “I believe that the Company’s philosophy and direction have been explained in a timely manner, but operating results do not justify them,” and “Efforts are more likely made on individual measures to realize short-term profit plans, and we are not in the state to convey our medium- to long-term competitive advantage.”

(3) Initiatives related to sharing of information between the Nomination Committee and other Directors

- We deepened discussions on matters requiring resolution by the Board of Directors (mainly information on the appointment of Executive Officers, etc. that are to be reported back to the Board

of Directors from the Nomination Committee) and shared information with Directors who are not committee members. Specifically, Outside Directors received an explanation from the Chief Executive Officer regarding the succession plan for Executive Officers and other matters and discussed these matters at the informal meetings of Outside Directors.

- Further, information was provided by the Chief Executive Officer at the informal meetings of Outside Directors on the status of examination of the succession plan for the Chief Executive Officer. In addition, the Nomination Committee made progress reports to the Board of Directors on the status of examining candidates for Outside Directors.
- As a result of the above initiatives taken, the evaluation in the questionnaire improved from the previous fiscal year.

(4) Initiatives related to the supervision of a human resource strategy by the Board of Directors

- At the briefings for Directors, explanations were received on the status of diversity promotion (Diversity, Equity & Inclusion (DE&I)) in the organization under the management of each Executive Officer, and discussions were held.
- In addition, as a non-financial evaluation item for the annual bonuses of Executive Officers, targets related to DE&I were set for all Executive Officers, and progress was regularly reported to the Board of Directors for discussion.
- As a result of the above initiatives taken, the evaluation in the questionnaire improved from the previous fiscal year.

3. Summary of FY2024 evaluation results

As a result of deliberations by the Board of Directors, it was confirmed that the effectiveness of the Board of Directors was secured in FY2024.

Through the evaluation, it was confirmed that "Efforts will be made to further improve the management of the Board of Directors in order to enhance corporate value, which is one of the most important missions of the Board of Directors, and initiatives will be taken to further improve the following matters in FY2025."

- Development of core management personnel
- Medium- to long-term competitive advantage of the Company

*To the following questions in the questionnaire, six (6) of 11 Directors answered "Disagree" and five (5) responded "Agree," with negative responses outnumbering positive responses.

- Do you think that the Board of Directors holds sufficient discussions on the development of core management personnel?
- Do you think that the Company's medium- to long-term competitive advantage (business strategy, quality of management, governance system, etc.) has been adequately conveyed to the capital market?

A summary of the opinions of the Directors regarding the above is as follows.

(1) Development of core management personnel

- Through evaluations, etc. it was pointed out that there was still room for improvement in the Company's succession plan for Executive Officers, Next-Generation Leadership Talent Development Program and other plans, in terms of the following points.

- Diversification of successor personnel pool
- Increase in the number and ratio of candidates selected for the Next-Generation Leadership Talent Development Program among candidates for Executive Officer successors
- Strengthening the linkage between the Next-Generation Leadership Talent Development Program and personnel policies such as promotion and selection
- Early identification and planned stretch assignment of the Next-Generation Leadership Talent at the managerial and junior levels

(2) Medium- to long-term competitive advantage of the Company

- For the results of the questionnaire, please see 2. (2).

- In Directors' discussions, it was pointed out that "There is a need to separate the discussions on the Company's competitive advantage and management strategy from the contents of external explanations and disclosures. The Company must first examine and discuss the former even more deeply."

4. Initiatives in FY2025 to further improve the effectiveness of the Board of Directors

Based on the results of the evaluation of the Board of Directors in FY2024, the Company's Board of Directors will undertake the following measures to increase the effectiveness of the Board of Directors in FY2025.

(1) Measures for Development of core management personnel

Receive explanations from the executive side on the succession plan for Executive Officers and Next-Generation Leadership Talents Development Program in briefings to the Board of Directors and hold discussions primarily for matters stated in 3. (1).

(2) Initiatives to be taken regarding the Company's medium- to long-term competitive advantage

Discuss among Directors what aspects should be identified as the Company's medium- to long-term competitive advantage (and what aspects the Company should place particular focus on). (If there are any matters that need to be explained by the executive side during the discussion among the Directors, a briefing for Directors will be held as needed.)

The said discussions will be conducted toward FY2026, the final year of Phase 1 of Medium-term Management Strategy FY2031, and will lead to a review of Phase 2, if necessary.

*In order to further improve the management of the Board of Directors, the following points will be considered.

- Further increasing the appropriateness of matters to be discussed by the Board of Directors
- Method of selecting agenda for briefings for Directors
- Method of deliberation that encourages more substantive discussions

The Board of Directors will keep making efforts to improve the effectiveness toward future.

[Measures for ensuring management is aware of capital costs and stock prices] [English disclosure available]

<https://www.mmc.co.jp/corporate/en/company/strategy.html>

In formulating Medium-term Management Strategy FY2031, the Company analyzed the current state at the Board of Directors and the Strategic Management Committee to understand the Company's capital costs and capital profitability. Based on these, Medium-term Management Strategy FY2031 presents weighted average cost of capital (WACC) for the entire Company and for each business segment, and sets a return on invested capital (ROIC) target of making the ROIC spread, which is the difference between ROIC and WACC for each business segment, positive in all businesses toward FY2031. In addition, we aim to increase corporate value by introducing economic profit (ROIC spread × invested capital) as a management indicator to measure the amount of corporate value created.

We also aim to achieve a stable and continuous ROE of around 10% throughout the period of Medium-term Management Strategy FY2031.

For details of Medium-term Management Strategy FY2031 and measures to realize management focused on capital costs and stock prices, please refer to the Company's website.

With the aim of creating an attractive remuneration system for outstanding management personnel that will drive improvements in the Group's corporate value from a medium- to long-term viewpoint and establishing remuneration governance that will enable the Company to fulfill its accountability to stakeholders, including shareholders, the Company shall establish a policy on determining the remuneration for Directors and Executive Officers (hereinafter referred to as "Officers") and a remuneration system as follows:

1. Policy on Determining Remuneration for Officers

- (1) A system shall be created that provides competitive standards for remuneration compared with companies of a business category and size similar to the Group.
- (2) The performance of the functions and duties assumed by each Officer and contributions to the improvement of medium- to long-term corporate value shall be evaluated in a fair and equitable manner, and the evaluation results shall be reflected in remuneration.
- (3) As for the remuneration for Executive Officers, in order to have remuneration function as a sound incentive to improve the Group's medium- to long-term corporate value, remuneration shall consist of basic remuneration, an annual bonus based on performance evaluations in each fiscal year, etc. and stock-based compensation, which is a medium- to long-term incentive linked to medium- to long-term performance and corporate value. The remuneration composition ratio shall be determined appropriately in accordance with one's job position. Provided, however, that for the remuneration for Directors (excluding those who concurrently hold the posts of Director and Executive Officer), in principle, only basic remuneration shall be paid in cash, in light of their function and role of supervising the performance of job duties by the Executive Officers. However, Directors who chair the Nomination Committee, the Audit Committee, the Remuneration Committee and the Sustainability Committee shall be paid an allowance in addition to their basic remuneration in consideration of their responsibilities.
- (4) An annual bonus shall be determined with the emphasis on the performance in each fiscal year, while appropriately evaluating the relative results of Total Shareholder Return (TSR)* and the status of each Executive Officer's implementation of medium- to long-term management strategies, etc.

$$*TSR = \frac{\text{Average closing price of the stock on each day in March of the current year} + \text{Total amount of dividends per share in the current fiscal year}}{\text{Average closing price of the stock on each day in March of the previous year}}$$

- (5) A medium- to long-term incentive shall be stock-based compensation that enables Executive Officers to share awareness of profits with shareholders in order to enhance corporate value from a medium- to long-term viewpoint.
- (6) The policies for determining remuneration and the amount of individual remuneration shall be deliberated and determined by the Remuneration Committee composed of a majority of Independent Outside Directors.
- (7) Necessary information shall be disclosed actively so that stakeholders including shareholders can monitor the relationship between performance, etc. and remuneration.

2. Remuneration System for Officers

- (1) Directors (excluding those who concurrently hold the posts of Director and Executive Officer)

The remuneration system for Directors shall be, in principle, only basic remuneration paid in cash. However, Directors who chair the Nomination Committee, the Audit Committee, the Remuneration Committee and the Sustainability Committee shall be paid an allowance in addition to their basic remuneration in consideration of their responsibilities. The amount shall be determined, taking into consideration an individual Director's job position, whether he/she is a full-time/part-time Director, etc. and referring to the standards for remuneration of other companies based on the research of outside experts.

- (2) Executive Officers

The remuneration payable to Executive Officers shall consist of basic remuneration, which is fixed remuneration, and an annual bonus and stock-based compensation, which are performance-linked remuneration. The remuneration composition ratio shall be in line with "Basic remuneration/Annual bonus/Stock-based compensation = 1.0/0.6/0.4" (*In the case where the annual bonus payment rate is 100%) as to the Chief Executive Officer, and for other Executive Officers, the ratio of performance-linked remuneration to basic remuneration shall be set lower than that for the Chief Executive Officer.

Further, the standards for remuneration shall be determined by referring to the standards of peer companies (similar-sized companies determined by the Remuneration Committee) based on the research of outside experts.

<Basic Remuneration>

Basic remuneration shall be paid in cash as fixed remuneration in accordance with one's job position.

<Annual Bonus (Short-term Incentive Remuneration)>

The annual bonus shall be determined based on the consolidated operating profit, relative comparison of TSR, and status of achievement of the non-financial target set for each Executive Officer, on a single-year basis.

The specific evaluation items shall be as follows:

<<Evaluation Items>>

- (i) Evaluation based on consolidated operating profit, which measures the earning capacity of the Company's main business (or, in the case of an Executive Officer in charge of business activities, operating earnings from the relevant business sector);

The consolidated operating profit evaluation factor is to be multiplied by an adjustment factor based on the consolidated operating profit growth rate compared with other companies to enhance consciousness on growth greater than market growth (relative comparison with six domestic nonferrous metal companies and the companies chosen mainly among similar-sized domestic manufacturing companies)

- (ii) Relative comparison of TSR (relative comparison with six domestic nonferrous metal companies and the companies chosen mainly among similar-sized domestic manufacturing companies)
- (iii) Non-financial evaluation that evaluates the status of achievement of the targets set for each Executive Officer at the beginning of the term and other relevant factors with regard to efforts aimed at improving medium- to long-term corporate value, which is less likely to be represented in short-term performance, as well as efforts in line with the Sustainability Policy*

(*) Sustainability Policy Items

1. Build a Work Environment that puts Safety and Health First
2. Respect Human Rights
3. Promote Diversity, Equity and Inclusion
4. Cultivate Mutual Prosperity with Stakeholders
5. Strengthen Corporate Governance and Risk Management
6. Engage in Fair Business Transactions and Responsible Sourcing
7. Ensure Stable Provision of Safe, Secure, and High Value Added Products
8. Proactive Engagement for the Global Environment

<<Calculation Formula>>

By deeming the amount payable for achievement of the target (Base Annual Bonus) as 100%, the amount for each individual shall be calculated by using the following calculation formula:

$$\text{Annual Bonus} = \text{Base Annual Bonus by Job Position} \times \text{Payment Rate Based on Performance Evaluation}^*$$

* “Payment Rate Based on Performance Evaluation” shall range from 0% to approx. 200% based on a performance.

<<Evaluation Weight>>

The annual bonus shall be determined based on the evaluations of each portion of 60%*, 20% and 20% of the base annual bonus amount, which depends on one’s job position, in terms of consolidated operating profit evaluation (or, in the case of an Executive Officer in charge of business activities, operating earnings evaluation from the relevant business sector), relative TSR comparison and non-financial factors, respectively.

* To be adjusted using consolidated operating profit growth rate compared with other companies.

<Target of consolidated operating profit for annual bonus>

With regard to the target of consolidated operating profit for annual bonuses, in principle, consolidated operating profit for the current period planned in the Medium-Term Management Strategy shall be applied (For operating earnings of the business for which the Executive Officer is responsible, planned consolidated operating earnings from the relevant business sector shall be used.).

<Stock-based compensation (Medium- to Long-term Incentive Remuneration)*>

Stock-based compensation shall be a system that utilizes a trust for the purpose of achieving the sharing of a common profit awareness with shareholders. This shall be used as an incentive for improving the medium- to long-term corporate value of the Group and under which the Company’s common shares and cash equivalent to the

proceeds from the realization of the Company's common shares (hereinafter referred to as "the Company's Stock, etc.") shall be granted in accordance with one's job position, upon retirement from the post of Executive Officers. No performance conditions nor stock price conditions shall be set with respect to the shares to be delivered.

Please note that in the case of a non-resident staying in Japan, different treatment may be applied under laws or for any other relevant circumstances.

- * The Officers' remuneration system adopts a structure called BIP (Board Incentive Plan) and grants to the Executive Officers the shares of the Company's Stock, etc. During the trust period, it is an incentive plan to accumulate points to be given to Executive Officers, and to grant the shares of the Company's common stock equivalent to 70% of such accumulated points (shares less than one unit shall be disregarded) and cash equivalent to realized value of the shares of the Company's common stock equivalent to the remaining accumulated points as compensation to Executive Officers after their retirement. One point is deemed equal to one share of the Company's common stock, and if a stock split or reverse stock split occurs during the trust period, the number of the Company's shares per point shall be adjusted according to the stock split ratio or reverse stock split ratio of the Company's shares. The maximum number of points to be given to Executive Officers during the three fiscal years including current fiscal year (from FY2024 to FY2026) shall be 140,000 points in total.

<Claim for return of remuneration, etc. (Malus and Clawback System)>

If an Executive Officer violates laws and regulations or the duty of care of a good manager, the Company may, upon resolution of the Remuneration Committee, revoke the right to receive an annual bonus or demand that the Executive Officer return the bonus after it has been paid, and revoke the right to receive the shares of the Company's Stock, etc. or demand the return of an amount equivalent to the accumulated number of points.
