SAWAI GROUP HOLDINGS

Representative Director, Chairman & President, GCEO & GCOO

Mitsuo Sawai

Contact: Group Sustainability Management Office

General Manager, Fumito Kawai

Securities code: 4887

<https://global.sawaigroup.holdings>

The corporate governance of SAWAI GROUP HOLDINGS Co., Ltd. (the “Company”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

In order to achieve sustainable growth and increase corporate value over the medium and long term for the Company, its subsidiaries and affiliates (hereinafter referred to as the "Group") as a whole, the Company has positioned the enhancement of corporate governance as an important management issue in order to build a management system that enables decision-making and business execution that responds appropriately and swiftly to changes in the external environment, and to achieve fair and highly transparent management.

In addition, in order to maintain and improve high ethical standards, the Company, which has a life-related company that provides prescription pharmaceuticals as one of its core group companies, will promote corporate activities in accordance with the Sawai code of conduct and various internal regulations to be followed for various stakeholders under the common corporate philosophy of "Always putting healthier lives first."

(1) Ensuring the rights and equality of shareholders

The Company will strive to improve the environment for the exercise of voting rights and take appropriate measures to ensure that the rights of shareholders are substantially secured, and will also strive to ensure that the rights of minority shareholders and foreign shareholders are substantially equal.

(2) Appropriate collaboration with stakeholders other than shareholders

In order to realize the Group's common corporate philosophy of "Always putting healthier lives first," to achieve sustainable growth and enhance corporate value over the medium to long term, and to contribute to the realization of the Sustainable Development Goals (SDGs) adopted by the United Nations, the Company shall strive to collaborate with not only shareholders but also medical and healthcare professionals, business partners, employees, and other stakeholders including local community. In addition, we will actively fulfill our corporate social responsibility (CSR) in our business processes.

(3) Ensuring appropriate information disclosure and transparency

In accordance with laws and regulations, we will disclose consistent and reliable corporate information to shareholders, investors, and other capital market participants in a timely manner, and strive to ensure that all market participants have equal access to the information we disclose. In addition to financial information, we will actively disclose highly useful information on management strategies, management issues, risks, ESG information, etc., through our website and public relations materials, and strive to disclose appropriate and highly transparent information.

(4) Responsibilities of the Board of Directors

Based on its fiduciary responsibility and accountability to shareholders, the Board of Directors of the Company will strive for "proactive governance" that enables us to respond appropriately to changes in the external environment and to make decisions quickly and decisively, under a management oversight function that balances the "autonomy" of internal directors who are familiar with the businesses of the Group and the "heteronomy" of external directors who are objective and independent from the perspective of the optimal allocation of the Group's overall resources as well as pursuing efficiency and legality in management. In addition, we will strengthen the "defensive functions" expected of Audit & Supervisory Board members by ensuring that they have opportunities to express their opinions appropriately at meetings of the Board of Directors and by fostering a corporate culture that respects free, vigorous and constructive opinions.

(5) Dialogue with shareholders

The President and Representative Director, and the person in charge of information disclosure shall actively participate in

dialogue with shareholders and investors, provide substantial information on management strategies, finances, etc., and strive for two-way constructive communication with shareholders and investors. In addition, the results of the dialogue shall be reported to the Board of Directors, etc., and the opinions of shareholders, etc., shall be actively utilized in the management of the Company.

Reasons for Non-compliance with the Principles of the Corporate Governance Code

[Supplementary Principle 2.4.1: Ensuring diversity in the promotion to core human resources]

Please refer to our website including our mid-term business plan for our approach to ensuring diversity in the appointment of core human resources, our policies on human resource development and work environment improvement and the status of the implementation of those policies, and our target for the ratio of female managers. We have not set a target for the ratio of mid-career employees in managerial positions, because the majority of our managers are mid-career employees and we believe that we have ensured sufficient diversity in terms of the ratio of mid-career employees in managerial positions. In addition, we have not set a target for the ratio of foreign managers as its importance decreased relatively as we completed the transfer of shares and equity interests of the subsidiary, which had been responsible for a major part of the Group's U.S. business, to concentrate management resources on the Japanese market.

<https://global.sawai.group/holdings/sustainability/human>

<https://pdf.irpocket.com/C4887/BbNL/QAgJ/FJGa.pdf>

[Supplementary Principle 4.1.3: Succession Planning for the CEO, etc.]

In fiscal 2023, the Nomination, Remuneration and Other Governance Committee deliberated on the overall succession plan for the CEO and other top executives, and developed an outline of the plan. From now on, the committee will formulate a more specific succession plan, including criteria for the selection of candidate for succession and a successor training plan, and propose it to the Board of Directors.

Disclosure Based on the Principles of the Corporate Governance Code

[Updated]

[Principle 1.4: Strategic Shareholdings]

In order to achieve sustainable growth and enhance corporate value over the medium to long term, the Group may hold listed shares as it deems necessary as part of its management strategy. In principle, the Group does not hold investment shares purely for investment purposes. In addition, we believe that strategic shareholdings can be an effective means of strategic alliances. When the Group holds listed shares, the Board of Directors periodically reviews the rationality of holding major strategic shareholdings in line with the purpose of holding the shares, including the consideration of the cost of capital, and reduces its shareholdings when it judges that such shareholdings are not rational. In addition, we have set out a plan to reduce cross-shareholdings in our mid-term business plan in line with the "Basic Policy for Reviewing Business Portfolio and Capital Policy" resolved at the Board of Directors meeting in January 2024.

In exercising voting rights, we have not established uniform standards for the exercise of voting rights, as the content of each agenda item and its background differ from one another. The Company will exercise its voting rights appropriately after examining each proposal individually to determine whether it will contribute to the sustainable growth and medium- to long-term enhancement of the Group's corporate value by conducting dialogue with the companies in which we hold shares and deepening our understanding of their management policies and the contents of their proposals.

[Principle 1.7: Transactions with related parties]

The Company stipulates in the Regulations of the Board of Directors that the approval of competitive transactions, self-dealing, and transactions with conflicts of interest of directors shall be a matter for resolution, and similarly stipulates that directors who have a special interest in such matters may not participate in voting. In addition, to ensure that the interests of general shareholders are not harmed, transactions between the Company and its major shareholders, etc., are also stipulated as a matter for resolution by the Board of Directors. In addition, the Board of Directors appropriately monitors transactions between related parties in accordance with relevant laws and regulations.

[Principle 2.6: Roles of Corporate Pension Funds as Asset Owners]

The Company has adopted a defined contribution pension plan, and since the employees, who are the beneficiaries of the plan, are responsible for managing their pension funds, we believe that there is no conflict of interest between employees and the Company in managing the pension funds. On the other hand, since the management of pension funds impacts stable asset formation for employees, we have assigned a person in charge of the corporate pension system to the Group's Human Resources Department to provide our employees education and other services. In addition, the person in charge receives reports on the management status from the administrative management institution through interviews once every six months. In selecting investment products, the Company selects financial products with different profit characteristics from those stipulated in the Defined Contribution Pension Plan Law, and notifies and consults with the labor union in advance when adding or changing investment products.

[Principle 3.1: Enhancement of Information Disclosure]

(i) The Company's corporate philosophy, management strategy and management plan (mid-term business plan) are disclosed on the Company's website.

<https://global.sawaigroup.holdings/about/philosophy/>
<https://global.sawaigroup.holdings/about/plan>

- (ii) Please refer to "I.1. Basic Views" in this report for the Company's basic views and basic policy regarding the Corporate Governance.
- (iii) For the policies and procedures of the Board of Directors of the Company in determining the remuneration of senior management and directors, please refer to "Existence of Policy on Determining Remuneration Amounts and Calculation Methods" in "II.1. Organizational Composition and Operation [Director Remuneration]" of this report.
- (iv) The policy of the Board of Directors of the Company in appointing senior management and nominating candidates for directors who will be responsible for the sustainable growth of the Company and the enhancement of its corporate value over the medium to long term is to consider the size, balance and diversity of the Board of Directors as a whole, while fully respecting the advice and recommendations of the Nomination, Remuneration and Other Governance Committee. Decisions are made based on a comprehensive assessment of the extensive experience and expertise appropriate to the position, the business performance, and the high level of insight and character. The procedures for this are stipulated in the "Regulations of the Board of Directors" and the "Regulations of the Nomination, Remuneration and Other Governance Committees. The policy for the dismissal of senior management, including directors, is determined by comprehensively considering the following matters, while fully respecting the advice and recommendations of the Nomination, Remuneration and Other Governance Committee.
- When the requirements for the appointment of senior management are no longer met
 - Violations of laws, regulations, the Articles of Incorporation, or other acts that damage the Company's credibility
 - Inability to perform duties due to mental or physical loss or other health reasons
 - In the event that he or she violates the duty of care of a good manager and causes significant loss to the Company.

These procedures are also stipulated in the "Regulations of the Board of Directors" and the "Regulations of the Nomination, Remuneration and Other Governance Committee."

The policy for nominating candidates for Audit & Supervisory Board members is determined in accordance with the "Auditing Standards for Audit & Supervisory Board members," which includes ensuring independence from executive officers and maintaining a fair and unbiased attitude. The procedures are set forth in the "Regulations of the Audit & Supervisory Board."

- (v) Based on the above (iv), when nominating candidates for directors and Audit & Supervisory Board members, the explanation of each election, dismissal and nomination shall be included in the "Notice of Convocation of General Meeting of Shareholders."

[Supplementary Principle 3.1.3: Initiatives on sustainability]

The Company recognizes that sustainability is one of the most important management issues. We have thus established the Group Sustainability Committee to work together with our Group companies on sustainability. The progress of our sustainability initiatives and ESG data are disclosed on the websites of the Company and Group companies. Moreover, our mid-term business Plan includes investment in human capital and intellectual property. Please refer to our website for disclosures based on the TCFD recommendations.

<https://global.sawaigroup.holdings/sustainability/>
<https://global.sawaigroup.holdings/sustainability/tcfd>

[Supplementary Principle 4.1.1: Outline of the scope of delegation to management]

The Board of Directors makes judgments and decisions on matters stipulated in laws and regulations and the Articles of Incorporation, as well as on matters stipulated in the Regulations of the Board of Directors as being of high managerial importance. In light of the fact that an important duty of the Board of Directors is to supervise management, we have adopted an executive officer system and delegate to executive officers the execution of duties in line with decisions made by the Board of Directors. Discussions and decisions on execution policies are made at the Group Strategy Council, which consists of the Chairman (GCEO), President (GCOO), and Executive Officers. For the purpose of efficiency and mobility, the Company executes matters of less than a certain amount of money and deemed less important based on the "Decision-Making Standard List" separately established. In addition, through the development of the Regulations on the Management of Affiliated Companies, we will promote the delegation of authority to each company in the Group to realize prompt and efficient business operations. At the same time, we appoint a supervising officer or an officer in charge for each function of each Group company to provide guidance and supervision to the Group companies, and ensure appropriate supervision by having them regularly report the status to the Board of Directors. In addition, the Company has established the Group Governance Council and other committees that include members from each Group company to share, discuss, and review information, as well as to provide a function for prior deliberation of matters to be resolved or reported to the Board of Directors, thereby strengthening the management supervision system for the entire Group.

[Principle 4.9: Criteria for determining the independence of independent external directors and their qualifications]

The Company has appointed two independent external directors who satisfy the requirements for external directors stipulated in the Companies Act and the independence standards stipulated by the Tokyo Stock Exchange, and who are capable of providing advice and making judgments that contribute to the sustainable growth and medium- to long-term enhancement of the Company's corporate value from an objective perspective. These three independent external directors serve as key members of the Nomination, Remuneration and Other Governance Committee, which was established to improve the independence, objectivity and transparency of the functions of the Board of Directors and to strengthen accountability, and have been appointed as external directors to provide appropriate involvement and advice in the consideration of important matters related to the Company's

governance. In addition, Mr. Masatoshi Ohara has been appointed as the leading independent external director by mutual election of the external directors. The leading independent external director plays a leading role in strengthening the supervisory function by holding regular meetings with the external directors and the Audit & Supervisory Board members to promote cooperation, and by communicating and coordinating with directors other than the external directors (including representative directors).

[Supplementary Principle 4.10.1: Independent Nomination and Remuneration Committees]

Please refer to "II. Business Management Organization and Other Corporate Governance Systems regarding Decision-making, Execution of Business, and Oversight in Management" in this report for the voluntarily established committees that deliberate on important governance matters, such as nomination and remuneration, and their members.

[Supplementary Principle 4.11.1: View on the balance of composition, diversity and size of the Board of Directors]

The maximum number of members of the Board of Directors of the Company has been set at twelve (12) from the viewpoints of the size of the Company and the realization of substantive discussions and exchange of opinions. Currently, the Company's Board of Directors consists of five directors, two of whom are independent external directors. Please refer to the description concerning Principle 3.1 (iv) in this report for our view on the balance between all members of the Board of Directors in terms of their fields of knowledge, experience, and ability, and its overall diversity, as well as our policy and procedure for the appointment of Directors. As an independent external director with management experience at other companies, the Company has appointed Mr. Masayuki Mitsuka. A skills matrix listing the knowledge, experience, and ability of each director is included in the Notice of Convocation of the General Meeting of Shareholders and other documents.

<https://www2.jpx.co.jp/disc/48870/140120240530514789.pdf>

[Supplementary Principle 4.11.2: Status of concurrent positions held by directors and Audit & Supervisory Board members]

In order to ensure that the Company's directors and Audit & Supervisory Board members are able to appropriately fulfill their roles and responsibilities, concurrently serving as officers of other companies is limited to a reasonable extent. The status of concurrent positions of directors and Audit & Supervisory Board members at other companies will be described in the "Notice of Convocation of the General Meeting of Shareholders."

[Supplementary Principle 4.11.3: Analysis and Evaluation of the Effectiveness of the Board of Directors]

It is the Company's policy to analyze and evaluate the effectiveness of the Board of Directors once a year and make improvements as necessary. Below is a summary of the results of the evaluation of the effectiveness of the Board of Directors in fiscal 2023.

<Evaluation method>

We adopted a self-evaluation method for directors and Audit & Supervisory Board members based on a questionnaire survey prepared by a third-party organization.

- The third-party organization administered self-evaluation by anonymous questionnaires
- The third-party organization collected the questionnaires and analyzed the results
- The Board of Directors verified and discussed the results based on the report received from the third-party organization

<Evaluation items>

The evaluation items comprised a total of 40 questions in 11 categories, including 31 questions in the form of an evaluation on a scale of one to five and nine questions in the form of a free description of opinions on the evaluations and improvements for each theme.

1. Composition of the Board of Directors
2. Operation of the Board of Directors
3. Discussion of the Board of Directors
4. Monitoring function of the Board of Directors
(including issues derived from the results of the previous effectiveness evaluation)
5. Performance of inside directors
6. Performance of external directors
7. Support system for directors and the Audit & Supervisory Board members (including training)
8. Dialogue with shareholders (investors)
9. Directors' own efforts
10. Operation of the Nomination, Remuneration and Other Governance Committee
11. Summary

<Main opinions>

The main opinions raised were as follows.

- Opinions are exchanged quite frankly at the Board of Directors.
- The quality of the analysis and discussion at the Board of Directors has been improving year after year, and we have achieved a certain level of effectiveness through its governance system.
- Active discussion and suggestions on developing and operating the succession planning for the CEO, etc., are required.
- There are some inadequacies in the follow-up of matters resolved by the Board of Directors.
- Improvements have been made in terms of group governance, but there are issues with the enhancement of systematic and regular reporting and feedback on the subsidiaries' business operations.

- The Board of Directors has made efforts to enhance responses based on the evaluation results of the previous year, including management strategies, capital policy, and discussions focusing on relationships with stakeholders.
- We need to discuss the Group's long-term (5-10 years) business strategy more actively.
- It would be even better if we could exchange opinions on the goals we aim for in society as a company and hold discussions with a view to improving employee engagement.
- The Board of Directors should avoid a skills (map) shortage associated with the relative decline in the number of internal directors.
- The Board of Directors is required to increase opportunities for information sharing and opinion exchange with the internal audit department.
- The information sharing is sufficient on the opinions of major shareholders and responses to them. We should deepen the discussion on the results of the dialogue with more shareholders at the Board of Directors.
- We are required to omit the detailed resolutions that are left to the operating companies and devote more time to discussions on major management issues.

<Evaluation results>

The Board of Directors meeting on May 13, 2024, discussed the evaluation results compiled by the third-party organization and assessed that the Board of Directors of the Company has generally fulfilled its role and functions adequately.

<Challenges and directions for further improvement in effectiveness>

Based on the evaluation results, the Board of Directors plans to improve the following five areas in fiscal 2024 to further enhance the effectiveness of the Board of Directors

- Succession planning
- Follow-up monitoring of progress
- Further enhancement of discussions on management strategies and plans
- Composition and skills of the Board of Directors
- Operational method of the Board of Directors

[Supplementary Principle 4.14.2: Training Policy for Directors and Audit & Supervisory Board members]

The Company will proactively provide directors and Audit & Supervisory Board members with a variety of information, including the current status of the Company's business and finances, so that they can appropriately fulfill their expected roles and responsibilities. The Company will also provide information on various systems and rules related to the industry and governance, as well as opportunities for training, etc., as necessary.

[Principle 5.1: Policy on constructive dialogue with shareholders]

For the Company's basic policy on dialogue with shareholders, please refer to "I.1. Basic Views (5) Dialogue with Shareholders" in this report.

The department in charge of IR will respond to the requests of shareholders and investors for dialogue (interviews) to the extent reasonable. In addition, senior management, Directors, or Audit & Supervisory Board members will respond positively to those requests as long as their schedules permit. In the case of a schedule conflict, inquiries made by email or phone will be responded to by the department in charge of IR in spoken or written form, while the main concerns of shareholders will be responded to on our website or in written form. Our policy on the establishment of systems and initiatives to promote constructive dialogue with shareholders and investors is as follows.

- (i) The Company has notified the Tokyo Stock Exchange of the name of Yasushi Kora, General Manager of the Corporate Communication Department, as the person responsible for handling information.
- (ii) The Company has established the Corporate Communication Department, which reports directly to the President and CEO, as the point of contact for dialogue, and has established a system for cooperation with the Group Finance Department, the Group General Affairs Department, the Group Sustainability Management Office, etc., to ensure constructive dialogue.
- (iii) In addition to briefings for analysts and investors, the Company prepares easy-to-understand IR materials, including English versions, and posts them on our website from the perspective of ensuring equality and fairness to shareholders as much as possible.
- (iv) The PR & IR Group compiles the opinions and concerns identified in dialogue with shareholders and investors, and regularly provides feedback to management.
- (v) The Company has established Regulations on Insider Trading Management, which are disseminated internally to ensure thorough management of insider information. In addition, we take all possible measures to manage important information by limiting the number of persons who handle important information to a minimum extent, and we have a system in place to ensure that insider information is not leaked to external parties through thorough multi-person interaction during dialogue and mutual monitoring.

In our dialogue with shareholders and investors, their main concerns are often the drug pricing system, market trends, our U.S. business, new businesses, capital policy and corporate governance, which are all related to the cost of capital. The details of our dialogue with shareholders and investors, including their opinions, are reported to management by the department in charge of IR, to be referred to in management discussions at the meetings of the Board of Directors, the Group Strategy Council, etc. as needed. Also, please refer to "V. Other – 2. Other Matters Concerning to Corporate Governance System" for our system for facilitating constructive dialogue with shareholders and investors.

[Principle 5.2: Establishing and Disclosing Business Strategies and Business Plans]

[Actions to implement management that is conscious of cost of capital and stock price] [Date of update: 25/06/2024]

At its meeting on April 24, 2023, the Board of Directors of the Company confirmed the notice “Action to Implement Management that is Conscious of Cost of Capital and Stock Price” issued by the Tokyo Stock Exchange on March 31, 2023. Subsequently, a project was launched regarding the measures to be taken, and the “Basic Policy regarding the Business Portfolio and Capital Policy” was reviewed and formulated, which was determined by the Board of Directors on January 16, 2024. Specific numerical targets are set in the mid-term business plan resolved at the Company’s Board of Directors meeting on June 6, 2024. Please refer to the information posted on the Company’s website.

Supplementary Explanation

Our Nomination, Remuneration and Other Governance Committee serves as both a Nominating Committee and a Remuneration Committee, and its members are composed of directors selected by a resolution of the Board of Directors. The Committee is chaired by Mr. Masatoshi Ohara, the leading independent external director, who is elected by the members of the Committee in accordance with the internal rules. It is also a requirement that any member who has a special interest in the matters to be discussed by the Committee may not participate in its resolutions.

Resolutions of the Committee are adopted by a majority of the members present at the meeting, with a majority of the members eligible to participate in the resolution. The Committee deliberates from various perspectives, including those of gender equality, diversity and skill, mainly on the appointment and dismissal of senior management members, the selection and dismissal of the CEO and other top management members, the planning of succession to the CEO and other top management members, and remuneration for senior management and executive officers, as well as the basic policies, rules, and procedures regarding these matters. The results of these deliberations are reported to the Board of Directors. It is also stipulated that the Board of Directors shall fully respect the advice and recommendations received from the Committee.

In fiscal 2023, the committee met seven times, and the attendance rate of the all members was 100%.

Audit and Supervisory Board Member*

*Referred to in Corporate Governance Code reference translation as "*kansayaku*"

Establishment of Audit and Supervisory Board	Established
Number of Audit and Supervisory Board Members Stipulated in Articles of Incorporation	5 Audit & Supervisory Board Members
Number of Audit and Supervisory Board Members	3 Audit & Supervisory Board Members

Cooperation among Audit and Supervisory Board Members, Accounting Auditors and Internal Audit Departments

We have established the Regulations of the Board of Audit & Supervisory Board, the Auditing Standards for Audit & Supervisory Board members, and the Regulations of Internal Audit, and are working to strengthen the functions of Audit & Supervisory Board through cooperation with the Board of Audit & Supervisory Board, the Group Internal Inspection Office, and the Accounting Auditor.

Full-time Audit & Supervisory Board member serves as the chairman of the Board of Audit & Supervisory Board, attends meetings of the Board of Directors, the Group Strategy Council and other important meetings, inspects important approval documents, etc., investigates the status of operations and assets at the head office and major business offices, and reports to the Board of Audit & Supervisory Board to share information, collaborates and cooperates with external Audit & Supervisory Board members. In addition, the full-time Audit & Supervisory Board members regularly have opportunities to communicate with Representative Directors, and exchange information with the directors of subsidiaries and receive reports on their businesses. In addition, Mr. Tadao Tsubokura, a full-time Audit & Supervisory Board member, was in charge of the Controller Department and General Affairs Department of SAWAI PHARMACEUTICAL, a core company of the Group. Full-time Audit & Supervisory Board members and the General Manager of the Group Internal Inspection Office exchange information on the status of development and operation of internal control, business audit, theme audit, etc., based on the "Cabinet Office Order on the

Systems for Ensuring the Adequacy of Documents on Financial Calculation and Other Information." In addition, the internal audit reports prepared by the Group Internal Inspection Office are circulated to the full-time Audit & Supervisory Board members, and the contents are reported to the Board of Audit & Supervisory Board by the full-time Audit & Supervisory Board members. In addition, members of the Group Internal Inspection Office assist the Audit & Supervisory Board members in some of their administrative work to strengthen the Audit & Supervisory Board's functions so that they can concentrate on auditing. In this case, such assistants will be independent from the direction and supervision of the directors and will perform their duties under the supervision of the Audit & Supervisory Board members. It is also stipulated that any personnel transfers to such assistants require the consent of the Audit & Supervisory Board members, thereby ensuring the effectiveness of the Audit & Supervisory Board members' instructions.

We will strive to improve audit efficiency by dividing the roles of the Audit & Supervisory Board members and the accounting auditors into two groups: the Audit & Supervisory Board members will mainly conduct operational audits (auditing the status of the development and operation of the "system to ensure the appropriateness of operations") and the accounting auditors will mainly conduct accounting audits. In addition, the Audit & Supervisory Board members regularly receive explanations of the basic audit plan and reports on the audit summary to understand the auditing activities of the accounting auditors. In addition, the Audit Division (the Audit & Supervisory Board, the Group Internal Inspection Office, and the accounting auditor) conducts audits of business sites, etc., to ensure the effectiveness of audits and to ensure thoroughness throughout the Company.

Each audit division collects information and exchanges opinions with each division that promotes internal control to evaluate the status of development and operation of internal control, and strives to improve the level of internal control by reporting to the Internal Control Committee and recommending opinions as necessary.

Incentives

Implementation Status of Measures related to Incentives Granted to Directors	Introduction of Performance-linked Remuneration Scheme / Introduction of Stock Options Scheme
--	---

Supplementary Explanation for Applicable Items

The following is a summary of the remuneration for directors.

The Company's remuneration for directors (excluding external directors) shall consist of basic remuneration (fixed remuneration), performance-linked remuneration (bonuses), and stock options (stock acquisition rights) as medium- to long-term incentives. External directors are paid only fixed remuneration.

- The ratio of basic remuneration to performance-linked remuneration shall be approximately 3:1.
- Stock options shall be based on the position and years of service, and shall be at least 10% of total remuneration in accordance with the internal rules separately established.
- The Company shall adopt two types of indices for performance-linked remuneration: performance evaluation indices and department evaluation indices.
- In principle, as performance evaluation indices, the Company shall use "core operating profit before investment expenses," which is before deducting investment expenses such as R&D expenses from "core operating profit," which excludes the profit and loss from non-recurring factors determined by the Group, as a base.
The targets and results for performance evaluation indices related to performance-linked remuneration in fiscal 2023 are as follows.

Core operating profit before investment expenses

Target	Result
35,712 million yen	37,868 million yen

(Note) Core operating profit before investment expenses are calculated in accordance with the internal regulations taking into account the impact of the business restructuring, etc.

- Department evaluation indices mean the evaluation indices for each director are consistent with the Company's annual targets, and are based on the degree of achievement of annual targets in the area of responsibility.
- The remunerations of the Chairman and the President are determined based on the performance evaluation indices, to which the Nomination, Remuneration and Other Governance Committee adds and subtracts according to certain rules to reflect the assessment of initiatives related to ESG such as environment, human capital, risk management, and compliance. The calculation of remuneration for other directors with departments in charge shall be determined after the end of each fiscal year in accordance with the calculation rules established in advance in the internal rules according to the degree of achievement of these two indices according to their positions.
- The determination of the amount of performance-linked remuneration shall be based on the standard amount predetermined for each position, and shall be calculated in principle according to the predetermined calculation formula by the internal rules in accordance with the degree of achievement of the above performance evaluation indices. However, for directors who have departments in charge, the amount shall be determined by taking into consideration both the performance evaluation indices and the degree of achievement of the evaluation target of the department in charge.
- The amount of remuneration, etc., for each position shall be determined based on the standard amount of remuneration for each position in the Company, while referring to data from research organizations regarding remuneration for directors of listed companies. In addition, the remuneration system shall be such that the standard amount of the total amount and the composition of the total amount as a whole shall be in line with the following: (i) incentives for executives that contribute to the medium- to long-term and sustainable enhancement of the Company's corporate value, (ii) the ability to secure excellent human resources as the Company's management team, and (iii) the suppression of excessive risk-taking. External directors are paid only fixed remuneration.

The reason for adopting the above indices is that the Company judged that the performance evaluation indices would more accurately reflect the contribution to the enhancement of corporate value. In addition, concerning the evaluation of directors with the relevant department in charge, we set the evaluation targets for the department in charge, including qualitative evaluation for each financial year in addition to quantitative evaluation items, which the Nomination, Remuneration and Other Governance Committee evaluates together with the level of achievement. These evaluations include initiatives related to ESG, such as environment, human capital, risk management, and compliance. This policy on remuneration calculation was determined by the Board of Directors based on a proposal for the policy and a report of the deliberations of the Nomination, Remuneration and Other Governance Committee, a majority of which is constituted by external directors, on matters related to directors' remuneration.

Persons Eligible for Stock Options

Inside Directors / Other

Supplementary Explanation for Applicable Items

The purpose of granting stock options is to enable the Company's directors (excluding external directors) and corporate officers to share the benefits and risks of stock price fluctuations with shareholders, thereby further promoting shareholder-oriented management and further increasing their motivation and morale to contribute to the medium- to long-term enhancement of corporate value.

The details of stock acquisition rights granted to our directors (excluding external directors) as stock options are as follows.

1. Type and number of shares covered by the stock acquisition rights

The type of shares covered by the stock acquisition rights shall be common shares in the Company. The total number of shares that holders of stock acquisition rights can acquire by exercising the rights allotted to them within one year from the day of each business year's ordinary General Meeting of Shareholders shall be up to 60,000.

The number of shares covered by each stock acquisition right (hereinafter referred to as "Granted Shares") shall be 200. If the number of granted shares is adjusted, the maximum number of shares that the holders of stock acquisition rights can acquire shall be the number obtained by multiplying the number of granted shares after adjustment by the maximum number of stock acquisition rights set forth in paragraph 2 below.

2. Number of stock acquisition rights

The maximum number of stock acquisition rights to be allotted to directors (excluding external directors) within one year from the day of each business year's ordinary General Meeting of Shareholders shall be 300.

3. Amount of money to be paid for stock acquisition rights

The amount of money to be paid per stock acquisition right shall be determined by the Board of Directors on the basis of the fair value of the stock acquisition rights calculated upon the allotment of the stock acquisition rights by a fair calculation method, such as the Black-Scholes Model.

4. Value of assets to be contributed at the time of exercise of the rights

Holders of stock acquisition rights shall be charged ¥1 for their acquisition of one share through the exercise of each of those rights. Therefore, the value of assets to be contributed upon the exercise of each stock acquisition right shall be the amount obtained by multiplying the amount of the exercise charge per share (¥1) by the number of granted shares.

5. Conditions for the exercise of stock acquisition rights

Holders of stock acquisition rights shall be entitled to exercise stock acquisition rights from the day after they lose all their statuses as director and corporate officer of the Company or its subsidiaries. The conditions for them to exercise their stock acquisition rights shall be determined by the Board of Directors.

6. Other Matters

Other matters relating to stock acquisition rights shall be determined by a resolution of the Board of Directors.

Director Remuneration

Status of Disclosure of Individual Directors' Remuneration

No Disclosure for any Directors

Supplementary Explanation for Applicable Items

In fiscal 2023 (April 2023 to March 2024), remuneration for five directors (excluding three external directors) totaled ¥118 million. The total comprises fixed remuneration of ¥77 million, performance-linked remuneration of ¥26 million, and stock options worth ¥15 million.

Remuneration for five external Board Members (three external directors and two external Audit & Supervisory Board members) totaled ¥42 million, while remuneration for an Audit & Supervisory Board member (who is not an external Audit & Supervisory Board member) was ¥18 million.

Policy on Determining Remuneration Amounts and the Calculation Methods Thereof

Established

Disclosure of Policy on Determining Remuneration Amounts and the Calculation Methods Thereof

The remuneration for directors (excluding external directors) consists of basic remuneration (fixed remuneration), performance-linked remuneration (bonuses), and stock options (stock acquisition rights) as medium- to long-term incentives.

The amount of performance-linked remuneration for each director is determined by holding the Nomination, Remuneration and Other Governance Committee, which evaluates the performance of each director (excluding external directors), deliberates on the payment of bonuses as performance-linked remuneration reflecting the results of the evaluation and performance, and reports the results of the deliberation to the Board of Directors for final decision.

The maximum annual amount of remuneration for directors is defined as ¥670 million (and ¥100 million for external directors).

Stock acquisition rights (up to ¥100 million per annum) will be allotted as stock options to directors (excluding external directors). For an outline, please refer to the “Supplementary Explanation of Incentives” in this report.

The maximum amount of remuneration for Audit & Supervisory Board members shall be within 50 million yen per year. The Company has established a policy to review the overall design of the system, including the amount of remuneration for directors, every three years in principle, comprehensively taking into consideration market trends regarding remuneration for directors, the Company's performance trends, price trends and other factors.

Support System for External Directors and/or External Audit and Supervisory Board Members

[Support system for external directors]

In the event that external directors require expenses for research or other purposes in the performance of their duties, they are granted the right to claim such expenses from the Company within a reasonable range, and in addition, some members of the Group General Affairs Department assist the external directors in their administrative work so that they can concentrate on their duties, thereby sharing information with them and strengthening the supervisory function of the external directors.

[Support system for external Audit & Supervisory Members]

The Company has established a system to ensure that the auditing work of each external Audit & Supervisory Board member is efficient, such as having full-time Audit & Supervisory Board members serve as the contact point between the Audit & Supervisory Board, the Board of Directors and the accounting auditor, as well as reporting from relevant internal departments and communicating information to the relevant departments via the full-time Audit & Supervisory Board member. The Company has adopted a system under which full-time Audit & Supervisory Board members compile opinions and reports from each external Audit & Supervisory Board member, prepare agenda items for the Audit & Supervisory Board, and otherwise ensure the smooth operation of the Audit & Supervisory Board. In addition, in the event that the external Audit & Supervisory Board members require expenses for research or other purposes in the performance of their audits, they are granted the right to claim such expenses from the Company within a reasonable range, and in addition, some members of the Group Internal Inspection Office assist the external Audit & Supervisory Board members in their administrative work so that they can concentrate on their duties, thereby sharing information with them and strengthening the supervisory and auditing functions of the external Audit & Supervisory Board members.

[Other]

The External Board members Liaison Committee, consisting of the external directors, external Audit & Supervisory Board members, and full-time Audit & Supervisory Board member, is held periodically, in principle once a month, to exchange opinions and information. In addition, the Corporate Secretariat of the Board of Directors (Group Sustainability Management Office) sends materials in advance to all participants in the Board of Directors meetings, including external directors and external Audit & Supervisory Board members, and provides them with prior explanations as necessary in order to enhance the quality of deliberations at the Board of Directors meetings.

Other Related Matters

Mr. Hiroyuki Sawai, Saikokomon (top advisor) of the Company has made significant contributions to the development of the SAWAI PHARMACEUTICAL, the core subsidiary company of the Company's group, in April 1963 since he joined it. He also provides advice or expresses his opinions voluntarily at the request of the Company's management, utilizing his extensive knowledge of the generic drug industry. However, he does not have the authority to make decisions of the Company at the Board of Directors meetings of the Company and SAWAI PHARMACEUTICAL, the Group Strategy Council and other meetings.

Mr. Kazuhiko Sueyoshi, Tokubetsukomon (special advisor) of the Company, has made a significant contribution to the establishment of group governance by leading the development and strengthening of the Controller Department of SAWAI PHARMACEUTICAL, the core subsidiary company of the Group and its transformation to a holding company since he joined the company in April 2012. He also provides advice or expresses his opinions voluntarily in response to requests of the Company's management, utilizing his extensive knowledge of finance, accounting, business administration and legal matters. However, he does not have the authority to make decisions at the Board of Directors meetings, the Group Strategy Council and other meetings of the Company and SAWAI PHARMACEUTICAL.

2. Matters Concerning Functions of Business Execution, Auditing and Supervision, Nomination, and Remuneration Decisions (Overview of Current Corporate Governance System)

The corporate governance of the Company consists of five (5) directors (including three (3) external directors) and three (3) Audit & Supervisory Board members (including two (2) external Audit & Supervisory Board members), and the Company has adopted a company system with a Board of Audit & Supervisory Board members. In addition, the Company has adopted a corporate officer system to separate the management decision-making function from the business execution function, to strengthen and improve the efficiency of the business execution function based on management strategies, and to clarify the responsibility for business execution.

An overview diagram is shown on the last page of this report.

The Board of Directors is scheduled to meet once a month in principle. In fiscal 2023, the Board of Directors met 14 times, with attendance rates of 100% for all directors, except for Mr. Ohara, whose attendance rate was 92.9% as he attended 13 of the 14 meetings, and 100% for Audit & Supervisory Board members. In addition, the Group Strategy Council, which is held at least once every three months, deliberates on important matters to be submitted to the Board of Directors, discusses and decides the execution policy of matters resolved at the Board of Directors meetings, and manages the progress of each group company's business plan each quarter. In addition, the Group Investment Committee is held as needed to objectively, rationally, and carefully deliberate on important investment projects and annual investment budgets, and the Group Governance Council is held at least once a year to build, maintain, and improve the governance system of the entire Company's group. In addition, the Group Governance Council comprises several expert committees specializing in risks, compliance, sustainability, and information security. The Board of Directors has established a system for preventing damage to corporate value by regularly receiving reports from each committee and providing directions as needed. All four committees are composed of directors, corporate officers, and staff in managerial or higher positions, with at least two female member participating in each committee.

As for the organization of audits by Audit & Supervisory Board members, three Audit & Supervisory Board members (one full-time Audit & Supervisory Board member and two external Audit & Supervisory Board members) constitute the Audit & Supervisory Board, which performs the duties stipulated in Article 390, Paragraph 2 of the Companies Act. The Audit & Supervisory Board regularly reviews the audit policy and audit plan, status of development and operation of the internal control system, appropriateness of the method and results of the audit by the accounting auditor, audit reports, and development of the audit environment. In fiscal 2023, the Audit & Supervisory Board met 13 times, with an attendance rate of 100% for all its

members, including external ones. The Audit & Supervisory Board strives to communicate with the representative directors and external directors by providing opportunities for dialogue on a regular basis, and receives reports from the accounting auditor on audit plans and audit reports, and requests explanations as necessary.

Audit & Supervisory Board members attend meetings of the Board of Directors and express their opinions as necessary from an objective standpoint. In addition, the Audit & Supervisory Board members exchange information with the Group Internal Inspection Office and the accounting auditor, receive investigation reports on the status of audits, and conduct their own investigations and prepare audit reports. In addition, the Company has appointed two substitute Audit & Supervisory Board members (one internal and one external) in case the number of Audit & Supervisory Board members stipulated by laws and regulations becomes vacant. The Company's Articles of Incorporation stipulate that the Company shall have no more than five Audit & Supervisory Board members.

The internal audit organization of the Company is the Group Internal Inspection Office under the direct control of the President and Representative Director, which is independent of the business execution divisions. The department conducts audits based on the audit plan and audits and evaluates the status of development and operation of the internal control system based on the "Cabinet Office Order on the System for Ensuring the Adequacy of Documents on Financial Calculation and Other Information." The Group Internal Inspection Section reports regularly to the President and Group COO and at least once a year directly to the Board of Directors on the results of audits and evaluations and other information useful for the Board of Directors' fulfillment of its oversight function. We therefore utilize the Group Internal Inspection Section to ensure the Board of Directors' appropriate execution of its oversight duties. The Group Internal Inspection Office has six members.

The Company will strive to demonstrate mobility by activating the Board of Directors, the Audit & Supervisory Board, the Group Strategy Council, and, as well as other various meeting bodies, etc., and will share information by operating joint meetings with subsidiaries of the Group.

The Company's accounting auditor is KPMG AZSA LLC. Accounting audits of our Company—Sawai Pharmaceutical Co. Ltd. before the establishment of Sawai Group Holdings Co., Ltd. and Sawai Group Holdings Co., Ltd. after its establishment—have been conducted during a period of 30 consecutive years. However, since it is extremely difficult to determine how many years audits had been conducted before the audit period stated in the securities registration statement that Sawai Pharmaceutical Co., Ltd. submitted at the same time as its listing, the actual continuous audit period may be longer than the time period. Two certified public accountants— Ms. Sakurako Otsuki and Mr. Satoshi Suzuki—both of whom are also KPMG AZSA LLC's designated partners with limited liability and managing partners, conducted the latest accounting audit of the Company. They were assisted by 11 certified public accountants and 25 other persons.

The Company's Audit & Supervisory Board members and the Audit & Supervisory Board evaluate the auditing firm, and the evaluation includes the quality control system of the auditing firm, professional ethics, independence and expertise as an accounting auditor, communication with Audit & Supervisory Board members, etc., and appropriateness of audit fees. The reason for the Company's selection of KPMG AZSA LLC as its accounting auditor is that the Company has comprehensively reviewed the size, experience and other aspects of KPMG AZSA LLC, including its ability to perform its duties, independence, and internal control system, and has determined that it is suitable for the position. In particular, the Audit & Supervisory Board believes that the accounting audits of the Company and its overseas consolidated subsidiaries will be effectively and efficiently conducted by the same auditing firm.

When the Audit & Supervisory Board determines that it is necessary to do so, such as when there is a hindrance to the performance of duties by the accounting auditor, the Audit & Supervisory Board decides the details of the proposal for dismissal or non-reappointment of the accounting auditor to be submitted to the General Meeting of Shareholders. In addition, if it is deemed that the accounting auditor falls under any of the items stipulated in Article 340, Paragraph 1 of the Companies Act, the accounting auditor shall be dismissed with the unanimous consent of the Audit & Supervisory Board members. In this case, the Audit & Supervisory Board member selected by the Audit & Supervisory Board shall report the dismissal of the accounting auditor and the reasons thereof at the first General Meeting of Shareholders to be convened after the dismissal.

In addition, the Audit & Supervisory Board, based on the "Practical Guidelines for Cooperation with Accounting Auditors" published by the Japan Audit & Supervisory Board members Association, has confirmed and reviewed the status of the implementation of the audit by the accounting auditor, the appropriateness of the audit plan and the estimated remuneration, and as a result, agrees to the amount of remuneration for the accounting auditor as stipulated in Article 399, Paragraph 1 of the Companies Act.

With respect to various issues related to corporate management and daily operations, the Company has a system in place whereby the Company receives various advice, etc., from attorneys and other experts as necessary and uses it as a reference in making management decisions, and consults with committees such as the Group Compliance Committee and the Internal Control Committee, depending on the nature of the issue. The committee is chaired by the Chief Compliance Officer, and the relevant directors and corporate officers are designated as committee members.

In addition, for the purpose of ensuring the appropriateness and efficiency of the Company's business operations as a Company's group, the Company ensures that all Group companies including SAWAI PHARMACEUTICAL thoroughly understand the corporate philosophy and management policies common to the Company's group, and provides guidance and advice in the execution of daily business operations. The Company's consolidated subsidiaries are subject to the necessary accounting audits by the Company's accounting auditor as well as periodic audits by the Group Internal Inspection Office. In addition, Audit & Supervisory Board members monitor the execution status of duties by directors in relation to the management of subsidiaries.

The Company, its external directors and Audit & Supervisory Board members have entered into an agreement to limit their liability for damages under Article 423, Paragraph 1 of the Companies Act. The maximum amount of liability for damages under

the said agreement is the amount stipulated by laws and regulations.

3. Reasons for Adoption of Current Corporate Governance System

We believe that the best way to pursue efficiency and legality in management is to have directors who are familiar with the ethical pharmaceutical industry, which is the core business of the Group, as well as with the internal affairs of the Company, engage in business operations with a high sense of ethics while paying close attention to various areas within the Company. The Company has adopted a company system with a Board of Audit & Supervisory Board members, which enables external directors and the Audit & Supervisory Board members to supervise the management of the Company, because the Company believes it is the most appropriate system in consideration of the Company's corporate scale and management approach.

We expect external directors and external Audit & Supervisory Board members to provide useful advice, judgment, auditing, and supervision from an independent, external standpoint based on their expertise and experience in law, taxation, accounting, medical & pharmaceutical science, and corporate management.

III. Implementation of Measures for Shareholders and Other Stakeholders

1. Measures to Vitalize the General Shareholder Meetings and Facilitate Exercise of Voting Rights

	Supplementary Explanation
Early Posting of Notice of the General Shareholders Meeting	The Notice of Convocation of the General Meeting of Shareholders held on June 25, 2024 was sent three business days earlier than the statutory deadline for sending the notice of convocation.
Scheduling of the General Shareholders Meeting During Non-Peak Days	We will avoid concentrated days.
Electronic Exercise of Voting Rights	The Company has enabled shareholders who do not attend the General Meeting of shareholders to exercise their voting rights by electromagnetic means. (Voting rights can be exercised via the Internet using smartphones and other devices.)
Participation in a Platform for the Electronic Exercise of Voting Rights and Other Initiatives to Enhance Environment for Institutional Investors to Exercise Voting Rights	The Company participates in and uses the platform for electronic exercise of voting rights for institutional investors and makes it possible for them to use the platform.
Provision of Notice (or Summary of Notice) of the General Shareholders Meeting in English	The Company provides the notice of convocation of the General Meeting of shareholders (summary) in English. https://www2.jpx.co.jp/disc/48870/140120240530514789.pdf
Other	The notice of convocation of the Ordinary General Meeting of Shareholders, the notice of resolutions, and the results of the exercise of voting rights are posted on website.

2. Status of IR-related Activities

	Supplementary Explanation	Explanation by a representative director or a representative executive officer
Formulation and Publication of Disclosure Policies	The Company posts it on its website. https://global.sawaigroup.holdings/ir/policy/ir	
Regular Investor Briefings held for Individual Investors	We will hold briefings for individual investors on a regular basis.	Not Held
Regular Investor Briefings held for Analysts and Institutional Investors	We will hold financial results briefings for analysts and institutional investors twice a year, once for the second quarter and once for the full year, as well as online conference for the first and third quarter results.	Held
Regular Investor Briefings held for Overseas Investors	In addition to participating in IR events held in Japan by securities companies or accepting press coverage, and holding large meetings, small meetings, and responding to individual interviews, the Company will conduct overseas IR on a regular basis.	Held
Online Disclosure of IR Information	We will post securities reports, financial statements and supplementary materials, integrated reports, shareholder newsletters, other IR presentation materials, press releases, and briefing videos.	
Establishment of Department and/or Placement of a Manager in Charge of IR	We have established the PR & IR Group.	
Other	—	

3. Status of Measures to Ensure Due Respect for Stakeholders

	Supplementary Explanation
Establishment of Internal Rules Stipulating Respect for the Position of Stakeholders	We have established "Code of Conduct" for each stakeholder based on our Corporate Philosophy. We strive to instill our Corporate Philosophy and Code of Conduct to meet the expectations and trust of our stakeholders. https://global.sawaigroup.holdings/about/philosophy
Implementation of Environmental Preservation Activities and CSR Activities, etc.	In order to prevent global warming, we will implement the Cool Biz and Warm Biz programs, introduce hybrid cars to our sales fleet, change the temperature setting of air conditioners (28 degrees Celsius in summer and 20 degrees Celsius in winter), reduce and turn off lights, introduce LED lighting, and take other energy-saving measures. In addition, we will regularly conduct cleanup activities around our business sites to beautify the local environment. We will also participate in the protection activities (extermination of non-native fish and cleanup of riverbeds) for the Acheilognathus longipinnis (deep body bitterling), which is designated as a national natural treasure and is an endangered species, in order to preserve

	<p>biodiversity.</p> <p>We have established the Group Sustainability Committee to strengthen our ESG initiatives.</p>
Formulation of Policies, etc. on Provision of Information to Stakeholders	<p>We will establish policies for the provision of information in our Disclosure Policy.</p> <p>https://global.sawaiigroup.holdings/ir/policy/ir</p> <p>In addition, the Code of Conduct stipulates that we will strive for constructive dialogue and collaboration with our stakeholders, including timely and appropriate disclosure of financial and non-financial information and environmental communication.</p> <p>Please refer to our corporate website for ESG and sustainability information, including information about the Company's policies on human rights and human resource development.</p> <p>https://global.sawaiigroup.holdings/sustainability/human</p>
Other	<p>(Factory tour)</p> <p>As part of our activities to contribute to the local community, we hold factory tours for groups such as students, residents' associations, PTAs, and medical institutions to show the manufacturing process of high-quality generic drugs produced by SAWAI PHARMACEUTICAL, the core company of the Group.</p> <p>(Current status regarding the appointment of women as directors)</p> <p>Ms. Nawomi Todo, an external director, is a woman. The gender composition of officers (directors and Audit & Supervisory Board members) is 7 males and 1 female (12.5% of officers are female).</p>

IV. Matters Concerning the Internal Control System

1. Basic Views on Internal Control System and Status of Development

<p>The Company has adopted a resolution at the Board of Directors meeting regarding the "Systems for Ensuring the Appropriateness of Business Activities" as stipulated in the Companies Act and the Enforcement Regulations of the Companies Act. The outline is as follows.</p> <p>In order to achieve sustainable growth and increase corporate value over the medium to long term, the Company will build a management system that enables decision-making and business execution that responds appropriately and promptly to changes in the external environment. In addition, in order to realize fair and highly transparent management, we will position the enhancement of corporate governance as one of the important management issues, and promote corporate activities based on the Code of Conduct and various internal regulations that we should follow for various stakeholders based on our Corporate Philosophy of "Always putting healthier lives first."</p> <p>1. Systems to ensure that the execution of duties by directors and employees complies with laws and regulations and the Articles of Incorporation</p> <p>i) All officers and employees shall strive to conduct business operations based on the "Group Corporate Philosophy" and the "Group Code of Conduct," and shall ensure compliance with laws, regulations and internal rules.</p> <p>ii) The Company shall establish the Nomination, Remuneration and Other Governance Committee to deliberate on important governance matters, including the selection and dismissal of top management members, remuneration, and succession plans and advise and make recommendations to the Board of Directors, thereby enhancing the independence, objectivity and transparency of its functions and strengthening accountability.</p> <p>iii) The Company shall establish the Group Compliance Committee, which shall conduct education and enlightenment activities, etc., for officers and employees and strive to raise awareness of compliance throughout the Group.</p> <p>iv) The Company shall ensure that the "Regulations on Corporate Ethics Helpline" are well known and properly applied, and strive to prevent, detect at an early stage, correct, and prevent the recurrence of misconduct caused by violations of laws and regulations.</p> <p>v) The Group Internal Inspection Office, which reports directly to the President, shall conduct internal audits. The Audit & Supervisory Board members shall also audit the execution of duties by the directors.</p> <p>vi) The Company shall strive for the timely and appropriate disclosure of consistent and reliable corporate information, both</p>
--

internally and externally.

2. Systems for the storage and management of information related to the execution of duties by directors
 - i) In accordance with the "Regulations on Document Management," the Company shall properly preserve documents required to be preserved by laws and regulations, minutes of important meetings, approval documents for important matters, important contracts, and other information (including electromagnetic records) related to the execution of duties by directors that should be preserved under the regulations, in accordance with the prescribed preservation period.
 - ii) The Company shall take all possible measures to manage important facts and important information obtained in the course of duties in accordance with the "Regulations on Insider Trading Management" and the "Regulations on Information Security Management," and shall strive to protect specified personal information and personal information in accordance with the "Regulations on Specified Personal Information Protection" and the "Regulations on Personal Information Protection."
 - iii) The Company shall establish a Group Information Security Committee, which will conduct risk analysis based on the threat to or vulnerability of its information assets, implement countermeasures, monitor the progress, and make improvements to ensure the efficient performance of information security management throughout the group.
3. Regulations and other systems for managing the risk of loss
 - i) The Group Risk Management Committee shall be established to oversee risk management, manage and evaluate its progress, and make continuous improvements. In addition, the Company shall identify risks that may have an impact on management and identify important risks, and each department in charge shall take measures against each important risk.
 - ii) To protect the quality and safety of Sawai Group products and services, each Group company shall operate effectively and appropriately in compliance with the Group Quality Policy and the Group Safety Policy.
 - iii) With regard to the management of risks related to emergencies, the Company shall strive to minimize damage and quickly recover business activities in the event of a crisis, based on the Regulations on Crisis Management and the Disaster BCP (Business Continuity Plan).
 - iv) With respect to risks related to financial reporting, the Internal Control Committee shall raise issues and determine policies, and shall oversee the development and operation of internal controls for each division process owner, while the Group Internal Inspection Office shall evaluate such risks.
 - v) In addition to ensuring fair and honest business operations and the elimination of unclear transactions, the Company shall take a resolute stance against antisocial forces and groups that threaten the order and safety of civil society, in cooperation with the police and other relevant administrative agencies and legal advisors.
4. Systems to ensure efficient execution of duties by directors
 - i) The Company shall introduce a corporate officer system in order to separate the management decision-making function from the business execution function and to accelerate and streamline decision-making.
 - ii) The Board of Directors shall, in principle, be held once a month, or on an extraordinary basis as necessary, to make decisions on matters stipulated in laws and regulations and the Articles of Incorporation, as well as on important management matters, and to supervise the execution of business. In addition, the Group Strategy Council shall be held at least once every three months to deliberate on execution policies concerning important matters.
 - iii) Each department and Group company shall formulate its business plan based on the Group's mid-term business plan, and the progress of these plans shall be managed by the Group Strategy Council, which is composed mainly of directors and corporate officers of the Company.
 - iv) The Company shall clarify authority and responsibility by establishing the "Regulations on Division of Duties" and the "Regulations on Administrative Authorities," and shall clarify and expedite the decision-making process by adopting the approval system.
 - v) With respect to various management issues, the Company shall receive various advice from attorneys and other experts as necessary and use it as a reference in making management decisions.
5. Systems to ensure the appropriateness of business operations in the Group (corporate group consisting of the Company and its subsidiaries)
 - i) The Company shall establish a Group Sustainability Committee, which will submit proposals or reports on initiatives to address sustainability issues to the Group Governance Council or the Board of Directors while deliberating and reporting in response to sustainability-related inquiries made by the Group Governance Council or the Board of Directors.
 - ii) To ensure the appropriateness of business operations of the Group while respecting the autonomous and responsible management of subsidiaries, the Company shall ensure that each Group company is thoroughly informed of the Company's "Group Corporate Philosophy" and "Group Code of Conduct." In addition, in accordance with the "Regulations on Group Policy Management," the Company shall strive to develop and operate Group policies that indicate the basic spirit and stance to be complied with, and to foster a sense of unity within the Group.
 - iii) With respect to the business management of subsidiaries, the Company shall receive necessary reports from subsidiaries on a regular and timely basis in accordance with the "Regulations on Affiliated Company Management," ascertain their actual business conditions, and provide necessary advice and guidance.
 - iv) The Group Internal Inspection Office shall conduct audits of subsidiaries on a regular basis.
 - v) The Audit & Supervisory Board members shall endeavor to collect information on subsidiaries and monitor the execution of duties by directors in relation to the management of subsidiaries.
6. Matters concerning employees to assist the Audit & Supervisory Board members in their duties, matters concerning the independence of such employees from the directors, and matters related to ensuring the effectiveness of instructions to such

employees

- i) In the event that the Audit & Supervisory Board members request auxiliary employees to assist them, members of the Group Internal Inspection Office shall concurrently serve as such employees.
 - ii) The duties of auxiliary employees, as instructed by the Audit & Supervisory Board members, shall be independent of the chain of command and order of directors and under the control of the Audit & Supervisory Board members. Any personnel transfers regarding such auxiliary employees shall be made with the consent of the Audit & Supervisory Board members.
 - iii) In cases where it is deemed that the necessary authority of the Audit & Supervisory Board members to direct and order auxiliary employees is unreasonably restricted, the Audit & Supervisory Board members shall make the necessary request to the Board of Directors.
7. Systems for reporting to Audit & Supervisory Board members by directors and employees of the Company and its subsidiaries, and other systems for reporting to Audit & Supervisory Board members, and systems to ensure that directors and employees are not treated unfavorably due to reporting
- i) Audit & Supervisory Board members shall attend important meetings of the Board of Directors and other important meetings in order to ascertain the process of important decision-making and the status of business execution.
 - ii) Audit & Supervisory Board members may inspect important documents related to the execution of business and may request explanations from the officers and employees of the Company's Group as necessary.
 - iii) If any director discovers any fact that may cause significant damage to the Company, he or she shall immediately report such fact to the Audit & Supervisory Board members.
 - iv) Any report of misconduct by a director shall be made by an officer or employee of the Company's group to the Audit & Supervisory Board members, and the informant shall not be treated disadvantageously.
8. Other systems to ensure that audits by Audit & Supervisory Board members are conducted effectively
- i) The Group Internal Inspection Office shall maintain close cooperation with the Audit & Supervisory Board members in order to contribute to efficient audits by the Audit & Supervisory Board members, such as by reporting the plans and results of internal audits to the Audit & Supervisory Board members in a timely manner.
 - ii) Audit & Supervisory Board members shall strive to understand the auditing activities of the accounting auditor and exchange information through regular meetings, etc. as well as to improve the efficiency and quality of auditing activities.
 - iii) The Audit & Supervisory Board members shall meet regularly with the Representative Director to exchange opinions and shall exchange information and share recognition with the external directors. They shall also strive to deepen mutual recognition and trust between the Representative Directors and external directors.
 - iv) The Audit & Supervisory Board members shall maintain close cooperation with the Audit & Supervisory Board members of the Group companies, including mutual exchange of information.
 - v) The Company shall pay promptly upon request any expenses deemed necessary by the Audit & Supervisory Members in the performance of their duties.

The operation of our internal control system in fiscal 2023 is outlined as follows:

1. The Group Governance Council met at the end of the fiscal year to confirm and deliberate on the group's Basic Policy for Ensuring the Appropriateness of Business Activities and other basic policies on governance and the status of their implementation in the fiscal year. The council also submitted reports and proposals to the Board of Directors.
2. In addition to the regular meetings four times a year, the Group Compliance Committee has met monthly since November 2023 as part of SAWAI PHARMACEUTICAL's corporate culture reform project. In addition, the Group Compliance Committee conducted induction training and various awareness-raising activities intended for executives and employees to instill in them a heightened awareness of compliance and corporate ethics. In particular, the committee held nine e-learning training sessions (including five on the Pharmaceuticals and Medical Devices Act, GMP, and GQP) for all employees.
3. The Group Risk Management Committee met twice a year (in July and December) to identify risks that may affect management and other significant risks. In July, the committee held a training session on risk management in the event of an emergency in Taiwan with an external lecturer. In December, the committee had SAWAI PHARMACEUTICAL's Research and Development Division hold a training session on risks related to the effectiveness of the bioequivalence test.
4. The Group Information Security Committee met three times. It also held two e-learning sessions for overall employee education, two drills in anticipation of targeted email attacks with full participation, and lectures on cybercrime countermeasures given by external instructors for the education of employees in charge. In addition, the committee had an external organization conduct an information security assessment. Furthermore, the Group IT Department is in the process of responding to an examination for the renewal of ISMS certification as objective proof that information security management and measures are properly implemented.
5. The Group Sustainability Committee met four times to discuss materiality, the TCFD recommendations and the targets for the next mid-term business plan. The committee also provided directions and support for sustainability initiatives implemented by the Global Environment Team, Social Contribution Team, and Governance Team. In addition, the committee reported on the status of its activities and proposals to the Board of Directors.
6. The committee has been reintroducing our employees to and providing retraining on quality- and safety-related operations in

accordance with the "Group Quality Policy" and the "Group Safety Policy." As measures to prevent the recurrence of the inappropriate stability monitoring test of Teprenone capsules 50mg "SAWAI," not only the executives and employees of SAWAI PHARMACEUTICAL but also those of the Group have been working together in accordance with the "Measures to prevent recurrence" announced by SAWAI PHARMACEUTICAL on October 23, 2023, and the improvement plan formulated in response to the business improvement order.

7. Based on the Crisis Management Regulations and Disaster BCPs, we have conducted drills designed for employees to learn how to act in the event of a disaster, including how to confirm whether or not other employees are safe. We have also stockpiled emergency supplies at all our business sites and have replaced old supplies with new ones. In addition, when The 2024 Noto Peninsula Earthquake occurred on January 1, 2024, we confirmed the safety of our employees with a safety confirmation system as well as the damage to Trust Pharmatech, our Group company, and responded appropriately.
8. In consideration of the importance of the impact of internal control on the reliability of financial reporting, we evaluated the Group's internal controls based on an implementation plan we have formulated. In addition, the Internal Control Committee met twice to maintain and improve the level of internal controls.
9. The Board of Directors met 14 times to determine matters stipulated by laws, regulations, and the Articles of Incorporation, as well as important management-related matters, and to deliberate on those matters from the perspective of compliance with laws and regulations and the appropriateness of business operations. In addition, the Group Strategy Council examined important matters to be proposed for discussions to the Board of Directors, as well as analyzing monthly operating results and devising necessary improvement measures.
10. The Nomination, Remuneration and Other Governance Committee met seven times to discuss matters related to the election and dismissal of directors and remuneration for senior management and corporate officers and to provide advice and recommendations to the Board of Directors.
11. We held meetings with Group companies to ensure their full awareness of our Corporate Philosophy, Code of Conduct, and management policies. In fiscal 2023, we established the Sawai Group Tax Policy.
12. The Audit & Supervisory Board members attended important meetings, met with the accounting auditors on a regular basis, collaborated with the Group Internal Inspection Office, and periodically exchanged information with the representative directors and external directors. The Audit & Supervisory Board met 13 times to decide on audit policies and plans and discuss the improvement and operation of the internal control system.
13. In revising the "Group Code of Conduct," the authority to review the Code was shifted to the Group Strategy Council from the President to reflect broader consideration and deliberation.

2. Basic Views on Measures for Eliminating Anti-Social Forces and Status of Development

(Concept)

We will take a resolute stance against antisocial forces and groups that threaten the order and safety of civil society, in cooperation with the police, other relevant administrative agencies, and attorneys, while ensuring fair and honest business operations and the elimination of questionable transactions.

(Status of system development)

We have established a system to respond to unreasonable demands from antisocial forces by stipulating our approach to the elimination of antisocial forces in our Code of Conduct. The Company also explains its stance to its business partners and requests them to issue a "Memorandum of Understanding for the Elimination of Antisocial Forces" at the time of contract signing or renewal to prevent the Company from transacting with antisocial forces and groups.

In addition, the Company makes efforts to defend itself against antisocial forces by participating in the activities of the Corporate Defense Council and conducting in-house training.

V. Other

1. Adoption of Anti-Takeover Measures

Adoption of Anti-Takeover Measures	Not Adopted
------------------------------------	-------------

Supplementary Explanation for Applicable Items

Basic policies regarding persons who control determination of the financial and business policies of the Company

(Basic Policy)

The Company believes that the persons who control determination on the Company's financial and business policies must understand the source of the Company's corporate value and enable the Company to continuously secure and improve its corporate value and, in turn, the common interests of its shareholders.

Since its establishment in 1948, SAWAI PHARMACEUTICAL, the predecessor of the Company and the core company of the Group, has promoted the pharmaceutical business based on the corporate philosophy of "Always putting patients first," and we have been fulfilling our social responsibility as a generic drug manufacturer by continuing to manufacture and sell economical, high-quality pharmaceutical products to meet the expectations of people who seek to live a healthy life. We believe the source of our corporate value is the management know-how we have accumulated for years in the three most important elements of the Group's core business of generic drug manufacturing and sales: "quality," "stable supply," and "information provision." We strive to further enhance our corporate value by utilizing our know-how. We also strive to engage in constructive dialogue with investors and shareholders to ensure that they are reflected in appropriate assessments.

The Company does not generally reject large-scale purchases of the Company's shares, etc., as long as they contribute to the corporate value of the Company and the common interests of its shareholders. In addition, we believe that decisions on takeover bids that involve the transfer of control of a stock company should ultimately be made based on the will of the shareholders as a whole.

However, the Company believes that many cases are not considered to contribute to the corporate value of the target company and the common interests of shareholders, such as those that may cause obvious infringements of corporate value and the common interests of shareholders in terms of their purpose, etc., may effectively force shareholders to sell their shares, those that do not provide sufficient time or information for the target company's board of directors and shareholders to consider countermeasures for the large-scale acquisition of shares or for the target company's board of directors to propose an alternative plan, those that require the target company to negotiate with the acquirer to obtain more favorable terms than those proposed by the acquirer, and those in which the acquirer obtains benefits through the acquisition that should not be enjoyed by rights by the acquirer. Unless the acquirer of our company's shares understands the above-mentioned sources of corporate value and is able to secure and improve them over the medium to long term, our company's corporate value and, in turn, the common interests of our shareholders will be damaged.

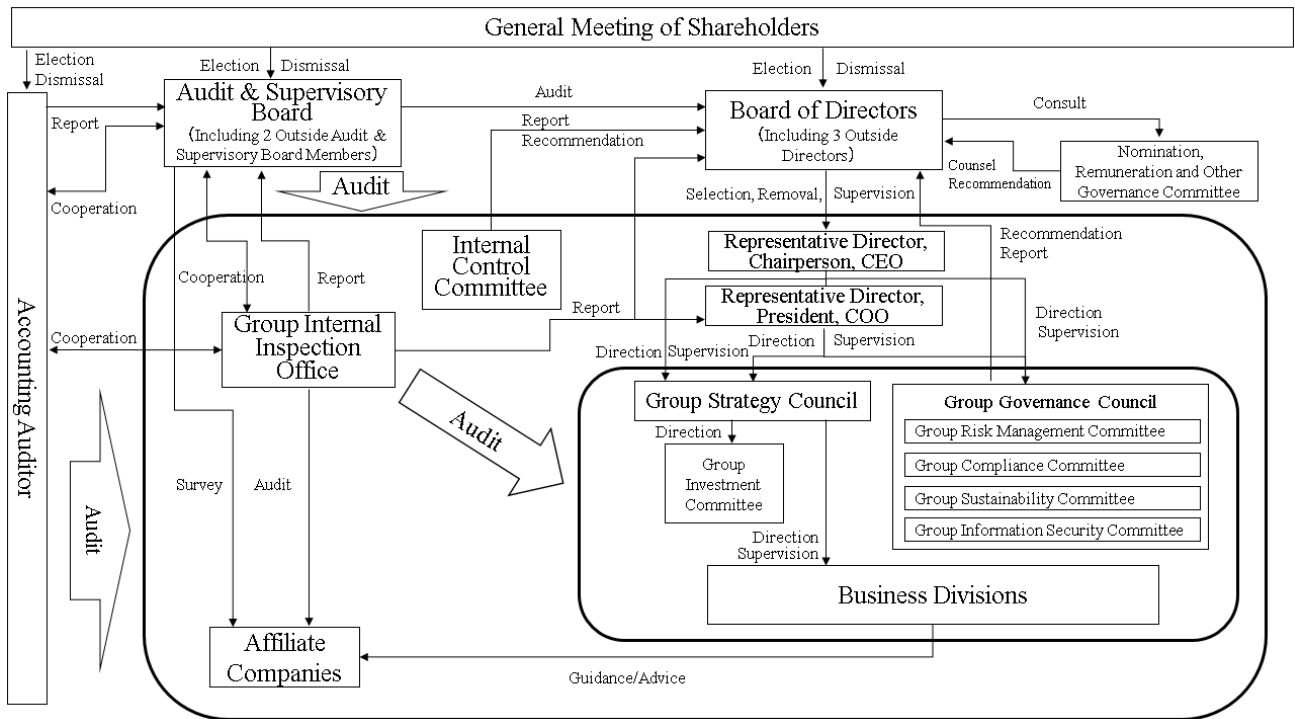

In the event that a party intends to conduct a large-scale purchase of the Company's shares, the Company will proactively request information from the party and promptly disclose the opinion and the reasoning of the Company following the sincere consideration made at the Board of Directors under the active involvement of independent external directors, thereby ensuring transparency so that the shareholders can make an appropriate decision to maximize their common interests. To this end, the Company takes appropriate measures to the extent permitted by the Companies Act and other applicable laws and regulations as necessary.

2. Other Matters Concerning the Corporate Governance System

The Company will maintain cooperation among the Board of Audit & Supervisory Board members, the accounting auditor, and the Group Internal Inspection Office, and will work to improve audit quality by enhancing IT-related, account settlement and financial-related expertise and audit skills. In addition, the Company has adopted the following timely disclosure system.

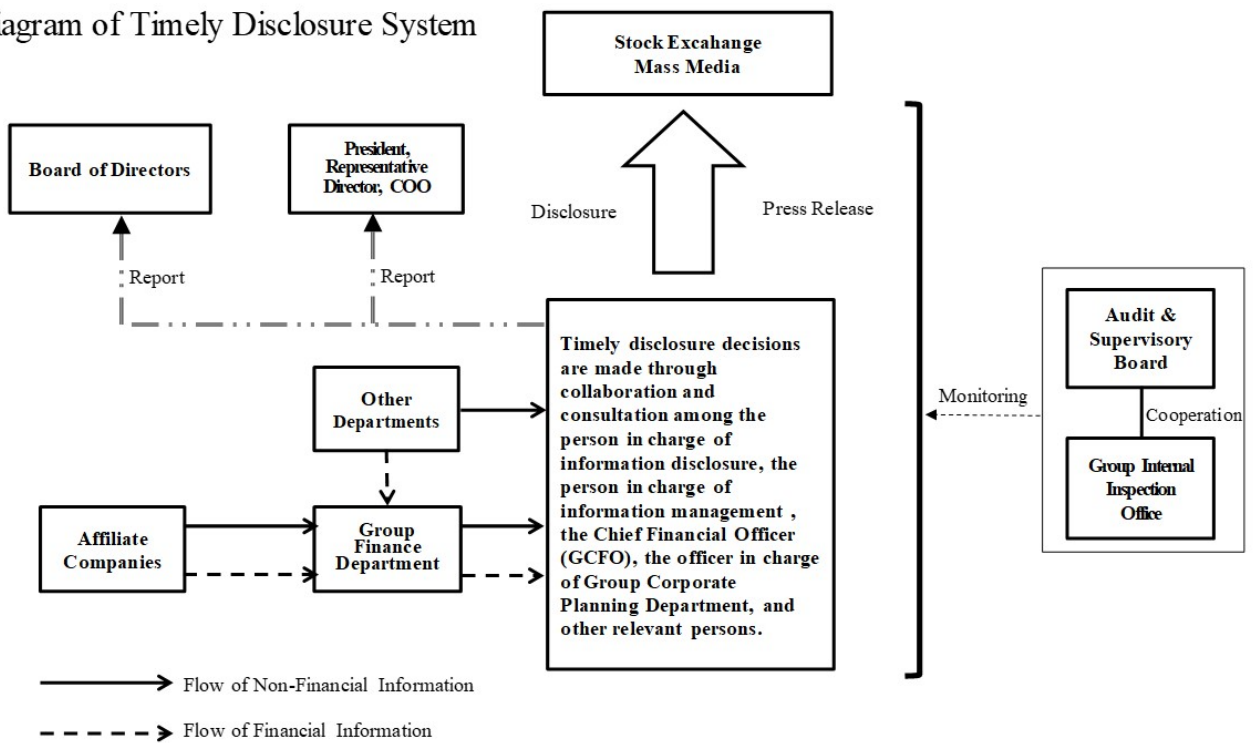

- Appointment of the person responsible for information disclosure and the person in charge
- Establishment of a department in charge of information disclosure (Corporate Communication Department)
- Formulation of and compliance with disclosure policy
- Development and enhancement of regulations on information security management, insider trading management, etc.
- Improvement and enhancement of channels for communicating material information to the person responsible for disclosure
- Consolidation of the determination and disclosure of material information
- Establishment of an appropriate checking and approval system for disclosure materials
- Proactive involvement of the President and Representative Director as the top management in information disclosure
- Establishment of a monitoring system by Audit & Supervisory Board members and the Internal Inspection Office for the timely disclosure system
