## Description of Operating Results

### 1. Operating Results and Financial Positions for the Fiscal Year Ended March 31, 2025

#### (1) Operating Results and Financial State for the Fiscal Year Ended March 31, 2025

Looking at the Nintendo Switch business for the full fiscal year (April 2024 through March 2025), sales of titles released during this fiscal year grew steadily, with *Super Mario Party Jamboree* selling 7.48 million units, *The Legend of Zelda: Echoes of Wisdom* selling 4.09 million units, and *Paper Mario: The Thousand-Year Door* selling 2.10 million units. In addition, we saw stable sales in titles released through the end of the previous fiscal year, with *Mario Kart 8 Deluxe* selling 6.23 million units (for cumulative sales of 68.20 million units). As a result of these factors, the total number of million-seller titles during this fiscal year reached 24, including titles from other software publishers. Hardware sales totaled 10.80 million units (a decrease of 31.2% year-on-year), and software sales totaled 155.41 million units (a decrease of 22.2% year-on-year).

Sales of both hardware and software declined compared to the previous fiscal year, when sales were substantially driven by *The Legend of Zelda: Tears of the Kingdom* (released in May 2023) and *Super Mario Bros. Wonder* (released in October 2023). Even so, sales were steady for a platform that has entered its ninth year.

Turning to our digital business for our dedicated video game platform, digital sales totaled 326.0 billion yen, down 26.5% year-on-year, mainly due to a decrease in sales of Nintendo Switch downloadable versions of packaged software.

In the mobile and IP related business, sales of this fiscal year declined 27.0% year-on-year to 67.6 billion yen, due to a decrease in the revenue related to *The Super Mario Bros. Movie*, which was released in April 2023.

The end result is that overall sales totaled 1,164.9 billion yen, with sales outside of Japan of 890.0 billion yen accounting for 76.4% of the total, and operating profit came to 282.5 billion yen. Interest income of 56.1 billion yen and other factors resulted in ordinary profit of 372.3 billion yen and profit attributable to owners of parent of 278.8 billion yen for the period.

#### (2) Financial positions as of March 31, 2025

Total assets increased by 247.1 billion yen compared to the prior fiscal year-end to 3,398.5 billion yen mainly due to an increase in cash and deposits and inventories, despite a decrease in securities. Total liabilities increased by 126.6 billion yen compared to the prior fiscal year-end to 673.0 billion yen mainly due to an increase in notes and accounts payable-trade, despite a decrease in income taxes payable. Net assets increased by 120.4 billion yen compared to the prior fiscal year-end to 2,725.4 billion yen mainly due to an increase in retained earnings.

#### (3) Cash flows for the fiscal year ended March 31, 2025

The ending balance of “Cash and cash equivalents” (collectively, “Cash”) as of March 31, 2025 was 1,414.1 billion yen, with an increase of 560.6 billion yen during the fiscal year. During the prior fiscal year, there was a decrease of 341.1 billion yen. Net increase (decrease) of Cash and contributing factors during the fiscal year ended March 31, 2025 are as follows:

##### Net cash provided by (used in) operating activities:

There were decreasing factors contributing to 372.3 billion yen of profit before income taxes such as increase in inventories and payment of income taxes. However, due to increasing factors such as interest and dividends receive, net cash resulted in an increase of 12.0 billion yen compared to an increase of 462.0 billion yen during the prior year.

##### Net cash provided by (used in) investing activities:

Net cash from investing activities increased by 753.0 billion yen compared to a decrease of 630.6 billion yen during the prior year mainly due to proceeds from sales and redemption of short-term and long-term investment securities and withdrawal of time deposits, being higher than purchase of short-term and long-term investment securities and payments into time deposits.

##### Net cash provided by (used in) financing activities:

Net cash from financing activities decreased by 195.1 billion yen compared to a decrease of 236.9 billion yen during the prior year mainly due to payments of cash dividends.

## 2. Outlook for the Fiscal Year Ending March 31, 2026

Our new game system, Nintendo Switch 2, will be released on June 5, 2025. Nintendo Switch 2 is the successor to Nintendo Switch and features a larger, more responsive screen providing players with a smoother gameplay experience, new magnetic Joy-Con controllers, and more powerful processing speed and graphics performance that open the door to new ways to play. For software, we plan to release *Mario Kart World* and *Nintendo Switch 2 Welcome Tour* at the same time as the hardware launch, as well as *The Legend of Zelda: Breath of the Wild – Nintendo Switch 2 Edition* and *The Legend of Zelda: Tears of the Kingdom – Nintendo Switch 2 Edition*, which enhance the original games. Other software publishers also plan to release a wide variety of titles. We aim to accelerate the platform by working to expand hardware and software sales through conveying the unique appeal of Nintendo Switch 2 and continuously releasing new titles. With Nintendo Switch 2, users can experience exclusive games as well as compatible games from Nintendo Switch.

For Nintendo Switch, we plan to release *Pokémon Legends: Z-A* in late 2025, and *Metroid Prime 4: Beyond* during 2025. Other software publishers are also planning to release many new titles. Nintendo Switch is enjoyed by many people around the world, and we will strive to maintain engagement by introducing new titles in addition to the existing titles.

Our financial forecast for the next fiscal year is sales of 1,900.0 billion yen, operating profit of 320.0 billion yen, ordinary profit of 380.0 billion yen, and profit attributable to owners of parent of 300.0 billion yen. Assumed exchange rates for the major currencies are 140 yen per U.S. dollar, and 155 yen per euro.

The unit sales forecasts for key products on which these calculations are based can be found on our website in Financial Results Explanatory Material – Fiscal Year Ended March 2025. (<https://www.nintendo.co.jp/ir/en/events/index.html>)

For the purposes of our financial forecast for the next fiscal year, U.S. tariff rates effective on April 10, 2025, U.S. Eastern Time, are maintained throughout the fiscal year. Changes to tariff rates may affect our financial forecast. We will continue to monitor the situation to respond to changes in market conditions.

[Note] Appropriate Use of Earnings Forecasts

Forecasts announced by the Company referred to above were prepared based on management's assumptions with information available at this time and therefore involve known and unknown risks and uncertainties such as fluctuation in foreign exchange rates and other changes in the market environment. Please note such risks and uncertainties may cause the actual results (earnings, dividend, and other results) to be materially different from the forecasts.

## 3. Basic Policy of Profit Distribution and Dividends

It is the Company's basic policy to internally provide the capital necessary to fund future growth, including capital investments, and to maintain a strong and liquid financial position in preparation for changes in the business environment and intensified competition. As for direct profit returns to our shareholders, dividends are paid based on profit levels achieved in each fiscal period.

The annual dividend per share is established at the higher of the amount calculated by dividing 33% of consolidated operating profit for the fiscal year by the total number of outstanding shares, excluding treasury shares, as of the end of the fiscal year rounded up to the 1 yen digit, or the amount calculated based on the 50% consolidated payout ratio rounded up to the 1 yen digit.

The interim (at the end of 2nd quarter) dividend per share is calculated by dividing 33% of consolidated operating profit of the six-month period by the total number of outstanding shares, excluding treasury shares, as of the end of the six-month period rounded up to the 1 yen digit.

As a result, the dividend for the fiscal year ended March 31, 2025 has been established at 120 yen (interim: 35 yen, year-end: 85 yen) and dividend for the fiscal year ending March 31, 2026 would be established at 129 yen if earnings are in line with the financial forecast herein. The end of 2nd quarter dividends are yet to be determined as there are no interim financial forecasts, but there are no changes to our dividend policy.

Retained earnings are maintained for effective use in research of new technology and development of new products and services, capital investments and securing materials, enhancement of selling power including advertisements, strengthening of network infrastructure, and treasury share buyback whenever deemed appropriate.

## Basic Policy on the Selection of Accounting Standards

In light of the comparability of consolidated financial statements over different fiscal years, Nintendo has a policy of preparing its consolidated financial statements in accordance with accounting principles generally accepted in Japan, which has been designed for convergence with International Financial Reporting Standards (IFRS), for the time being. Taking into account the possible adoption of IFRS in the future, Nintendo continues to collect information and conduct various studies, participating in seminars hosted by external organizations.
