Difference (%)	9.7%	9.1%	1,325.2%	127.1%	176.8%

2. Reasons for Differences

(Differences between non-consolidated financial results for the fiscal year ended March 31, 2025 and the financial results of the previous fiscal year)

All segments performed well due to the moderate recovery across industries. In particular, sales of formulated epoxy resins for AI server semiconductors increased, leading to a rise in gross profit.

Operating profit and below also saw significant gains, not only due to the increase in gross profit but also from the recognition of ¥3.5 billion in actuarial differences related to retirement benefits, resulting in a substantial increase in profit compared to the previous fiscal year.
