The corporate governance of Teijin Limited (the “Company”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

The shareholders entrust capital into the Company and thus, the Company is required to achieve profits through its business activities and to ultimately increase shareholder value over the medium and long-term. It is the basic mission of the Company to comply with such shareholders’ entrustment. Based on this basic mission, the Company must fulfill its respective responsibilities to its stakeholders (interested parties), such as employees, business partners, customers, consumers, local residents and communities, etc. In the meantime, the Company as a member of society is expected to perform business activities in full observance of social norms and contribute to society.

Amid this basic framework, we work to conduct superior corporate activities through corporate management that embraces corporate governance. By emphasizing corporate governance, we aim to contribute to the company’s prosperity, fulfill our corporate social responsibility ("CSR") and ensure accountability (full disclosure of information that we are responsible for explaining).

The Company implements a management structure that ensures transparency and fairness based on the beliefs stated above and will disclose information on a timely basis. In addition, to boost competitiveness, the Company must create an organization and mechanism that enables it to make speedy decisions and to execute those decisions. Furthermore, the Company requests each of the Group Companies and the Managers to conduct superior business activities as well as to promote with every effort the increase in the shareholder value.

The Teijin Group has formulated the Teijin Group “Corporate Governance Guide,” which is the Group’s basic view and basic policy on corporate governance. The Guide is published on the Company’s website <https://www.teijin.com/ir/governance/guide/>

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

The Company complies with all of the principles provided for in the Corporate Governance Code.

[Disclosure Based on the Principles of the Corporate Governance Code] (Updated)

Principle 1.4 Cross-Shareholdings

<Basic Policy Concerning Cross-Shareholdings>

The Company holds shares of issuing companies that it has determined to be instrumental in increasing its corporate value over the medium to long term, with the objective of maintaining and strengthening transactions with them and promoting business alliances with them. The Board of Directors reviews matters such as whether the holding purpose is appropriate, and whether the benefits and risks from each holding covers the Company's cost of capital each year. Those shares for which the purpose of holding has diminished are liquidated, in principal. Through this process, the Company endeavors to reduce cross-shareholdings.

<Standards for Exercise of Voting Rights Related to Cross-Shareholdings>

In exercising the voting rights related to shares that the Company has decided to hold, the Company confirms each proposal from the perspective of increasing corporate value of the Company and the shareholder value of each investee company over the medium to long term. Based on this perspective, the Company determines whether to vote for or against each proposal.

Principle 1.7 Related Party Transactions

The Company requires directors' transactions with competitors or transactions between directors' and the Company that cause a conflict of interest to be reported to and approved by the Board of Directors. Furthermore, all directors and statutory auditors are subject to an investigation into related-party transactions at the end of each period, in order to confirm periodically the existence of such transactions.

Principle 2.6 Roles of Corporate Pension Funds as Asset Owners

Since October 2012, the Company has fully transitioned to a defined contribution pension plan. The Company applies a defined benefit pension plan (a closed plan comprised solely of beneficiaries) limited to employees who had retired before the Company transitioned to the defined contribution pension plan.

The Company has set up a Group Pension Asset Management and Administration Committee comprising the Chief Financial Officer (CFO) and the Chief Human Resources Officer; the general managers of human resources, general affairs, accounting and finance functions; and labor union executives as representatives of pension plan beneficiaries. The Committee undertakes appropriate management and administration of assets held, as well as monitoring the status of employees' asset management in the defined contribution pension plan.

(iii) Policy and procedure pertaining to the setting of remuneration for Senior Management and directors
The performance-based remuneration system is applied for the inside directors. The amount for Director's remuneration is determined based on information from each fiscal year such as the degree to which the Company's ROE (Return on Equity; ratio of consolidated net income to equity) targets are achieved, the degree to which budget targets are achieved with regards to consolidated EBITDA and ROIC based on consolidated operating income, and individual director's performance evaluation. Furthermore, the remuneration system is deliberated by the Advisory Board, which provides advice before the system is decided by the Board of Directors. The Advisory Board also evaluates the CEO and deliberates on the specific amount of remuneration for the CEO, which is then decided by the Board of Directors.

In addition to the Advisory Board, the Company manages the Compensation Advisory Committee, and the committee has a function to make proposals and recommendations to the Board of Directors with respect to the evaluation and amount of compensation of Directors and the Senior Management other than the Chairman and CEO.

The Company resolves upon proposals on the nomination of directors and statutory auditors in meetings of the Board of Directors based on deliberations in the Nomination Advisory Committee. The Company resolves upon proposals on the nomination of statutory auditors with the consent of Board of Statutory Auditors in meetings of the Board of Directors, based on deliberations in the Nomination Advisory Committee.

(v) Reasons for the nomination and election of each candidate for Senior Management, director, and statutory auditor

The reasons for deciding on each candidate director and statutory auditor, and other information, are provided in the Reference Documents for the General Meeting of Shareholders in the Notice of Convocation of the Ordinary General Meeting of Shareholders.

Supplementary Principle 4.1.1 Scope of Authority Delegated to Management

Matters to be decided by the Board of Directors include matters required by laws and regulations, as well as matters stipulated by Regulations for the Board of Directors, which are internal rules, based on the level of importance to management, such as the Teijin Group's overall management policies and overall plan.

Authority to make decisions on matters other than these is delegated to the CEO and subordinate ranks.

Principle 4.8 Effective Use of Independent Directors

In composing the Board of Directors, the Company's policy is to have not more than ten directors, and in principle four and more of them are to be independent outside directors.

Principle 4.9 Independence Standards and Qualification for Independent Directors

The Company sets out the requirements for independence in the Independent Directors Regulations and elects independent directors who meet these requirements.

For further details, please see "II 1. Organizational Composition and Operation [Independent Directors /Statutory Auditors]" in this report.

Supplementary Principle 4.11.1 Views Regarding the Overall Size, Diversity, and Balance of Knowledge, Experience, and Capabilities of the Board of Directors, and Policy and Procedures Pertaining to the Election of Directors

The inside directors are to have outstanding capacity and insight, and director candidates including outside directors are nominated in consideration of the balance of knowledge, experience, and capabilities, as well as consideration of the overall diversity of the Board of Directors.

https://www.teijin.com/ir/stocks/pdf/gm_180620_01.pdf

Supplementary Principle 4.11.3 Analysis and Evaluation of Board of Directors and Board of Statutory Auditors Effectiveness

In order to ensure the effectiveness and enhance the functions of the Board of Directors, the Company conducted a "self-assessment on the effectiveness of the Board of Directors." As part of the evaluation, we conducted a questionnaire survey for the directors and statutory auditors (identifiable) on topics including the composition and management of the Board of Directors, the implementation of strategies, and dialogue with stakeholders. Based on the survey results, the Board of Directors discussed measures to improve the current corporate governance system and the effectiveness of the Board of Directors.

As a result, it was confirmed that the Board of Directors is functioning appropriately with active debate being held and deliberation of important management strategies and business strategies being adequately carried out by the Board of Directors, and there is no problem with the current governance system and its operation. Meanwhile, it became clear that there is still room for improvement in order to ensure higher effectiveness regarding dialogue with stakeholders (enhancing dialogue opportunities and conducting analysis and evaluation of the content of such dialogue).

In the future, we will continue to make improvements on these issues and continually strive to improve the effectiveness of the Board of Directors.

Supplementary Principle 4.14.2 Policy for Director and Statutory Auditor’s Training

The directors and statutory auditors are appropriately provided with training opportunities, including external training dispatch and so forth, at the time of their appointment and as necessary.

Principle 5.1 Policy for Constructive Dialogue with Shareholders

(1) Enhancing dialogue with shareholders

Dialogue with shareholders and investors is handled by Senior Management, including the officer responsible for IR. The practical implementation of this dialogue is handled by the IR Department in coordination with the relevant internal department and offices. Feedback from shareholders and investors obtained through this dialogue is compiled by the IR Department and presented to directors, management, and statutory auditors.

Furthermore, the Company will plan and implement various briefings by Senior Management and visits to shareholders and investors, and will actively enhance opportunities for dialogue with institutional and individual investors in Japan and overseas.

The outside directors’ role is to contribute to improving the transparency and accountability of the Board of Directors by performing an oversight function over inside directors as well as a management advice function based on their expertise.

Moreover, the Company’s outside directors and outside statutory auditors also meet the independence requirements specified by the Tokyo Stock Exchange.

The outside statutory auditors receive reports and so forth from the statutory auditor audits, accounting audits, Corporate Audit Department audits through the Board of Statutory Auditors and Committee of Teijin Group Statutory Auditors. They exchange opinions appropriately based on these reports, and mutual contact is maintained with the outside directors by having them receive these audit reports and so forth.

Regarding the relationship between supervision and audits provided by the outside directors and outside statutory auditors and the internal control divisions, the internal control divisions report appropriately on business operating risk, management strategy risk, and so forth to the outside directors and outside statutory auditors, mainly through the Board of Directors meetings. Moreover, as necessary, the outside directors and outside statutory auditors exchange opinions with the chief officers of the internal control divisions and make effective improvement proposals for the internal control system and so forth.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System)

1) Decision-Making Bodies

Within the Teijin Group, matters for which the Board of Directors retains authority in accordance with the provisions of the law are decided by the "Board of Directors," which meets once a month in principle.

Important matters related to execution of business of the Company or the Teijin Group for which authority has been delegated from the Board of Directors (individual medium- or short-term plans relating to each business group or function operations, and individual important matters) are decided by the President and CEO through deliberation in the “Group Strategy Committee,” which meets once a week in principle, and the “Group Management Committee,” which meets once a month in principle.

The “Group Strategy Committee” and “Group Management Committee” members consist of the CEO, Responsible for Business officers, chief officers, and people designated by the CEO. The CEO convenes and chairs both committees. In addition to the members, the committees are also attended by the full-time statutory auditors.

2) Board of Directors and Corporate Officer System

To expedite decision making and clarify accountability of execution of business, the Company’s Articles of Incorporation set the maximum members of the Board of Directors to 10 directors, and the Company has introduced a corporate officer system that delegates broad authority to corporate officers. Four members of the Board of Directors are outside directors who are independent from the company. In addition, the Articles of Incorporation sets the term of office for directors at one year. The Board of Directors is chaired by the chairman of the Company (the case of vacant of the chairman of the Board, the director of senior advisor or the outside director will take the chairmanship of the Board), as a means of separating oversight and supervision from execution of business.

3) Selection of Director Candidates

Director candidates are decided by the Board of Directors as personnel that are suitable to be top management of the Company, with outstanding personality and insight, in consideration of their personal capabilities, past performance record, and so forth. The candidates are recommended at the General Meeting of Shareholders.

4) Advisory Board (Management Consultative Committee)

The Advisory Board, comprising both Japanese and non-Japanese experts, has been established to provide advice to management in general and to evaluate the top managements, and operates as a consultative body to the Board of Directors. The Advisory Board is made up of five to seven outside advisors consisting of two or three non-Japanese advisors as well as the Chairman of the Board and the President & CEO, and the Chairman of the Board chairs the Advisory Board. The Advisory Board has the function of a nominations and remuneration committee that is chaired by an outside director, and it makes recommendations regarding the alternation of the CEO and nomination of a successor, deliberates on the selection of Chairman, deliberates on the system and levels of compensation for Teijin Group directors, and evaluates the performance of the CEO and representative directors. Additionally, the CEO does not participate in deliberations evaluating his/her own performance on the grounds of having a special interest.

5) Nomination Advisory Committee and Compensation Advisory Committee as consultative bodies

In addition to the above Advisory Board, the Company shall establish and manage the Nomination Advisory Committee and the Compensation Advisory Committee, as consultative bodies of the Board of Directors to further enhance the transparency concerning the appointment of directors and officers. Both committees are made up of two outside directors, the Chairperson of the Board (In the case of vacant of the Chairperson of the Board, the two outside directors and CEO are made up) and the President & CEO. Both committees shall have a function to make proposals and recommendations to the Board of Directors with respect to the nomination, evaluation and amount of compensation of Directors and the Senior Management other than the Chairman and CEO and the nomination of Statutory Auditors, and the Board of Directors shall fully respect and take into account the relevant proposals and recommendations and make decisions.

6) Status of Initiatives to Enhance the Function of Statutory Auditors (Corporate Audits)

The Company’s Board of Statutory Auditors consists of five members, of who, three—a majority—are independent outside directors who are independent from the company, and one of those three is female. In addition, Gen Ikegami possesses certified public accountant’s qualification and possesses considerable knowledge of finance and accounting.

Moreover, as a system provided for group consolidated management, the Committee of Teijin Group Statutory Auditors, comprising statutory auditors of Group companies, serves to enhance the effectiveness of group-wide oversight and audit and ensure impartial auditing.

7) Internal Audit System

The Corporate Audit Department, reporting directly to CEO, has been established as an internal audit organization, and carries out Group-wide and global audits to evaluate efficiency and validity of

internal control functions. Furthermore, at certain listed subsidiaries and so forth, individual internal audit organizations have been established. As of March 31, 2018, the number of internal auditors in the Teijin Group is 19 (excluding internal auditors at listed subsidiaries and so forth).

8) Status of Accounting Audits

The status of certified public accountants who executed business is as follows (items in brackets are the affiliated auditing firm and number of consecutive years performing audits).

Iwao Hirano (KPMG AZSA LLC, 5 years), Kiyoshi Hirai (KPMG AZSA LLC, 4 years), Takeharu Kirikae (KPMG AZSA LLC, 3 years).

The status of assistants who executed auditing is as follows.

Certified public accountants 15, others 28, total 43.

9) Total Risk Management

In April 2003, the Company established the “Total Risk Management (TRM) Committee” beneath the Board of Directors, as a preventive measure to handle any risks the Company may face. The TRM Committee categorizes the risks into management strategy or business operating risks and conducts comprehensive management against the risks. The Board of Directors deliberates and determines basic policies and annual plans related to TRM that are proposed by the TRM Committee. The CEO is in charge of business operating risk assessment, and provides important judgment materials for the Board of Directors and so forth. The statutory auditors conduct audits to check whether the Board of Directors is conducting appropriate policy determination, oversight and supervision regarding TRM.

3. Reasons for Adoption of Current Corporate Governance System

The Company’s Group has adopted and will adopt from time to time mechanisms for corporate governance which is appropriate for achieving the purposes of the Company. Accordingly, the Company will timely review the mechanisms and such changes may be made in accordance with changes in the social and legal environments.

The current Companies Act requires the Board of Directors to appropriately carry out two functions: important business decision and management oversight and supervision. The governance system deemed appropriate is therefore based on these two core functions, with execution of business led by the Company’s inside directors (limited Executive Directors) on the one hand, and management oversight and supervision focused on by outside directors and carried out by statutory auditors and the Board of Auditors on the other hand.

Therefore the Company intends to continue to be a company with Board of Statutory Auditors for the time being. At the Company, the strengthening of the management oversight and supervisory functions and similar corporate governance that are the aim of a “company with nominating committees” are effectively achieved via an “Advisory Board”, a “Board of Directors and executive officer system that includes independent outside directors,” and a “Board of Auditors system that includes independent outside statutory auditors.”
