(Note) In the third quarter of the previous fiscal year, we paid a dividend of ¥91.55 per share (or a total of ¥85,000 million) on effective November 29, 2024 pursuant to a resolution of our board of directors on November 11.

3. Reasons

Our dividend policy is based on a consolidated payout ratio of approximately 20%. In addition, when copper prices exceed our assumptions and result in higher profits from our base business, we return a portion of that excess to shareholders. Accordingly, as disclosed in the “Notice Concerning Revisions to Full-Year Financial Forecasts” announced today, in line with the revision to the full-year consolidated results forecasts, we have revised the annual dividend forecast from 18 yen per share to 21 yen per share (comprising an interim dividend of 6 yen and a year-end dividend of 15 yen).
