Notice regarding recall of vehicles equipped with Toyota Boshoku Group products
(Progress of Matters Related to Disclosure)

Toyota Boshoku Corporation hereby announces that the Company expects to record quality-related expenses in the fourth quarter of the fiscal year ending March 31, 2026 (the "Current Period") in connection with the "Notice regarding recall of Vehicles Equipped with Our Group Products" announced on March 6, 2026.

1. Detail

In March 2026, a customer of Toyota Boshoku Group filed a recall notification with the National Highway Traffic Safety Administration (NHTSA) for vehicles equipped with automotive seats manufactured by our consolidated subsidiary in the United States, due to a potential defect in the reclining mechanism of the second-row seats. Subsequently, on March 27, 2026, our customer filed a recall notice with the State Administration for Market Regulation of China, as it was determined that a similar defect might occur in vehicles equipped with automotive seats manufactured by our consolidated subsidiary in China. Consequently, the Company expects to record approximately 16.0 billion yen as quality-related expenses associated with these matters during the Current Period.

2. Impact on financial results

These quality-related expenses will be reflected as operating expenses in the fiscal year ending March 31, 2026.
