Regarding the KPIs for each business in April 2026, the Number of Couples, our most important indicator, reached 1,917 (+18.5% year-on-year), continuing to maintain a high level. Along with the revitalization of member activities, the Number of Marriage Meetings, which serves as a leading indicator, has expanded to 98,722 (+15.5% year-on-year) and is now on the verge of surpassing the 100,000 mark. In addition, strengthened cooperation among affiliated marriage agencies is driving the steady creation of marriages.

The Number of New Members decreased slightly to 6,390 (-0.2% year-on-year). This is due to a downward trend in enrollments from a major marriage agency with which we have a capital and business alliance; however, the number of new members at other affiliated marriage agencies and directly-managed stores continues to maintain an upward trend. Consequently, the Number of IBJ Paying Members, which serves as the foundation for continuous stock revenue, reached 102,583 (+36.7% year-on-year), contributing to the enhancement of our value as a platform.

Major KPIs are progressing smoothly, and we will actively promote various initiatives during the Golden Week holidays, a period when member activities become highly active. Going forward, we will continue to maximize marriage opportunities and achieve sustainable profit growth through the enhancement of service value that leverages the scale of our marriage agency platform.
