Notice Regarding Improvement of Production System in Kanto Area

MEGMILK SNOW BRAND Co., Ltd. (the “Company”) hereby makes the following announcement: the Board of Directors, at the meeting of the Board of Directors held on the date hereof, resolved to implement the “Kanto Region Production System Improvement” as an evolution of the production system based on the “Next Design 2030” management plan.

1. Purpose of the investment plan

In the management plan “Next Design 2030”, the Company aims to evolve its production system based on new ideas and evolve to a sustainable value chain.

As part of this initiative, the Company has decided to terminate production at the Kawagoe Plant and concentrate management resources at the Ebina and Noda Plants in order to build a more efficient production system in the Kanto region, and to consolidate production functions for fermented milk products and chilled desserts, including through the use of group company Luna Bussan Co., Ltd.

The Company will decisively implement asset transformation to achieve both “food sustainability” and “enhanced corporate value” through business growth.

2. Overview of capital expenditures

The production functions of the Kawagoe Plant will be consolidated by utilizing existing vacant

space at the Ebina and Noda Plants and the group company Luna Bussan Co., Ltd.

Through this, the company aims to save labor and improve productivity by evolving and speeding up the manufacturing technology accumulated up to now.

The investment amount, schedule, etc. of this investment plan are summarized as follows.

Outline of the investment plan

Item	Details
Target plants	Ebina Plant (Ebina City, Kanagawa Prefecture) Noda Plant (Noda City, Chiba Prefecture) Luna Bussan Co., Ltd (Matsuyama City, Ehime Prefecture)
Investment amount	Approx. JPY 10,900,000
Capital expenditures	Consolidation of Kawagoe Plant fermented milk product and chilled dessert production functions
Planned start of construction	Second half of FY2027
Planned start of operation	From the first half of FY2028

3. Discontinuation of production at the Kawagoe Plant

Production at the Kawagoe Plant will be terminated due to the consolidation of production functions.

Outline of the Kawagoe Plant

Item	Details
Location	1535 Matoba, Kawagoe City, Saitama Prefecture
Site area	7,069 m ²
Year of commencement of operations	1989
Number of employees (*)	151
Main products	Fermented milk products, chilled desserts
End of production (planned)	First half of FY2028

*Number of employees as of April 1, 2026

4. Earnings forecast

The impact of this investment plan decision on the consolidated earnings forecast for the current fiscal year is expected to be negligible.
