Store Concept

The Higashiosaka Store is located near the center of Higashi-Osaka City, the third most populous city in Osaka Prefecture with a population of approximately 480,000. In addition to its substantial market potential, the store is expected to cultivate new demand in the eastern Osaka area together with the Yao Minami Store, which will open on the same day. This store marks the 11th KeePer LABO location in Osaka Prefecture and the 180th store nationwide. The store was created through the renovation and expansion of a former convenience store. It features a coating booth capable of accommodating up to 7 vehicles simultaneously for washing and coating services, along with washing and finishing spaces for 5 vehicles. Another advantage of the location is its proximity to retail and dining facilities such as Joshin, Haruyama, and McDonald's, where customers can spend time while waiting for work on their vehicles to be completed.
