Ninja Gum Action Game for Nintendo Switch 2 “Ninjala 2: The Uncharted Planet” Service scheduled to start in spring 2027!

GungHo Online Entertainment, Inc. (“GungHo”) (headquartered in Chiyoda-ku, Tokyo, Japan) (Representative Director, President and CEO: Kazuya Sakai) today announced the scheduled release of “Ninjala 2: The Uncharted Planet”, software exclusive to the Nintendo Switch 2. We are planning to launch the service in Japan and globally in spring 2027.

“Ninjala 2: The Uncharted Planet” is the next-generation title in the “Ninjala” series, which has surpassed 11 million downloads worldwide. In this open-world game, the protagonist breaks a forbidden seal and is warped to an unknown planet, where he and his companions strive to find their way back to Earth. The two-part “Ninjala 2” is a majestic story comprised of this work “Uncharted Planet” and completed with the second part, scheduled for release as additional downloadable content. The familiar, high-speed, exhilarating gum action of “Ninjala” has been further enhanced, and in addition to solo play, you can also enjoy multiplayer action with up to four players.

While maintaining the exhilaration of gum action, the game shifts the stage to an ‘uncharted planet’ and offers users a completely new experience roaming freely across a vast field.

Ahead of the start of global distribution in 2027, we have decided to exhibit at “Anime Expo®,” which will be held in Los Angeles, California in the United States for four days from Thursday, July 2, 2026 local time. At our booth, we will provide a space to try out “Ninjala 2: The Uncharted Planet” and visitors will be able to experience next generation exhilaration sooner than anywhere else.

In addition, on the teaser site that opened today, short videos have been released that allow you to experience the game’s world, and we have decided to implement a campaign commemorating the announcement of the latest game on various SNS and “Ninjala,” which will soon reach its sixth anniversary.

We at GungHo will strive to create high-quality game contents that can be fully enjoyed by game users around the world and expand our business globally, under the philosophy of “pursuing business operations to take on challenges and create new products.”
