Appointment of Directors and/or Staff to Support the Supervisory Committee	Appointed
--	-----------

Matters Related to the Independence of Such Directors and/or Staff from Executive Directors

The Company has set up an Audit & Supervisory Committee Office to assist the Audit & Supervisory Committee in performing its duties. The head of the Audit & Supervisory Committee Office serves as a Special Audit & Supervisory Officer and assigns full-time personnel to the Audit & Supervisory Committee Office. The head and personnel of the Audit & Supervisory Committee Office discharge their duties to assist the Audit & Supervisory Committee, obeying the orders of the Audit & Supervisory Committee alone and not orders from Directors who are not Audit & Supervisory Committee members. Matters relating to the personnel of the Office must be approved in advance by the Audit & Supervisory Committee.

Cooperation among Supervisory Committee, Accounting Auditors and Internal Audit Departments

To ensure that audits by the Audit & Supervisory Committee are systematic and effective, a framework has been created to secure close cooperation between the internal audit department and others and the Audit & Supervisory Committee. The Audit & Supervisory Committee can ask the Representative Director or the Board of Directors to take corrective action if the Audit & Supervisory Committee recognizes that the structure of the Audit & Supervisory Committee Office and the system of cooperation between the Audit & Supervisory Committee and the internal audit departments and others interfere with the efficacy of audits.

The Company's internal audit department regularly reports audit plans and audit results to the Audit & Supervisory Committee. After receiving these reports, the Audit & Supervisory Committee can, when it deems it necessary, call upon the internal audit department to conduct an inquiry and can give specific instructions regarding the execution of those duties. The Audit & Supervisory Committee normally uses the internal audit department to conduct audits, but it can itself conduct an audit if the effectiveness of audits by the internal audit department cannot be maintained.

The internal audit department is designated as the cornerstone of the internal control functions that the President and departments responsible for executing business affairs put in place. On the other hand, to ensure the effectiveness and independence of audits conducted by the Audit & Supervisory Committee and internal audit department, when the instructions of the Audit & Supervisory Committee and the President conflict, the President has the internal audit department respect the requests or instructions of

the Audit & Supervisory Committee.

The Audit & Supervisory Committee and internal audit department thus strive to actively cooperate, but the Company has set up an Audit & Supervisory Committee Office, which is headed up by a Special Audit & Supervisory Officer, as an organization dedicated to supporting the Audit & Supervisory Committee. The Audit & Supervisory Committee Office is independent from the executive side. It operates under the direct instructions and chain of command of the Audit & Supervisory Committee to provide support to the Audit & Supervisory Committee.

The Audit & Supervisory Committee and Financial Auditors enhance the effectiveness of audits by holding regular discussions. Financial Auditors can attend Compliance Committee meetings as observers, the Compliance Committee being composed of Outside Directors and Directors who are Audit & Supervisory Committee members.

The Company has established a system that provides for executive advisors (*soudanyaku*) and advisors (*komon*) pursuant to regulations established by a resolution of the Board of Directors. After Presidents or other executives step away from the front lines of company management, they may be asked to become executive advisors or advisors for the purpose of assisting incumbent Board Members in an official capacity without being involved in managing the Company. Currently, the Company does not have any executive advisors or advisors.

The election procedures, compensation, term limits, and other conditions of the program are set forth in company regulations. The election of executive advisors and advisors is subject to a resolution by the Board of Directors. Compensation and other matters are decided separately in accordance with the person's role.

Apart from this system, Yasuo Hattori, who retired as Executive Vice-President in 2012, was elected as an Honorary Chairman the same year in honor of his service and accomplishments toward the Company's growth and development. Honorary Chairman is, due to its nature, a part-time, uncompensated position.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System)

(Matters Relating to the Execution of Business Affairs)

The Company's Board of Directors is composed of 12 Directors, including five Outside Directors. Meetings of the Board of Directors are held once per month and as needed. The Board of Directors makes decisions about matters relating to things such as basic business policies and important business affairs, but under the company with an Audit & Supervisory Committee structure, the scope of business affairs delegated by the Board of Directors to executive management has been expanded, thus limiting matters discussed by the Board of Directors to motions of the highest importance, thereby speeding up business decision-making and increasing the agility of business. The Company has specified in the Corporate Governance Policy that at least one-third of the Members of the Board of Directors shall be Outside Directors.

Management meeting bodies have been established to execution of operations. Among them is the Corporate Strategy Council, which usually meets about once a week to allow Directors, Executive Officers, and Special Audit & Supervisory Officers to exhaustively discuss important business themes that affect the entire Epson Group and matters brought up before the Board of Directors. Outside Directors can attend meetings of any of these bodies, but even if they cannot attend, they are provided with materials for discussion and supplementary explanations of the content of discussions. The Company strives to ensure the fairness and transparency of the execution of business affairs through the attendance of a Director who is a Full-Time Audit & Supervisory Committee member.

(Matters Subject to Audit and Supervision)

The Company's Audit & Supervisory Committee is composed of four Directors, three of whom are Outside Directors, and one Full-Time Audit & Supervisory Committee member who is well-versed in the internal affairs of the Company to play a central role in the internal control system.

Directors who are Audit & Supervisory Committee members can attend meetings of the Corporate Strategy Council and other important meetings as part of their efforts to properly monitor business affairs. They examine the legality and suitability of actions taken by the Directors by checking and confirming compliance and by supervising and verifying things such as the state of the internal control system, including internal control over financial reporting. When deemed necessary, they can call upon the internal audit department to conduct an inquiry and can give specific instructions regarding the execution of those duties. In addition, the Audit & Supervisory Committee normally uses the internal audit department to conduct audits, but it can itself conduct an audit by exercising its investigation authority if the effectiveness of audits by the internal audit department cannot be maintained.

Audit & Supervisory Committee member Chikami Tsubaki is a certified public accountant and has an appreciable degree of knowledge and insight into finance and accounting.

(Matters Relating to Nomination and Compensation Decisions, etc.)

A Director Nomination Committee and a Director Compensation Committee, in which Outside Directors make significant contributions, serve as advisory bodies to the Board of Directors. The purpose of these committees is to ensure the transparency and objectivity of selections for Director, Executive Officer, and Special Audit & Supervisory Officer, as well as their compensation. Outside Directors comprise the majority of both committees, which also include the Representative Director/President and the Director in charge of human resources. Directors who are full-time members of the Audit & Supervisory Committee can attend meetings of either Committee as observers.

V. Other

1. Adoption of Anti-Takeover Measures

Adoption of Anti-Takeover Measures	Adopted
------------------------------------	---------

Supplementary Explanation

The Company has established a basic policy as follows regarding persons who control decision on its financial and business policies (hereinafter the “basic policy”).

- 1. Overview the basic policy
 The Company believes that its shareholders should be decided through free trade in the market, and the determination to accept to an acquisition proposal to purchase a portion of shares that would make it possible to control decisions on the Company’s financial and business policies should ultimately be referred to a decision by the shareholders.
 The Company believes that it is essential for the Company to have executives and employees work together to create corporate value, to continue to create and take on challenges while embracing its established business culture, and to preserve and acquire the customers’ trust in order to ensure and

enhance the Company's corporate value and the common interests of its shareholders. However, there are some forms of large-scale acquisitions of shares that benefit neither the target company's corporate value nor the common interests of its shareholders to be ensured and enhanced. The Company believes that any person who would make an inappropriate large-scale acquisition of shares in the Company in this manner would be unsuitable to become a person who would control decisions on the Company's financial and business policies, and it is therefore necessary to ensure the corporate value of the Company and, in turn, the common interests of its shareholders by taking the necessary and reasonable countermeasures against a large-scale acquisition by such person.

2. Summary of measures in support of the basic policy

(1) Specific actions in support of the basic policy

The Company established in March 2016 a new 10-year corporate vision and a new mid-range business plan. The Epson 25 Corporate Vision describes what the company would like to achieve by the start of the 2025 fiscal year. Meanwhile, the "Epson 25 Mid-Range Business Plan (FY2016 - 2018)" [hereinafter, "Mid-Range Plan (FY2016 - 2018)"] is a three-year plan for the first phase of work toward achieving the vision.

Under the Mid-Range Plan (FY2016 - 2018), the Company will sustain the momentum it gained by strategically adopting new business models and developing new market segments under the previous corporate vision. At the same time, it will move forward on product development while aggressively investing as needed to provide a solid business foundation.

(2) Measures to Prevent Decisions on the Company's Financial and Business Policies from being Controlled by Persons Viewed as Inappropriate Under the Basic Policy.

Aiming to ensure and enhance corporate value and the common interests of its shareholders, the Company introduced a series of measures to prevent large-scale acquisition of the Company shares. The measures were updated at the June 2014 General Meeting of Shareholders. The measures were then revised for further enhancing their appropriateness and objectivity, and shareholders approved their updating at the June 28, 2017 General Meeting of Shareholders. (The updated measures are hereinafter called "the Plan.")

The purpose of the Plan is to prevent from large-scale acquisitions of shares that benefit neither the target company's corporate value nor the common interests of its shareholders by providing the Company with a measure that ensures the necessary time and information for the shareholders to decide whether or not to accept such proposal or for the Company's Board of Directors to present an alternative proposal while enabling the Board of Directors to discuss and negotiate with the acquirer on occasions when the Company receives a large-scale acquisition proposal for the shares in the Company from an acquirer.

Specifically, a party that intends to acquire 20% or more of stock certificates outstanding or to stage a takeover bid shall be required to submit in advance to the Board of Directors an expression of intent as well as list of essential and sufficient information for decision making on the part of shareholders and for evaluation and consideration by a special committee. The party shall also be required to comply with the procedures defined in the Plan. Furthermore, the Plan allows for the activation of provisions to halt the acquisition in question if, for example, it is not conducted in line with the Plan or it is deemed contrary to Epson's value as a company or the common interest of its shareholders.

To prevent the Board of Directors from making arbitrary decisions about using anti-takeover measures, the decision to invoke preventive measures is subject to the assessment of a special committee made up of highly independent Outside Directors. Actions of the special committee shall include examination of stock acquisition details, requesting information from the Board of Directors regarding alternative proposals, disclosing information to shareholders, and

negotiating with parties intending to make acquisitions. The special committee shall advise the Board of Directors regarding the necessity of anti-takeover measures, and the Board of Directors shall promptly accept or reject a resolution to invoke preventive measures, by following that advice (except in cases where following such advice could be considered a violation of Directors' obligation to exercise the duty of due care of a prudent manager).

3. Decisions made by the Board of Directors regarding specific actions and the justification for those decisions

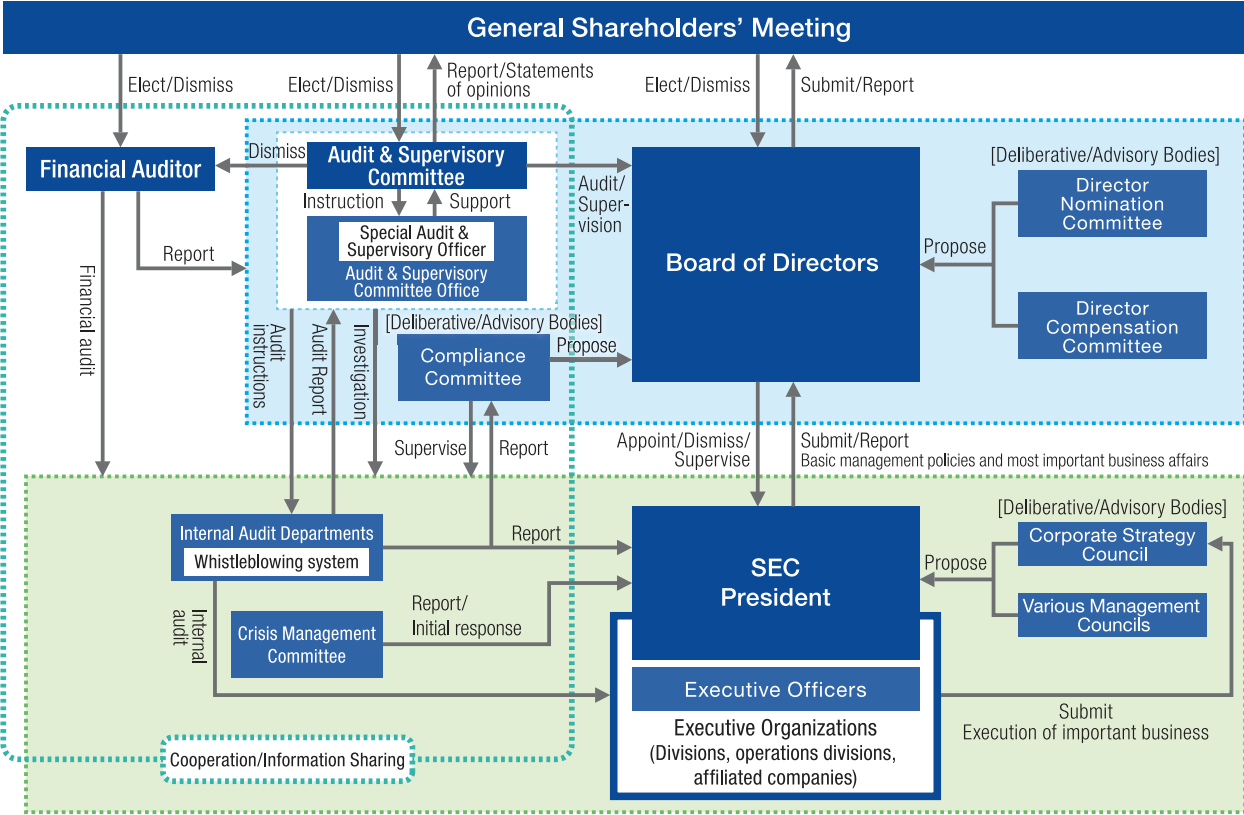

The specific actions in support of the basic policy described above were specifically formulated to enhance both Epson's corporate value and the common interests of its shareholders in a continuous and sustained manner. These actions support the basic policy.

As well as having been updated in order to ensure and enhance corporate value and the common interests of shareholders, the Plan is in accordance with the basic policy.

Specifically, the Plan guarantees appropriateness and objectivity, is reasonable, and supports Epson's corporate value and the common interests of its shareholders because among other things,

- a) it was updated after being approved by shareholders at the general shareholders' meeting;
- b) it contains provisions for reasonable and objective implementation;
- c) the special committee comprising Outside Directors with a high degree of independence from Epson management was established and activation of the Plan is subject to the assessment of that special committee;
- d) the Board of Directors is required to follow the recommendations of the special committee regarding the necessity of anti-takeover measures (except in cases where following such advice could be considered a violation of Directors' obligation to exercise the duty of due care of a prudent manager);
- e) the special committee may solicit expert opinions from third parties at Epson's expense;
- f) the period necessary for each process after an acquirer expressed the intention to purchase is specified;
- g) in case of acquiring stock acquisition rights from non-qualified parties, it is clarified that any economic profit such as cash will not be delivered; and
- h) the Plan was determined to be valid for approximately three years and may be abolished by the Board of Directors at any time. The Plan is not for keeping Epson executive officers in their posts.
