## 1. Qualitative Information Regarding Settlement of Accounts for the First Three Months

### (1) Explanation of financial results (percentage changes, year-on-year)

The SATO Group has formulated a new three-year Medium-term Management Plan (FY 2019–21) geared toward the business vision of becoming the leader and most trusted company in the auto-ID solutions industry, exceeding customer expectations in an ever-changing world. Launched this fiscal year, this plan aims to concentrate more resources on the auto-ID solutions business than ever before and maximize our strengths to realize stronger sustainable growth and stable profits. To this end, the Group will strive to focus on the high growth potential overseas to define clear country/industry-specific strategies and develop our auto-ID solutions business globally with the knowledge and knowhow gained from the business in Japan.

Continued efforts in executing the necessary business strategies have paid off in the first three months to produce increased revenues and profits for our auto-ID solutions business. Meanwhile, we also continue to make upfront R&D investments for our IDP business to grow it strategically into one of our future business pillars.

As a result, the SATO Group posted net sales of ¥28,463 million (up 1.2% from the same period of the previous fiscal year), operating income of ¥1,514 million (up 2.7%), ordinary income of ¥1,338 million (down 4.6%), and net income attributable to owners of parent of ¥842 million (up 7.8%).

By segment, the SATO Group reported the following.

#### <Auto-ID solutions business (Japan)>

In Japan, we have tailored and implemented strategies for each market/industry to strengthen the *koto-uri* approach so that our sales frontlines work to promote not just printers or consumables but combinations of such products in the form of optimized solutions for solving customers' problems with proven effects. This approach helped boost business deals for solutions, driving a marked growth in mechatronics sales (mainly printers and software) in particular. We were therefore able to increase sales and profits for our auto-ID solutions business in Japan even as consumables sales decreased slightly, due in part to the impact of production adjustments in certain manufacturing industries. Operating income also increased due to a better product mix and progress in ongoing cost reductions, and gross profit margin and operating income ratio both improved as well.

While labor shortages are creating prominent needs for increasing productivity, tracking work, and automating worksites particularly in the manufacturing and logistics sectors, there are also rising needs to comply with new labeling standards in the food and health care sectors. Going forward, we aim to strengthen our ability to propose solutions for the increasingly sophisticated challenges of our customers to grow this business stably.

Under these circumstances, net sales increased 2.4% to ¥17,495 million, and operating

income increased 7.7% to ¥1,318 million, compared with the same period of the previous fiscal year.

<Auto-ID solutions business (Overseas)>

Overseas, there was a year-on-year increase in both local-currency sales and profits although the former translated into a decrease on the yen basis owing to adverse foreign currency effects.

(1) For our companies specializing in primary labels, sales increased while profits decreased overall, largely attributed to Russia's Okil-Holding that was recording more sales from its progress in developing new sales pipelines but less profits due to rising costs, foreign currency impact, and other factors.

(2) For our base business, we are moving away from selling products to selling solutions, particularly solutions that can improve on-site operations for customers in different countries, markets, and industries. Business in the Americas, Europe, Asia and Oceania regions continued to go strong to increase overall sales on the local currency basis, while overall operating income also increased as earnings growth at some subsidiaries in the Americas and Europe was able to offset the decline in Asia caused by the slowdown in business with China. Under these circumstances, net sales decreased 0.4% to ¥10,867 million (increase of 4.4%, excluding foreign currency effects) and operating income increased 1.2% to ¥560 million, compared with the same period of the previous fiscal year.

<IDP business>

For the IDP business centering on the Inline Digital Printing (IDP) technology that we own after fully acquiring UK-based DataLase in January 2017, we are continuing to make upfront R&D investments for the technology.

As SATO seeks to develop B2B2C solutions business, we see huge potential in the IDP business that is capable of driving engagement between retail stores/brand owners and general consumers. We are currently conducting consumer trials, with plans to make the final decision on commercialization roll-out in FY 2019 and achieve operating profitability from FY 2020 onwards.

Under these circumstances, net sales decreased 20.0% to ¥100 million (decrease of 16.3%, excluding foreign currency effects), and an operating loss of ¥394 million was incurred, compared with that of ¥303 million for the same period of the previous fiscal year.

## **(2) Explanation of financial position**

Total assets at the end of the first quarter were ¥107,716 million, an increase of ¥142 million compared with the end of the previous fiscal year. This was primarily the result of increases in cash and deposits and property, plant and equipment.

Net assets were ¥55,282 million, a ¥1,386 million decrease from the end of the previous fiscal year, mainly due to the payment of dividends, notwithstanding the recording of net income attributable to owners of parent.

### ***Cash flows***

At the end of the first quarter, cash and cash equivalents (referred to below as “cash”) stood at ¥17,079 million, an increase of ¥648 million compared with the end of the previous fiscal year.

### ***Cash flows from operating activities***

Net cash provided by operating activities amounted to ¥857 million, a decrease of 47.8% compared with the same period of the previous fiscal year.

This resulted primarily from cash inflows including ¥1,237 million of income before income taxes, ¥1,240 million for depreciation and a ¥1,155 million decrease in trade receivables, and cash outflows including a ¥322 million increase in inventories, a ¥534 million decrease in trade payables and ¥1,832 million of income taxes paid.

### ***Cash flows from investing activities***

Net cash used in investing activities amounted to ¥857 million, a decrease of 39.5%, compared with the same period of the previous fiscal year.

This resulted primarily from cash outflows including ¥772 million for purchase of property, plant and equipment, and ¥90 million for purchase of intangible assets.

### ***Cash flows from financing activities***

Net cash provided by financing activities amounted to ¥830 million.

This resulted primarily from cash outflows including ¥1,152 million of dividends paid and cash inflows including a ¥2,171 million increase in short-term borrowings. The increase in short-term borrowings is attributable to a short-term loan that was taken out one-off with a maturity date in July to fund large payments for withholding taxes and property tax in early July.

## **(3) Explanation of consolidated forecasts and other projections**

Regarding the consolidated forecasts for the fiscal year ending March 31, 2020, no changes have been made to the forecasts that were announced on May 10, 2019.

**(Adoption of IFRS 16 “Leases”)**

The Group’s subsidiaries using IFRS have adopted the new leases standard IFRS 16, effective from the first quarter. This requires lessees to recognize assets and liabilities for, in principle, all leases on the balance sheet. Out of the two recognized IFRS 16 transition approaches, the Group uses the modified retrospective approach whereby the cumulative effect of initially applying the new leases standard is recognized as an adjustment to equity at the date of initial application.

As of the end of the first quarter, upward adjustments have been made to items of property, plant and equipment (¥225 million under “Machinery, equipment and vehicles” and ¥664 million under “Other, net”), intangible assets (¥3 million under “Other”), and non-current liabilities (¥892 million under “Other”). The impact of this change on the consolidated statements of income for the first three months was minimal.
